I print this not because I am proud of my own picture, but because most people like to see the man with whom they are doing business.

Announcement

In presenting you with my third Fall Catalog, I would like to have a few words with you; principally to assure you. I will strive to serve you in the same satisfactory manner as I have for the past twenty-seven years. This Catalog is very modest compared to my Spring Catalog but it is a beginning, and has been made possible through your patronage. Through giving your orders my careful personal attention, I have been able to increase my business by leaps and bounds. Probably you can recall when my Spring Catalog contained nothing but Dahlias and Gladioli. Each year I have added to it.

Seven years ago, I purchased the entire stock of Peonies of George Hollis, the well-known Peony Specialist of South Weymouth, Mass. I came into possession of one of the most complete collections of Peonies in the world, as Mr. Hollis had all the well known varieties, together with rare French, English and Japanese sorts and a large number of his own seedlings, which he had been hybridizing. Many of his seedlings had been introduced, others were still unnamed. For the past seven years, I have been endeavoring to accumulate sufficient stock of some of them to offer them for sale; and at the same time make comparisons with other named varieties sent out by Mr. Hollis.

Mr. Hollis passed away three years before I acquired his collection, so some of the labels had been lost; where there were several lots of one variety, I found different names for what appeared to be the same variety. I still have many of his choicest, that I am not sufficiently

sure of their being true or have in too limited quantity to offer in this catalog, but hope to offer them in the near future, as soon as comparisons can be made, and stock accumulated.

All varieties originated by Mr. Hollis offered herein are to the best of my knowledge true to name, and meet comparisons with others purchased from Mr. Hollis and the descriptions published by the Cornell University Bulletins, where a large number of his varieties were donated for the experimental garden of the American Peony Society.

You may be interested also in the Irises, Tulips, Hyacinths, Crocus and Narcissus offered herein, all of which can be shipped and planted this Fall. Should any of them fail to grow, I will appreciate it if you will advise me, as I want everything I send you to grow and give you good results.

I assure you I will take as much pains in the future as in the past, to send out nothing but first-class stock, and to continue the same prompt, liberal and conscientious dealings. Hoping to receive a share of your orders this Fall, I am,

Respectfully yours,

J. K. ALEXANDER.

ATTRACTION (Japanese Type) PEONY.
\$2.00 each prepaid. (See page 4 for description.)

Peonies

The Peonies are among the noblest and most magnificent of our herbaceous plants. They are the "Queen of Spring Flowers," and are well adapted for massing in beds, and particularly valuable for planting in groups throughout the perennial or shrubbery border, where their brilliant hues add beauty to the entire surroundings. Their requirements are so simple—a good, rich, deep soil; they are perfectly hardy, and produce their wealth of flowers in great abundance.

TIME TO PLANT: Peonies may be planted with perfect safety any time from the middle of August till the ground freezes in the Fall, and in the early Spring until growth has advanced too far. September is the best time, as they then make a root growth before Winter sets in, usually blooming the following Spring.

After being transplanted, Peonies will not produce typical blooms the first season, many fine double varieties throwing single or semi-double flowers, and it is not until the third year that the finest flowers are produced.

They will abundantly repay good care and nourishment; but they resent an over abundance of fresh manure too near the roots. Well decayed manure is far better. A division of the clumps at long intervals, when they become so crowded as to interfere with freedom of bloom; and the soil kept loose and free from weeds, is all that is necessary. Where grown for cut flowers, they should not be disturbed oftener than is necessary; where they are grown for the sale of roots, they may be divided every second or third year. Plant so the eyes will be from two to three inches below the surface. Lay roots flat. Do not stand them on ends.

My prices are for good strong roots that, planted in September, and given proper care, may reasonably be expected to bloom the following Spring. Varieties differ so greatly in habit, that the expressions one-year and two-year, or the number of eyes, convey no meaning whatever; a strong root with one eye often being far better than a weak one with many. My prices are as low as the true varieties, and the size of the roots I send out will warrant. I grow and sell my own roots, and make no pretense of competing with those who have no stock of their own; but buy and sell indiscriminately.

All Peonies shipped prepaid to any part of the world at prices given below.

The Famous Hollis Peonies

One each of the 16 varieties for \$75.00 prepaid.

ADMIRAL DEWEY. (Hollis 1903.) Rose-pink, shaded heliotrope; large, high built flower. Medium to large size. **\$2.50 each.** Recommended.

PEONIES—Continued

ATTRACTION. (Hollis 1906.) (See illustration on page 3.) One of the very finest of the Japanese type, termed "Wonderful Glowing Suns" as they are entirely distinct from the other types, most of them have cup shaped guard petals, which surround a mass of petaloids or filamental petals, like a crown of thorns. They are yet comparatively little known to the general public, and mostly found in large collections of connoisseurs and Peony enthusiasts, where they awaken the admiration of all who behold them for the first time. Very large, medium compact, flat blossom. General impression, crimson pink with golden center, but according to color chart, the guards are clear tyrian rose, center same color as guards, tipped with yellow, which fades more quickly than guards. Pleasant fragrance. Growth strong and healthy, plants erect, medium to tall. **\$2.00 each.** Recommended.

BEAUTY'S MASK. (Hollis 1904.) (See illustration.) A very distinctive crown type blossom, of compact formation and very large size. First impression, bluish white, tinted lilac. According to color chart the guards are clear violet rose, with collar lighter than guards, and distinctive yellowish secondary stamens present. Fragrance pleasant. Blossoming time late. Growth strong and healthy, plant of medium erect habit, tall and open. Buds borne in clusters. **\$3.00 each.** (Stock limited.)

BEAUTY'S MASK. \$3.00 each.

