BOYCE'S SELECTED HOLLAND BULBS

Sometime, somewhere, some seedsman will have positively the best bulbs possible to grow. For years we have been trying for, and nearing, that goal, and in this list of selected bulbs, we give you the finest bulbs that can possibly be procured. All these bulbs come from the finest grower in Holland, a firm who this year has issued a centenary edition of their catalogue, having been in business one hundred years, and who has after these long years developed the very finest bulbs to be had, rich in coloring, uniform in shape, regular in size, and even in height. They show their breeding at sight, and are guaranteed true to name. They are adaptable to our soil and climate, and at all times come true in period of blooming.

BOYCE'S SELECTED SINGLE EARLY TULIPS

The small number following name is the approximate height of tulip.

 (One each of these eight varieties for 60c)

BOYCE'S BRILLIANT SINGLE TULIP MIXTURE

This mixture is one of many colors and rare varieties, carefully selected and will produce a riot of color from the time the earliest varieties bloom until late in the season.

12 for 50c, 25 for \$1.00, 100 for \$3.50, 1000 for \$30.00

TULIPS FOR POT CULTURE

This is one of the favorite ways of growing tulips, and one can have tulips blooming in the house with very little difficulty. By planting the following varieties at one time, bringing one pot at a time to the light a few days apart, they will bloom over a long period. A pot holding six tulips is the most satisfactory way to plant them.

For forcing indoors we recommend the following varieties:

- BRILLIANT STAR**—Bright vermillion.
PINK BEAUTY—Glowing rose.
THOMAS MOORE—Terra cotta.
KEIZERSKROON—Red and yellow.
PRINCE OF AUSTRIA—Orange red.
WHITE SWAN—Pure white.

A Collection of Six Each of These Six Varieties for \$2.25

BOYCE'S SELECTED DOUBLE TULIPS

The double tulips need no introduction. Many prefer them to the single. Our list comprises the aristocrats of them all.

- MURILLO** (8)—Delicate rose pink, flushed white, good-sized flower; most popular forcing variety.
RUBRA MAXIMA (10)—Dark scarlet, a good bedding tulip.
SALVATOR ROSA (10)—Deep rose, slightly flushed, white large flower.
TEA ROSE (10)—Saffron yellow, flushed salmon, a distinctive shade and beautiful flower.
 12 for 65c, 25 for \$1.25, 100 for \$4.50
BOULE-DE-NEIGE (10)—Pure white, large full flower.
COURONNE D'OR (8)—Deep yellow, flushed orange red.
LA CANDEUR (10)—Pure white, fine for bedding, late variety.
TOURNESOL (8)—Bright yellow, shaded orange.
VAN DER HOFF (10)—Pure yellow; a sport of Murillo.
TOURNESOL (10)—Red with yellow edge.
VUURBAAK (8)—Fiery scarlet, tinged orange when open.

12 for 85c, 25 for \$1.65, 100 for \$6.00
 (One each of these eleven varieties for 50c)

If you intend forcing double tulips, be sure to select

- MURILLO**—Delicate pink.
TEA ROSE—Yellow.
RUBRA MAXIMA—Red.

Six Each of These Three Varieties, \$1.25

BOYCE'S BRILLIANT DOUBLE TULIP MIXTURE

If you like double tulips, and are not particular about color this selection is bound to please you. Many rare tulips not included in our selection of named varieties in the mixture.

12 for 50c, 25 for \$1.00, 100 for \$3.50, 1000 for \$30.00

BOYCE'S SELECTED GIANT DARWIN TULIPS

(The Aristocrats of the Tulip World)

Personally we think it impossible to find anything in the floral kingdom excelling, if equalling, Darwin Tulips in splendor.

The extreme beauty of the Darwin Tulips have made more of an impression on the flower-buying public than any types of the flowers that we know.

These selected strains produce tulips on long, strong, graceful stems. They are truly wonderful, each and every variety a regal beauty of pedigree parentage.

Darwin Tulips are more largely grown every year, and considering the splendid form, exquisite coloring, and the immense size, it is not surprising that these flowers have such great popularity.

Darwin Tulips are late Mayflowering tulips but are quite distinct in style of growth from others of this class. They are very stately in appearance, attain a height of two to three feet and bear on long stem beautiful globular flowers of lasting wax-like substance in a great variety of brilliant colors.

They are exceedingly effective when grown in groups of a dozen or more of one variety in the garden; as cut flowers they are unsurpassed, and in pots these tulips are also lovely and can be successfully flowered in the house if grown in a cool room and not forced into bloom before March. The small figures following name indicate approximate height.

BARONNE DE LA TONNAYE (26)—Bright margined blush rose, long large flower, retaining its color well; a sturdy variety; 26 inches.

CLARA BUTT (21)—A large flower of remarkable beauty, coloring an exquisite shade of soft salmon pink shaded rose, the finest pink Darwin.

DREAM (27)—Large lilac, extra fine color.

ELECTRA (26)—Soft rosy lilac, broadly margined graying white, a pale variety of great beauty.

GRETCHEN (22)—Silvery pale rose, flushed white, inside soft pink; globular on stiff stalk.

KATE GREENAWAY (24)—White with lilac, medium-sized flower of perfect form.

HARRY VEITCH (22)—Rich blood-red, very brilliant in sunlight.

LA CANDEUR (24)—Almost pure-white when matured; very fine.

LA TULIPE NOIRE (24)—Dark maroon black, the blackest of all tulips; very large flower of fine form.

MRS. CLEVELAND (24)—Soft flesh-white suffused old rose, with blue center.

