The Van Wert Iris Gardens

Revised Price List

Owing to the numerous inquiries we have received asking if our Surplus Iris Collections would be offered for July and August plantings we have decided to accept orders on all these collections up to September 1st.

We are sorry that we are compelled to withdraw the following varieties from sale for the balance of this season: Queen Flavia, Monspur, Monspur Juno, Monspur Dorothy Foster, Ochroleuca and Mile. Schwartz.

After carefully checking over our stock we find we have a small surplus of some of the newer varieties of Irises which we were not in position to list the first of this season. We are pleased to submit the following list:

Orders for these varieties will be filled in strict rotation as received. In case our limited stock is exhausted on receipt of your order we will notify you promptly, returning the money remitted for any variety we are not able to ship. Weather permitting, shipments will be made the same day received. However, we will be glad to hold any order for later shipment if you should desire.

Shipments are made by express, but on small orders, customers, if they so desire, may remit five cents for each root and the order will then be forwarded by insured parcel post.

We believe that every variety offered is absolutely true to name, but should any prove to be untrue, we will gladly refund the amount paid.