CHRISTINE RITCHER. (Hollis 1907.) A globular compact rose-type bloom of good habit. According to color chart, total effect, violet rose; guards slightly flecked, center clear, color uniform throughout; secondary stamens present. A good medium to small-sized late-flowering variety. **\$2.00 each.**

CONTINENTAL. (Hollis 1905.) A beautiful flat loose semi-double blossom. First impression is a deep lilac pink. Color chart gives it a deep magenta; guards occasionally flecked scarlet, clear, uniform color, throughout. Fades silver tipped, broad petals, imbricated bloom, yellow stamens visible at center. Large size. Habit of plant erect, medium tall, very compact. Blooming time mid-season to late. **\$3.00 each.** Recommended.

EVENING GLOW. (Hollis 1907.) Very large, rose type, flat, medium compact bloom. Hydrangea pink, tipped with white. Imbricated bloom. Fragrance pleasant. Habit medium erect to erect, tall and compact. **\$15.00 each.** (Stock limited.)

FLASHLIGHT. (Hollis 1906.) A very large globular, medium compact to loose bloom of Japanese type. First impression, a crimson pink with golden center. Not as dark a shade as "Attraction." According to color chart, the total color effect is tyrian rose; guards have light streak, center clear. The center is amber yellow shading pink at base. Compact, erect plants of medium height. Early bloomer. One of the best of this type. **\$10.00 each.**

GEORGE WASHINGTON. (Hollis 1904.) A large flat, loose bloom of semi-rose type. One of the brightest dark crimson red varieties. Guards clear, collar same as guards; center clear, uniform color. Stamens intermingled with petals. Blooming time mid-season. Habit of plant, erect, medium, compact, medium height. Growth strong and healthy. A strikingly brilliant color that always attracts the attention of visitors. **\$2.00 each.** Recommended.

GOLDMINE. (Hollis 1907.) Japanese type. Flat loose, medium size. Guards tyrian rose, center same as guards, tipped golden-yellow. Medium tall, erect variety of good habit. Mid-season. **\$10.00 each.**

INNOCENCE. (Hollis 1904.) A medium sized flat compact Japanese type bloom. General impression, pale pink guard with golden center. According to color chart, lilac-rose; guards clear, center canary-yellow fading to cream-white, pale pink at base of stamens. Fragrant. Habit of plant, erect, tall compact. Growth strong and healthy. Blooming time mid-season. **\$5.00 each.**

JOHN HANCOCK. (Hollis 1907.) A very large globular semi-double flower. Its color is one not at all common in Peonies, total effect, being bright rosy magenta; guards streaked light; center clear; secondary stamens absent. Bloom is very noticeably silver tipped. Fragrant. Blooming time mid-season. **\$5.00 each.**

LUCY F. HOLLIS. (Hollis 1907.) Large flat medium compact, rose type blossom. First impression, pale pink and white. According to color chart, lilac white, guards clear, collar same as guards; center slightly flecked scarlet; secondary stamens present. Center of bloom, shaded to pale lilac rose. Fragrance pleasant. Blooming time very late. Strong, healthy drooping habit; plants of medium height. **\$5.00 each.**

MARY A. LIVERMORE. (Hollis 1907.) One of the most beautiful of the rose type. A very large flat medium compact, not differentiated, and entirely transformed blossom. General impression rose-pink and white. Petals are a beautiful rose-pink, passing to silver and white at the tips. Fragrance pleasant. Blooming time mid-season to late. Plants are medium erect, medium tall to tall, compact. Growth strong and healthy. Buds borne in clusters. Highly recommended. **\$15.00 each.**

MARY BAKER EDDY. (Hollis.) Large, compact, globular rose type. Deep rose-pink with silvery tips. Plants of medium height, long strong stems. Mid-season to late. Scarce. **\$10.00 each.**

WELCOME GUEST. (Hollis 1904.) One of the very finest of the semi-double Peonies. A very large loose, bright silvery rose, fading to rose-white. Very strong and healthy, with long stem. Plant erect, tall and medium compact. Buds borne in clusters. Very pleasant fragrance. Mid-season. Highly recommended. **\$2.00 each.**

ALEXANDER DUMAS. (See illustration.) (Guerin 1862). Medium sized, light violet-rose crown; has creamy white collar of narrow petals, mingled with wide center petals; fragrant. Medium height, free-bloomer, early mid-season. Good cut flower variety. Recommended. **50 cents each.**

AVALANCHE. (Crousse 1886.) Medium to large, fairly compact white crown type, flecked with carmine, with cream white collar. Collar well differentiated. Tuft of short, narrow, cream petals in center of bloom. Occasional carmine splash on outside of guards. Odor pleasant. Plant is a medium strong grower of fair habit. Free bloomer in clusters. Mid-season to late. **\$2.00 each**

BARONESS SCHROEDER. (Kelway.) A very beautiful rose type bloom. Form of bloom, globular compact, not differentiated, not entirely transformed. Color, total effect, flesh white fading to milk white; guards clear; collar same as guards, center clear, pleasant fragrance. Mid-season. Tall erect strong grower. **\$2.00 each.**

BARON JAMES DE ROTHSCCHILD. (Guerin 1850.) Medium size, crown type. Guards and very wide crown petals, pale lilac rose; narrow cream white collar petals. Fragrant, vigorous, medium height, free-flowering, mid-season. **50 cents each.** Similar to "Formosa Rosa."

BEAUTE FRANCAISE. (Guerin 1850.) A good medium sized, compact, crown type. General impression, pink and white. According to color chart, pale lilac rose and cream white, with prominent carmine flecks on center petals. Strong vigorous plant of rather dwarf habit, strong medium to short stems. Odor pleasant. Blossoms mid-season. **50 cents each.**

BERLIOZ. (Crousse 1886.) A large, very beautiful compact, rose type blossom. A light carmine-rose or rosy magenta, tipped silver, with golden-yellow stamens concealed in bloom. Color is somewhat splashed on tips of petals fading to nearly white. Guards not differentiated, perfect rose type flower. Plant is a medium vigorous grower, stems good length and medium strong, good habit. Mid-season to late. Good showy variety. **\$3.00 each.** Recommended.

