Southern States Evergreen Lawn Grass Seed For the convenience of those of our customers who object to the Bermuda Grass, we have decided to offer them this year **Southern States Evergreen Lawn Grass Mixture**. A mixture of the best grasses that exist for general planting in the Southern States. Most lawn grass mixtures are of little use in the South, as they burn out in dry summers.

Vestal's Evergreen Lawn Grass Seed is a well balanced scientific blending of the best American grasses which will flourish under varied and adverse conditions of soil and are by nature adapted to hot, dry climates. It quickly produces a firm, deep velvety and elastic turf and holds its beautiful emerald green color throughout the season.

By using **Vestal's Evergreen Lawn Grass Seed** and with some care and attention to watering, an all-the-year-round lawn can be maintained in the Southern States where lawns generally do not thrive. For a plot 15x20 feet, or 300 square feet, use one quart. Price, delivered free, 45 cents per quart; \$1.25 for 3 quarts; \$2.00 for 6 quarts.

Does well in all situations and under all conditions.

Similar in habit to California, but with dark lustrous foliage and more upright habit of growth. Reputed to be hardier than the California.

Price, first size plants, 2 to 3 feet, \$12.00 per 100.

Information for Purchasers

WHEN YOU ORDER, please use the printed envelope and order sheet enclosed. Others will be sent you upon request. Always write your name the same, adding the postoffice, county and State on each and every communication you send us. If you have occasion to write us, please use a separate sheet.

LOST OR UNSIGNED ORDERS. Letters are often sent us unsigned and letters are sometimes lost in the mails. If you do not hear from us within a reasonable time, please send us a duplicate of your order, stating when and in what form payment was sent, and sign the name and address the same as in the first order, so that it may have immediate attention.

HOW TO SEND MONEY. Our terms are cash. To avoid delay please send money with order. Money may be sent at our risk if forwarded by *P. O. Money Order, Express Money Order, Bank Draft or in Registered Letter, and cost of same may be deducted from amount forwarded; but we can not be responsible for any order or money that fails to reach us when not sent as above directed.* CASH should be sent by Registered Letter, but coins should be carefully wrapped and care taken to seal letter securely. New postage stamps accepted for small amounts.

ORDERS WILL NOT be sent C. O. D. unless one-third is sent with the order as an evidence of good faith.

AGENTS. We employ no agents and are only responsible for orders sent direct to us.

ERRORS. As an evidence of our human failings we sometimes make mistakes. Careful as we are to protect ourselves and our patrons, preach as much as we will to our employees, yet they occur; when they do, notify us at once; we will correct them promptly.

SHOULD YOU RECEIVE two or more Catalogues alike, which sometimes occurs, have the kindness to present such as you do not need to others who will likely want plants. By doing so confer a double favor. We will also feel thankful for your recommendations of our establishment to your friends wanting

plants. A copy of our Catalogue will be furnished to friends requiring plants on receipt of their address.

WHEN SENDING CLUB ORDERS please give full name and address of each member of the club, so that we may enter their names on our books and forward them our Catalogues as issued.

BETTER THAN WE PROMISE. We always do better than we promise in the way of extra plants, so when the order will at all afford it we add to it some plant or plants gratis, often choice new kinds; several of the Roses now so eagerly sought after were first introduced to our customers in this way—presented with their order.

ORDERS BY EXPRESS. Two-year-old Roses, large size shrubbery, fruit trees, etc., are too large to mail and must be sent by express. We recommend that customers instruct us to ship smaller size plants also by express, when in our judgment it is best to do so. We can send larger plants this way and can leave most of the earth on roots, which is, of course, much better for our customers. *Express charges must be paid by the purchaser, unless otherwise agreed.* But we are careful to pack as light as safety of the plants will permit and add as many extras as we can afford to help cover charges, and since the expressage on plants, bulbs, etc., is now twenty per cent less than regular merchandise rates, the cost of sending goods in this way, even to distant points, is quite reasonable.

OUR GUARANTEE. We guarantee all our plants to reach their destination in a good growing condition, but when we have done this our responsibility ceases, because we know that if they receive proper treatment, they will grow nicely. Many plants die from careless treatment and neglect; in such cases we can not and should not be expected to replace them.

WE GIVE CLOSE personal attention to every part of our business and are always glad to assist our customers in every way we can.

DON'T REQUEST blooming plants with soil attached to roots sent by parcel post. It can't be done.

The firm VESTAL & SON has no connection whatever with any other concern in Little Rock or elsewhere, but is the old original firm established on this present site by its founder, JOSEPH W. VESTAL, in 1880. Letters addressed to VESTAL, LITTLE ROCK, ARKANSAS, will reach us.

VESTAL ROSES AND HOW TO GROW THEM

"He who would have beautiful Roses in his garden must have beautiful Roses in his heart. He must love them well and always. He must have not only the glowing admiration, the enthusiasm and the passion, but the tenderness, the thoughtfulness, the reverence, the watchfulness of love." So wrote Dean Hole, the rosarian of beloved memory.

WHO SHOULD PLANT ROSES

Everyone should plant Roses. There is no home, worthy of the name, where space could not be found for from ten to one hundred Rose bushes. If a renter, plant Roses; you will get returns in beautiful flowers in from two to three months. If a flat dweller, and you have three or more windows, you can plant ten or more Rose bushes in window boxes. The results will be a delight, and you can move the window boxes with other personal belongings, when moving day comes around. If a home owner, it matters not how pretentious or humble, nothing can make it more home-like, more attractive and inviting, than a well selected Rose planting. If a landlord, there is no improvement that can be made at so small an expenditure that will so quickly enhance the rental value and desirability of property, insuring permanent tenants, as a good Rose planting.

SOIL

Amateurs sometimes think that planting Roses is a serious job and one to be approached with fear and trembling as to probable results. This is not at all true, as it is a job which does not need an expert, and may be done quickly.

*Rose Trained as
a Standard*

While Roses may be grown in any good soil, they flourish better in a rather clay loam than they do in light or sandy soil. To those not acquainted with soils, it will be well to explain that almost any soil that is not sandy or gravel may be classed, in a general way, as clay, and if it is good enough to grow good farm crops or garden vegetables, it is good enough to grow Roses, and does not need the addition of any great quantity of manure. Application of enough manure to just cover the soil from sight is usually sufficient, unless the soil is quite poor to start with. Good stable manure is the best; it should not be too fresh, but at least partly rotted. If you can not procure this, the dried cattle and sheep manure that is now sold in sacks is good.

Many amateurs make the mistake of having their Rose beds too rich. We knew of one who took out the original soil to a depth of two feet, filled in the bottom of the trench with eight inches of manure, packed solidly, and finished with soil which was one-half manure. This is entirely too much manure, and Roses planted in such a bed would not be likely to remain healthy for any time. Even had he left out the manure at the bottom, the soil would have been too rich as one-fifth or one-fourth manure is enough. We do not advocate placing clear manure at the bottom of the bed, though some planters have had fair success in making beds that way. Any soil you get must come from the surface; that is, the first six inches of a good field or garden. It is not well to use chip dirt, woods' earth or rotted leaves with Rose soil; such material is good for many plants, but not for Roses. Of course, the manure used when Roses are planted will become exhausted and must be replaced by a top dressing of manure; or fine ground bone may be applied at the rate of three pounds to the square yard. As a rule, this top dressing should not be applied more often than once a year. If your soil is very poor or has been filled in with brick bats and refuse, as many city lots are, it would be best to remove it entirely to a depth of eighteen inches and fill with good soil that is fine and mellow and properly mixed with manure.

Archway of Roses

The best time to apply manures is just as the ground begins to freeze in the autumn; let it serve as a protection over winter and dig it in next spring. Even with the best care it may prove necessary at times, say after six or eight years, to renew the Roses or move the bed, adopting the farmer's principle of rotation of crops.

TIME TO PLANT. The proper time for planting in the various sections of the country largely depends, first upon the location, and, second, upon the character of the plant. In the warm climate, southern and southwestern states, in fact all sections where frosts are infrequent and the winters mild, pot-grown as well as dormant Roses may be planted in the late fall, as well as in the early spring. In the southern states fall planting of both these classes of Roses is considered desirable, but, if the conditions are such that it can not be accomplished, then in the early spring months they may be set out with entire safety.

COMPARATIVE VALUE OF ROSES

Don't think any Rose too small to do well. The roots of one-year plants being carefully protected in pots, permits of the shipping and successful planting anywhere. Roses of this size are to be recommended for all Rose growing sections. If you wish the largest and best Roses for quick effect, then Roses of the two-year size from four to five-inch pots are to be recommended.

ADVANTAGE OF POT GROWN ROSES

There is another advantage in planting pot-grown Roses; namely, that they can be planted at any time of the year. The ball of earth contains all of the fine fibrous roots, and when the plants are shipped transplanting can be done with no more injury to the plant than if the Rose had simply been removed to a larger sized pot. The growth continues just the same and the roots do not have to establish themselves, as is the case with the dormant plants. The pot-grown Rose, therefore, has many advantages over other Roses.

MULCHING. The main object being to retain the moisture rather than to enrich the soil, cultivate the garden once a week up to the middle of July, to maintain a dust mulch; after that, a liberal covering of "long" cow or horse stable manure that will not heat will accomplish this purpose best.

HARDINESS. Hardiness in a Rose is a matter of which no one can speak with positive certainty, because the condition of the weather as a rule prescribes the hardiness of a plant, as quite frequently plants that have been out year after year will be winter killed by unusual conditions. As stated elsewhere, the

hardiness of the different varieties of plants can be depended upon to be as near accurate as it is possible for any one to determine.

WINTER PROTECTION. Where the temperature gets below freezing, the less hardy Roses will require protection, and all of them will be the better for it, at least about the roots. Soon after the first frost, having hilled up the soil around the stems, cover the Rose beds all over with a 3 or 4-inch layer of good heavy stable manure, and over this a 6-inch layer of leaves, held in place by the most sightly material available. A 12-inch fence of poultry wire will keep the leaves in bounds nicely. If the leaves are not available, straw,

Plants protected in a barrel covered with burlaps

corn-fodder and even boxes put over the Roses to shed the rains, will protect from the cold, biting winds and the alternate freezing and thawing of early spring sunshine and cold nights; but do not smother the Roses, for if too tightly covered they will die. Remove the covering gradually in the spring when danger from frost is past.

TREATMENT ON ARRIVAL. When you receive the Roses, give them the greatest care; never expose the roots to the drying action of spring winds for a moment. A plant with bare roots exposed to the dry air is like a fish out of water. Should the plants, through delay in transit, come dried out, as occasionally happens, soak the balls of earth and roots in water; if the stems have dried out, after soaking the ball, bury the whole plant in damp earth for several days. This treatment may put them in good condition, while if they are planted when dried out there is danger of their dying.

HOW TO PRUNE YOUR ROSES

Pruning is the art of improving the productive power and the appearance of a plant. It consists of two distinct operations. 1. The removal of dead, weak, overcrowded, and otherwise useless shoots. Unripe wood which in the spring will usually be found to have discolored pith, caused by the winter frosts, should be cut clean away at the base of the shoot. 2. *Pruning Proper*, the shortening of those shoots which are allowed to remain after the thinning-out process has been completed.

