Lewiston Water Front

M. & M. Seed Co.

Successors to Mark Means Co.

LEWISTON - - IDAHO

Grass and Field Seeds by mail are postpaid in lots of 1 to 5 lbs.

Garden Seeds by mail are postpaid in lots of 1 to 3 lbs.

DISCLAIMER

We will not in any way be responsible for your crops, as there are so many conditions, too numerous to mention, why we cannot guarantee a crop to grow and mature. Purity and germination tests are taken carefully, and are mentioned for guidance only.

M & M SEED COMPANY.

—o—

BUY YOUR SEEDS EARLY.—You will gain a distinct advantage by arranging early for your seed supply, as orders must be filled carefully.

—o—

IMPORTANT—Owing to fluctuations in market prices, it may be necessary to change some of the prices quoted herein during the season. Should prices change and orders are received at prices named, seed will be sent equivalent to the money received figuring the order at current prices.

—o—

HOW TO SHIP.—Always state how you want heavy seed shipped, by freight or express, and if your station is a prepay point, don't forget to add enough money to take care of charges. Should you not receive the goods you ordered within a reasonable time, write us regarding the matter and we will gladly put a tracer after your shipment.

All seed tested for purity and Germination

TIMOTHY

Timothy is the most valuable of all grasses for hay, and is also fine for mixing with red or alsyke clover for either hay or pasture. Our seed is Idaho grown, re-cleaned and put in the best condition for seeding.

	1 lb.	10 lbs.	25 lbs.	50 lbs.	100 lbs.
No. 3 grade	\$.10	\$.90	\$ 2.13	\$ 4.00	\$ 8.00
No. 2 grade	12	1.00	2.25	4.25	8.50
No. 1 grade	 15	1.10	2.50	4.50	9.00
Extra No. 1	 20	1.50	3.00	5.00	10.00

KENTUCKY BLUE GRASS

Makes the best pasture of any grass. Starts early in the spring, and lasts until late in the fall. Should form part of every pasture mixture. Also used extensively for lawns.

	1 lb.	10 lbs.	50 lbs.	100 lbs.
Fancy No. 1 grade	\$.50	\$ 4.50	\$ 21.00	\$ 40.00

CANADIAN BLUE GRASS

Somewhat resembles Kentucky Blue Grass, but is shorter and more slender. Thrives on even hard clay soils where there is not enough lime for Kentucky Blue Grass. For mixtures it is best to use Red Top or Orchard Grass, as it does not thrive when mixed with clovers.

	1 lb.	10 lbs.	50 lbs.	100 lbs.
Fancy No. 1 grade	\$.40	\$ 3.75	\$ 17.50	\$ 35.00

ITALIAN RYE GRASS

Valuable for pasture or hay; makes a large growth the first year.

	1 lb.	10 lbs.	50 lbs.	100 lbs.
Fancy No. 1 grade	\$.25	\$ 2.00	\$ 8.00	\$ 15.50

MEADOW FESCUE OR ENGLISH BLUE GRASS

Especially fine for permanent pasture; also good for hay. Grows two to three feet high, but not in bunches like Orchard Grass. Succeeds on poor soils and withstands extremely dry weather.

	1 lb.	10 lbs.	50 lbs.	100 lbs.
Fancy No. 1 grade	\$.55	\$ 5.00	\$ 22.50	\$ 40.00

M & M SEED COMPANY - LEWISTON, IDAHO

All Seeds Tested for Purity and Germination

BROMUS INERMIS OR BROME GRASS

Recommended for high, dry lands. Is drought resisting, and furnishes an abundance of high quality hay or pasture.

	1 lb.	10 lbs.	50 lbs.	100 lbs.
Fancy No. 1 grade	\$.30	\$2.75	\$12.50	\$25.00

TALL FESCUE GRASS

Tall Fescue should form a part of all pasture mixtures on wet or clay soils. This grass grows from two to four feet tall, forming tufts or bunches.

	1 lb.	10 lbs.	50 lbs.	100 lbs.
Fancy No. 1 grade	\$.55	\$5.00	\$22.50	\$45.00

ORCHARD GRASS

Orchard Grass is equally good for pasture or hay. When mixed with Alfalfa makes a high quality feed, especially fine for horses. Extra good in pasture mixtures on account of its earliness and its ability to withstand drought and close pasturing.

	1 lb.	10 lbs.	50 lbs.	100 lbs.
Fancy No. 1 grade	\$.35	\$3.20	\$13.50	\$25.00

RED TOP

A valuable grass for moist or even marshy lands. Makes fine feed when mixed with Alsike clover.

	1 lb.	10 lbs.	50 lbs.	100 lbs.
Fancy No. 1 grade	\$.35	\$3.20	\$15.00	\$27.00

PASTURE MIXTURE

We recommend the following as a good pasture mixture.

	(5 lbs. Blue Grass.
	(6 lbs. Orchard Grass.
For one	(3 lbs. Rye Grass.
Acre	(2 lbs. Alsike or Red Clover.
	(2 lbs. Timothy.
	(2 lbs. Tall Fescue.