CURIOSITY. (Dessert & Mechin, 1886.) Type bloom anemone. Weak blooms nearly single, while very strong ones may be semi-double. Form of bloom medium globular, compact. Differentiated. Color, total effect violet-red, guards clear, collar same as guards, center clear, with occasional yellow tips. Occasional wide petals appearing in center. Fragrance pleasant, one of the largest of the anemone type. Blooming time mid-season. Habit of plant, erect, tall, medium compact. Blooming habit free. **75 cents each.**

DORCHESTER. (Richardson 1870.) Large, compact, rose type. Pale hydrangea-pink. Fragrant. Medium dwarf. Upright, free bloomer. **75 cents each.**

DUK D'WELLINGTON. (Calot 1859.) Large bomb type. White guards, and sulphur yellow center. One of the finest white varieties. Medium tall, vigorous grower, free-flowering. Very fragrant. Mid-season to late. **50 cents each.**

Peony—Alexander Dumas. 50 cents each.
(One-third actual size.)

EDULIS SUPERBA. (Lemon 1824.) The popular early "Decoration Day" Peony, which is masquerading under all of the following names "Delia," "Edulis Odorato," "Rosa Lilacina," "Mamie Cutler," "Sylvanus," "Glorie de Douai," "Pizano," "Early Rose," "Acanum," "Sainfoin," "Lilacina." Large, loose, flat, crown type. Bright deep mauve pink; color mixed with lilac. Large tuft of wide petals same color as guards, surrounding a few narrow petals in extreme center of bloom prominent collar. Very fragrant. Free-flowering. **50 cents each.**

EUGENIE VERDIER. (Calot 1864.) Type of bloom semi-rose. Form of bloom flat, medium compact to loose, not differentiated. Color, total effect hydrangea pink; guards clear; collar lighter than guards, very slight occasional crimson flecks on center. Color fades to lilac white. Fragrance pleasant. Large size. Blossoming time mid-season. **\$1.00 each.**

FELIX CROUSSE. (Crousse 1881.) Large globular typical bomb type. First impression, brilliant red. According to color chart, tyrian rose. Same color throughout. Compact and globular when first opening; but opens out somewhat with age, exposing linear petals in extreme center of bloom. Odor pleasant. Strong, vigorous grower, with long stem, rather spreading habit, medium height. Free bloomer in clusters. Mid-season. **75 cents each.** Recommended.

FESTIVA MAXIMA. (Mieliez 1851.) Very large globular rose type. Pure white center, prominently flecked crimson; outer petals sometimes, faint lilac-white on first opening. Very tall, strong vigorous grower. The most popular white variety for cut-flowers. **\$1.00 each.** Recommended.

Rare and Selected Peonies—Continued

PEONY—La Coquette. 50 cents each.
For description see below.

JUBILEE. (Pleas.) Unusually large, flat, compact rose type. Uniform bluish-white, with fragrance. Very tall, erect strong grower. A very distinct variety, and one that has many enthusiastic admirers. Mid-season. Very scarce. **\$25.00 each.**

LA COQUETTE. (1861.) See illustration, this page. Large, globular, high crown. Guards and crown light pink; collar rose-white, center flecked carmine. Strong, erect, medium height, free bloomer. Fragrant. Mid-season. **50 cents each.**

LA FIANCEE. (Dessert 1902.) A large white single, showing the golden-yellow stamens prominently in the center. Tall, vigorous grower. Early to mid-season in flowering. **\$2.00 each.**

LA TULIPE. (Calot 1872.) Synonym "Multicolore." Very large, flat, semi-rose type flower. Lilac, white, outer petals striped with crimson. Fragrant. Tall, strong grower, and free bloomer. Late mid-season. Very attractive. **\$1.00 each.**

L'ETINCELANTE. (Dessert 1902.) (See illustration, page 2.) Single, cup shaped flower. General impression, crimson-pink. According to color chart a rich clear carmine, broadly edged with silver. One of the showiest and best Single varieties. **50 cents each.** Recommended.

L'INDISPENSABLE. A variety of unknown French origin sent out from Holland, greatly confused with "Eugene Verdier." The two are entirely distinct however, "L'Indispensable" being very much taller, earlier, has differently formed flowers, very full, globular, rose type. Lilac-white, shading to pale violet rose toward the center. Very late, buds slow to open. **50 cents each.**

MADAME BOULANGER. (Crousse 1886.) Very large, full bloom of rose type. Glossy soft rose-pink shading to lilac, bordered silvery flesh. Late blossoming. **\$3.00 each.**

Rare and Selected Peonies—Continued

SARAH BERNHARDT. (Lemoine 1906.) A very large, beautiful flat, imbricated, compact semi-rose type blossom. Flowers of remarkable size and freshness in huge clusters, and of unusual perfection in form. First impression is an apple-blossom pink, with each petal silver tipped. According to color chart, a mauve rose; guards clear, collar same as guards, center clear. Pleasant fragrance, late blossoming. Habit of plant, medium erect, tall, medium compact, growth strong. **\$5.00 each.** Recommended. This variety should not be confused with Dessert's "Sarah Bernhardt" so-called, as it is entirely different.

SIP TECMAS LIGHTN. (Kelway.) Large, loose flat, semi-double flower. A uniform bright rosy crimson, showing the golden-yellow stamens prominently in the center. Pleasant fragrance. Mid-season. Plants of medium height, strong, erect growth, producing their flowers abundantly. **\$1.00 each.** Recommended.