The most frequent errors made in pruning are: (1) leaving too many shoots when thinning out. (2) pruning severely the shoots of varieties which require little, if any, shortening; (3) pruning lightly the varieties which require severe pruning; (4) leaving Rose plants crowded with shoots and cutting these to a uniform length all over the plant in a similar way that a hedge is clipped.

In thinning out a shoot, it should be either cut clean away to the base of the plant, or to its starting point on the elder shoot from which it springs, as the case may be. When the plant has been pruned, the shoots should be left as nearly as possible equidistant from each other, and regularly arranged around it so that it presents a well-balanced appearance on all sides.—National Rose Society's Handbook on Pruning.

ROSES HURT WITH THE WINTER. When Roses are hurt with the winter, cut all the injured branches off down to the live wood, and if you have "Own Root Roses," and the roots are not hurt, they will soon throw up new shoots and bloom as well as ever.

DISEASES AND INSECTS

MILDEW. This disease very frequently attacks the foliage of Roses, especially the Crimson Rambler. It is shown by a grayish crinkling appearance of the leaves and usually occurs after a change in the temperature. It can be checked to a certain extent by sprinkling the leaves with powdered sulphur immediately after its appearance, or better still, use the Bordeaux Mixture as a preventative.

Showing where to Prune

RED SPIDER. Is also a small insect indiscernible to the naked eye, and a frequent spraying with a strong hose is all that is necessary.

ROSE BUG. A familiar insect, appears in the earliest summer, sometimes in great quantities, and is very troublesome. It is a very destructive insect and usually feeds upon the white petals, but is easily destroyed, especially in the early morning, when they will readily fall into a vessel containing kerosene. They can be poisoned, but it is not a very desirable way to get rid of them. This is to spray with wood alcohol, which will kill any insect by contact, operates quickly and does not injure the flower if applied in a mist-like spray. Care should be exercised by the operator not to inhale any of the fumes.

GREEN AND BLACK FLY OR APHIS. A green sucking insect which usually gathers in great numbers upon the tips of the new growth. A solution of tobacco made from tobacco insecticide soap, will exterminate them.

LEAF ROLLER. Is an insect of yellowish-white color, resembling the butterfly, and lays eggs on the under side of the leaf, which soon form a cocoon, rolling around itself the leaf, hence the name, leaf-roller. Arsenate of Lead is the remedy.

BLACK SPOT. A fungous disease, appearing as its name indicates as a black spot upon the leaf, eventually turning yellow and falling. It rarely occurs in the early part of the season, and the Teas are almost but not quite, exempt from its ravages. The best preventive if your bushes have been troubled by it in the past is spraying in April before the foliage has developed and not while the flowers are in bloom, because of the discoloration of the foliage. The disease usually appears at the base of the plant and works upward, so a watch should be kept and as soon as any leaves appear affected with this disease they should be pulled off and taken entirely away from the balance of the plants. If this is thoroughly done it will usually hold the disease in check. Use Bordeaux Mixture as a preventative.

TOBACCO POWDER. The Sprinkling Kind for Sprinkling or Dusting Only, is made from heavy black leaf tobacco, strong in nicotine, and so finely pulverized that it can be applied with an ordinary magazine bellows gun direct to plants, indoors or out, or sprinkled around the hothouse to keep the pests in check. Price, one-pound package, 50 cents.

SULPHO-TOBACCO SOAP. Another splendid insecticide. Directions for use on every package; 3-oz. cake, makes 1½ gallons prepared solution, 15 cents each; 8-oz. cake, makes 4 gallons prepared solution, 30 cents, postpaid.

THOMPSON'S ROSE NICOTINE is chemically pure nicotine and quick death to insects on Roses. Very convenient to use—no trouble, no odor, no staining; simply apply as directed with spray pump or plant sprinkler. Small can, 50 cents; larger size, 90 cents, postpaid.

SLUG SHOT. Is an Insecticide for the destruction of Potato and Rose Bugs, and all Lice, Worms or Caterpillars upon Melons, Eggs, Cucumbers, Cotton, Tobacco and Cabbage Plants, Tomatoes, Currants, Fruit or Ornamental Trees, Grape Vines, Shrubs and Flowering Plants. An admirable remedy for the Black Clematis Bug.

DIRECTIONS FOR USE. Slug Shot is an impalpable composite powder, to be dusted upon the plants. It contains poison, thoroughly diffused through natural fertilizers, and is perfectly safe in its use to man or beast. Price, 1 pound package, 25 cents, postpaid.

ROSE PREMIER *Remarkable For Its Large Size, Clear Color, Sweet Fragrance, Free Growth, and Luxuriant Foliage*

PREMIER is a cross between Ophelia and Russell. It resembles the former in its strong thornless stems and quick growth. Its ample foliage is similar to that of Ulrich Brunner and in arrangement and size of leafage it possesses the character of American Beauty. Premier is truly a big Rose that is ideal among the ever-bloomers; its stiff stems hold the immense flowers upright and what is more remarkable, the stems are almost free from thorns, the upper stem especially being thornless. The flowers are of Russell type, large and broad petaled, of glorious rose pink color, and grand in form. The foliage is large and durable and beautifully set, the leaves broad and dark green, making a fitting background for the fine bloom. To crown its other perfections it has a delicious June Rose fragrance, which is most enchanting. It produces quantities of blooms during the season and seems to claim the Premier place among American Roses. *Price, strong one-year-old plants, 35 cents each; two-year-old, \$1.25 each.*

Rose Premier. A Glorious New Rose

The Beautiful La France Roses

The La France Roses are of the highest merit, and each member of the family has particularly strong points. Practically hardy everywhere, they are splendidly adapted for general planting.

Price of all the La France Roses, 30 cents each; two-year-old plants, \$1.00 each.

LA FRANCE. This is probably the most popular Rose in cultivation. Both buds and flowers are of lovely form and grand size, exceedingly sweet; color fine peach-blossom, elegantly clouded with rosy flesh. Begins to bloom while very small, and continues bearing until stopped by freezing weather.

WHITE LA FRANCE. A seedling of La France; extra large full deep, pearly flowers, delicately shaded with soft rose; exquisitely beautiful and delightfully fragrant.

THE STRIPED LA FRANCE. An elegant new Rose, closely resembling La France in form and substance, but the flowers are distinctly striped with pearl-white and satin-rose.

THE GLORIOUS NEW ROSE CRIMSON QUEEN

Of late years many marvelous new crimson Roses have been introduced. In our estimation this magnificent new variety takes front rank. This means in comparison with such famous Roses as RHEA REID, HADLEY, HOOSIER BEAUTY and others almost equally beautiful. **CRIMSON QUEEN** possesses outstanding features of superiority. The color is rich, deep, glowing crimson, overlaid with a velvety-black sheen—so exquisitely beautiful as to baffle description or illustration, while the fragrance is delicious. Altogether this superb newcomer marks a distinctive advance in the field of hardy blooming crimson Roses. As a garden Rose "Crimson Queen" has no superior. When we first saw this Rose in bloom we at once pronounced it the most beautiful crimson Rose we had ever seen, and totally distinct. You will say the same when you see it. It is beautiful beyond words. One of the foremost Rosarians of this country, upon seeing this wonderful variety for the first time, pronounced it the most beautiful of all deep crimson Roses. *Price, one-year, 20 cents each; two-year, 75 cents each.*

MADAME COLLETE MARTINET

A vigorous grower of coppery-orange color. The color is very deep and clear, and holds well, which can be said of few yellow sorts. It is a nice grower, free in bloom, and those wanting a yellow different from "Ward" or "Sunburst" should try this one. *Price, one-year, 20 cents each; two-year, 75 cents each.*

OUR ROSES

Are grown in 3-inch pots.

They are superior

to the young Roses from two-inch pots usually sent out because the larger pot gives ample room for root action and allows the plant to grow naturally. They are sturdy and compact, and when sent by express with the soil on the roots, transplanting scarcely checks their growth. The cut shows a fair sample of the two-inch pot plants as usually sent out by the mail trade, (and a fair sample taken from our stock, growing in three-inch pots).

COLUMBIA

GIGANTIC IN SIZE—FREEDOM IN BLOOM

Could be rightfully called the *Giant Pink*, owing to the enormous blooms it produces. Of distinctive merit, being an extremely strong, rank grower, one of the strongest of the ever-blooming, blooming as it does with the greatest freedom, the buds carried on long stiff, erect stems, of the very largest size imaginable in a Rose bloom, open flowers often measuring six inches across, full of petals and of wonderful depth, which it retains in perfect formation. Very fragrant. Color, clear imperial pink, on the order of *La France*, deepening as it opens to glowing pink. A peculiarity of the variety is that the shades all become more intense until the full maturity of the open flower is reached, and this color is enduring. Being fully double makes it a fine summer Rose, particularly adapted to garden culture. We feel that after all is said, we have not said half enough for Columbia. Price, one-year, 25 cents; two-year, \$1.00.

PRESIDENT CARNOT

It is a Rose of the largest size, beautiful both in bud and open flower. The buds come on long, stiff stems, in clusters of from six to twelve. Each individual flower stands out distinct on its stem. No crowding as in the case of so many Roses that bloom in clusters. The color is distinct and novel, a lovely fawn, shading to pearl. It often measures five to six inches in diameter. We have no hesitation in saying that this charming Rose will become as popular as *La France*, as it has all the good qualities of that Rose, and at the same time is so distinct that it attracts immediate attention. It is, indeed, a wonderful Rose—one that everybody can grow and bloom. Price, fine young, strong plants, 20 cents each; fine two-year-old plants, 75 cents each.

GRUSS AN TEPLITZ

The Sweetest, Richest Crimson Hybrid Tea Rose.

Called by some growers Virginia R. Coxe. The intense, dazzling color of this Rose is found in no other variety. Fiery crimson, shaded with a dark, velvety sheen, totally unlike any other color in the world. Large, handsome, moderately double flowers. Produced in wonderful profusion throughout the whole growing season; in fact, it is always in bloom. The flowers are produced singly, sometimes in clusters, producing a gorgeous effect on the lawn or in the garden all summer through. The fragrance of Gruss An Teplitz Rose is unexcelled by that of any other variety under cultivation. It is a strong and sturdy grower, often attaining a height of four or five feet, is perfectly hardy in all sections and is one of the finest of many splendid Roses that have come to us from Europe. Price, 25 cents each; two-year-old plants, 75 cents each.

KAISERIN AUGUSTA VICTORIA

A Superb, Hardy White Rose.

This marvelous Rose has had many rivals for the place it still retains as the greatest white Rose in existence. Strong, sturdy grower, flowering with the utmost freedom. It holds first place as the most popular of white Roses for general planting. From early spring until late fall its glorious full double flowers in all their perfection are produced continuously on long, stiff, erect stems; color, delicate creamy-white, with a delicious magnolia-like fragrance, exquisite buds, absolutely hardy. Price, one-year-old plants, 30 cents each; two-year-old plants, \$1.00 each.

