PRICE LIST

AUGUST 1, 1922

SUBJECT TO CHANGE WITHOUT NOTICE

W*E have to offer some of the finest stock of Fruit Trees we ever grew, about three-quarters being at our old growing station in San Benito County, near Betabel. The balance is growing by the Highway near Brentwood, Contra Costa Co.*

Prospective planters are invited to see the young trees as they are growing in the Nursery.

LEONARD COATES
NURSERY COMPANY

MORGANHILL

CALIF.

THERE is a tendency at the present time to sacrifice everything to commercialism. This is seen in the propagating of only those varieties of fruits which are required by the canner or packer, which often means the loss of what is best in quality.

We believe in California, and in the Homes and Gardens of California; and it has always been our aim to grow an assortment of fruits unexcelled, if not unequalled, in both variety and quality, as well as those sorts specially in demand for market purposes.

Planters will find the best of everything in our lists.

Remember, we are the Pioneers in the propagation of Bud Selected Stock.
