GERMANTOWN - PHILADELPHIA, U. S. A.

Tree, Shrub and Perennial Seeds

PRACTICAL PLANTING INSTRUCTIONS. Carefully select a location for your seed beds, if possible, from heavy east and northeast winds, and provide for windbreaks in the form of hedges, plantings, fence, etc. The soil should be of a well drained and sandy loam. If the soil is heavy, add sand; if sandy, it can be improved by adding loam to it. Well-rotted manure or compost can be used to enrich the soil, but avoid the use of fresh manure. The soil should be thoroughly spaded or ploughed to a depth of at least one foot and harrowed or raked until the soil is in fine condition.

The seed beds should be three feet wide and sow the seed broadcast; after sowing, cover to the depth of about the thickness of the seed with light sandy soil and gently press the beds with the back of a spade to bring the earth in contact with the seeds. Shade is an essential, as seeds germinate best in darkness; this can be accomplished by either making a lath sash or a light covering with forest leaves or very well-rotted manure. The lath sash is, however, the best. This can be made with building laths made into handy frames and fastened on post about 18 inches above the ground. The leaves, manure or sash should be removed as soon as the seedling appears, as light is needed.

The seeds of Conifers and Evergreen Trees should be sown in the spring and those of a Deciduous nature in the fall. To preserve seeds until the proper planting season: Mix the Conifer and Evergreen seeds in dry sand and the Deciduous seeds, that cannot be planted in the fall, in slightly moist soil; keep the soil in a damp condition until ready to sow in the spring.

Seeds which have hard shells such as *Gymnocladus*, honey and black locust, if not sown in the fall, are best soaked for a day or so and then at once sown.

NOTICE! Every effort is extended to secure and collect only the very best seeds, but it is known that some seeds are occasionally wormy, such as *Quercus* and *Castanea*. This defect, however, cannot be detected until after the worm has eaten its way out, which often is after the seeds have been shipped. While on the other hand, there are trees such as *Liriodendron*, Sugar Maple, etc., that never perfect all their seeds. The imperfect seeds cannot be separated. With this in view and the many known and unknown causes which prevent seeds from germinating, all seeds are sold without any warranty, expressed or implied, as to quality, productiveness or any other matter of any seeds, and in no way will I be responsible for crop conditions. All orders are accepted on these conditions. Should any cause for complaint arise on receipt of shipment notice must be sent within one week of same, otherwise it is understood that the goods are accepted.

CONDITIONS. As I collect but few more seeds than are ordered, all offers and acceptances of orders are subject to the condition of the season's crop, and failing to get the seeds expected or the quantities ordered from my growers and collectors, I reserve the right to reduce proportionately all orders that have been booked.

SHIPPING FACILITIES. Small orders can be sent to all parts of the world by sample post and to nearly every country by parcel post. Shipments are dispatched very quickly owing to my warehouse being closely connected with the forwarders of New York and Philadelphia ports. The cost of postage, bags and boxes is charged additionally.

TERMS. My terms are cash with order or satisfactory reference must be supplied.

RATES. One-quarter pound sold at the pound rate, ten pounds or over at the twenty-five pound rate and twenty-five pounds or over at the one hundred pound rate.

HORTICULTURAL BOOKS

THE NURSERY MANUAL: By Prof. L. H. Bailey. Founded on the Nursery Book, but entirely rewritten and re-illustrated. This book is a complete guide to the multiplication of Plants.....Illustrated, \$3.00

BAILEY'S STANDARD CYCLOPEDIA OF HORTICULTURE: By Prof. L. H. Bailey. By four hundred leading botanists and horticulturists of North America, each selected as the expert of the highest reputation in his specialty, under the general editorship of L. H. Bailey. Six large quarto volumes, over 3,600 pages, 24 full page color plates, 96 special full-page half tones, more than 4,000 text engravings, approximately 3,300 general, 20,000 species and 40,000 plant names. Each State in the Union has separate treatment and there are special articles on Canada; Porto Rico; Hawaii and the Philippines. It is the most modern work of its kind and should be in the library of every progressive horticulturalist. Now complete in 6 Vols. Set \$48.00.

THE SPRAYING OF PLANTS: By E. G. Lodeman. Full directions regarding materials and formulas for spraying, with description of apparatus used. Each flower and fruit with respective forms of blight and insect is discussed individually.....Price \$2.50

THE PRUNING MANUAL: By L. H. Bailey. Revised and reset, this book incorporates the results of fifteen years of experience in pruning. Pruning in all its varied phases is thoroughly handled. Revised and Rewritten. Illustrated..\$3.00

FERTILIZERS

This list of Fertilizers should have your careful consideration in preparing your seed beds.

Prices are F. O. B. Germantown.

BONE MEAL: The Fertilizer for all purposes as it contains two very rich and important plant foods: namely, nitrogen and Phosphoric acid. 5 lbs. \$.30; 10 lbs. \$.50; 25 lbs. \$1.25; 50 lbs. \$2.25; 100 lbs. \$4.00; 200 lbs. \$7.25; ½ ton (1000 lbs.) \$33.50; 1 ton (2000 lbs.) \$65.00.

HUMUS: (Alphano Prepared). Humus should always be liberally mixed with the soil when preparing your hotbeds or seed beds. It lightens heavy soil and makes it more porous. It is especially good for starting seeds and bulbs as it cannot burn or injure the plants. 5 lbs. \$.25; 10 lbs. \$.40; 25 lbs. \$.75; 100 lbs. \$2.50; 500 lbs. \$11.25; 1000 lbs. \$17.00; 1 ton (2000 lbs.) \$30.00.

SHEEP MANURE: (Wizard Brand). A pulverized and natural manure. Nothing surpasses it for mixing with the soil as it has all of the necessary plant food requirements and gives immediate results. 5 lbs. \$.40; 10 lbs. \$.70; 25 lbs. \$1.00; 50 lbs. \$1.75; 100 lbs. \$3.40; 500 lbs. \$15.00; 1000 lbs. \$28.00; 1 ton (2000 lbs.) \$55.00.

INSECT DESTROYERS

Directions on Each Package

ARSENATE OF LEAD: (Powdered). The best spray to destroy leaf chewing insects; also prevents the codling moth destroying Fruit. Per lb. \$.55; 5 lbs. \$2.50; 10 lbs. \$4.50; 25 lbs. \$10.50; 50 lbs. \$19.00; 100 lbs. \$36.00.

BORDEAUX—ARSENATE LEAD: (Paste). Best for mildew, Blight and Fungous diseases. Per lb. \$.40; 5 lbs. \$1.50; 10 lbs. \$2.50; 25 lbs. \$5.25; 50 lbs. \$9.00; 100 lbs. \$17.00.

BORDEAUX MIXTURE: (Paste) Same price as above.

FISH OIL SOAP: (Good's Caustic). Spray Evergreens for the red spider and your trees in summer for scale. An excellent wash and spray for Greenhouse Plants. Per lb. \$.25; 5 lbs. \$.95; 25 lbs. \$4.25; 100 lbs. \$15.00.

KEROSENE EMULSION: (Liquid). Will destroy mild form of scale and soft lice. Per qt. \$.80; 1 gal. \$2.00; 5 gal. \$7.50.

LIME SULPHUR: An excellent winter or early spray for scale or Fungous diseases that attack Fruit Trees, Deciduous Trees and Shrubs. Per ½ Gal. \$.70; 1 gal. \$1.00; 5 gals. \$3.75; ½ Bbl. (30 gals.) \$10.75; per Bbl. (50 Gals.) \$15.00.
