EVERGREEN NURSERY

VAL KATZENBERGER, Proprietor

FOSTERS, MICHIGAN

Evergreen Nursery, January, 1922

TO MY FRIENDS AND PATRONS:

While preparing this little messenger I am reminded—That your Good Will is my greatest asset.

Your Good Will has helped me to be what I am—To you I owe what I have.

Take everything else from me—but, let me retain Your Friendship and I will be happy. Thank you.

Sincerely yours,

VAL KATZENBERGER,

R. 2, Fosters, Mich.

TO THOSE WHO DON'T KNOW:

My Nursery may be found two (2) miles north of Fosters, on the east side of section thirty (30), Township of Bridgeport, one mile east of Sheridan Road and about seven (7) miles south from the Tower Clock.

POST OFFICE ADDRESS: As I am located on rural route No. 2 out of Fosters, all correspondence should be addressed that way.

TELEPHONE: Call Valley phone X1431.

POSTAGE, EXPRESS OR FREIGHT CHARGES must be paid by the purchaser, if plants are to be shipped that way.

GUARANTEE: I guarantee to furnish live and healthy trees and plants, but can not assume the responsibility that belongs to the purchaser. If plants and trees are not satisfactory when received, they must be returned and money paid for the same will be cheerfully refunded.

CAUTION: On receiving the plants examine the shipment. If they look good to you plant at once or heel them in, in a moist, shady place. If not satisfactory for any reason notify me, or return them, and if I can not furnish what you want I will refund your money without a question.

Causes of failure are varied and many times beyond my observation and control.

See Planting Directions on Page 12

EVERGREENS

American Arbor Vitae, 6-8 feet, with ball and burlap, each.....	\$5.00
Pyramidal Arbor Vitae, 24-30 inch, each.....	2.00
Arbor Vitae, globosa, 12 inch, each.....	1.25
Arbor Vitae, hoovies golden, 12-18 inch.....	1.50
Retinospora Plumose	1.00
Retinospora Plumosa Aurea	1.50
Balsam Fir, 2-3 feet	1.00
European Silver Fir, 2-3 feet.....	1.25

Norway Spruce, 12-18 inch	.75
Norway Spruce, 3 year transplanted seedlings.....	.25
Colorado Blue Spruce, 24-30 inch.....	5.00
White Spruce, 18-24 inches	.75
European Larch, 10-12 inch	5.00

A Serviceable Windbreak

Deciduous Trees

American White Ash, 10-12 feet	1.50
American White Elm, 12-14 feet	2.50
Soft Maple, 8-10 feet	1.50
Soft Maple, 12-14 feet	2.50
Ash-Leaved Maple, 6-7 feet	1.00
Weir's Cut Leaved Maple, 7-8 feet.....	2.00

Trees with Purple Foliage

Swedlery Maple, 6-7 feet	2.00
Prunns Pissardi (Purple Leaved Plum)	1.50

Double Flowering Trees

Prunus Tribola (Double Flowering Plum).....	1.50
Bechtel's Double Flowering Crab	2.00

Weeping Trees

Teas Weeping Mulberry, 6 foot	2.50
Campertown Elm	2.50
Catalpi Bungi, (Umbrella Tree).....	2.50
Wisconsin Weeping Willow, 8 feet	1.50
Russian Golden Willow, 10 feet.....	2.00

American Black Walnut, 8-10 feet.....	1.50
American Black Walnut, 6-7 feet	1.00
American Sweet Chestnut	1.00

Flowering Shrubs

Spirea

SPIREA, VAN HOUTI	\$.50
SPIREA, ANTHONY WATERER, dwarf pink	.25
SPIREA, PRUNIFOLIA, bridal wreath	.50
SPIREA THUNBERGI, fern leaf spirea	.50
SPIREA, golden leaved	.50
ALMONDS, double flowering pink	.75
ALTHEA or ROSE OF SHARON, in variety.....	.75
ALTHEA or ROSE OF SHARON, tree form.....	1.25
BARBERRY THUNBERGI, for hedges	.25
JAPAN QUINCE, flowers very early	
pink or scarlet flowers, eatable fruit.....	.50
GOLDEN ELDER, yellow foliage	.50
CORCHORUS, varigated silverleaf, dwarf with yellow flowers....	.50
DEUTZIA, crenata double pink	1.00
DEUTZIA, gracili, dwarf, double white	.50
FORSYTHEA, fortuna, golden bell	.50
HONEYSUCKLE, Tartarian bush pink	.50
HONEYSUCKLE, Tartarian bush, white	.50