UMBELATA ROSEA. (Unknown.) Informal rose-type. Guards violet-rose shading to amber-white center. Strong upright grower. One of the most popular. **75 cents each.**

GROUP OF SINGLE PEONIES.

Single Peonies

Single Peonies are becoming more and more popular each year, many people considering them more artistic and beautiful than the double ones. They are exceptionally attractive, and not at all common in the garden, making them especially desirable. They are very airy and stand out prominently, producing their blossoms in great abundance. The great variety of colors, and their fantastic shapes make them ideal for the home garden. For Landscape effects, they are especially valuable, on account of their brilliant colors, and upright habit, and the fact they are not easily beaten down by storms.

I have a very choice collection, principally seedlings, possessing the most delicate and rarest shades; but my stock is insufficient for me to offer them under names, therefore, I offer them under color, and at greatly reduced prices. I have over two hundred different shades in Single Peonies, and can furnish in the following colors.

Large deep rose-pink	\$1.00 each.	Pale pink and delicate shades	50 cents each.
Large-flowered pale pink	1.00 each.	Deep pink shades	50 cents each.
Largest deep crimson shades	1.00 each.	Crimson shades	50 cents each.
White shades, and pure white	1.00 each.	Pink and white shades	50 cents each.
Purple-crimson shades	75 cents each.		

PEONIES UNDER COLOR.

Double deep red	75 cents each.	Double delicate pink	50 cents each.
Double bright red	75 cents each.	Double pink with white center	50 cents each.
Double deep pink	50 cents each.		

Mixed Peonies

Each season, in handling our Peonies, a small amount becomes mixed, many times the very choicest varieties. It does not prove worth while for me to plant these separately, to ascertain their names, so I am offering them at 35 cents each (3 for \$1.00) as long as they last. This mixture is apt to include some of the best new creations not offered in my catalog; and includes both Double and Single varieties.

SPECIAL PEONY OFFER: To give you an opportunity to have a more complete and choice collection of Peonies, I am making the following offer—

I will ship you Three Choice Peonies for \$5.00, transportation charges prepaid to any part of the United States or Canada. These to be three distinct varieties, that I can recommend to give satisfaction. If you have Peonies, and wish different colors from those you now are growing, tell me the colors or the name of the variety if you know it, and I will make a selection of varieties that does not include what you have. I will give you as good a selection and variety as possible, using my best judgment, in an effort to please you.

The Iris

The origin of its name is as fanciful as its color. Pliny wrote that "Iris" is Egyptian for "eye" and that the name Iris signifies Eye of Heaven. The word "iris" is the Greek for "rainbow." In Grecian mythology Iris, the rainbow personified, was one of the minor goddesses and messenger of the greater divinities, particularly of Juno.

FLOWER-DE-LUCE.

Beautiful lily, dwelling by still rivers,
Or solitary mere,
Or where the sluggish meadow-brook delivers
Its waters to the weir.

Thou laughest at the mill, the whirl and worry
Of spindle and of loom,
And the great wheel that toils amid the hurry
And the rushing of the flume.

Born in the purple, born to joy and pleasance,
Thou dost not toil nor spin,
But makest glad and radiant with thy presence
The meadow and the lin.

The wind blows, and uplifts thy drooping banner,
And round thee throng and run
The rushes, the green yeoman of thy manor,
The outlaws of the sun.

The burnished dragon-fly is thine attendant,
And tilts against the field,
And down the listed sunbeam rides resplendent
With steel-blue mail and shield.

Thou art the Iris, fair, among the fairest,
Who, armed with golden rod
And winged with the celestial azure, bearest
The message of some God.

Thou are the muse, who far from crowded cities
Hauntest the sylvan streams,
Playing on pipes of reed and artless ditties,
That come to us as dreams.

O flower-de-luce, bloom on, and let the river
Linger to kiss thy feet!
O flower of song, bloom on, and make forever
The world more fair and sweet.

—Henry W. Longfellow

THE IRIS.

Oh beautiful! beautiful flower!
The ward of the sunbeam and shower
In garments of woven delight,
Of the sunset, Aurora and light.
While over thy beauty there plays
Such blending of color and shade,
Such delicate tintings and rays,
Well becoming a heavenly maid.
Ethereal lovely and sweet,
Thy Presence we joyously greet.
Thy mother, fair Iris, in beauty supreme,
Took all her rich fabrics of loveliest sheen,
The robes of the rainbow, flower garden of air
Of bewildering beauty, resplendently fair,
And made for her child such a dazzling dress
No daughter of royalty e'er could possess."
—Harrison.

The Iris Make Effective Border.

"FRANCIS BENNETT." One of the tallest and most beautiful German Iris.

The Iris Fleur de Lis or Iris Germanica

Familiar and well-beloved flowers of Spring. The purity of their beauty and their haunting fragrance is decidedly refreshing. The winsome, modest beauty of some, forming a striking contrast to their more glorious sisters arrayed in a sheen of iridescent splendor. They fairly outrival the Orchid in the wide range of coloring, which includes yellows, from light canary to deep golden; blues from soft lavender to intense purples; reds, from pinkish mauve to claret and maroon; beautiful bronzes, and pure whites; while some varieties are marked and margined in exquisite harmony.

The Iris grows well in any kind of soil. Succeeds in partial shade but gives the most satisfactory results in a dry, sunny location. Iris Germanica are perfectly hardy and require only ordinary cultivation; growing luxuriantly but respond quickly to any extra care giving larger and more beautiful flowers. They should be planted in the Fall during August, September and October. Plant the bud or crown about two inches below the surface, hoe or cultivate frequently for best results.

In the following descriptions Standards signify the three standards (erect, or upright curling petals); Falls—the three falls, or drooping petals.