PAINTED LADY (25)—Creamy white, faintly tinted, soft heliotrope, extra fine.

PHILIPPE DE COMMINES (25)—Velvety dark purple, extra fine.

PRIDE OF HAARLEM (25)—Brilliant rosy carmine with blue base; very large flower on tall, strong stem; a wonderful tulip.

REV. EWBANK (22)—Soft lavender violet, darkening towards base of flower; beautiful color.

WM. COPELAND (25)—Best early forcing; comes in January; very delicate lilac; grown out-of-doors; is rosy lilac.

MRS. POTTER PALMER (25)—Deep purple; a very fine tulip for border.

JOSEPH ISRAEL (22)—Rich maroon black, with blue base.

12 for 65c, 25 for \$1.25, 100 for \$4.50, 1000 for \$40.00
(One each of seventeen varieties for 85c)

ANTON ROOZEN (23)—Vivid rose pink, with white base; marked blue flower of great beauty.

BARTIGON (26)—Carmine crimson; extra fine.

EDMEE (25)—Lovely pink; light edge.

EUROPE (22)—Salmon scarlet.

FARNCOMBE SANDERS (25)—Bright scarlet; large, broad-petaled flowers of perfect shape; best among the reds.

GLOW (23)—Vermilion scarlet with blue markings; good-sized flower of distinctive shape.

ISIS (26)—Crimson scarlet; very large flower of striking beauty.

MADAM KRELAGE (28)—Bright lilac rose, inside soft rose pink; long flower.

MASSACHUSETTS (26)—Vivid pink, with white center; large flower of good color.

MILLET (25)—Glossy purple carmine.

PRINCESS JULIANA (27)—Scarlet salmon, peacock-blue center.

PROFESSOR RAUWENHOF (28)—Deep cherry rose with salmon glow inside; enormous flower; superb for border.

SIERAAD VAN FLORA (25)—Large bright red with blue base; well-formed flowers.

WM. PITT (22)—Very dark crimson with purplish bloom on the outer petals; large flower.

12 for 85c, 25 for \$1.65, 100 for \$6.00, 1000 for \$55.00
(One each of fourteen varieties, 90c.)

BOYCE'S GOLD MEDAL DARWIN TULIP SELECTION

A balanced mixture of all of the above collection, and many beautiful bulbs not in our list. Can be planted with wonderful results in perennial borders.

12 for 55c, 25 for \$1.00, 100 for \$3.50, 1000 for \$30.00

MAYFLOWERING TULIPS

(Also called COTTAGE TULIPS)

These late tulips deserve to be planted freely, even if grown for house decoration. Exquisite in form and brilliant in color, they bloom at a time when spring flowers are gone and summer plants are still developing. Especially recommended for the permanent hardy border. Often grow two or three feet high and the bloom presents a striking appearance. They are different in shape than the Darwin and many of the most expensive bulbs are in the Mayflowering class.

GESNERIANA LUTEA—Deep yellow; a flower of perfect form and large size.

GESNERIANA MAJOR (SPATHULATA)—Rich crimson scarlet with blue-black base.

INGLESOMBE YELLOW—Glossy canary-yellow; large globular flower of perfect form; this variety is known as yellow Darwin.

INGLESOMBE PINK—Soft, rosy pink with salmon flush.

INGLESOMBE SCARLET—Intense vermilion red with black base; large, showy flower on a graceful stem.

MOONLIGHT—A soft but luminous canary-yellow; long, oval-shaped flower; superb for any outdoor purpose.

ORANGE KING—Glistening deep orange-shaded rose, inside deep orange scarlet with yellow center; sweet-scented.

PICOTEE—White-margined deep rose, the color suffusing the whole flower as it ages.

THE FAWN—Pale, rosy fawn, changing to cream, flushed blush rose flower of exquisite beauty and graceful stem; a gem among late tulips.

JOHN RUSKIN—Apricot rose, mauve shading; a melody of soft shades.

12 for 65c, 25 for \$1.25, 100 for \$4.50

(One each of ten varieties for 50c.)

LA REVE (HOBBEEMA)—Rosy buff tone with yellow base; (a tulip that has received an award of merit) truly wonderful.

Each 15c, 12 for \$1.25, 25 for \$2.50, 100 for \$9.00.

MRS. MOON—Very deep yellow; reflexed petals.

Dozen 85c, 25 for \$1.65, 100 for \$6.00.

HAMMER HALES—Mahogany brown, edged orange; large, symetrically-shaped flowers.

Each 20c, 12 for \$2.00, 25 for \$4.00, 100 for \$15.00.

BOYCE'S SELECTED PARROT TULIPS

By far the oddest-shaped flower in existence. The colony is exquisite and no garden is complete without a Parrot Tulip collection.

ADMIRAL VON CONSTANTINOPEL—Bright scarlet, shaded orange; very showy.

CRAMOISI BRILLIANT—Rich blood crimson, black markings; very large.

LUTEA MAJOR—Clear yellow, crimson and green blotches and stripes.

MARKGRAAF—Orange shaded and feather reddish purple and green, inside orange yellow.

PERFECTA—Striped yellow and red.

12 for 65c, 25 for \$1.25, 100 for \$4.50

BOYCE'S SELECTED REMBRANDT TULIPS

A new variety of tulips very seldom seen in Seattle or vicinity. We are the first to catalog them. The shading is unusually delicate, mostly of the darker shades. Lovely combinations with flames and stripes.

APOLLO—Rosy lilac and white, deep carmine markings.