The flowers of Kaiserin Augusta Victoria are double and delightfully fragrant.

Mme. Butterfly

MME. BUTTERFLY

A glorified sport of Ophelia with all the colors of Ophelia intensified, making it a harmony of bright pink, apricot and gold. A free grower and bloomer with large handsome foliage free from mildew. Price, one-year, 35 cents each; two-year \$1.50 each.

ROSE MARIE

A most pleasing shade of clear rose-pink, with ideal long shapely buds which open to very large flowers of good form. The plant is a strong, vigorous, healthy grower, and remarkably prolific. We consider it one of the best bedding Roses of its color yet introduced. Price, one-year, 25 cents each; two-year, \$1.25 each.

MABEL DREW

A truly magnificent Rose, superb in every respect. It is exquisitely shaped, with smooth, circular petals of great substance, arranged in perfect symmetry. The blooms are large and full, carried on strong and erect flower stalks. The color is a deep cream in the young state, passing to intense canary-yellow in the center as the flower develops. It is a Hybrid Tea Rose with a deliciously refreshing perfume. The flowers are produced continuously and in great profusion. A vigorous grower with rich cedar-green foliage. Price, 20 cents each; two-year-old plants, 75 cents each.

MODERN ROSES OF PROVED MERIT

MADAME MARCEL DELANNEY. A surprisingly beautiful novelty raised by the introducers of the popular Rose Jonkheer J. L. Mock. It is distinct and peculiar in color, a pale soft pink or rose shaded with hydrangea-pink. The flowers are very large, full and fragrant, perfect in form, and borne on rigid stems. The growth is vigorous and very floriferous. Price, one-year plants, 30 cents each; two-year plants, \$1.50 each.

LILLIAN MOORE. The winner of the first prize at the Panama Pacific Exposition for the best new Rose unknown at that time. Color, a deep, pure Indian yellow, with slightly deeper center, with long, pointed buds, produced on magnificent stems. Very free bloomer and a good, strong, vigorous grower. Price, one-year plants, 30 cents each; two-year plants, \$1.50 each.

LOS ANGELES. Truly a magnificent Rose in vigor of growth, color, form, fragrance, and, in fact, in everything required of a first-class Rose. The color is a luminous flame-pink, toned with coral and shaded with translucent gold at the base of the petals. The buds are long and

pointed and they expand into an intensely fragrant, beautiful flower of large size. Price, one-year, 30 cents; two-year, \$1.50 each.

GLADYS HOLLAND. Of magnificent form and size. Color, bluff, shaded orange-yellow, outside of petals pearly-peach. Very free flowering. Price, one-year, 30 cents; two-year, \$1.50 each.

CRIMSON CHATENAY. This is the Crimson Chatenay, a great Rose. All know the Mme. Abel Chatenay. Well, this is a crimson form with all the other good qualities of its parent. A big, strong growing variety, robust and rugged in every characteristic; the growth is heavy and the flower stems strong and heavy. It is a free flowering, and the blooms are big and double, and in color a rich velvety crimson. A free flowering red Rose that is a wonder. Price, one year, 25 cents; two-year, \$1.00 each.

MADAME PAUL EULER. Out in California and the Pacific Coast this Rose is so well thought of that it has been rechristened "Prima Donna." The color is a lovely shade of deep rose-pink, petals waved or undulated on the edges, giving it an elegance of form seen in no other Rose. Good for forcing or outdoor growing. Price, 25 cents each; two-year, \$1.25 each.

ALEXANDER HILL GRAY
Deep yellow Rose everyone can grow. It keeps up a fine succession of bloom

This is one of the newer Roses that have been brought prominently before the public this season and we have not seen a Rose that has met with such universal appreciation by both amateur and professional growers. To those who prefer a Rose with full color we can recommend none more highly than this gorgeous crimson scarlet Rose. It is hardy in practically all localities and as an outdoor garden Rose it has no superior. Of strong, vigorous, healthy growth, branching freely; it produces its wonderful blooms profusely from April until December. Every shoot carries a well-formed flower of exquisite fragrance and splendid lasting qualities. The illustration gives but a faint idea of the richness of this magnificent Rose. Price, one-year-old plants, 20 cents each; two-year-old plants, \$1.00 each.

Vestal & Son, Little Rock, Arkansas.

Dear Sirs: Received my shipment of flowers and am perfectly delighted with them. They were in good condition.

LADY ASHTOWN

Similar to Mad. Caroline Testout, but superior in growth, freedom of bloom and color. Splendid grower, soon producing a large, strong bush continually loaded with blooms of exquisite color and shape. Buds long and pointed, borne singly on long, stiff stems. The illustration was made from photograph of the Rose as grown here by us, and shows the true formation of bloom. Color is a soft, solid carmine-pink of a most pleasing shade. A good Rose for any purpose. Price, one-year-old, 20 cents; two-year-old, 75 cents.

RICHMOND

A Gorgeous Crimson Rose

The most gorgeous Rose we have ever seen—no other variety can compare with it. In form and fragrance of flower it is simply superb. Wonderfully free blooming, its immense, fragrant, scarlet-crimson flowers are borne on long, stiff stems, making it a rival of American Beauty, and even more dazzling in appearance. Richmond is a Rose which attained wonderful popularity in a marvelously short time, and is considered the standard deep crimson Rose in the florists' shops, selling at all times for high prices. In the garden its flowers are as fine as those found in the green houses. Perfectly hardy. Price, one-year, 20 cents; two-year, 75 cents.

HELENA CAMBIER

Of unusual beauty, with large, double, beautifully formed flowers, the colors are varying, ranging from salmon-rose to coppery rose; very often a handsome saffron hue. As the flowers expand, the colors become lighter. A most remarkable sort in every respect and one to which we give our highest endorsement. Good everywhere, especially in the South. Price, one-year-old plants, 20 cents each; two-year, 75 cents each.

GENERAL McARTHUR

One of the Very Best Red Bedding Roses

General McArthur is as fragrant as a Rose can be; has good sized flowers and blooms continuously. The bud, when first opening, is the brightest crimson-scarlet, and the flower retains this perfect coloring until it drops its petals. Blooms continuously the whole season through and gives fine stems for cutting. Its habit of growth is remarkably good, making strong, shapely plants that may be depended on for large flower shoots. A great favorite. Price, one-year-old plants, 20 cents each; two-year-old plants, 75 cents each.

ETOILE DE FRANCE

Magnificent in Form and Coloring

One of the best and sweetest hardy Roses of its color. The strong, upright bushes have beautiful bronze green foliage, which is not subject to insect attacks. The bushes are blooming constantly, producing large, massive, deep, full cup-formed flowers on magnificent, long, stiff stems. They are of truly glorious form and delightful fragrance, while the color is exquisite—a clear red of velvety crimson. Price, one-year-old plants, 20 cents; two-year-old plants, \$1.00 each.

The Crimson Garden Rose, a Rose in which we find the embodiment of a perfect bloom, size, form and color

SENATOR MASCURAND

"The Yellowest of all Roses." (H. T.) This is our pick of all the yellow Hybrid Tea Roses; it is a good grower, very free bloomer; flowers are large, full and globular; color deep orange-yellow, lighter on the edge of the petals. This is a much better garden Rose than Mrs. Anna Ward. When we say orange-yellow, we do not mean lemon-yellow; it is the yellowest of all Roses. Price, one-year-old plants, 20 cents; two-year-old plants, 75 cents each.

LADY BATTERSEA

This variety has long oval buds, sharply pointed, very striking in form; the color is bright cherry crimson; the stems are stiff and extremely long for a red Rose; a vigorous grower; not very full, but an unusually showy variety; the only red Rose approaching Niphetos in form; color, brilliant and unusual. Price, 20 cents each; large two-year-old plants, 75 cents each.

CORNELIA COOK

The buds are most beautiful, of immense size, and are borne up high on massive stems, and with their round, full, heavy form, carry an air of grace and dignity quite unusual. The flowers are the clearest, snowiest white, and are arranged in the most faultless and symmetrical manner. Cornelia Cook has the largest bud of any white Rose. Price, 20 cents each; large two-year-old plants, 75 cents each.

Senator Mascurand
The Yellowest of All Roses

OPHELIA

"A Rose of Attractive Coloring"

In this magnificent Rose, we find a Rose of attractive coloring. It might be described at salmon-flesh, shaded rose. The bloom is quite full, unusually long and beautifully pointed with petals of wonderful depth and substance, retaining their shape longer than most Roses. The variety is of fine branching habit and ideal growth, a beautiful and most bushy Rose. Its color is not its only charm as its fragrance fills the room with a delicate pure rose perfume. It ranks one of the best of the garden Roses. The illustration conveys but a faint idea of its beauty and formation, which is of large and perfect shape. Habit excellent, growth strong, produces flowers on long stems, well up above the foliage, and in great profusion all summer. Hardy in almost all localities. Grand for forcing or outdoors. Price, 30 cents each; two-year-old plants, \$1.00 each, by express.

ANTOINE RIVOIRE

"A Garden Rose of Great Merit."

(Summer blooming, hardy with protection). A great favorite in the South; sturdy in growth; branching in habit; free flowering as a Geranium; charmingly shaded rosy-flesh color, on yellow ground with a delicate border of carmine; flowers sweetly fragrant. Price, one-year-old plants, 25 cents each; two-year-old plants, \$1.00 each.

PINK RADIANCE AND RED RADIANCE

In the Radiance Roses are found all the good qualities that go to make an ideal garden Rose—grand size, handsome form, free flowering, hardiness, pleasing colors.

RADIANCE

MAGNIFICENT ROSE

(Giant Flowering, Handsome in Form and a Wonderful Garden Rose.)

This grand, giant-flowering Rose stands head and shoulders above all other Roses of its class. The flowers, which are of splendid form, are large and full, and somewhat of the June Rose type. The buds are particularly handsome in form, the full blooms large and double, the petals of immense size and the blossoms are highly perfumed. The growth of the plant is vigorous, making strong canes which are thick and heavy. Radiance is rightly considered a leading Rose of the garden for cutting and successfully competes with many of the finest greenhouse productions as a cut-flower variety. Radiance produces a wealth of heavy, clean, dark green foliage and has the qualities that make it the ideal garden Rose. Price, strong plants on own roots, 20 cents (will bloom the first season); two-year-old plants, 75 cents each; three-year-old, \$1.25 each.

RED RADIANCE

No Rose has yet equalled, certainly none has excelled Radiance as a garden Rose, when all points are taken into consideration, such as hardiness, freedom of bloom, vigorous growth and character of bloom. In Red Radiance we have an exact replica of its prototype, Radiance, except in color and bud. The color is an even shade of clear red, without a trace of any other color, retaining its vividness for an unusually long time after being cut. It is a remarkable bloomer, being constantly in flower, from early spring until freezing weather. Strong, vigorous, branching grower, each branch terminating in a large, bold, double bloom. Hardy everywhere. Altogether it is a Rose destined to become one of the leading garden Roses of America. Price, one-year, 20 cents each; two-year, 75 cents each.