My collection of Liberty Iris consists of the very newest and choicest up-to-date novelties and the finest standard varieties.

New and Rare Irises for 1922

I will ship this collection of 9 new and rare Iris prepaid to any part of the world for \$25.00 or with "Francis Bennett" and "Jacqueline" omitted for \$5.00.

Iris of Exceptional Merit

These Iris I have selected as the very cream of my entire collection. They are rare, and of pleasing shades. All are unusual colors, and are not found at all commonly grown. I can highly recommend each variety, and the collection as a whole is the best that I can prepare. Excepting a very few of the newest varieties they are the cream of the Iris on the market at this time, every one is a desirable variety, and worthy of a place in the garden of the most particular.

Tulips for Bedding

The Tulips are universal favorites; the most popular and attractive for early Spring display in the garden or for Winter blooming in the house or conservatory. Tulips can be used in many places in the garden, if one wishes to get the most out of them.

Bold masses of one, two or three solid colors are well known and prove one of the showest and most attractive ways of growing these "Queen of Spring Flowers." In groups, several of one color together, they are very effective, especially along the hardy border, or in beds that will later bloom with Summer colors. It is best to avoid the one-flower spotty effect, as masses of one color make a far more satisfactory showing. For April and May the Tulip adds just the needed bit of color to brighten the entire lawn.

For Spring flowers, plant bulbs outside in October and November. The soil should be thoroughly dug over, and a liberal supply of well rotted manure applied. Fertilizer is also good. For best effect, when planting in small clumps, the bulbs should be set four inches deep and four inches apart, but in large beds or borders a distance of five or six inches between the bulbs can be allowed.

Shipped prepaid to any part of United States or Canada at prices quoted.

Single Early Tulips

One each of the 13 Single Early Tulips listed below for \$1.00 prepaid. 3 of each for \$2.50, 6 of each for \$4.00 prepaid.

Single Early Tulips should be planted about 5 inches deep and from 5 to 6 inches apart. To obtain the best results, both when forcing and when planting in your garden, the very finest select quality, heaviest top-size bulbs should be used.

It is this very scarce quality of bulbs that we furnish exclusively and upon such quality our prices have been based.

ARTUS. A large brilliant flower of dazzling scarlet. Splendid for out door planting in mass or groups where it is very showy. Early flowering, dwarf grower. 65 cents for 10; \$5.00 per 100.

CHRYSOLORA. A large and extra fine pure golden yellow Tulip; desirable for bedding with red and white sorts. Superior to the popularly grown "Canary Bird". Medium height. Early. 60 cents for 10; \$4.50 per 100.

COULEUR DE CARDINAL. A warm red Tulip with a plum-colored bloom on the outer petals. Handsome, globular form and a strong stem that makes it particularly fine for bedding. Creates a rich effect planted among purple pansies. Its place is essentially in the open where it produces an effect both rich and satisfying. Height, 13 inches. \$1.00 for 10; \$7.75 per 100.

COTTAGE MAID. Soft pink, suffused with white. 60 cents for 10; \$5.00 per 100.

JOOST VAN VONDEL, Striped. Deep cherry-red, striped white. Very large flower, medium grower. Early. 50 cents for 10; \$4.50 per 100.

KEIZERKROON. Of a glorious and attractive blending of colors. Scarlet red with broad yellow margin. Large flower that is well formed, and proves to be one of the showiest. A strong sturdy grower and one of the finest tall varieties for bedding. Early to blossom. A favorite everywhere. 60 cents for 10; \$4.50 per 100.

LADY BOREEL or White Joost van Vondel. Best pure white Tulip, exceedingly fine, large flower. Medium height, early. 70 cents for 10; \$5.00 per 100.

PINK BEAUTY. A lovely Tulip, deep rose, with bold, snowy-white flush in outer petals; center white and yellow. A strong growing variety of medium height. Early to flower. \$1.00 for 10; \$7.00 per 100.

POTTEBAKKER SCARLET. Tall early bright scarlet with yellow center. 65 cents for 10; \$5.00 per 100.

ROSE GRIS-DE-LIN. A beautiful and useful variety. White shaded with delicate pink. 50 cents for 10; \$4.00 per 100.

SIR THOMAS LIPTON. A remarkable rich-toned Tulip. Brilliant deep red with yellow base, exquisite cup-shape, of great substance. Valuable both for outdoor planting and for forcing. Height, 13 inches. 90 cents for 10; \$7.00 per 100.

WHITE HAWK. Beautiful pure white of globular form, delicately crinkled petals. One of the finest white Tulips for beds or forcing. Lovely massed against Japanese quince bushes and inter-planted with *Viola cornuta*. Height, 13 inches. 80 cents for 10; \$5.50 per 100.

YELLOW PRINCE. Golden-orange yellow; the best of the low-growing yellow Tulips; sweet-scented. 50 cents for 10; \$4.00 per 100.

Selected Double Early Tulips

With few exceptions the Double Tulips should be used for bedding only, as they do not force so well as the single varieties. While the Double Tulips may not be quite so effective as the single sorts, the flowers are more durable, and, as they bloom later, they prolong the flowering period.

Usually it is advisable to use only one variety of Double Tulips in a bed, rather than to combine them as with the Single Tulips. Beds of different varieties can usually be arranged within a few feet of each other, thus permitting the characteristics of each variety to stand out distinctly, and also to give the effect of one large bed of double flowers.

One each of the Five Selected Double Tulips shipped prepaid for 40 cents. Three of each for \$1.00

ALBA MAXIMA. Flower-stems of medium length surmounted by pure white blooms. 65 cents for 10; \$5.00 per 100.

COUROSNE D'OR. A magnificent full, deep golden-yellow slightly shaded orange. An exceptionally good bedding variety and splendid for forcing and cutting. Height, 11 inches. 90 cents for 10; \$6.50 per 100.