MARCO SPADO—Fiery red flames on white ground.

SEMELE—Large flower, vivid rose and white; extra.

VICTOR HUGO—Scarlet and white.

ZENOBI—White tinted lilac-striped maroon.

12 for 85c, 25 for \$1.65, 100 for \$6.00
(One each of five varieties for 35c.)

OLD DUTCH TULIPS

These are odd varieties. We have purchased a small number of each and would recommend that the tulip lover purchase a few of each variety to try out, and if they meet with your approval we will carry a more complete stock the coming season.

BIZARRES—A very old tall-growing variety. The flowers are all striped and feathered brown, maroon or black, on yellow ground. Mixed colors.

Each 15c, twelve for \$1.50.

BYBLOEMENS—Very similar to Bizarres except for the coloring in the base.

Each 15c, twelve for \$1.00.

GREIGII—A tulip species, orange scarlet, black-blotched center.

Each 35c.

VIRIDIFLORAL—Known as a green tulip; pale green, edged creamy yellow; very open flower with narrow petals.

Each 15c, twelve for \$1.00.

RETROFLEXA—Bright yellow, very graceful reflexed petals.

Each 15c, twelve for \$1.00.

BOYCE'S SELECTED BREEDER TULIPS

I don't suppose there are twenty-five gardens in the vicinity of Seattle which have breeder tulips in them, and the only reason is that they are not known. There is no flower in existence more beautiful. To describe them I'll quote the Holland firm from whom I purchased the bulbs listed in this catalog.

Old Dutch Selfcolored Tulips have been neglected for many years. The present taste for artistic colors has, however, called them into prominence once more; nature's happiest color-combinations of purple and bronze, gray and lilac, yellow and bronze, brown and orange, are revealed to us in this group. The flowers are mostly large, but of perfect form, and are borne on tall, strong stems.

ADELINE PATTI—Large flower; deep winered, shaded lilac; fine white base, edged steel blue.

Each 20c, twelve for \$2.00.

APRICOT—Deep bronze orange.

Each 15c, twelve for \$1.25.

BACCHUS—Deep plum purple, with darker bloom on outer petals; large; very fine flower.

Each 25c, twelve for \$2.50.

BRONZE QUEEN—Recommended for pot culture; buff, tinged apricot.

Each 10c, twelve for \$1.00.

CARDINAL MANNING—A curious blend of mauve and rose, which changes to almost pure orange at the extreme edges of the petals.

Each 10c, twelve for \$1.00.

FAIRY—Terra cotta and bronze; large flower.

Each 15c, twelve for \$1.25.

GODET PARFAIT—Deep purple violet with white base.

Each 15c, twelve for \$1.25.

GOLDEN BRONZE—Old gold outside, deep golden bronze inside.

Each 15c, twelve for \$1.25.

LOUIS XIV—A royal flower; purple flushed golden bronze; extra globular flowers.

Each 25c, twelve for \$2.50.

LORD COCHRANE—Dark brown, with narrow margin of bright bronze-yellow; inside warm brown with yellow base.

Each 15c, twelve for \$1.25.

LUCIFER—Large, reddish-orange; fine, large flower.

Each 20c, twelve for \$2.00.

MADAME LETHIERRY—Dark cherry rose, edged and flushed salmon.

Each 15c, twelve for \$1.25.

MARIE LOUISE—Rose shaded salmon, edged bronzy orange.

Each 10c, twelve for \$1.00.

MON TRESOR—Bright carmine.

Each 10c, twelve for \$1.00.

PRINCE OF ORANGE—Terra cotta with orange edge; very fine.

Each 10c, twelve for \$1.00.

ST. JAMES—Dark lilac, edged bronzy brown, with yellow and green base.

Each 50c.

YELLOW PERFECTION—Bronze yellow, shaded deep golden.

Each 10c, twelve for \$1.00.

MIXED BREEDERS—Consisting of many rare varieties not in the above list.

Each 10c, twelve for \$1.00.

BOYCE'S SELECTED HYACINTHS

The first flowers of importance to bloom in the spring. Produce beautiful spikes of bloom strikingly attractive in their richness and variety of color.

CULTURE IN POTS—Use any good, rich soil, mixed with a little sand, potting so as to leave the top of bulb even with the soil. For a single plant use a four or five-inch pot, but the effect will be prettier if three, six or as many as a dozen, are planted together in a larger-size pot, and still more effective

if all are of one color. The soil should be pressed firmly around the bulbs but do not pack it hard underneath. After potting, water thoroughly and place in some cool, dark place for four or five weeks, watering once about every ten days, enough to keep the soil moist.

A simpler and easier way is to plant in water, either in a regular hyacinth vase as described elsewhere in this catalog, or in a bowl supported by stones. In either case it is essential that the plants are placed in a dark place until the roots have had a chance to grow and get established. The exhibition size hyacinth bulbs should be used when they are to be forced.

CULTURE IN OPEN GROUND—Any good garden soil will suit hyacinths and the depths at which they are planted should be determined by the character of the soil. If clay or very heavy, bulbs should not be covered more than three inches; if light, from four to six inches. They should be protected with manure.

ENCHANTRESS—Pale porcelain, tinted lilac and lilac center.

GARIBALDI—Glowing crimson red; early.

GENERAL DE WITT—Very fine light rose, broad spike.

GERTRUDE—Rosy pink; large, compact truss.

GIGANTHEA—Blush pink; small bells; compact, fine spike

GRAND LILAS—Light blue, shaded lilac.