SOUVENIR DE PIERRE NOTTING

Marvelously beautiful flowers of the Maman Cochet type, very large and well filled, opening beautiful clear apricot yellow tinged with golden, mixed with orange-yellow, edges of petals shaded carmine-rose. Truly a gorgeous effect. The bush is strong and upright in growth, with heavy canes, and bears a great profusion of these magnificent Roses all summer long. It can always be depended upon for a supply of cut flowers. Price, one-year-old plants, 20 cents each; two-year-old plants, 75 cents each.

SOUVENIR DE PIERRE NOTTING
"Color, Apricot-Yellow, changing to clear Yellow."

Mrs. George Sawyer. Brilliant Clear Rose

RHEA REID

Grand, New, Hardy, Everblooming Rose

This novelty in Roses is a seedling variety of great distinctness of character. The growth is vigorous, throwing out long shoots with rich green leaves, and each shoot bearing a flower well above the foliage. It is a variety which will produce flowers as large as the American Beauty, as double as the grand Rose Bridesmaid, and as fragrant as the beautiful La France. The buds are long, oval and pointed, of a most beautiful rich crimson, and retain their form for a long time. This variety will immediately prove a most valuable addition to the list of forcing Roses, and will soon be seen in the show windows of cut-flower stores in our large cities. Of all the crimson Roses which have been introduced for years, there is none that has measured up better to the ideal standard than Rhea Reid. Highly recommended. Price, one-year, 20 cents; two-year, 75 cents.

MRS. GEORGE SAWYER

This is one of the newer varieties introduced by the growers of Lady Hillingdon. We have not seen a Rose that has met with such universal appreciation by both the amateur and professional grower, and has won awards in almost every place shown since it was introduced, both in this country and Europe. The color is one very hard to describe, being a shade of brilliant clear rose or bright peach-pink. It is a wonderful grower and bloomer, producing great numbers of strong shoots, each shoot tipped with a bud. The flowers are very large, well formed and full, petals of good substance. A very fine garden Rose, as well as a forcing Rose. Price, one-year-old plants, 20 cents each; two-year-old plants, 75 cents each.

THE BURBANK ROSE

(Summer blooming, hardy with protection.) A perfectly new everblooming Rose. This lovely Rose was raised by Mr. Luther Burbank, of California, known the world over as the "Wizard of Horticulture," and is the only variety out of seventy-five thousand cross-bred seedlings which he raised that he was willing should bear his name. This Rose is the only rival that the famous variety, Champion of the World, has. The color is described as cherry-crimson; it is, in other words, the very deepest and brightest pink Rose in cultivation. It is peculiarly adapted for both outdoor planting or for blooming in pots in the house during winter. It is a strong, vigorous grower, making a well-rounded, bushy plant. Price, one-year, 20 cents each; two-year, 75 cents each.

MADISON—Immense Flowers of Clearest, Snowiest White

Madison is one of the very best of the new Roses, and one that has so many good qualities that we are quite certain it will find a place in the garden of every flower lover. It has been thoroughly tested by us and we have formed such a high opinion of it that, this year, we have grown an unusually large stock in order to give the Rose the widest possible distribution. The buds are most beautiful, of immense size, and are borne up high on massive stems, and with their round, full, heavy form, carry an air of grace and dignity quite unusual. The flowers are the clearest, snowiest white, and are arranged in the most faultless and symmetrical manner. The fine form and attractive shape of the flower make them excellent for cutting. Like Kaiserin Augusta Victoria, Madison is a Rose of great value for open-ground culture. *Price, one-year-old plants, 20 cents each; two-year-old plants, 75 cents each.*

MADAME LAMBARD

The Great Southern Rose

The color is a beautiful shade of rosy bronze, changing to salmon and fawn, shaded with carmine. A fine variety. *Price, one-year-old plants, 20 cents each; two-year-old plants, 75 cents each.*

PINK HERMOSA

"Hardy as a Lilac; Free-flowering as a Geranium"

Everybody knows this famous variety. As hardy as an oak, and always covered with clear pink blooms. There is not a shade of color of any kind to mar its purity. We doubt if any Rose ever grown will take its place. *Price, 20 cents each; large two-year-old plants, 75 cents each.*

Long pointed buds, rosy crimson in color

*Madison.
Flowers Snow White*

CAROLINE TESTOUT

A Rose of Great Beauty

(Summer blooming, hardy with protection). The petals are large and of the La France form; edged and bordered with silvery-rose. Flowers and buds are extra large and of elegant form; the color is brilliant, satiny rose, deepening at center to clear red. We recommend it as one of the best of the many new Roses recently introduced for outdoor culture. *Price, one-year, 25 cents; two-year, \$1.00.*

HELEN GOULD

It has proven itself to be the strongest growing, freest blooming, largest flowering and hardiest Rose in existence. It is a better Rose for general planting than American Beauty—the dream and hope of every Rose grower for years past. A strong, dwarf, compact grower, absolutely free from disease of all kinds, young plants blooming continuously throughout the year. The flowers are as large as the American Beauty, are full and perfectly double; the buds are beautifully made, long and pointed, produced on long, stiff, erect stems. The color is a warm rosy crimson, the color of a ripe watermelon. *Price, 20 cents each; large plants, 75 cents each.*

Its color is a deep crimson overlaid velvety crimson shading to vermillion toward the edges. Plants make a gorgeous sight owing to the brightness of the blooms

and the luster of the foliage, being entirely free from mildew. A grand garden or bedding Rose. Price, 30 cts. each; 2-year-old plants, 75 cents each.

HADLEY

In the Hadley we have a Rose that possesses a rich and lasting crimson color, coupled with vigor of growth, robust constitution, and free blooming habit. It will be welcomed alike by the grower who forces Roses under glass for cut flowers and the one who plants outdoors for summer flowers.

It is a development of a strain of red Roses, including Liberty, General McArthur and Richmond. The color is magnificent, rich velvety-crimson, retaining its brilliancy throughout the season. The fragrance is delightful and refreshing. The flowers are borne on long stems and keep in good condition a long time when cut. The growth is splendid, sturdy and healthy, the foliage large and abundant. *Price, one-year-old plants, 20 cents; two-year-old plants, 75 cents each.*

"MILADY"

No Rose of recent introduction has impressed us as this one. After giving it a thorough test, we are convinced that it will become the most popular outdoor garden Rose in existence, combining as it does, all the desirable features of a Rose for the amateur grower, such as color, freedom of bloom, formation and hardness. Being a cross between Richmond and J. B. Clark, it has retained the color of both, being a rich velvety crimson, with darker shading toward the center and retaining its color in the expanded bloom. Buds medium long and opening full and double to the center, producing a magnificent flower. *Price, one-year-old plants, 30 cents each; two-year-old plants, \$1.00 each.*

In all the range of colors among Hybrid Teas it stands unique and quite distinct. Its color is coral-red, center bright salmon; flowers large, full and of splendid form, a grand, bold, well-built flower, perfect in shape and form, of the most modern type, extra perpetual flowering. A grand exhibition and garden Rose, with a perfect habit of growth, the most attractive color; a really superb variety; very fragrant. Price, 20 cents each; two-year-old plants, 75 cents each.

MAD. FRANCISCA KRUGER

A really remarkable yellow Rose. We class this as one of the best among the yellow shades. A strong, vigorous grower, blooming constantly and much harder than the average Tea Rose. This Rose is a great favorite with us because of its splendid merits. Price, one-year, 20 cents; two-year, 75 cents.

A Queen Among Roses American Beauty

*Attains Marvelous Perfection Wherever Roses Are Grown
the Fame of the American Beauty Rose is Known.*

In all the wide world this proud and majestic Queen reigns supreme as the most beautiful, most massive, most gorgeous and exquisitely fragrant Rose of its color now known. Its position is more secure today than ever before. The glory, the charm, magnificent growth and exquisite form of flowers are simply beyond description; color, rich, glowing crimson, shaded and veined; flowers immense in size, wonderfully double and beautifully formed, with the fragrance of the old Damask Rose; growth the most vigorous of any Rose we know of outside of Jeanette Heller; foliage large, leathery and of deepest green, especially free from insect attacks. Hardy in all sections of the country, but in cold climates should have careful winter protection. A splendid garden Rose. This great Rose should be in every American home. Its magnificent beauty, wonderful fragrance and extraordinary merit must appeal to the patriotic instincts of every true American. Price, extra large two-year-old plants, \$1.25 each.

**CONSIDERED THE LARGEST FLOWERING
ROSE GROWN.**

BEAUTIFUL YELLOW ROSE LADY HILLINGDON

"Everybody Can Grow It"

It has long willowy stems that are in no sense weak, as the buds are held upright; has a long slender pointed bud of brilliant deep golden yellow, and a striking peculiarity of this Rose is that each day the golden-yellow color becomes deeper yellow and more intense, unlike all other yellow Roses of which we are familiar, as invariably the tendency after being cut is to get lighter in color. *Price, one-year-old plants, 20 cents each; two-year-old plants, 75 cents each.*

PRESIDENT TAFT

It is without question the most remarkable of all pink Roses. It has a shining, intense deep pink color possessed by no other Rose. It is a fine grower, free bloomer, good size and form, fragrant, and in a class by itself as to color. Mr. Frank Good, who is probably familiar with more Roses than any man in America, says: "Talk all you want to about the Rose President Taft, and then you will not say enough." *Price, one-year-old plants, 20 cents each; two-year-old plants, 75 cents each.*

ETOILE DE LYON

This magnificent Tea Rose is a rich golden yellow; a strong, healthy and vigorous grower, immense bloomer, bearing flowers and buds early and late. The flowers are very deep, rich and full, excellent substance, very sweet. Surely one of the best and most beautiful yellow Tea Roses for general planting ever introduced. Remarkably hardy, both as to heat and cold; frequently standing the winters here uninjured in open ground without protection, and blooming nicely all through the hottest part of the summer. *Price, 20 cents each; large two-year-old plants, 75 cents each.*

MAD. DE WATTEVILLE

The Tulip Rose. The color is a magnificent shade of creamy yellow, richly colored with rosy blush; the large petals are bordered with bright crimson, giving it a very striking and beautiful appearance. *Price, one-year-old plants, 20 cents each; two-year-old plants, 75 cents each.*

ALICE ROOSEVELT

An Improved Mme. Chateaufort

A rare and very beautiful Rose of novel and distinct color, rich pink or rose flushed with orange and fawn. Flowers large, well filled and very fragrant. A strong, healthy grower and free bloomer; quite hardy and fine for the yard or garden. *Price, 20 cents each; two-year-old plants, 75 cents each.*

Vestal's Twelve Best Garden Roses

**12 STRONG, VIGOROUS, HARDY ROSE PLANTS
TRIED AND TRUE EVERBLOOMING VARIETIES \$1.75**

Including the Great Garden Roses

RADIANCE, PINK COCHET, MOCK, ALEXANDER HILL GRAY AND EIGHT OTHERS

Twelve Best Garden Roses that anyone can succeed in growing without special care. Selected to combine quality and a variety of charming colors that will be welcome in any Rose garden, and for the benefit and convenience of those who prefer to leave the selection to us. Every spring we receive thousands of letters asking us to name a collection of Roses—the best kind for general home culture. Of our vast collection, the twelve varieties named below are in our opinion among the best garden Roses for all sections of the country. Hardiness, vigorous growth, freedom of bloom, color and beauty of flower make them the best collection for amateur planting. They are all strong, vigorous growers, bloom abundantly, and among the hardiest of Roses. They will bloom the first summer and every succeeding summer. Best about them, however, is the beauty of the flowers, in form, color, fragrance, every way. If planted in your garden, you'll like them, we feel sure.