MURILLO. An exquisite soft pink, with white markings. Makes beautiful beds and is the most easily forced. Height, 11 inches. 75 cents for 10; \$5.00 per 100.

TITAN. A most unusual blending of cardinal-red and rare yellow tones. Brilliant, sturdy variety for outdoor planting. Height 10 inches. \$1.00 for 10; \$8.00 per 100.

RUBRA MAXIMA. A large brilliant deep red, of good habit. Exceptionally strong and sturdy grower, flowers last a long time prolonging the blooming period. The best variety for long narrow beds or borders. 50 cents for 10; \$4.00 per 100.

Tulip Mixtures

SINGLE EARLY TULIPS. Finest mixture. 40 cents for 10; \$1.00 for 25; \$3.00 per 100.

DOUBLE EARLY TULIPS. Finest mixture. 50 cents for 10; \$1.00 for 25; \$4.00 per 100.

Giant Darwin Tulips

The Twelve Finest Darwins in Cultivation

The late flowering Darwin Tulip has outclassed all its predecessors in type, style, and beauty, and is at the present time the Queen of the Tulip family. It attains a height of two to three feet, with strong heavy foliage erect and robust stems, terminating in large and massive flowers. The colors range from palest lilac to purplish black, including shades of rose, scarlet, crimson-violet, brown and white; most of the flowers showing a particular satiny effect. They bloom with the Columbines, three or four weeks after the Single Early Tulips. Clumps of them along the edge of shrubbery and in the hardy plant borders are very effective. They are especially beautiful when cut for vases. The Darwins grow tall, bloom for a long time, and last well as cut-flowers. If planted six to eight inches deep and left undisturbed, will flower for many seasons.

Shipped prepaid to any part of the world at prices below. One each of the Twelve Finest Darwin Tulips listed for \$1.00 prepaid.

CLARA BUTT. An exquisite shade of clear pink flushed salmon-rose; a large flower of remarkable beauty. The finest Darwin of its color. 21 inches tall. 60 cents for 10; \$4.50 per 100.

DREAM. A beautiful soft lilac, large flowers of fine form. 26 inches in height. 85 cents for 10; \$6.00 per 100.

FARNCOMBE SANDERS. Fiery rose-scarlet, inside vivid cerise-scarlet with white centre marked blue. Large broad petaled flower of perfect shape. One of the finest sorts, if not the finest of all the reds. 25 inches tall. 80 cents for 10; \$6.50 per 100.

GLOW. (Claude Gillot.) Dazzling vermilion-scarlet, white base with blue markings, large flower of excellent shape. Like a large Poppy, it is so brilliant. 23 inches in height. 85 cents for 10; \$6.00 per 100.

LA CANDEUR (Syn., White Queen.) The nearest to a white Darwin. Delicate opalescent tints and effective black anthers. Height, 27 inches. 65 cents for 10; \$4.50 per 100.

MASSACHUSETTS. Vivid pink with white centre. One of the best of its color for beds; splendid form. Height 26 inches. 85 cents for 10; \$6.00 per 100.

PAINTED LADY. Creamy white, faintly tinted soft heliotrope when open. A very beautiful flower resembling a Water Lily. 27 inches in height. 60 cents for 10; \$4.50 per 100.

PRIDE OF HAARLEM. (See illustration.) One of the largest tulips grown, of excellent form and great beauty. In color a brilliant rosy-carmine suffused purplish blue at base. For groups this variety is unsurpassed; both for its glorious color and its stately habit. 28 inches high. 75 cents for 10; \$5.00 per 100.

PRINCESS ELIZABETH. A charming clear pink flower, deepening in color with age. A beautiful border variety and very conspicuous against dark evergreens. Height 28 inches. \$1.00 for 10; \$2.00 per 100.

SIR HARRY VEITCH. Rich blood red, blue base; large bold flower. Height 28 inches. 70 cents for 10; \$5.00 per 100.

THE YELLOW DARWIN. (Inglescombe Yellow.) Large globular flowers of canary yellow. A splendid novelty. 26 inches in height. 60 cents for 10; \$4.50 per 100.

WILLIAM COPLAND. Well-formed flowers of a fine lilac tone. The best and finest early forcing Darwin Tulip, and therefore invaluable for cutting. Very fine for the border. Height 28 inches. 80 cts. for 10; \$6.00 per 100.

SPECIAL OFFER. I will ship six of each of the Twelve above varieties to your address for \$5.00 prepaid, or twelve of each of the Twelve varieties for \$10.00 prepaid.

Crocus, Spring-Flowering

“The Heralds of Spring”

Crocuses, among the first flowers to bloom in the early Spring, are always the admiration of everyone, especially when planted amid the grass in lawns, their bright flowers producing a fine contrast. They may also be planted among other Spring-flowering bulbs, such as Tulips, Hyacinths and Narcissi, making a splendid show before the other varieties begin to bloom. The results obtained from planting Crocuses in pots or pans for house blooming are very satisfactory. For this purpose it is advisable to use the best. To grow Crocuses in pots, place the bulbs about one-half inch apart and one-half inch deep, keeping them in a cool place until thoroughly rooted, when they may be brought to the light for blooming. In the open, bulbs should be set at least 3 inches deep.

Choice Mixture of Crocus

The following mixture is well adapted for bedding, naturalizing or planting in conspicuous places in lawns. The colors include a complete selection of all the shades and markings, as well as the self colors, beautiful pure whites, white varieties delicately tinted, pale yellows and golden yellows, all shades of blue and purple, together with striped and variegated varieties. \$0.25 per dozen, \$1.75 per 100, \$14.00 per 1,000. 250 at 1,000 rates.

