BUREAU OF ENTOMOLOGY AND PLANT QUARANTINE ARTICLES
PUBLISHED IN 1947

Compiled by the Division of
Insect Pest Survey and Information

This list consists of articles by Bureau workers published within the Department or in outside periodicals during 1947. The articles are grouped according to the subject matter. The names of authors not members of this Bureau are indicated by asterisks (*). The numbers in parentheses are inserted for convenience in using the index and are not part of the reference.

Copies of processed publications of the Bureau—E and ET series and special supplements to the Insect Pest Survey--and printed publications of the Department may be obtained by writing to the Bureau of Entomology and Plant Quarantine, Washington 25, D. C. Reprints of articles published in outside periodicals are not generally available for distribution.