ALEXANDER HILL GRAY. Every shoot crowned with a flower bud which develops with perfect form. Color described: "Solid, deep-Marschal-Niel-like lemon yellow."

JONKHEER J. L. MOCK. Clear imperial pink, reverse of petals rosy, silvery-white; blooms of magnificent size.

MADISON. We have white Roses that have elegant buds, but when full bloom are not all that is desired. This Rose combines both these good qualities. Color, a pure white.

MRS. B. R. CANT. A fine garden variety of even shade of bright rose, round and full.

MAMAN COCHET. A most wonderfully beautiful Rose, of great value. The color is fleshy pink, with the inner side of petals silvery rose. One of the finest of everblooming Roses.

MRS. AARON WARD. A most striking color—Indian yellow shading to lemon cream at edges of petals. Very large and full, or refined form, cupped and very deep, effectively showing the golden heart.

OPHELIA. Brilliant salmon-shaded with rose on outer edges of petals, with a heart of glowing peach-pink and orange-yellow blending, all passing finally to lighter shades.

PRINCE D'ARENBERG. Brilliant, fiery scarlet, shaded maroon; admirably formed buds, massive petals and perfect form.

RADIANCE. A brilliant rosy-carmine, displaying beautiful rich and opaline pink tints in the open flower; the form is fine, largest size and full, with cupped petals. The bud is large, brilliant, radiant. It blooms constantly, delightfully fragrant and is so healthy that it may be said to be immune against diseases.

WM. R. SMITH. The flowers are large, full and double, and most exquisitely formed. The petals softly curled, colored cream, with flesh tint tips, buff yellow base and the center a heart of pink.

FRANZISKA KRUGER. Probably the best of all round bedding Roses we have. Its shadings of deep, coppery yellow stand distinct and unique.

GRUSS AN TEPLITZ. As a bedding Rose this is one of the finest and most useful varieties. The color is brightest scarlet, shading to deep, rich velvety crimson.

We will supply one each of the Twelve Vestal Garden Collection of Roses in two-year-old plants, for \$7.50. By express only.

Plant Them Anywhere

These Roses will grow to perfection anywhere and produce in gorgeous abundance THIS YEAR their exquisitely beautiful blooms, whose fragrance will, like incense, prove a benediction of gladness and contentment to you, your family and your friends. These beautiful children of nature, so inexpensive, so alluring, so pure and undefiled, with their wondrous beauty will enrich and sanctify the homes of rich and poor alike. They will grow anywhere, in ordinary garden soil. Plant them early or late, which ever suits your purpose best, and remember that every plant is a perfect specimen, now growing in large pot or crock, and has been especially prepared for amateur planting.

Vestal's Hardy Annual Blooming Roses

All of Ironclad Hardiness. For Permanent Outdoor Planting. Selected for Those Who Want Roses That Will Stand the Severest Climate and Give Satisfaction in Blossoms.

These are the Roses which have given the month of June its poetic name, as it is at that time they bring forth their flowers in all their glory, but some varieties bear occasionally during the summer months. These "June Roses" are perfectly hardy in all sections of the country and are particularly suited for permanent planting.

This class is considered the most valuable of all Roses, because they bear the largest, sweetest and most brilliant colored flowers, and are so hardy and vigorous they live over winter without protection and continue to bloom regularly from year to year. Some do not bloom until the second year, but after becoming established, will bloom freely during the summer and autumn months.

These Roses are especially suited to plant in all the Northern States; also in the colder parts of the States of Virginia, West Virginia, Kentucky, Tennessee, North Carolina, Arkansas, Missouri, Kansas, Oklahoma, Colorado and Texas.

Price of all Roses on this page, except where noted, first size plants, 30 cents each; any 2 for 50 cents; two-year-old plants, all on own roots, \$1.00 each.

ANNA DE DIESBACH (*Glory of Paris*). Most lovely brilliant carmine, long, pointed buds, and large, finely formed, compact flowers; very full and double and delightfully sweet. A vigorous grower and fine bloomer. One of the hardiest of the well known, desirable Roses.

BALL OF SNOW. Pure snowy-white, sometimes faintly tinged with pale rose, flowers medium size, full and fragrant, blooms the first year all the season.

BLACK PRINCE. Much sought after because of its dark crimson flowers, which are shaded so deeply as to be almost black; cupped large, full, fine-shaped.

CLIO. A really grand Rose. Recommended by expert growers as the finest Rose of this type. Strong, vigorous grower, handsome foliage. Flowers flesh color, shaded in the center with rosy-pink; large, of fine globular form, freely produced.

EUGENE FURST. A beautiful velvety crimson, with distinct shading of crimson-maroon.

FRAU KARL DRUSCHKI. The regal "White American Beauty." The distinctive form and expression of its bud, half opened state and maturity are a three-fold revelation of exquisite charm and beauty. In our gardens they commence blooming with the June Roses, are conspicuous throughout the summer with their large flowers of waxy paper white, and yield their last armful with the first snows of an early fall.

GEORGE DICKSON. As near as we can describe it, the color is a velvety black-crimson, the back of the petal being heavily veined with deep pure crimson-maroon.

GENERAL JACQUEMINOT. Bright, shining crimson, rich and velvety; exceedingly brilliant and handsome; makes magnificent buds and flowers, highly esteemed as one of the best and most desirable Roses.

HUGH DICKSON. Color, brilliant crimson shaded scarlet; large and fine form, opening well in all weathers. Very sweetly scented.

J. B. CLARK. The color is unique among Roses, being deep scarlet shaded blackish-crimson, with rich bloom like a plum; flowers are large and beautifully formed. Awarded the gold medal N. R. S.

MAGNA CHARTA. Extra large, full flowers, very double; of fine form, and sweet; clear, rosy red, beautifully flushed with violet-crimson; sure and profuse bloomer.

Anny Muller

This Rose is very much the same as the Crimson Baby Rambler, except in the color of the flowers, which are a shiny and brilliant pink, produced in the greatest profusion in large clusters. It is a splendid companion for the other excellent members of this family.

Maman Tourbat

A new dwarf bush Rose of the Polyantha class and a splendid one for bedding and growing in pots. The flowers are china rose tinted peach and saffron.

Pink Baby Rambler

Orleans Rose

The showiest and prettiest of the pink "Baby" Roses; this charming and dainty little variety is of beautifully rounded habit and is a huge bouquet of brilliant bloom, deep cerise, with showy center of pure white, florets not crowded, but of beautiful arrangement.

Baby Doll

Flowers borne in Clusters, Highly Fragrant

This delightful little "sweet-heart" Rose is an everblooming Polyantha. The color is absolutely new, and quite startling in its brilliancy—golden-yellow tipped with clear, bright cerise. The little buds and blooms are perfect in form, elegantly finished and borne in small panicles or singly.

Baby Tausendschon

A dwarf form of the Climbing Tausendschon or Thousand Beauties. It has all the characteristics of the climber in the charm of its flowers, but blooming the entire season. Flowers firm, white, delicately flushed pink, changing to deep rosy-carmine.

Erna Teschendorff

The color of the flowers is the brightest red. The flowers are large and very double and are produced in constant succession throughout the whole season.

Mlle. Cecile Brunner

A popular cluster following bush rose flowers in coloring, rosy-pink on creamy white ground. The variety is a free bloomer and a fine bedding sort.

Bonnie Belle

Enormous trusses of dark cherry-red flowers. Unusually long buds for a Polyantha. Worthy of trial.

Geo. Elger

A superb Polyantha Rose with just sufficient of Tea Rose blood to make it different from any in its class. It produces great quantities of lovely little buds of golden yellow, opening into miniature symmetrical Roses. Each bush is so loaded with blooms that they resemble a huge bouquet. Like all Roses of this class, it is free in growth and bloom, blooming all summer. Hardy everywhere with some protection. Foliage bright, attractive green. Excellent companion for the Baby Ramblers.

Jessie

This new Baby Rambler is an ideal Rose for massing, bedding or for pot culture. The flowers, which are produced in huge clusters, are of a bright, cherry-crimson color which does not fade. Superb. The best of all the Baby Ramblers for pot culture.

Francis Scott Key is the Rose for every American home and should be planted in every garden. Price, strong, one-year-old plants, 30 cents each; two-year-old plants, \$1.00 each.

TAUSENDSCHON, OR THOUSAND BEAUTIES

A Grand Hardy Climbing Rose

A HARDY EVERBLOOMING PINK CLIMBING ROSE

“CLIMBING COLUMBIA”

THE LATEST AND MOST BEAUTIFUL ROSE OF RECENT INTRODUCTION

Climbing Columbia introduced and offered for sale only by us. This Rose originated here on our place and no stock of it has yet been sold to any one. We control the entire stock of this magnificent Climbing Rose, so don't be misled by the claims of others. This Rose is a sport of the well-known Hybrid Tea Rose, “Columbia,” and has all the desirable features of its parent, with a remarkable climbing tendency, growing 10 to 15 feet in a single season. Foliage deep glossy green, immune from disease and insects. Hardy in any location. Blooming with the greatest freedom the entire season. Equally as well in the far South as in the North. Buds and blooms of immense size, often measuring six inches in diameter, and perfect formation, borne singly on long shoots, thus making it an ideal one for cutting. Buds long and pointed, same as “Columbia,” opening full and double. Petals large. Color, clear imperial pink with paler edges, beautifully dark veined; delightfully fragrant. This Rose has so many good qualities that we predict it will soon be one of the leaders in its class, and those who are fortunate enough to secure a plant of it this season will be able to enjoy its beauty and be the envy of their less fortunate neighbors for several seasons, as our stock is limited, and orders will be filled in rotation in which they are received. *Price, strong first size or one-year-old plants, from 2 1/2-inch pots, 60 cents each, 2 for \$1.00, postpaid; larger size, \$1.00 each. All grown on their own roots, and good, clean, healthy stock.*

Climbing White Maman Cochet

The Sensational, New, Hardy, Everblooming, White Climbing Rose, Long Sought For.

