JELLE ROOS

Gladiolus Specialist

CONCORD, MASSACHUSETTS

To Gladiolus Lovers: Greeting

LADIOLI are among the most popular of all garden flowers. A garden of gladioli is never monotonous. Day by day new beauties unfold, new shades and tints appear, until you begin to think that the whole range of color has been covered. Each year the size, color and beauty of these wonderful flowers are being improved upon by specialists, who some thirty years ago started to intensify the flowers by hybridizing. I do not attempt to grow all known varieties, but rather specialize on a limited number of choicer kinds, and of these I grow a bulb product of unsurpassed blooming power. Gladioli are very easy to grow and will do well in almost any ordinary garden soil. If planted in the richest place of your garden and given plenty of sun and moisture, they will, however, repay you with extra-large blooms and gorgeous colors.

Plant the bulbs about 5 or 6 inches deep and from 3 to 4 inches apart.

To obtain a continuation of blooms during the greatest part of the season, it is advisable to plant at intervals of ten days, from the last week in April until the middle of June.

Some varieties will bloom in seventy-five to eighty days from the date of planting, but most sorts require eighty-five to ninety days.

In October, when the foliage has turned yellow, dig the bulbs, cut the stems off within an inch of the bulbs, and dry them thoroughly. Then remove the old roots and store the bulbs in a cool, dry place where frost cannot reach them.

If these instructions are followed, the bulbs will give you the best results for several years.

I shall be very glad to furnish you with any other information you may require to grow Gladioli successfully. Write me, telling of your difficulties. There is a solution of your problems.

PLEASE NOTE

For the price quoted, I deliver bulbs, transportation free, to all points in the United States. Kindly bear this in mind when comparing my prices with those of other growers.

No orders of less than fifty cents can be accepted. Small orders are filled with as much care as large ones. Special prices will be quoted if 250 bulbs or more of one variety are desired. Planting instructions are enclosed with each order.

All bulbs offered in this catalog are of excellent quality and will produce blooms the first season.

PLACE YOUR ORDER EARLY

It is to your advantage and to mine to place your order as soon as possible after receiving this catalog. Please state whether you want the bulbs sent to you at once or at the proper time for planting. All orders received before March 1 will be held until proper time for planting when all danger of freezing in transit has passed, unless immediate shipment is desired; in which case the bulbs will travel at purchaser's risk against frost. You will receive an acknowledgment of order by return mail.

America

NAMED GLADIOLI

Six bulbs will be sold at one-half the price of a dozen,
twenty-five at one-fourth the price of a hundred

	Each	Doz.	100

MIXTURES

A Very Fine Mixture, containing several of the best varieties, accidentally mixed in the handling and growing. 4 cts. each, 45 cts. per doz., \$3.00 per 100.

Exhibition Mixture, consisting of high-grade varieties, selected very carefully with the purpose of securing a well-balanced combination of colors. 5 cts. each, 50 cts. per doz., \$4.00 per 100.

MIXTURES — *continued*

Primulinus Hybrids. An Artistic Mixture, containing the most wonderful colors imaginable. The flowers are very graceful. The stems are slender, but strong and very tall. One bulb will very often produce several flower-spikes, thereby prolonging the flowering season considerably. 7 cts. each, 60 cts. per doz., \$4.00 per 100.

Blue Hybrids. Containing many shades of blue. 8 cts. each, 70 cts. per doz., \$5.00 per 100.

INTRODUCTORY OFFER "B"

Two bulbs each of the above named varieties, making twenty bulbs in all for \$8.75, postpaid. Real value \$10.20.

NEW—TEN VARIETIES—NEW

The following ten varieties are offered after having been tried out with great success. They are especially good growers and possess all the qualities of prize-winning flowers.

Amstel. Deep velvety red, slightly flaked with black, very rich color, 50 cts. each.

Concordia. Deep reddish purple, large flowers, strong grower, 40 cts. each.

Glory of Concord. Pale pink tinted with darker shade on edge of petals, speckled throat, 50 cts. each.

Harmony. White with yellow and rose tint in throat, 75 cts. each.

Pink Jumbo. Pale pink flaked with darker tone; carmine blotch on lower petals. Strong grower, large, 50 cts. each.

Oporto. Rich wine-color, 60 cts. each.

Rose Queen. Light pink shaded with rose on edge of petals, darker throat, 40 cts. each.

Sunbeam. White, slightly suffused with yellow, dark blotch, 40 cts. each.

Velvet Prince. Very dark velvety red with white marking in throat, 30 cts. each.

White Beauty. Glistening white with an occasional suffusion of delicate pink; flower large and of graceful form. Strong grower and early, 75 cts. each.

INTRODUCTORY OFFER "A"

One bulb each of the above named varieties, making ten bulbs in all for \$4.50, postpaid. Real value \$5.10.

**A COMING EVENT OF GREAT INTEREST TO
ALL "GLAD" LOVERS.**

On August 13 and 14, 1921, the *Massachusetts Horticultural Society* in conjunction with the *New England Gladiolus Society*, will hold a *Gladiolus Exhibition* at Boston, Mass.

Over seven hundred dollars worth in prizes are already pledged by the two Societies, different firms and enthusiastic amateurs. If you wish to enter your blooms for exhibition and cannot come yourself they will be arranged for you, free of charge, by the Societies, in vases supplied by them.

Should you care for further information in regard to this show, which promises to be the most successful *Gladiolus Exhibition* ever held anywhere, kindly write me and I shall be very glad to send you a schedule.

This schedule will be of great benefit to you in deciding on what varieties to grow for exhibition purposes.