We also have a Timothy and Alsike mixture for burned-over land at \$12.50 per 100 lbs.

All Our Seeds are Carefully Cleaned to Cover Our Pure Seed Law.

LAWN MIXTURE

For lawns we recommend a mixture of White Clover and blue Grass, sowing one pound to every 300 square feet.

It is not the house alone that gives contentment to a home; a beautiful lawn and well-kept grounds also bring out the smiles.

You must not expect to make a fine lawn with cheap seed. The best lawn grass mixture costs more at first than the poorer substitute, but will be found much cheaper and more satisfactory in the end.

ALFALFA

The most valuable of all the legume crops. We handle only the best grades of dry-land seed.

	1 lb.	10 lbs.	50 lbs.	100 lbs.
No. 1 grade	\$.30	\$2.75	\$12.50	\$25.00
No. 2 grade	.25	2.25	10.00	20.00

GRIMM ALFALFA

Where winter killing of alfalfa is experienced, we recommend Grimm's. This variety has a low spreading crown, which withstands the destructive freezing and thawing that raises the crowns of the other varieties.

	1 lb.	10 lbs.	50 lbs.	100 lbs.
No. 1 grade	\$ 1.00	\$8.50	\$40.00	\$100.00

MEDIUM RED CLOVER

The standard clover for either hay or soiling purposes.

	1 lb.	10 lbs.	50 lbs.	100 lbs.
No. 1 grade	\$.35	\$3.00	\$14.00	\$27.50

MAMMOTH RED CLOVER

Grows very large; is used extensively for plowing under.

	1 lb.	10 lbs.	50 lbs.	100 lbs.
No. 1 grade	\$.35	\$3.00	\$15.00	\$30.00

ALSIKE CLOVER

Excellent for hay or pasture; succeeds best on cold wet lands.

	1 lb.	10 lbs.	50 lbs.	100 lbs.
No. 1 grade	\$.35	\$3.00	\$15	\$30.00

WHITE CLOVER, SMALL DUTCH

Makes a beautiful lawn; is also fine for pasture mixtures.

	1 lb.	10 lbs.	50 lbs.	100 lbs.
No. 1 grade	\$.90	\$8.00	\$37.50	\$75.00

SWEET CLOVER, WHITE BLOSSOM

Grows from three to five feet tall. Thrives on poor soils. Makes good pasture, and is one of the best crops to raise for green manure.

	1 lb.	10 lbs.	50 lbs.	100 lbs.
No. 1 grade. Hulled and				
Scarified	\$.30	\$2.50	\$10.00	\$20.00

All Seeds Tested for Purity and Germination

UNHULLED SWEET CLOVER, WHITE BLOSSOM

Same as the above only unhulled. Used for fall or winter planting.

	1 lb.	10 lbs.	50 lbs.	100 lbs.
No. 1 grade	\$.25	\$2.00	\$9.00	\$15.00

The sowing of grass and clover seeds should need no recommendation, as farmers and others know what Livestock and seed mean to build up soil and feed man and beast.

SUDAN GRASS

This is an annual, and is the best grass for dry-land seeding. Produces a large tonnage of good feed. Should be seeded after all danger of frost is past. A great forage crop, grows 7 to 9 feet.

	1 lb.	10 lbs.	50 lbs.	100 lbs.
No. 1 grade	\$.15	\$1.00	\$4.50	\$9.00

SORGHUMS

Sorghums are used both for fodder and pasture. As a fodder crop they yield a large quantity of high quality feed. As a pasture for sheep or hogs it is unequalled; when grazed down it will quickly start up again, thus affording a large amount of pasture during the summer months. Our seed is Northern Grown selected stock.

	1 lb.	10 lbs.	50 lbs.	100 lbs.
Orange Sugar Cane	\$.15	\$1.00	\$4.50	\$9.00
Amber Sugar Cane	.15	1.00	4.50	9.00
White Kaffir Corn	.15	1.00	4.50	9.00
Feterita	.15	1.00	4.50	9.00

BUCKWHEAT

Used extensively for bee pasture.

	1 lb.	10 lbs.	50 lbs.	100 lbs.
No. 1 grade	\$.15	\$1.00	\$4.50	\$9.00

WINTER OR HAIRY VETCH

This is a hardy, valuable crop for either forage or fertilizer. Thrives on nearly all soils, and grows four to five feet long. Being a legume it is a great soil builder, and can be sown either in the spring or fall. When it is to be cut for hay, it is best to sow some grain with it to act as a support. It can be cut twice, or used as a pasture after the first crop is taken off. Although an annual, it re-sows itself, and will come up on the same ground for several years.

	1 lb.	10 lbs.	50 lbs.	100 lbs.
No. 1 grade	\$.35	\$3.00	\$15.00	\$30.00

SPRING VETCH

Spring Vetch is used for the same purpose as Hairy Vetch, but must be planted in the spring.

