Evergreens

In comparing the prices of our evergreens with those of other nurseries keep in mind that our plants are frequently transplanted in order to secure a good fibrous root system, they are sheared from time to time as needed, consequently they are all bushy, well formed plants. All of our evergreens are balled and burlapped at the prices quoted and the burlap is sewed on, not just tied with rope.

Hardy Herbaceous Perennials

The herbaceous plants offered in this list are all strong, field grown clumps, they are not small divisions such as offered by most nurserymen. In such plants that are of a character as to make them readily divisible it would be possible to divide our plants into from two to four plants of the sizes usually offered for sale. This fact should be given careful consideration when comparing our prices with others. It is a recognized fact that these strong field grown clumps give far better results than divided or small pot grown plants.

July to September, etc., indicates the period of flowering.

PRICES: Five plants sold at the rate quoted per ten, twenty-five at the hundred rate. Cost of box and packing additional.

When cash is sent with order include 15 per cent of the amount of the purchase price to cover cost of box and packing.