GRAND MATRE—Deep lavender blue; large truss, with dark stem

KING OF THE BLUES—Dark blue; compact truss; extra.

LADY DERBY—Bright rose pink; excellent for pot culture.

LA GRANDESE—Most showy; pure white; fine bells.

LA INNOCENCE—Pure white; large truss; best all-round white hyacinth.

LA VICTOIRE—Bright deep carmine rose; extra for exhibition.

LORD BALFOUR—Lilac, tinged violet; very large bells.

MORENO—Deep pink; large bells.

QUEEN OF THE BLUES—Pale azure blue; large spike.

YELLOW HAMMER—Pure yellow; beautiful truss; early; exhibition size.

Exhibition Size, each 15c, 12 for \$1.75, 25 for \$3.50

Bedding Size, each 15c, 12 for \$1.50, 25 for \$3.00

(One each of sixteen varieties for \$2.25.)

BOYCE'S DOUBLE HYACINTHS

Many think that it is the double hyacinth which is so generally grown, but it is not—the "double" implies the flower being double on the truss. They are more showy and are more scented.

CHESTNUT FLOWER—Rose; large bells.

GARRICK—Bright blue.

GOETHE—Yellow.

ISABELLA—Blush white; splendid spike.

PRESIDENT ROOSEVELT—Deep rose; fine bulb.

Each 15c, 12 for \$1.75, 25 for \$3.50

(One each of five varieties for 75c.)

HYACINTH VASES, EACH 50c

BOYCE'S ROMAN HYACINTHS

Excellent for growing in pots, pans and boxes, flowering earlier than the large hyacinths. Plant a few pots for Christmas flowering; they make excellent gifts.

Each 10c, 12 for \$1.00, 25 for \$2.00.

BOYCE'S SELECTED DAFFODILS

Single Large Trumpet

Daffodils are the most effective of all bulbs for use in shrubbery and for a border in front of massed bushes or hedges. Bicolor Empress, Yellow Emperor and Golden Spur are especially desirable.

Daffodils have undergone marked improvement of late years; their development is indeed noticeable. We have been unceasing in our efforts to produce and give our trade the newest creations, as well as the most highly bred strains of the old.

EMPEROR—A large flower of remarkable substance and more generally grown than any other daffodil. The trumpet is yellow and the perianth deep primrose; broad at the base. Mammoth bulbs—

12 for \$1.00, 25 for \$2.00, 100 for \$7.00.

Second size or single nose—

12 for 85c, 25 for \$1.60, 100 for \$6.00.

Second size or single nose—

12 for 85c, 25 for \$1.60, 100 for \$6.00.

VAN WAVEREN'S GIANT—Produce the largest flower of all; perianth light yellow, trumpet dark golden yellow; a splendid new introduction.

Giant bulbs—

Each 20c, twelve for \$2.00.

KING ALFRED—Tall grower; very large yellow trumpet; a grand novelty; perianth and trumpet of uniform clear, rich yellow; double nosed.

Each 15c, twelve for \$1.50.

GOLDEN SPUR—Best of all yellow narcissus, being pure yellow; fine for forcing.

Mammoth bulbs—

12 for \$1.00, 25 for \$2.00, 100 for \$7.00.

Second size or single nose—

12 for 85c, 25 for \$1.60, 100 for \$6.00.

PRINCEPS—Perianth sulphur yellow; trumpet deep yellow; early.

12 for 85c, 25 for \$1.60, 100 for \$6.00.

VICTORIA (BICOLOR)—Large, durable flowers which stand erect; broad perianth of creamy white; large, broad-fluted trumpet of rich yellow.

12 for 85c, 25 for \$1.60, 100 for \$6.00.

TRUMPET MAJOR—Well formed; pure yellow; fine for forcing.

12 for 85c, 25 for \$1.60, 100 for \$6.00.

SMALL TRUMPET

(The Following Have Large Petals)

BARRI CONSPICUUS—Yellow petals; very fine scarlet cup.

12 for 80c, 25 for \$1.60, 100 for \$6.00.

12 for 85c, 25 for \$1.60, 100 for \$6.00.

SULPHUR PHOENIX—Large, double rose-shaped flower, with sulphur center.

Mammoth bulbs—

12 for \$1.00, 25 for \$2.00, 100 for \$7.00.

Second size, round bulbs—

12 for 85c, 25 for \$1.60, 100 for \$6.00.

SWEET SCENTED DAFFODILS

CAMPERNELLI—Rich yellow; broad petals and cup.

12 for 60c, 25 for \$1.20, 100 for \$4.00.

JONQUILLA—Sweet-scented and rich yellow.

12 for 60c, 25 for \$1.20, 100 for \$4.00.

POETICUS ORNATUS—Perianth pure white, cup yellow, edged deep red. A new race of narcissus resulting from cross between Poeticus Ornatus and the best varieties of Polyanthus narcissus. The plants generally bear from three to four flowers on a stem and are deliciously fragrant.

12 for 85c, 25 for \$1.60, 100 for \$4.00.

ELVIRA—Broad white petals of great substance, and golden yellow cup, edged orange.

12 for 85c, 25 for \$1.60, 100 for \$6.00.

BOYCE'S GIANT CROCUS

This beautiful earliest-of-all flower, comes with the very first of spring, when the garden has no other foliage or flower. A lovely display of brilliant colors makes them a favorite. Splendid for house decoration. Six to eight bulbs should be planted in a five-inch pot. For out-of-doors plant in abundance for a showy bed.

BOYCE'S SHOW MIXTURE—Famous for large blooms.