Just as the old favorite White Cochet is one of the very best of all White Tea Roses, so we believe this new White Climbing Tea will jump into the widest popularity. It blooms continuously all summer, bearing the greatest profusion of perfect White Cochet Roses, and the plant grows with wondrous strength and vigor. This is without doubt one of the finest white everblooming Climbing Roses ever introduced, and can be procured from very few concerns. Its scarcity makes it valuable, and it appeals strongly to those who like to have something different from their neighbors. *Price, 20 cents each; two-year-old plants, 75 cents each.*

Climbing Pink Maman Cochet

No Rose we grow is so popular as Maman Cochet. Here we have an exact counterpart of that popular variety, except that it is a vigorous climber. All will welcome this new Rose. No word is needed to emphasize the value of this grand climber, which has retained all of the good qualities of the parent, in addition to its climbing habit; it has already awakened a lively interest among Rose growers. Flowers are large, double and pink, like the bush Maman Cochet Rose. Specially recommended. *Price, 30 cents each; two-year-old plants, \$1.00 each.*

AMERICAN PILLAR

If ever there was a Rose constituted to stand the trying conditions of our American climate, we have it in this unique, hardy, free-blooming climber. It will thrive in poor soil as well as in rich, and insists on growing vigorously. It has stout, thick, curving branches, rather thorny, but furnished with an abundance of glossy dark green leaves. It is one of the first to start growth in the early spring, and here holds its leaves of lively green till far past Thanksgiving Day, and it is seldom troubled with insects. It begins blooming here early in May. Single flowers of rich, rosy pink approaching brilliant carmine, just a plint of white in the center, and long stamens of beautiful golden yellow. The blossoms—four to six layers deep—are arranged in large-flowered clusters all over the plant. We estimated certainly not less than 3,000 flowers on one young bush. A tremendous grower, with its thick vigorous canes, it is without doubt one of the most valuable single climbing Roses in existence and is unsurpassed for planting singly or as a hedge. In the autumn it is again a brilliant show of color with its pretty clusters of bright red seed-hips which remain on the bush until well into winter. *Price, 20 cents each; two-year, \$1.00 each.*

FOR HEDGE PURPOSES

American Pillar makes strong canes that grow upright several feet before bending over, therefore a magnificent hedge can be made with this variety without the necessity of providing a support. In May the entire hedge becomes covered from base to tip with the exquisite, delicately fragrant blooms, entrancingly beautiful. *Dozen rates, one-year, 12 for \$2.00; two-year, 12 for \$10.00.*

J. W. Vestal & Son,
Little Rock, Arkansas.

Gentlemen: I received both shipments of flowers about the first of the month. All of the plants were in living condition and were so very carefully packed for shipping. I am so well pleased with the plants that I expect to place an order with you in the future. Many, many thanks for the extra roses. Illness has caused the delay in acknowledgement of flowers. Permit me to again thank you for the plants, I am,

Sincerely yours,
Mrs. J. W., Coleman, Texas.

MARECHAL NIEL

The Famous Rose

The fame of the superb yellow Rose, Marechal Niel, with its large, deep, golden-yellow flowers, is world-wide. It is almost universally held to be the finest Rose for indoors or outdoors, where the climate admits of its cultivation. Its magnificent golden-yellow flowers are almost massive in dimensions, and reports from growers tell of single plants showing one to two thousand blooms at a time. It is of strong growth and beautiful foliage. It is grand in petal, shape, color, fragrance, lasting qualities and size, an extremely free bloomer and flowers throughout the season. Contrary to many Roses, which lose their color after opening, Marechal Niel decidedly improves and takes a deeper yellow after being kept for a day or two. The tea fragrance is strongly present in this Rose. It is a variety which practically stands by itself. *Price, 20 cents each; stronger plants, 50 cents; two-year-old plants, \$1.00.*

CLIMBING WOOTTON

To our mind this great Rose is to be classed with Mrs. Robert Peary and other great climbing varieties for these reasons: It is perfectly hardy, has no weak spots, grows with wonderful vigor, blooms continuously throughout the growing season, produces flowers that are nothing less than superb, both in beauty and in fragrance. If there is such a thing as having one Rose more beautiful than another, we think this variety may be entitled to this distinction. It is a strong, rampant climber, growing in one season to a height of from ten to fifteen feet, with large, heavy, insect-proof foliage. It produces in most wonderful profusion its superbly-formed flowers, which are bright magenta-red, passing to violet crimson, richly shaded. The flowers are large, full and regular, with thick, leathery petals, and deliciously scented. Make beautiful buds. *Price, 20 cents each; large size, 75 cents each.*

CLIMBING CLOTHILDE SOUPERT

Hardy, Everblooming Climbing Rose

Quick and abundant bloomer and healthy, vigorous growth. The flowers are two and one-half to three inches across, and perfectly double, rich creamy-white, sometimes tinted with blush and borne in immense profusion, the whole growing season from June to November; handsome, glossy green foliage, not subject to insects or disease. *Price, 20 cents each; two-year-old plants, 75 cents each.*

CLIMBING METEOR

A superb everblooming climbing Rose. A sport from Meteor, famous for its magnificent flowers. True climbing habit, attaining a height of 10 to 15 feet in a single season. Free, persistent bloomer, with magnificently formed buds and flowers. Dark, velvety crimson, the equal of any Rose in cultivation. Hardy, with protection, and will give absolute satisfaction. *Price, 20 cents each; two-year-old plants, 75 cents each.*

CLIMBING QUEEN'S SCARLET

Climbing China. A genuine Queen's Scarlet with a vigorous climbing habit; will make a fine Rose. Color, velvety crimson. *Price, 20 cents each; two-year-old plants, 75 cents each.*

CLIMBING PAUL NEYRON

New climbing Rose, with a strong, sturdy constitution, and bearing immense lovely pink Roses like its parent, Paul Neyron. *Price, 20 cents each; two-year-old plants \$1.00 each.*

LAMARQUE

A fine climber for greenhouse and conservatories; pale canary yellow, almost white; beautiful buds; large, full flowers, very double and sweet. *Price, 20 cents each; large plants, 75 cents each.*

DUCHESSE DE AUERSTADT

Color, vivid nankeen-yellow. A fine climbing Tea Rose, and one that is very popular on the Pacific Coast. We highly recommend it. *Price, 20 cents each; large plants, \$1.00 each.*

REINE MARIE HENRIETTE

A strong growing and climbing Rose, making a grand pillar Rose in the South. Flowers full and well formed; rich, brilliant crimson. A grand Rose and a fine companion to Marechal Niel. Try it. *Price, 20 cents each; large size, \$1.00 each.*

CLIMBING DEVONIENSIS

A sport from Devoniensis, from which it differs only in climbing habit of growth. It is fully as productive as the old sort, and being more vigorous, is justly a grand Rose. Color, white, tinged with blush; very sweet. *Price, 20 cents each; two-year-old plants, 75 cents each.*

RUTH VESTAL

A strong and vigorous grower and true everbloomer. Pure snow-white buds, and flowers are of the largest size and perfect form. Exceedingly fragrant. *Price, 20 cents each; two-year-old plants, 75 cents each.*

GLORIE DE DIJON

A magnificent Rose; one of the finest in every respect. Large, perfectly double and tea-scented; color, rich creamy-white, beautifully tinged with amber and pale blush. *Price, 20 cents each; two-year-old, \$1.00 each.*

FAMOUS RAMBLER ROSE

DOROTHY PERKINS (Pink)

This beautiful new Rambler Rose is becoming even more popular than the original Crimson Rambler. And well it may, for it is indeed a finer pillar Rose than that famous variety. The growth of a single season is wonderful, its handsome, glossy green foliage being one of its strong points. The flowers, however, are its crowning beauty, being borne in immense clusters of fifteen to thirty, and possess great lasting qualities. Flowers a beautiful shell-pink, very double, with petals artistically crinkled. Remarkably pretty pointed buds. This Rose is extremely hardy and will withstand the coldest weather. We advise our friends to plant this variety where it can be allowed plenty of room, and it will give an account of itself. *Price, one-year-old plants, 20 cents each; two-year-old plants, 75 cents each.*

EXCELSA

New Fiery-Red Rambler Rose

A splendid new Climbing Rose, remarkable in many ways, but particularly in the brilliant fiery-red or intense crimson-scarlet of the flowers. The intensely brilliant color is accentuated by the great masses of giant trusses produced on the plants, and furthermore by the contrast with the deep green glossy foliage. The flowers are very double; they are larger than any of the Rambler Roses and borne in trusses of thirty to forty on each; the body of the flower is brilliant in color, but toward the edges of the petals they light up with a wonderful scarlet-crimson. *Price, one-year-old plants, 20 cents each; two-year-old plants, 75 cents each.*

WHITE DOROTHY

A White Climbing Rose of Indescribable Charm and Vigorous Growth.

This wonderful Climbing Rose is so exquisitely beautiful that it is well worth all the prominence it can be given. It is a rampant grower and in a remarkably short time will cover a large trellis with shining foliage of splendid texture and free from mildew or attacks of insects. The flowers are of a brilliant, glistening white and are borne in great trusses, completely covering the plant, until it resembles a snow drift. *Price, one-year-old plants, 20 cents each; two-year-old plants, 75 cents each.*

CLIMBING HELEN GOULD

Probably no red Rose has held its place secure in the hearts of Rose lovers for so long a period as has the beautiful Helen Gould. We now have the pleasure of introducing this famous Rose in climbing form. Everybody is familiar with the warm, water-melon-red color of its charming flowers. This is a grand climber. Be sure and try it. *Price, 20 cents each; two-year-old plants, \$1.00 each.*

CLIMBING GRUSS AN TEPLITZ

A climbing form of Gruss an Teplitz. Unquestionably one of the finest climbing Roses ever introduced. The color when first opening is very dark rich crimson, quickly changing to bright scarlet, shading to velvety fiery red. The flowers are very showy and handsome. Remarkably healthy and vigorous; almost immune from all diseases. *Price, one-year-old plants, 20 cents each; two-year-old plants, 75 cents each.*

One of the finest Bananas and fruits splendidly. The leaves are borne in a palm-like crown or cluster, each leaf three to five feet long and two feet broad; of a clear shining green, curved and crinkled in a most pleasing manner. The most beautiful foliage plant that can be grown outside of a hothouse. Grand for bedding out in the summer, for conservatory or warm window decoration. ACALPHAS

Brighter and More Attractive Than Coleus

FIRE DRAGON (*Acalpha Tri-color*). A most wonderful plant, surpassing the finest Coleus or Begonia in the rich color of the leaves, which are rich and beautiful. Mottled and blotched with crimson and scarlet on green background. Foliage extra large and maintains its marking regardless of summer heat. Its most important feature is its wonderful qualification for bedding, as it will stand bedding out like a Coleus; in fact, in the sunniest place it produces the highest coloring. Price, 15 cts. each; 2 for 25 cents.

Acalpha - Fire Dragon

AGERATUM

Useful in all summer bedding schemes, as well as for baskets and vases. In fact, they are indispensable for these purposes on account of the serious lack of blue shades among bedding plants. They appear to greatest value as an edging or massed in liberal quantities. Price, 10 cents each; \$1.00 per dozen.

GLOIRE DE CHATELINE. A very valuable variety that bids fair to become popular. It is an easy grower, free flowering, excellent both as a house plant and for bedding purposes.

THURSTONII. A distinct and pretty shrubby variety, with thick, heavy foliage, which is of a rich metallic green above and bright red underneath; the flowers are a fine pink, rising well above foliage.