Snowballs

COMMON SNOWBALL	\$.75
JAPAN SNOWBALL	.75
SNOWBALL, High bush Cranberry	.75
LILAC, common purple	.25
LILAC, Persian white	.50
LILAC, Persian red	.50
LILAC, villosa, very late flowering	.75
LILAC, Japan tree lilac	1.00
MOSS LOCUST, purple flowers	.50
RODOTYPUS, white Kerria	.50

Flowering Shrubs

HYDRANGEA, paniculata, grandiflora	.75
HYDRANGEA, pan Tree Form	1.50
HYDRANGEA, Aborescens called Hills of Snow	.50

<p>PHILADELPHUS, called by some Mock Orange, also known as Syringa, by others a hardy bush of large proportions and covered with large white blossoms in late May and early June</p>	
PHILADELPHUS, Grandiflora	.75
PHILADELPHUS, Coronarius, sweet syringa	.50
PHILADELPHUS, Lemoni, slender stems and narrow leaves....	.50
PHILADELPHUS Auria, Golden Leaved Syringa, a dwarf.....	.50
SNOWBERRIES, large white wax-like berries.....	.50
SNOWBERRY, red snowberry or Waxberry also called Indian Currant	.25
CALIFORNIA PRIVET hedge plant	.15
RIEGEL'S PRIVET or flowering Privet	.50
WEIGELIA, rosea pink flowers	.50
WEIGELIA, Eva Radtke crimson	.50

Roses, Hybrid Perpetuals

ULRICH BRUNNER, dark red
FRAU CARL DRUSCHKE, white
HERMOSA, everblooming
PAUL NEYRON, large, deep pink

CLIMBING ROSES

CRIMSON RAMBLER
DOROTHEA PERKINS, flesh pink
LADY GAY
EXCELSA, red Dorothea Perkins
WHITE DOROTHEA Perkins
AMERICAN PILLAR, single yellow stamens
CLIMBING BABY RAMBLER

POLYANTHA OR BABY ROSES

CRIMSON BABY
BABY DOROTHEA, pink
CATHERINE ZEIMET, white
BABY TOUSENDSCHOEN, white, blotches and sprayed pink

Vines and Climbers

AMERICAN IVY, Woodbine	.50
BOSTON IVY, cling to brick walls	.50
CLEMATIS, Jackmani, purple	.50
CLEMATIS COCCINEA, scarlet	.50
CLEMATIS HENRI, white	.50
CLEMATIS PANICULATA, flowers in Fall	.50
HALLS JAPAN HONEYSUCKLE	.50
BIGNONIA, Trumpet Flower	.50
BITTERSWEET, Orange Berries	.50
WISTARIA, purple	.50

MISCELLANEOUS

BLUE MYRTLE, evergreen, per 12.....	\$1.00
CREEPING PHLOX or MOSS PINK, per 12.....	1.00
LEMON LILY, Clump	.50
LILY OF THE VALLEY, a clump	.25
SWEET VIOLETS, double blue, 6 for.....	.50

PLANTING DIRECTIONS

FIRST—Dig deep and wide; keep the good top soil on one side and the poor subsoil on the other.

SECOND—Fill in the hole enough of good soil, that if the plant is set thereon, the crown of the roots is slightly below the level of the ground, according to the size of the plant.

THIRD—Pack good soil around and under the roots—filling all empty spaces.

FOURTH—If the soil be dry, use water freely to moisten and further help pack the soil.

FIFTH—Fill in more soil and tamp.

SIXTH—Fill up with loose soil and level off.

It is needless to say that all mutilated roots should have been trimmed and straggling ones cut back, and the tops cut back to balance the proportion of the tops to the roots.

Aside from a good watering in dry weather—frequent loosening of the surface with the hoe, will be all that is necessary.