Large-flowering Narcissus "Emperor" one of the best for naturalizing

Narcissi Daffodils and Jonquils

Culture Outside The large-flowered, or the sorts which have large bulbs, should be planted from 4 to 6 inches deep and about 5 inches apart. Planting should be started as soon as possible after October 1st, but bulbs may be planted any time before the ground is frozen too hard to work.

Culture in Pots As a general rule, treat Narcissi the same as Hyacinths. They should be planted about 6 bulbs in a 6-inch pot or pan and put in a dark and cool place where they may develop their roots. Let them remain until January 1st, when they may be removed to a warmer temperature, but kept in the dark until the foliage is about 6 inches high; then bring to the light and allow them to flower.

There is at the present time a very large assortment of Narcissi from which to make selections, and nearly all are of a quality worthy of cultivation. It is almost impossible to list the complete line of these beautiful Spring flowers, but the following few I offer are varieties which I deem will give the best satisfaction.

I recommend the large Double Nosed Bulbs, as they are Mother Bulbs that I can guarantee to bloom. They cost a trifle more, but are twice the value, and I can recommend them as far superior to the ordinary sizes. Bulbs shipped prepaid to any part of the world at prices quoted.

Fifty Assorted Crocus Bulbs for \$1.00, which make a good assortment for planting out for early Spring flowers.

Six Double Narcissi and Six Single Narcissi Bulbs for \$1.00.

Three Hemerocallis for 50 cents, three different colors, clear orange, lemon-yellow and orange-red.

Specimens produced from Exhibition sized bulbs of Hyacinth "Queen of Pinks."

Hyacinths

The Hyacinth is one of the most popular of the Fall bulbs and commands a place in every home and garden. There is nothing more attractive than a well-grown pan of Hyacinths, with their brilliant colors and delightful fragrance, together with their long keeping qualities and decorative appearance. Hyacinths may be bought to bloom about the latter part of January and if taken into the house at intervals, flowers may be obtained until the middle or latter part of April.

Culture in Pots When potting Hyacinths for growing indoors a medium light, well-enriched soil is best suited, placing some broken crock in the bottom for drainage. Set the bulbs about $\frac{1}{2}$ inch below surface of soil, giving them a thorough watering and put them away in a dark, cold place, so that they will not freeze; water them as often as need be to avoid drying. They should be allowed to remain for at least 12 weeks, or until the pot is well filled with roots, when they may be removed to a warmer location, but still kept dark until a growth of 4 to 5 inches is made, then bring to the light gradually until allowed to flower. When a repetition of bloom is required, bring out one or more pots every week or ten days from place where allowed to root.

Outdoor Culture Prepare the beds or borders where they are to be planted with well-rotted manure, having it thoroughly dug over to a depth of at least 12 inches, being assured that the soil is well drained to avoid any decay of the bulbs. Plant the bulbs at least 5 inches deep and 6 apart. As soon as the ground begins to freeze, cover the beds with a litter of leaves, straw or pine boughs to a thickness of 6 or 8 inches. This covering should be removed as early as possible after all danger from severe cold weather is past.

Hardy Lilies

HEMEROCALLIS.

(Yellow Day Lily.)

Popular hardy plants, belonging to the Lily family. They succeed everywhere and should always be included in the border of old-fashioned hardy plants.

From Greek, *hemero*—day, and *kallos*—beautiful; because the beautiful blossoms close at night.

One of the most beautiful and popular of our garden perennials. The Lemon Day Lilies have narrow grass-like foliage, and the flowers have wide funnels. Small plants will flower freely the first year. The plants are all remarkably free from enemies and need no protection even in the severest winters. The flowers are very simple, yet distinct, with a wholesome fragrance. The individual flowers are short-lived, but there is a good succession. They thrive in almost any garden soil, but are most luxuriant along the borders of ponds or moist places, and in partial shade. Excellent for cutting, lasting a long while, and the most backward buds opening in water.

Our stock of *Hemerocallis* is field-grown, and can be depended upon to be true to name.

APRICOT. Rich apricot colored flowers. Plants grow 2½ feet tall. 25 cents each; \$2.50 per dozen.

AURANTIACA. (Carolina Lily.) A beautiful, large trumpet-shaped Day Lily with fragrant orange flowers. One of the most satisfactory; height 2 to 3 feet; flowers in June and July. 35 cents each; \$3.50 per dozen.

FLAVA. (Yellow Day Lily.) The best known variety; very fragrant, deep, clear lemon-yellow; flowers in June; height, 2 to 3 feet. 25 cents each; \$2.50 per dozen.

FULVA. (Tawny Day Lily.) One of the most common varieties. Height, 4 to 5 feet; trumpet-shaped flowers of a bronzy orange-red color; flowers from June to August. 25 cents each; \$2.50 per dozen. One each of the above four varieties for \$1.00 prepaid.

FUNKIA.

(Plantain Lily.)

FUNKIA—Plantain Lily. The Plantain Lilies are among the easiest plants to manage; their broad, massive foliage makes them attractive subjects for the border, even when not in flower. Lavender-blue blossoms in July, August and September. They succeed equally well in sun or shade. 20 cents each; \$2.00 per dozen.

TRADESCANTIA.

(Spiderwort.)

TRADESCANTIA ALBA. An all-round plant for wet or dry, sunny or shady situations, continuing in bloom from early summer until frost. Pure white, three-petaled flowers in clusters on long stems, and long, pointed foliage. Height 2 feet. 25 cents each; \$2.50 per dozen.

YUCCA.

(Adam's Needle.)

YUCCA FILAMENTOSA. A stately foliage and flowering plant equally imposing in solitary or group planting; always conspicuous. The broad, sword-like foliage is evergreen, while in mid-summer it shows great erect, branching stems, bearing a showy display of pendant, creamy white bells. Very fragrant; flowers in July and August. 35 cents each; \$3.50 per dozen; large plants, \$1.00 each, prepaid.

