THE
CRAWFORD
GARDENS

*Peonies
and Iris*

PRICE LIST

MRS. WM. CRAWFORD

1602 Indianu Avenue

LA PORTE, INDIANA

The demand for fine peonies is increasing every year, and as it has been demonstrated that no one can sell all the peonies, we are sending you our price list so that we may receive our share of your orders.

We offer a choice selection to the collector and the novice will be given the benefit of our years of experience in the selection of varieties that will be a joy forever.

While peonies will grow and bloom almost anywhere, they respond to good treatment and favorable locations, and it is well to remember that the peony loves its home and moving it or taking off a root each year for your friends will give you little but blasted buds. Manure should be rotted for at least two years before using it on peonies.

A light covering of dead leaves late in the fall and left to rot is good.

Do not dig around them in the spring until the shoots are four inches tall.

Never use slacked lime—if your soil is sour, apply crushed limestone and work it in with a hoe.

Do not water with a hose when the sun shines on the plants. Do not plant near trees or shrubs or close to the house.

Buy the singles and Japanese, semi-rose and cluster Peonies, as well as the doubles. Buy the different colors and shades of color and when the blooming season gives you a glimpse of Paradise you will forget the work and the price and be ready to order more every year.

Size of roots, three to five eye divisions.

Terms—Cash with order.

MRS. WILLIAM CRAWFORD.

BRAND'S PEONIES.