12 for 35c, 25 for 65c, 100 for \$2.50.

MONTBLANC I—White, pure.

SIR WALTER SCOTT—White striped pale lilac.

LOTHAIR—Extra fine deep purple stripes on white ground.

YELLOW MAMMOTH—Extra large golden yellow.

12 for 35c, 25 for 70c, 100 for \$2.50.

PAPER WHITE NARCISSUS

This beautiful Polyanthus narcissus (meaning Many Flowers) is for pot culture. Can be grown either in pots or in bowls supported by pebbles. The flowers are pure white, sweet scented, and very easily grown.

12 for 75c, 25 for \$1.50, 100 for \$5.50.

FREESIA

When planted early or as late as September 30th, they can be brought into bloom by Christmas. Very easily forced. The flower is a cluster of pure white blossoms, very sweet scented.

12 for 50c, 25 for \$1.00, 100 for \$3.50.

Rainbow Mixture, a splendid strain containing a large number of beautiful colors.

RANUNCULUS

We have secured a few of these bulbs from a private estate and consider ourselves quite fortunate, as the embargo which the government placed on this class of bulbs has made them impossible to get.

12 for \$1.00, 25 for \$2.00.

ANEMONE

ST. BRIGID—Another variety of bulbs which have been off the market for some time. We have only a few hundred. While they last—

12 for \$1.00, 25 for \$2.00.

PEONIES

What is more beautiful than a large-sized clump of Peonies? They do well in any soil. Perfectly hardy, free from disease and insects do not bother them. Our selection of ten of the most popular and reasonably-priced ones will give you an excellent variety.

WHITE

QUEEN VICTORIA—White, bluish tint; early; each 75c.

DUKE OF WELLINGTON—Large sulphur, white later; each \$1.25.

HOW TO GROW ROSES

LOCATION OF BEDS—Roses should be planted where they will be open to sunlight for at least half of each day. In locating beds, avoid trees, shrubbery and shady sides of buildings and fences. This will lessen the danger from insects and diseases.

SOIL—Any good garden soil, which will grow good vegetables, will grow, with proper fertilization, fine roses. The ideal soil is a clay loam of sufficient porosity to permit of ready drainage.

PREPARATION OF BEDS—The beds should not be so large that the roses cannot be reached without treading on them. Long, narrow beds, with one continuous row of plants, are preferable. Spade the soil to a good depth, mixing in good fertilizer as you do so, and the richer the fertilizer the better results you will have. We manufacture a special rose fertilizer. Whalebone meal is excellent.

PLANTING—Most varieties should be planted about 2½ feet apart, when the soil is in a nice, mellow condition. Spread the roots out well and press the soil down firmly. Plant slightly deeper than previously grown and give out good watering if weather is warm and dry.

WATERING—Most people water their roses too much. Once a week is often enough and that early in the morning. Keep the soil mulched or cultivated around the bushes to prevent baking.

MULCHING AND PROTECTION—Only the tenderest varieties need any protection in this country. This can best be supplied by mulching the soil around the plants with a heavy application of cow manure, which should be spaded in the following spring. All plants should have this mulching.

PRUNING—Field-grown dormant roses should be cut back severely when first set out. Subsequent prunings should be tended to in late winter and early spring, when all dead and weak growth should be removed entirely and the strong, live canes should be shortened back to one or two feet in length, according to the growth of the previous season. It may be accepted as a general rule that weak growth should be pruned severely and strong ones sparingly. Climbing roses should not be cut back any more than is necessary to keep the plant in a shapely appearance.

BEST TIME FOR PLANTING—No question is asked more frequently than: "When is the best time to plant roses?" Our dormant field-grown roses can be planted any time that the soil can be worked, between October and April. Probably the best month is March. Most people plant in that month and with best results.

SELECTED FRUIT TREES

THE PREPARATION OF THE SOIL

For fruit trees soil should be dry, either natural or made so by thorough drainage, as they will not live or thrive on a soil constantly saturated with stagnant moisture. It should also be well prepared. On new, fresh lands, manuring will be unnecessary, but on land exhausted by cropping, fertilizers must be applied, either by turning in heavy crops of clover, or well decomposed manure or compost. To insure a good growth of fruit trees, land should be in as good condition as for a crop of wheat corn or potatoes.

THE PREPARATION OF THE TREES

In regard to this important operation, there are more fatal errors committed than in any other. As a general thing trees are planted in the ground precisely as they are sent from the nursery. In moving a tree, no matter how carefully it may be done, a portion of the roots are broken and destroyed and consequently the balance that existed in the structure of the tree deranged. This must be restored by proper pruning, adapted to the size, form and condition of the tree as follows:

STANDARD ORCHARD TREES

These, as sent from the nursery, vary from 4 to 6 feet in height, with naked stems or trunks and a number of branches at the top forming a head. These branches should all be cut back to within three or four buds of their base. This lessens the demand upon the roots, and enables the remaining buds to push with vigor. Cut off smoothly all bruised or broken roots up to the sound wood. In case of older trees of extra size, the pruning must be in proportion; as a general thing it will be safe to shorten all the previous year's shoots to three or four buds at their base, and where the branches are very numerous some may be cut entirely.

STAKING. If trees are tall and much exposed to the wind, a stake should be planted with the tree to which it should be tied in such a manner as to avoid chafing. A piece of matting or cloth may be put between the tree and the stake.

