Nursery Located Six Miles West of Town.

CLARENDON. TEXAS

FRUIT TREES

FLOWERS

SHRUBBERY

INTRODUCTORY—

We carry a full line of the leading varieties best adapted to this part of the state. Our specialties are: Plums, Cherries, Grapes and Berries.

The president and founder of this company has had forty years experience in the business, half of this time being spent in the Panhandle of Texas testing and originating new varieties, many of which bear his name. His advice is frequently sought and this service is given free of charge.

While the founder of this Nursery carefully looks after every interest of the customer, his two sons, who have grown up in the business, contribute largely to the success of the firm, Paul M. Bruce acting as sales manager while A. L. Bruce, Jr. performs the duties of secretary.

Every order is carefully packed and bears the State Nursery Inspector's guarantee to be free from dangerous disease and insect pests, assuring you of a clean, sturdy stock, the most important item in fruit production.

OUR GUARANTEE—

We guarantee our stock to be true to name and as represented.

OUR TERMS—

Our terms are CASH with order thus assuring you of the very best stock at the lowest production price possible. All stock will be delivered free in the Texas Panhandle.

Peaches. 4 to 5 feet .50; 3 to 4 feet .40 Varieties named in order of ripening. Mayflower, Victor, Early Wheeler, Japan Dwarf (flesh blood), Arp Beauty, Mamie Ross, Crawford's Early, Family Favorite, General Lee, Elberta, Salway, Old Mixon Cling, Ringgold, Crimson Beauty and old time Indian Seedling.

Plums. Best varieties of late bloomers and will succeed any where in the state. 4 to 5 feet .60; 3 to 4 feet .50. Varieties: Funk's Early, Six Weeks, Abundance, Norman, America, Gold, Weaver, Compass and Sapa. Valuable information on plum trees is yours for the asking. Write a postal to Commissioner of Agriculture, Austin, Texas asking for Bulletin No. 10 of the 12th Farmer's Congress.

Apricot. 4 to 5 feet .60; 3 to 4 feet .45. Varieties: Early May and Cluster.

Cherries. 4 to 5 feet .75; 3 to 4 feet .60. Varieties: Morello, Early Richmond and Wragg. Compass-Cherry is listed with plums.

My 40 years nursery experience-20 in the Panhandle-has shown me the necessity of growing and planting out good, clean vigorous stock. In my work here I shall see to it that only the best grade of good, sturdy, high producing stock, free from disease is supplied our customers—the kind that will produce the best possible results in your orchard and yard.

No one can give you a better selection than we because we well know from actual experience the drawbacks you must overcome. We know that a satisfied customer is our best advertisement.

Visitors are always welcome at our nursery, and we will do our very best to make your visit both entertaining and instructive.

We issue no big catalog in gaudy colors to mislead the public; we have told you the plain facts in simple words in this price-list and stake our reputation and success on any statement made.

A. L. BRUCE, President