GRACILIS LUMINOSA. THE PRESIDENT

By a sweeping majority, this Canna won the honor of being named "The President," for it is so surpassingly fine that no other red Canna could be a competitor. In color it is a rich, glowing scarlet, and the immense, firm, rounded flowers, 7 inches across when open, are produced on strong erect stalks well above the large, rich green foliage. The President is superior to any other red variety in the quantity and also quality of bloom, and the firm flowers are able to resist drought and heat to a remarkable degree. "This is one of the most marvelous Cannas ever produced." Price, 50 cents each.

NOKOMIS

Like The President, this is a hybrid of the famous Firebird. The foliage is a combination of emerald-green and bronze, beautifully veined, making a lovely setting for the large, vivid crimson flowers. These flowers are most attractive, having a rich silky sheen on the petals and the color is darker than that of any other bronze-foliaged Canna. Price, 50 cents each.

FIERY CROSS

How to Arrange Cannas in a Circular Bed

Get the tallest-growing varieties in the center, and then carefully grade each succeeding circle, using dwarf kinds for the outside. Plant one Canna in center of bed, next six Cannas 18 inches apart in a circular row 18 inches from center. For each succeeding circle use six more Cannas than were used in the previous circle and make 18 inches farther away from the center. A 10-foot bed thus planted will contain 1 Canna in center, 6 in first circle, 12 in second circle and 18 in outer circle, all 18 inches apart.

CHOICEST VARIETIES OF CANNAS

High-grade Cannas have for years been one of our leading specialties, and our fields the past season were a gorgeous riot of color from June to frost, and were admired by many visitors. To those who stopped to look closely at individual varieties, the wonderful improvement in Cannas was very manifest. No other bedding plant will give the same uniform good results in our varied and trying climate. They do well in all sections of the country and stand pre-eminently at the head of the list, succeeding in any sunny position in any kind of soil, but responding quickly to liberal treatment. For best results the beds should be spaded two feet deep and a generous amount of well-decayed manure of any kind thoroughly incorporated, and at all times supplying water freely. For best effect plant in large masses of one color, setting out the plants two feet apart.

CHAS. HENDERSON

Rich crimson flowered Canna. A splendid dwarf, compact grower, throwing up direct, compact heads of bloom of immense size. The individual flowers are among the very largest. Color, dark crimson; center of the flowers marked with gold penciling. Price, 15 cents each; \$1.50 per dozen.

ECLIPSE. This is a novel and distinctive variety. The leaves are beautifully spotted with golden yellow on a green ground. The flowers are orange yellow, and are produced abundantly. An excellent plant for edging foliage beds. As a basket or vase plant it is unsurpassed. As a specimen in the window or conservatory it has few equals. Price, 20 cents each.

NEW BEDDING COLEUS

Cape Jasmine

The Coleus, a plant very familiar to all, is one which, for bedding purposes, can not be excelled. The foliage is very beautiful in many of the good newer sorts, and shows a great variety of markings and fine combinations. It is used in great quantities in private places, in small gardens and in the public gardens and parks. The Coleus is used to best advantage in planting in ribbons of color in the borders along drives, in beds of various shapes, such as stars, crescents, triangles, circles and squares, as the foliage, being of such various colors, can be used with striking effect. Light colors against dark, with borders of contrasting color, which are easily obtained among the yellow, red, striped, mottled brown, blue-black, plum and other colored sorts, secure effects when used on a fine lawn or in the border, hard to make with other plants.

Vestal's Gorgeous Bedding Coleus. Price, 10 cents each; 75 cents per dozen; 100 plants for \$4.00.

BEAUTIFUL DECORATIVE FERNS

These beautiful plants for home decoration vie with the Palms for first place in the esteem of flower lovers. They are finely cut and oddly shaped. Ferns give a graceful effect produced by few other plants and they do exceedingly well in the parlor and conservatory. The Nephrolepis family, of which the well-known Boston is a member, has furnished us many beautiful species of late years. We recommend all the varieties listed.

Boston Fern

THE BOSTON FERN. This popular Fern has proved one of the best decorative plants of recent introduction. The fronds are much larger than the Sword Fern, and do not stand so stiff, but droop gracefully. Excellent for making large specimen plants, also for hanging baskets. Price, nice young plants, 15, 25 and 50 cents each.

COMPACT SWORD FERN. Fitting companion for the Boston; dwarfier, more erect in growth, much darker shade of green, very gracefully arched. Very desirable as a house plant. Price, 15, 25 cents each; larger, 50 cents each.

NEW FERN JOHN WANAMAKER. Long, narrow gracefully drooping fronds. It is not so compact in growth as Scholzelii, and therefore does not decay in the center, and is a durable house fern. It is a rapid grower, making an abundance of fronds, and is quite distinct from any other Fern. Price, nice plants, 25 cents each; larger plants, 50 cents each.

WHITMANII (Ostrich Plume Fern). More of a dwarf habit than the Boston Fern. The fronds are of entirely different nature. Each frond is subdivided on the order of the Compacta Fern, thus producing a very beautiful effect. Its decorative ability is excellent. Prices, 15c, 25c, 50c, 75c and \$1.00 each.

TEDDY, JR. New dwarf Fern. Fronds are broad and beautifully tapered from base to tip, drooping just enough to make a graceful plant. Produces nearly four times as many fronds as any other Fern introduced. Compact, vigorous grower and thrives under most any condition. Prices, 15c, 25c, 50c, 75c and \$1.00 each.

SMITHII FERN. A greatly improved Ostrich Plume Fern, with extremely finely cut fronds, could be rightly described as Baby Breath Fern. It is of compact form, fronds on wiry stems that do not break down in center. This variety will have a wonderful sale. Prices, 35c, 50c, 75c and \$1.00 each.

VERONA FERN. Makes a good plant in any size, much finer frond than any crested Fern except Smithii. We consider it one of the best of the newer varieties. Prices, 25c, 50c, 75c and \$1.00 each.

NORWOOD FERN. A dwarf compact form of Whitmanii, carrying its fronds stiff and erect on wiry stems that do not break down. Makes ideal specimens. Called by some florists Fluffy Ruffles Fern. Very showy. Prices, 35c, 50c, 75c and \$1.00 each.

ASPARAGUS FERNS

Their beautiful sprays of lovely, feathery foliage can be cut freely for bouquets, etc.

ASPARAGUS SPRENGERII. Emerald Feather. Very valuable for vases and baskets. A strong, vigorous plant, very easily grown and requires little care. Price, 15 cents and 25 cents each.

ASPARAGUS PLUMOSUS. Climbing Lace Fern. An extremely graceful window climber. The fine, feathery foliage is always bright and green. Price, 15 cents and 25 cents each.

Asparagus Sprengeri

Plumosus

THE CARDINAL CLIMBER

We consider it the most beautiful, brilliant and distinct annual climber introduced in many years. It is a strong and rapid grower, attaining a height of 30 feet or more, with beautiful deeply lacinated foliage and literally covered with a blaze of circular fiery cardinal-red flowers from mid-July till frost. The flowers are about 1½ inches in diameter, and are borne in clusters of 5 to 7 blooms each. We feel sure that it will become one of the good annual climbers of the future. Like other Ipomoeas it delights in a warm, sunny situation and good soil. *Price, 15 cents each; 4 for 50 cents.*

MANETTIA BICOLOR

The most beautiful and desirable of all vines. Can be grown in house or garden. In the house it can be trained about a window, forming a wreath of the most brilliant bloom both summer and winter. Flowers of a most intense scarlet, shading into flame, tipped with bright golden-yellow. *Price, 15 cents each; 2 for 25 cents.*

CAESAR FRANCK. Enormous trusses of semi-double flowers, shaped and clustered much like "Crimson Rambler" Rose; vividly crimson, with a slight dash of rose at the base of petals.

INCOMPARABLE. Very large trusses and florets; a charming shade of carmine-rose.

JEANNE D'ARC. Flowers very large; the purest white.

RYCROFT SURPRISE. Bold, vigorous, upright habit; large trusses of a lovely shade of soft pink; free and effective.

Ivy Leaf Geranium Jeanne D'Arc

Pelargonium
Easter
Greeting

NEW EVERBLOOMING PELARGONIUM EASTER GREETING

The flowers of Easter Greeting have the large size and the gorgeously rich coloring of the "Lady Washington Geranium." To this is added, in Easter Greeting, the habit of continuous blooming, which has made the ordinary bedding Geranium so highly valued. Easter Greeting is the first of a new race and one of the most valuable introductions in recent years. As an Easter plant it rivals the Azalea; but unlike the Azalea, Easter Greeting will remain in full bloom all summer. *Each, 20 cents; larger, 35 cents.*

FEVERFEW, LITTLE GEM

This variety surpasses the old variety in every respect. It is very dwarf, growing only from eight to twelve inches high. LONGFELLOW. Best red variety; very double.

GYNURA AURANTIACA

Velvet Plant

Velvet Plant seems an appropriate name, the leaves being always taken as artificial. They and the stems are entirely covered with purple hairs; shining, glistening, reflecting many new colors. Any change of position appears to alter the color of the foliage. *Price, 15 cents each.*

IN STRESSFUL DAYS

Roses carry many a message too subtle for lips to tell. Learn their language.

Plumbago

NEW MARGUERITE

MRS. F. SANDER. Unlike all other Marguerites, its color is of the purest glistening white throughout; in size it frequently measures five inches across; the center of the flower is a mass of closely arranged fringed florets; these are surrounded or edged by the broad, shining white ray-petals, forming a flower which reminds one forcibly of a glorified double Pyrethrum. These are produced on long stems with a freedom not known in other varieties of the Marguerite. *Price, young plants, 15 cents each; four for 50 cents.*

Carnation Victory

Vestal & Son, Little Rock, Ark.

VARIEGATED S. A. NUTT. A new introduction, with liberal, healthy, remarkably beautiful variegated foliage; the green and creamy white, being about evenly apportioned, of the same general form, freedom, character and color as the famous S. A. Nutt.

Jos. W. Vestal & Son, Little Rock, Ark.

Dear Sirs: I wish to tell you how much I like your plants. I could never grow plants with any success until I ordered from Vestal. My Geraniums were Things of Beauty, therefore a joy forever.

OUR SUPERB PANSIES

Pansy plants planted in the spring as soon as the frost is out of the ground will begin to bloom at once, and afford daily pleasure for a month before Coleus or Geraniums could be even planted. If snow should fall after planting they would not be hurt. In fact, to get the best results from Pansies, they should be planted just as early as they can be. To get the best results and extra large flowers, the soil must be extremely rich—we use equal parts well rotted manure and soil. Price, 5 cents each; 50 cents per dozen; \$3.00 per 100.

DUSTY MILLER

Almost too well known for a description. This is the old Dusty Miller used for edging beds of Coleus, Geraniums, Cannas, etc. Leaves silvery white. Price, 10 cents each; \$1.00 per dozen.