MULCHING. When the tree is planted, throw around it as far as the roots extend, and a foot beyond, five or six inches deep, rough manure or litter. This is particularly necessary in dry ground, and is highly advantageous everywhere, both in spring and fall planting. It prevents the ground from baking or cracking, and maintains an equal temperature about the roots.

AFTER-CULTURE. The grass should not be allowed to grow around young trees after being planted, as it stunts their growth. The ground should be kept loose and clean around them until, at least, they are of bearing size.

BOYCE'S SUPERIOR BRAND LAWN GRASS

This is by far the best mixture of grasses offered for the purpose of quickly producing a permanent lawn. It is prepared from our own formula, and is a careful blending of varieties adapted to producing the thick growth and velvety appearance so much sought after. Each variety of grass in its composition is therefore a special purpose; some for making strong fibrous roots, which take hold upon the soil and keep the turf in place, others of a creeping nature quickly fill up any bare spots which are useful for their color value, and also kinds that are able to withstand the beating down of excessive rains.

Whether you want to seed a small grass plot in your yard, or a lawn of more pretentious size, you should use this grass mixture. One pound is sufficient to cover 250 square feet of ground.

1 lb. 65c; 10 lbs. \$6.00.

BOYCE'S SHADY PLACE GRASS

Usually it is quite difficult to obtain a satisfactory growth of grass under trees and in shady places. For sowing in such places we recommend the use of this special mixture. It will quickly produce an abundant and even growth of beautiful green grass. The grasses used in making this special mixture are only those that are well adapted for growing in shade, and as it blends well with our regular Lawn Grass Mixture it may be used on those portions of the lawn which are shaded by trees, buildings, etc., thus covering the whole area with a rich green sward.

1 lb. 75c; 10 lbs. \$6.50.

BOYCE'S HIGH GRADE FERTILIZERS

The Highest Grade Only. Guaranteed Analysis. Prices Subject to Change. Delivered Anywhere in Seattle, Not Postpaid.

Acid Phosphate—14 per cent available. Used in place of Bone Meal. 10 lbs., 50c; 25 lbs., \$1.00; 100 lbs., \$2.75.

BONE MEAL—Boyce's Rose Grower—Made from Steam Bone Meal which is quicker acting than the untreated stock, a few pounds applied to each bush when planted give wonderful results. 5 lbs., 35c; 10 lbs., 60c; 25 lbs., \$1.25; 100 lbs., \$3.75.

BLOOD AND BONE—The only complete fertilizer coming from slaughter houses. Acts very quickly. 5 lbs., 35c; 10 lbs., 60c; 25 lbs., \$1.25; 100 lbs., \$3.75.

LAWN LIME—Cannot be used as a fertilizer but every lawn should have an application every year. 50 lbs., 75c; 100 lbs., \$1.50.

BOYCE'S LAWN AND GARDEN FERTILIZER (Analysis 2-10-2)—Does the work of twenty times its weight of farmyard manure. Does it better, quicker, cheaper. Contains no weeds, easier applied without wasting. 100 lbs. sufficient for 1000 square feet. 5 lbs., 35c; 10 lbs., 60c; 25 lbs., \$1.25; 100 lbs., \$3.75.

POTATO AND STRAWBERRY FERTILIZER (Analysis 2½-10-4½) — This fertilizer can also be used on lawns which are badly depleted. 5 lbs., 40c; 10 lbs., 70c; 25 lbs., \$1.50; 100 lbs., \$4.25.

ROOT CROPS, Market Gardening—Best fertilizer when people using have had experience. Very powerful and damage can be done when not used in

accordance with directions. 5 lbs., 45c; 10 lbs., 80c; 25 lbs., \$1.75; 100 lbs., \$5.50.

WHALE FERTILIZER—A fish fertilizer very strong in nitrogen and produce excellent results; especially for use on lawns. 10 lbs., 80c; 25 lbs., \$1.75; 100 lbs., \$5.50.

SHEEP GUANO—Dry, finely ground, excellent for digging into rose and flower beds; especially bulbs. Inexpensive and easily handled. 25 lbs., 75c; 100 lbs., \$2.25.

NITRATE OF SODA—Not a substitute for fertilizer, but the cheapest way to apply fertilizer to plants. 3 lbs., 25c; 10 lbs., 75c; 100 lbs., \$5.00.

BOYCE'S PUTTING GREEN MIXTURE

A careful study of the requirements for making the most substantial turf for Putting Greens developed the mixture herewith offered by us for this purpose. The varieties comprising it are of the finest-bladed, low growing and most hardy kinds, and maintain their rich green color throughout the season. We also recommend it for terraces, embankments, and steep slopes.

1 lb. 75c; 10 lbs. \$6.50.

BOYCE'S TERRACE GRASS

Ordinary lawn grass will not hold on terraces and embankments which require a thick turf, composed of varieties which make strong roots to take hold of the soil and prevent washing by heavy rains. Our Terrace Grass is a carefully prepared combination of such grasses as will fill the requirements by making a quick growth of grass which will form a strong mat and present a good appearance. It will grow well anywhere, but it is best to enrich the soil in order to provide nourishment to the young roots and give a vigorous start to their growth.

WHITE DUTCH CLOVER SEED

Excellent for use on lawns, forms a close herbage and remains green throughout the season. We furnish the choicest grade of seeds.

1 lb. 75c; 10 lbs. \$6.50.

BOYCE'S VEGETABLE SEEDS

Boyce's seeds are the result of our supreme effort to please the most discriminating buyers whose standards are high and who expect the best, no matter what the price. We aim to produce only seeds which will be a constant protection, satisfaction and economy to our customers.