Ornamental and Flowering Shrubs

Shipped by Express at Purchaser's Expense

It is my aim to produce everything in flowering shrubbery that is useful, hardy and worthy of cultivation in our climate. A good shrub collection will present the greatest variety of color throughout the season, both in flower and foliage. Even in Winter it is attractive in appearance from the gracefulness of its stem and branches, and from the color of its bark. When right selections are made it will serve almost as well as evergreens to shut out from view fences or other low unsightly objects.

I carry a complete collection of shrubs for all purposes, and will be pleased to make quotation on all varieties, and make suggestions for laying out your grounds. My landscape department is always ready to furnish suggestions, without expense to you, and it is a pleasure to hear from all who have new beds or grounds to lay out.

In writing, the more complete details you give me, and the more fully you tell me what you like, the better prepared I am to serve you, and make suggestions that will please you.

Evergreen Trees

My Evergreens are all heavily rooted, thrifty specimens, in prime condition for transplanting. They will be found invaluable for lawn decoration, high hedges, the filling out of corners, the hiding of objectionable objects, and many other purposes that will suggest themselves to the owner of the well-kept place. The proper time for transplanting is in the early Spring and Fall.

All Evergreens will be balled and bagged and shipped by express, collect. When crating is necessary, it will be charged for at cost.

Insecticides and Fungicides

For Insect Pests and Fungous Growths

Liquids and Poisons are not mailable. Other Insecticides and Fungicides will be sent by Parcel Post prepaid, at prices quoted.

APHIS KILLER. (Sterlingworth.) For use against most Aphids, Sucking Insects and Spiders on Fruit Trees, Shrubs, Vines, Flowers and Plants. One liquid pint, 60 cents per pint prepaid.

ARSENATE OF LEAD, DRY. Has all the advantages of the paste form, but goes twice as far and is easier to handle. Can be applied like Paris Green with powder guns. Gaining in favor. $\frac{1}{2}$ lb. cans, 40 cents prepaid. 1 lb., 60 cents.

BORDEAUX MIXTURE, DRY. (Sterlingworth.) In a popular and convenient form for immediate use; can be used dry or with water. $\frac{1}{2}$ lb., 35 cents; 1 lb., 50 cents.

BUG DEATH. A non-poisonous powder, sure death to potato, squash and cucumber bugs, currant and tomato worms; safe to handle. Apply dry or in water. 1 lb., 40 cents.

CUT WORM KILLER. (Sterlingworth.) Produces quick results. The most effective remedy yet introduced. It is non-poisonous to the user or animals. It is so alluring to cut worms that they are attracted to it in place of any vegetation. One pound sufficient for 175 plants in hills and for 150 feet of drill. 1 lb., 40 cents.

GYPSY MOTH CREOSOTE. (Sterlingworth.) For painting Gypsy Moth Egg Clusters. One pint cans, liquid, 50 cents per pint, prepaid.

PARIS GREEN. More extensively used than any other poison. Purest of all brands. $\frac{1}{2}$ lb., 25 cents.

PYROX, BOWKER'S. The one best spray for apples, potatoes and general purposes against leaf-eating insects and fungous diseases. This combined insecticide and fungicide is better than Paris Green, Arsenate of Lead or Bordeaux Mixture, and cheaper to use. It sticks to foliage like paint in spite of heavy rains. Mix with cold water and it is ready to use. $\frac{1}{2}$ lb., 35 cents; 1 lb., 50 cents.

SLUG SHOT. A light, composite, fine powder, easily distributed either by duster, bellows, or in water by spraying. Thoroughly reliable in killing currant worms, potato bugs, cabbage worms, lice, slugs, sow bugs, etc. Also strongly impregnated with fungicides. 1 lb. carton, perforated top, 25 cents.

TOBACCO DUST. Valuable as an insecticide and fertilizer. Sure preventive for green fly, and better as a mulch than the stems. 1 lb., 15 cents; 5 lbs., 50 cents.

VERMINE. For Greenhouses, Gardens, Lawns, Tennis Courts and Golf Links. Destroys White Grubs, Cut, Fiel and Wire Worms, Slugs, Maggots, Root Lice and Ants. Directions for application on each package. Applied in watering can or with sprayer. Quarter-pint cans, 50 cents. Half-pint cans, 75 cents; Pint cans, \$1.00; Quart Cans, \$1.50.

WHALE OIL SOAP, with Tobacco. A very effective, simple and cheap preparation for the preservation of trees, shrubs, plants, vines, rose bushes, etc. from the ravages of insects. 1 lb., 40 cents.

DAHLIA LABELS.

Dahlia Labels, Painted, with Wires— $3\frac{1}{2}$ inch, iron wire; 75 cents per 100, prepaid; \$3.00 per 1,000, prepaid. $3\frac{1}{2}$ -inch, copper wire. \$1.00 per 100, prepaid; \$4.00 per 1,000, prepaid.

Dahlia Labels, Plain, with Wires— $3\frac{1}{2}$ inch, iron wire 50 cents per 100, prepaid; \$2.00 per 1,000, prepaid. $3\frac{1}{2}$ -inch, copper wire. 75 cents per 100 prepaid; \$2.50 per 1,000.

WOODEN PLANT LABELS.

For any kinds of plants. These are plain labels to be used either in pots or out of doors, with one end pointed. I am also offering Dahlia labels which are suitable for labeling all kinds of Dahlias.

Plant Labels.—4 inch, plain, 50 cents per 100, prepaid; \$2.00 per 1,000, prepaid. 5-inch, plain, 55 cents per 100, prepaid; \$2.50 per 1,000, prepaid. 6-inch, plain, 60 cents per 100, prepaid; \$2.75 per 1,000, prepaid.