The large waving masses of scarlet bloom against green surroundings of lawn or foliage is matchless. Salvias can be grown in almost any position with fine effect; in the flower bed; along the walk or borders. They also add to the attractiveness of a shrubbery if planted in clumps in the vacant spaces, the varied shades of green and the dazzling scarlet have a most pleasing effect. We offer only the large flowered variety which produces flowers twice the size and twice as numerous as the old variety. They make fine pot plants for the conservatory or greenhouse. CALADIUM ARBOREUM

This noble plant while young resembles the well known Caladium Esculentum, but grows to gigantic dimensions as it attains age, and while the latter dies down annually at the bulb, this grows into a stem or trunk, which retains the foliage through the winter if kept in the conservatory or sitting room. Plants, under good culture, frequently attain eight to twelve feet in height. *Price, from four and five-inch pots, 50 cents and \$1.00 each.*

CALADIUM ESCULENTUM

(*Elephant's Ear*)

One of the most effective plants in cultivation for the flower border, or for planting out upon the lawn. It will grow in any good garden soil, and is of the easiest culture; but to obtain the best results it should be planted in rich compost and plentifully supplied with water. *Price, large strong bulbs, 20 cents each; six for \$1.00.*

CINNAMON VINE

Well known hardy climber; quick grower, with beautiful glossy heart-shaped leaves and sweet-scented flowers. Vines will run 25 to 40 feet in one season. *Good roots, each, 10 cents; 3 for 25 cents.*

DELICE. The most popular pink variety. Its beautiful soft, yet lively color, a glowing rose-pink, together with its perfect shape, stout, stiff stems, and the fact that when cut it retains its freshness for a long time, makes this one of the most valuable for cutting or decorative sorts in the garden.

ELSIE BURGESS. White ground tipped lavender, grand Dahlia for cut flowers.

JOHN WANAMAKER. Very free-flowering with broad, peculiarly curled and twisted petals of a pleasing shade of violet-mauve.

MINA BURGLE. Rich, luminous dark scarlet flowers of full, large form, strongly upheld. Unusually free and continuous bloom. This is a comparatively new variety, claimed by some cataloguers to be their best red Dahlia.

PRINCESS JULIANA. An ideal pure white for all purposes. A splendid cut flower and a good decorator for the garden. It is one of the earliest to flower, and continues in good shape throughout the season. It holds its flowers well above the foliage on stiff, wiry stems.

A strong bulb will give from two to three flower spikes and these produce from 30 to 50 flowers. The plants come into bloom in July and bloom constantly until October. Hardy Garden Lilies

The beauty of the Lilies appeals to everyone. A really beautiful garden without them is unimaginable; they are needed in quantity and variety to complete it, against evergreens, in groups or lines in the shrubbery or borders, wherever serene, stately, faultless beauty of outline is required. We here list only those that every good garden really needs.

One each of these four grand Lilies for \$1.10.

CARE OF FERNS

The rule to be observed in watering ferns is to water them when soil is dry and then thoroughly. More Ferns are ruined by over-watering than any other variety of plant. Unless they are placed in a dry, sunny spot, little water is required. Constant, steady watering causes stagnant, sour soil and for this reason it is necessary to give opportunity for drying out, to keep soil sweet and pure.

For scale or fungus secure Whale Oil Soap and make a solution of one-fourth pound to two gallons of water and wet foliage thoroughly. Cover entire plant with cloth to keep the fumes from escaping and the evaporation of solution.

Once a year is sufficient to repot plants. March or April are the best months. Fertilizer is necessary for all ferns.

Grand, low-growing, bushy shrubs, hardy only in very sheltered locations. Unequaled for porch and lawn decorations during summer. The blooms are immense, and come in such quantities as almost to cover the bush. On the approach of freezing weather, store in a light, cool cellar and water only sufficiently to keep the roots from drying up. If they start growth during the winter, move to cooler quarters.

SPECIAL NOTE—Blue is a color that is not fixed in Hydrangeas. It is controlled sometimes by climatic, and other times by soil conditions; we can not supply blue flowering Hydrangeas.

To make these Hydrangeas bloom blue, incorporate one-half pound of alum, broken into pieces about the size of a hickory-nut, with each bushel of soil.

Price for all, from 3-inch pots, 25 cents each; from 4-inch pots, 75 cents each; from 6-inch pots, \$1.50 each, by express.

AVALANCHE. Magnificent, large, white; very free-flowering.

BOQUET ROSE. Large clusters of rosy amber changing to bright pink. Quite a distinct color and very beautiful.

LA LORRAINE. Large flowers; pale rose turning to bright pink.

MME. E. MOUILLERE. Large individual flowers of pure white which form massive heads. Won the Silver Medal at Boston, 1913.

MOUSSELINE. Mauve-rose with cream-colored center; often comes darker.

HORTENSIS. A well known favorite plant, producing large heads of pink flowers in great profusion. It thrives best in a shaded situation, with a plentiful supply of water.

OFFER 60: Any 3 of above, in 3-inch size, 60 cents; any 3 in 4-inch size, \$2.00, or any 3 in largest size, \$4.00, by express.

SOME SHRUBS THAT BLOOM

In corners of the grounds, at curves in walks and driveways, and at the house foundations are excellent places to plant shrubs. They should always be in groups, unless their ultimate size will be quite large. Lilacs may be used in specimen plantings, but low-growing shrubs, such as the Spireas, etc., should be set in clumps. In grouping it is always good policy to plant the taller growing varieties back of the lower sorts. This gives a "step-down" effect, and seems to join the house to the lawn.

Good Packing Pays—Pays Us As Well As You, Our Customers

Our system of shipping costs us much more than ordinary methods of packing—but it insures delivery of trees to you in perfect condition.

We box, pack and bale with great care. We always *paper line* the boxes. This preserves the moisture of the moss packed around the roots.

Furthermore, all our trees are packed by men who have years of experience in this one work alone. Most of them have been with us since youth. Their long experience has given them the essential "know how" that assures satisfactory shipments.

THRIFTY FRUITS FOR EVERY MAN'S GARDEN

LITTLE COST, LITTLE SPACE, LITTLE LABOR, AND BRING BIG RETURNS

When you plan a home garden, nowadays you have to consider what will give the best returns for the space occupied. These fruits all "earn their keep" and more, for from a single grape-vine, well matured, it is easy to get at least a bushel of luscious fruit for eating or preserving for winter. Blackberries and raspberries also produce fruit bountifully. Plant at least a dozen of a kind and plant wherever space can be found.

LARGE, LUSCIOUS GRAPES

*Niagara
Grape*

Grapes are ornamental as well as fruitful. Plant them wherever you have a place where the vines can be tied. You can plant them against buildings, over arches, on trellises, etc. These vines grow fast, they have large leaves, and make welcome shade in summer.

AGAWAM. Berries very large, with thick skin, pulp soft, sweet and sprightly, very vigorous, ripens early.

BRIGHTON. Large compact bunches, rich wine color, tender and almost seedless, sugary, juicy and rich flavor. Having thick foliage, it is enabled to withstand the heat of summer. We recommend this variety for vineyard or garden.

LADY THOMPSON. Early, strong, upright plants, root deeply; many long runners. Thrives in all soils, but best in rich loam or sand. Berries medium to large, regular, glossy pink solid, meaty, excellent.

EXCELSIOR. This variety is one of the very best extra earlies yet introduced, and is a vigorous, healthy grower—unusually productive for so early a sort—outyielding other standard earlies two to one, while the fruit averages large, is very handsome and firm.

SENATOR DUNLAP. Thoroughly tested and proved one of the best standard varieties wherever tried; strong, hardy, deep-rooted plants; a great bearer of bright, glossy red berries of first-class quality.

GANDY. A reliable late variety, berries bright crimson, very uniform in size and shape, large and firm, plants vigorous and healthy.

ST. LOUIS. One of the largest and finest berries grown, and being a heavy yielder as well, steadily is winning its way to a prominent place in the confidence of Strawberry growers. In shape the berry is conical and long, having an obtuse point. In color it is dark, lustrous shade of crimson, and is studded with brilliant, golden seeds, all of which tend to make it one of the handsomest berries.

VESTAL'S EARLIEST STRAWBERRY

Of all Strawberries in our list, this ripens the earliest, producing an abundance of perfectly round, beautiful berries of very rich and delicious flavor. In fact it is one of the most productive varieties we have and as it ripens so extremely early it is the favorite home garden variety and also for the large grower, as the market price of the fruit is often 20 cents per quart. A delicious table berry and one of the very best for family use. *Price, 25 for \$1.00; 100 for \$3.00.*

FALL BEARING STRAWBERRIES

Fall-bearing Strawberries seem to be no longer an experiment, as they are becoming essential all over the country, and are making good every place they have been tested. If these varieties are disbudded, until say August 15 to September 1, and allowed to fruit, they will give large quantities of ripe berries until checked by hard freezing. The variety we offer we consider the best. *Price, 25 for \$1.00; 50 for \$1.75; 100 for \$3.00, postpaid.*

PROGRESSIVE. This is the strongest growing plant of all the fall-bearing varieties we have seen. The plants are very large and heavily rooted, producing a phenomenal crop of medium to large fruits, of a dark red color both inside and out.

A Typical Plant of Fall Bearing Strawberry

SELECTED VEGETABLE PLANTS

This page and the next one tells you how you can have a successful vegetable garden without waiting for seeds to grow. If you buy the plants from us, ready started, you gain over a month, and have a supply of fresh, crisp, choice vegetables for your table almost before you know it. What a joy it is to step out from your kitchen door and gather from your own yard the vegetables you want, in all their original freshness and delicious goodness!

A few Artichokes—some choice Tomatoes; a sprig or two of Parsley—possibly a Cabbage or Cauliflower, and there's your meal. Such vegetables are not dust covered. Not dried and withered. Not stale and unappetizing. Not handled three or four or five times before they reach you. But clean—and palate-pleasing—right from your own garden to your own table.

You don't need a lot of ground in which to grow a home supply. A few square feet of garden is enough. Order a few plants of the varieties you prefer and you will have fresh vegetables at your command all the year round.

When plants like these are so easily grown—and when the cost of living is so high today—we can not understand why every house-wife does not grow her own vegetables. The cost of growing is practically nothing—and one can not buy such Vegetables as one can pick from one's own garden patch.

VESTAL'S SPECIAL BLEND SPENCER SWEET PEAS

If Planted Now They Will Blossom Forth in a Riot of Brilliant Beauty During May and June

Among recent Sweet Pea novelties there has appeared nothing finer than the new race of Orchid Flowering or Countess Spencer Peas.

They are distinguished for their gigantic size—usually measuring two inches across. The bold, erect standards, which are uniformly waved, crimped and fluted in exquisite fashion, the charming blending of harmonious colors, the exceedingly long stems, which make them excellent for cutting; the great profusion of flowers and the large number on the stems, usually three or four, make this type so superior in every way that we believe it is certain to supersede the old varieties.

The Sweet Peas in our SPECIAL SPENCER BLEND are made up of the finest named Spencer varieties and range in color from the purest white to shades of pink, lavender, blue, yellow and crimson, and are just the kind to make your garden a success.

It is the very best blend possible to produce and will surely delight all who want a great variety of colors.