We fully recognize the relationship between the quality of seed sown and the results of the crop and have striven to make Boyce's Seeds an infallible index to absolute reliability when dependable seeds are required, when the extraordinary is expected and the unusual demanded.

PERFECTION SPRAYER

The sprayer with a tank made like a steam boiler.

We carry these in both galvanized and solid brass.

The tanks are very strongly riveted and soldered from the inside. The air pump is placed inside, out of the way, and where it is not liable to damage.

The upper end is fitted with a casting, threaded to screw onto a cast brass ring brazed to the top head of the tank. Only one gasket is used. The joint is always tight and the pump is easily removed for filling the tank or for inspection.

Capacity, 4 gallons.

NEW MISTY

A good, strong, reliable sprayer, carefully made from good material. Every one is tested and will give satisfaction. Made with a lock seam without solder.

Capacity, 1 full qt. Price.....50c

MAGIC BUCKET PUMPS

The only bucket pump in which both intake and outlet valves are mounted in one cage and easily removable. This pump has a large capacity, and all work being done on down stroke it is very easy to operate. All parts except handle and foot rest are of brass.

Price, \$6.50

No. 31 IDEAL

This makes a splendid "one-man" outfit. By pumping up about 150 lbs. pressure the machine will operate about 5 minutes without further pumping. All parts coming in contact with the liquid are made of brass, the pump being a seamless brass cylinder. The entire machine is made from the best material and carefully tested.

Capacity, 15 gals.

POULTRY REGULATOR POULTRY REMEDIES

SATISFACTION GUARANTEED OR MONEY BACK

Healthy birds and lots of eggs, the two big things in poultry raising usually follow the use of

Pratts.

Poultry Regulator

It builds up vitality, promotes sound digestion, sharpens appetite, thus helping to put birds in condition for heavy egg laying or winning blue ribbons.

Given to breeding stock it increases the fertility of eggs, strong in vitality, that will hatch chicks that will grow. Use it if you want big hatches of healthy chicks that will develop into husky pullets and cockerels.

PRATTS is the original Poultry Regulator of America and is in use by the most successful poultry raisers everywhere. It will help prevent many of the common poultry ailments. It will greatly improve turkeys, geese, ducks, pigeons and guineas

Get rid of lice on your poultry, in nests, dustbaths, incubators and elsewhere, by using

Pratts.

Powdered Lice Killer

Effective, non-irritating. It quickly kills lice on little chicks, big chicks, setting hens and incubator chicks. It rids horses, cattle, hogs, dogs and cats of lice and destroys ticks on sheep. It destroys many insects and bugs on vines, plants and flowers. Drives out moths from closets, furniture, carpets and clothing.

If poultry keepers would regularly spray the chicken houses, roosts, dropping boards and utensils with

Pratts.

Poultry Disinfectant

most common troubles would vanish.

Three times as powerful as crude carbolic acid. A sure deodorizer, germicide and liquid lice killer.

Use it to aid in the relief of roup, colds and other contagious diseases.

Bronchitis in poultry is fatal in a few days unless promptly checked with

Pratts. Bronchitis Tablets

This is safe and quick and will usually save your birds. Improvement is almost immediate, the suffering being relieved in a short time. This remedy is put up in tablet form so that individual treatment can be given when desired.

A treatment for ailments sometimes mistakenly confused with "cholera," and a "guaranteed or money back" article is

pratts. Special Compound

It is administered in the drinking water and will be found of great value in aiding in the relief of indigestion, sour crop, dysentery, diarrhea and bowel trouble.

Pratt's

Buttermilk Baby Chick Food POULTRY PREPARATIONS

SATISFACTION GUARANTEED OR MONEY BACK

When baby chicks come, keep them healthy and growing and bring even the weak ones along by feeding

Pratt's BUTTERMILK Baby Chick Food

A largely predigested baby food for baby chicks. Guaranteed to raise every livable chick. Helps to prevent leg weakness, white diarrhea, "pasting up" and other chick diseases.

The cost per chick for three weeks is about one cent. If by using Pratt's Baby Chick Food you can save five more chicks out of one hundred than you formerly did, considering these five chicks at three weeks of age as worth at least One Dollar, your food has cost you nothing and you have five more husky chicks. These figures are too conservative as losses ordinarily in many cases average from 25% to 50% for the first three weeks.

Using Pratt's Baby Chick Food means Life Insurance for the baby chicks for the critical first three weeks period, at a very small outlay and guaranteed to give the little fellows a splendid start which will prove the foundation for the development of strong, healthy pullets and cockerels.

In small packages, also 14, 25, 50 and 100-lb. bags.

Don't let ROUP cut your profits. The sure and easy "ounce of prevention" against this dangerously contagious disease

Pratt's ROUP TABLETS OR POWDER

Quickly absorbed by the blood, purifies the system, reduces fever, allays inflammation. The safe remedy for roup, colds, catarrh and many bad weather diseases.

To help protect your chicks from white diarrhea, the most destructive of all chick diseases, we recommend the use of

Pratt's

White Diarrhea Tablets

In the drinking water from the first drink. This remedy has saved many dollars' worth of chicks for poultry raisers. You can depend on it.

Heavy laying hens frequently get into a "run-down" condition. For a quick "bracer" to put them back into form we recommend

Pratt's Condition Tablets

Don't get the idea these tablets are for show birds only, just because they are extensively used by fanciers to keep their exhibition stock in the pink of condition. They are for utility birds as well. Will put flesh on the birds. Help prevent colds, roup and liver troubles.