	1 lb.	10 lbs.	50 lbs.	100 lbs.
No. 1 grade	\$.15	\$1.00	\$5.00	\$10.00

M & M SEED COMPANY - LEWISTON, IDAHO

We Buy Wool for Domestic and Export Market**MILLETS**

Millet is especially adapted to a section with a small amount of rainfall and hot weather. Produces an abundance of fine hay that ranks in food value with Timothy. Should be sown about the same time corn is planted.

	1 lb.	10 lbs.	50 lbs.	100 lbs.
Golden Millet	\$.15	\$1.00	\$5.00	\$10.00
Siberian Millet	.15	1.00	5.00	10.00
Hungarian Millet	.15	1.00	5.00	10.00
Hog Millet	.15	1.00	5.00	10.00

FIELD PEAS.

Peas are a very profitable crop, and will also build up the land by returning the much needed nitrogen to the soil. The clovers alone rank higher than peas in their soil enriching properties. The vines can be used for hay, or the peas threshed and used for feed. Next to corn, peas have a higher feeding value than any other grain. Sow 100 to 180 lbs. per acre. All our peas are Northern grown, selected stock.

	1 lb.	10 lbs.	50 lbs.	100 lbs.
Yellow Canadian	\$.10	\$.75	\$3.00	\$5.00
White Canadian	.10	.75	3.00	5.00

White Rice	.15	1.00	4.00	7.50
Queen Golden, Yellow ..	.15	1.00	4.00	7.50

DWARF ESSEX RAPE

One of the best forage plants. Produces a large amount of valuable pasture which is ready for use six or eight weeks after planting. Recommended highly for sheep and hogs.

	1 lb.	10 lbs.	50 lbs.	100 lbs.
	\$.15	\$1.25	\$6.25	\$12.50

KALE

Kale is a variety of cabbage; the plants attain a height of three to four feet. The stem is covered with leaves which form small heads. It is eaten greedily by sheep. If drilled, should be planted in rows 26 to 30 inches apart, and thinned to 18 inches. Use 3-4 to 1 pound of seed per acre. If sown broadcast use 1 1-2 pounds to the acre.

SULPHUR AND CROP YIELD

Experiments conducted by the Oregon Experiment Station proved beyond all doubt that the addition of sulphur to soils, increases the yield of ALL crops, and in many instances phenomenally. A remarkable result recorded is that by Dr. Reimer, who found that by harrowing in 300 lbs. of elemental sulphur per acre, the yield of alfalfa increased over 500 per cent. It has also been proved that the only benefits derived from the use of Land Plaster, were undoubtedly due to the sulphur which it contained, therefore making it poor business to apply land plaster. The sulphur in it being in the sulphate form, was rapidly consumed and exhausted by the plant. In applying the pure flour of sulphur, this form is broken down gradually into the sulphate form and the process may take two or three years. During this time the beneficial results of the sulphur continue. Practically every crop experimented with has shown an increase under the influence of sulphur:—Barley 52.3 per cent, Oats 57.3 per cent, wheat 127.8 per cent, Maize, 182.6 per cent, Canadian field peas 383.3 per cent, potatoes 63 per cent, Hubbard Squash 187.9 per cent. It has come to our notice that some prominent wheat growers made the experiment last year of using sulphur instead of formaldehyde for treating the wheat seed before planting. It is claimed that about 10 pounds of sulphur to ninety pounds of wheat seed drilled into the soil when planting, not only increased the crop of wheat, but prevented smut.

Price per 100 lb. bags, No. 1 \$3.25

Price per 100 lb. bags, No. 2 \$2.75

NEW CROP GARDEN SEED

When you buy M & M quality seeds, you can depend on them as having been carefully selected, so as to give entire satisfaction whether planted for home use, or the market garden trade. Some of the seeds are grown under our personal supervision, and others are purchased from the best seed producing localities in the U. S. and Denmark.

We are in a position to fill orders as soon as you receive this catalog, and would advise you to order early to avoid delay in case of depleted stocks.

TREE TANGLEFOOT

	Per Can
3 pound	\$1.75
10 pound	4.75

Information.

Tree Tanglefoot is a sticky compound similar to that used by us in making Fly Paper. It is easily applied and is the most effective and economical protection for fruit, shade and ornamental trees against all crawling insects. Particularly recommended against Canker Worms, Climbing Cut Worms, Ants, Tussock Moths, Brown-tail Moths, Gypsy Moths.

On matured fruit trees and all shade trees it is applied directly to tree trunks; on young fruit trees over strips of manila paper.

One pound makes about 10 lineal feet of band. One application remains sticky three months or longer (10 to 20 times as long as any other effective banding compound). It remains effective rain or shine. Won't soften, won't run or melt, yet always elastic, expanding with growth of tree. No mixing required; use exactly as prepared by us. Applied with a wooden paddle. Will not injure trees.

POSTMASTER: If not delivered in TEN days please notify us as provided in Section 637, P. L. and B. and we will send stamps for its return or for forwarding to the addressee's new address if he has moved.

If returned to sender, note in space herewith provided why delivery cannot be made.
