DAHLIAS

1922-23 PRICE LIST

Huntington Beach Nurseries

Joseph Vavra, Proprietor

Seventh and Main
HUNTINGTON BEACH, -:- CALIFORNIA

THE following list contains all the varieties of Dahlias we are offering for sale this season; it is not intended as a complete descriptive catalogue, but simply as a preliminary price list, issued in October, to give all of our customers the opportunity to place their orders early in the season, and thus be assured of having their orders filled in full. A fully descriptive catalogue will be issued about the first of the year if we have sufficient stocks left of enough varieties to justify us doing so.

We have one of the largest and best collections of Dahlias in the West—our planting this season consists of nearly 100,000 plants, one-quarter of these being seedlings grown for new varieties. The roots are grown under field culture, without being forced or over-fertilized; these give very much better results than roots from gardens under intensive cultivation, where the plants are grown especially for flowers.

The prices quoted are either for divisions of field grown clumps or for pot roots, and both give equally satisfactory results; unless advised to the contrary orders will be filled with either at our discretion.

Postage will be prepaid on all orders amounting to \$2.00 or over; on orders for less amounts a charge of 15 cents is made for postage and packing. This does not apply to orders called for at the store.

All roots are guaranteed to be true to name as grown in our fields, and to reach our customers in a growing condition; should any prove otherwise they will be cheerfully replaced.

The following abbreviations are used in the classification:

cac—cactus.
pae—paeony.
pom—pompon.
sing—single.

dec—decorative.
col—collarette.
hyb—hybrid.
show—show or ball.

In many instances the colors are taken from the originators' descriptions, and may vary somewhat in different climates and under various soil conditions.

of

CALIFORNIA VARIETIES

California and other Pacific Coast growers have, in recent years, introduced some wonderful creations in Dahlias.

We are growing large blocks of these and, in order to encourage a more general planting, are offering this season special collections of Pacific Coast introductions at about one-half the catalogue rates.

These collections are put up in amounts ranging from \$2.50 to \$50.00, and include the latest and finest varieties. In ordering simply specify the amount you wish to spend, stating whether you desire the higher or more moderately priced varieties; we will ship you a collection of Pacific Coast Dahlias which will catalogue at least twice the amount remitted; the selection of varieties being left to us.

This Offer Gives You the Utmost Value in Dahlias.
