DAHLIAS ARE MY SPECIALTY

GIVE my whole time to the growing of this most popular flower and so can guarantee general satisfaction. I guarantee every bulb I send out to have at least one spout or eye on it at the time it is received by the purchaser; but cannot guarantee bulbs kept in a dry place a long time before planting. Any bulb not satisfactory at the time of its arrival will be replaced, or money refunded, as may be desired by purchaser. Any unsatisfactory bulbs must be returned within ten days from date of shipment, as my responsibility ceases after that time. Any one who ordered bulbs from me at the various places I exhibited flowers last fall may prevent duplication, when they wish to add to their order, by writing me for a copy of their original order. As the demand for certain varieties always exceeds the supply, it will be to the purchaser's interest to order as soon as catalog is received. Purchasers desiring collections made up may have the benefit of my experience gratis. My bulbs are all field-grown; no plants or pot-grown bulbs. When orders are sent, purchasers will please give second choice or state whether I shall substitute similar varieties, or send the order partly filled, with the balance in money. All orders will be shipped, either by Express or Parcel Post, prepaid, about the middle of May. Any one wishing to receive their bulbs before paying for them may have them shipped C. O. D. Parcel Post.