From gratifying experience poultrymen have learned that the disgusting disease known as Sore-Head or Chicken-Pox can be successfully treated with

Pratt's Sore-Head and Chicken-Pox Preparation

It acts quickly, checking the spread of the contagion and healing the sores. We guarantee Pratt's Sore-Head (Chicken-Pox) Preparation.

ANIMAL REGULATOR COW TONIC Veterinary Preparations

SATISFACTION GUARANTEED OR MONEY BACK

More work out of your horses, more milk from your cows, fatter hogs—these are a few of the benefits which come from using

Pratts Animal Regulator

This is the original and pioneer stock regulator of America.

Tested thoroughly for nearly half a century, its worth is known and recognized by stock owners the world over. Always sold on a guarantee that it will satisfy you or your money back.

Keep your cows thrifty while forcing milk production, without increased cost for feeding or care by giving them

Pratts COW TONIC

Insures healthy appetite, good digestion, increased vigor, greater milk production. A wonderful all-around tonic

Most injuries are healed naturally and permanently and pain quickly relieved by applying

Pratts, Healing Ointment

Also for sores, cuts, scratches, wounds, burns, scalds, barb wire cuts, as well as skin eruptions, eczema and itching. Corns, harness and saddle galls.

As a dip, spray and highly superior germ destroyer and deodorizer for home and farm, use

Pratts, Dip and Disinfectant

Checks contagion, destroys many disease germs, unpleasant odors and helps maintain sanitary conditions for horses, cattle, hogs, sheep and poultry.

Many wounds seem to heal more quickly by being kept dry. These can be perfectly protected from dirt and dangerous infection by covering with

Pratts, Healing Powder

A guaranteed, antiseptic powder that forms a healthy, dry coating over wounds and keeps out the cold. Arrests hemorrhages and checks blood flow. Just the thing for harness galls, sores, cuts and scratches. A valuable remedy for home use. 4 oz. sifting top enameled can.

To quickly rid your stock of these pests use

Pratts

Worm Powder

Specially prepared for destruction of worms in horses, cows, hogs and sheep. Has a strong tonic effect that helps build up and aids the animal to regain strength. Unquestionably the quickest, surest and most thorough worm destroyer procurable.

Pratts, Veterinary Colic Preparation

cannot be excelled.

Equally effective in most cases of flatulent colic (sometimes called bloat) spasmodic colic, gas colic, kidney colic and acute indigestion.

There is no better remedy of its kind for man or beast than

Pratts, Liniment

Can be used either to blister or without blistering by regulating application.

To aid in the relief of rheumatism, lameness, sprains, bruises, contracted muscles, shoulder or stiffl lameness, thrush or canker, sweeney, kicks, quinsy, curb, splint, capped hocks, shoe boils.

Kill the head lice or the head lice will kill your baby chicks. Even if by chance the chicks survive, they are sure to be left in a weakened condition, a prey to many other diseases.

Pratts Head-Lice Ointment

kills the head lice instantly. It soothes, heals, is safe to use on all parasitic diseases.

To help overcome a most troublesome disease and one attended by serious after effects, use

Pratts Distemper and Pink-Eye Preparation

It goes direct to the cause of the disease, purifies the blood, prevents weakening of the internal organs caused by impure blood or poisoning by absorbing the impure matter from the abscesses. It is free from poisons and does its work quickly.

Help cure that "heavey horse." One day is time enough to show improvement with

Pratts Heave, Cough and Cold Preparation

A remedy to aid in the relief of heaves, coughs, colds and catarrh. Restores natural breathing, tones up the digestive organs, strengthens the lungs, soothes the nerves, purifies the blood and allays inflammation

Scaly leg is an annoying disease, impairing vitality and speedily ruining the appearance of affected birds.

Pratts Scaly-Leg Ointment

Usually affords relief in a few days. It kills the parasites which cause the trouble and promotes a new, healthy growth of skin to take the place of the diseased parts.

Milking trouble due to caked bag, sore teats, bunches and inflammation quickly reduced by using

Pratts Bag Ointment

Its penetrating, soothing and cooling qualities give relief. Use it freely for injuries to the udder, caused by scratches, blows or kicks or from being overdistended with milk, when delay may destroy the cow's value as a milker. Satisfaction guaranteed or money back.

Give comfort to horses, cows and all other live stock in fly time by spraying them with

Pratts Fly Chaser

It is guaranteed to be unequalled as a fly repellent. It has long efficiency, will not blister, remove the hair or damage the hide. Insures comfort at milking time for the cow and safety for the milker. Does not taint the milk or gum the hair.

What applies to one business is true of all business. The poultry game at the time this catalogue is going to press is in the dumps, but we have so much faith in a quick recovery back to normalcy that we're afraid to quote prices as far in advance as next spring. If we were to contract baby chicks on today's market we would say they were worth about a thin dime each, but we look for very little changes in price from last year. They won't be any higher except on the extra fine bred stock, and that is what eventually all poultry raisers will demand, but at present there is not enough to go around, hence the extremely high prices. When you get ready to buy be sure to get our prices and list of different producers from whose flocks we get our hatching eggs. We know our stock is surpassed by none and has not many equals.

We have established the most complete cooping arrangement for carrying a complete stock of the different breeds of chickens where they can all be seen at one time. This poultry show, and it can be called a poultry show for we often have fifty birds on display, is going all the time. Come in and select what Cockerels you are going to need. Most any breed or all, at all times. Prices very reasonable. If you are interested in chickens send in your name and we'll mail you literature and price lists whenever we issue them.