Hardy Perennials

NEW ENGLAND ASTERS, blue and purple	.15
COREOPSIS, bright yellow flower on long stems, blooms all summer	.15
DELPHINUM, blue and purple	.25
SHASTA DAISIES, large division	.25
BLEEDING HEART	.25
HARDY CHRYSANTHEMUM, pure white, apple blossom pink, red and yellow	.25
PERENNIAL PHLOX,20c each, 3 for	.50
BRIDESMAID, white with pink center	
STRUTHERS, cherry red	
CLAREMOND, rosy lilac	
BEAUTY, Silvery pink	
LE MAIDI, Violet purple	
INDEPENDENCE, early white	
MRS. JENKINS, late white	
HOLLYHOCKS, double pink, and double yellow.....	.25
GERMAN IRIS, purple, blue, pink and yellow.....	.15

Peonea

PEONEAS

Double red, pink and white flowers, division of 3-5 eyes, each.... .50

GLADIOLI

75 cents per 12

PINK BEAUTY, pink, ruby throat
AMERICA, flesh pink
PANAMA, larger and deeper pink
MRS. FRANCIS KING, scarlet
PRINCEPS, crimson with white blotch
BARON HULOT, blue
SCHWABEN, yellow

DAHLIAS

DELICIA, delicate pink
DEWEY, american beauty
DOUSAN, very large, orange
EURICA, yellow, shaded salmon
LIVONIA, deep pink
SYLVIA, white, shaded lavender
SNOWCLAD, pompon, free bloomer
KRIMHILD, cactus, cream and pink
ZULU, cactus, dark purple

Sprouted tubers, 10 cents each, \$1.00 for 12

STRAWBERRIES

\$6.00 per 1,000. \$1.00 per 100

In Strawberry growing, soil, location, and care form the tripod of success.

SOIL—Any land that will grow a maximum crop of corn or potatoes will also grow strawberries, if the other factors are right.

LOCATION—Low, swampy ground, or dry knolls should be avoided, as Jack Frost will get your berries on the one and drouth on the other.

CARE—Choose a rich piece of ground that has been cultivated for several years and is clear of sods or weeds. Plant early in spring in rows 24 to 30 inches apart for hand culture, or from 3 to 3 ½ feet for field culture, with plants from 12 to 18 inches apart in the row; however, plant close to let the rows fill up with plants early in the season. Keep the ground well cultivated and free from weeds, and later, when the rows are well filled with plants, cut away all surplus runners.

At the approach of cold weather, place a clean mulch between the rows, and after the ground is frozen, over the rows as well. In the spring, if your mulch is thick on the plants remove a part, so that the plants may be able to grow up through, but leave that between the rows, it will keep the ground from drying out, keep out weeds and also keep your berries clean.

SENATOR DUNLAP

This strawberry is so well known that it needs no introduction. It is the standard for quality both for the table and canning. Blossoms are perfect, fruit dark red and firm.

GIBSON AND GLEN MARY

These two varieties have perfect blossoms and produce large quantities of bright colored berries in quality much above the average.

BRANDYWINE

Judging from the demand for this variety it must have some virtue above others. I have never been able to supply the demand for Brandywine berry plants. It is large, firm, dark red and late in ripening. It requires rich soil and good care.

GANDY

A late berry with perfect blossoms. Plant is healthy and free from rust; ripens its fruit to the last; grows and thrives on heavy moist soil.

KELLOG'S PRIDE OF MICHIGAN

Like Gandy and Brandywine this berry is late in ripening, prolonging the strawberry season from 10 days to two weeks. Blossoms perfect, foliage healthy and production of large berries.

FALL BEARING STRAWBERRIES PROGRESSIVE

This is a fall bearing or better said an everbearing strawberry. Some growers have great success with this berry, but it requires very rich soil and the best of care.

RASPBERRIES

CUTHBERT OR QUEEN OF THE MARKET

This is a standard variety and is well known. 50c per 12; \$3.00 per hundred.

GOLDEN QUEEN

A seedling of the Cuthbert with golden yellow fruit. \$1.00 per 12; \$5.00 per 100.

ST. REGIS

A bright red berry of the Cuthbert type and quality, bearing two crops of berries the season, planted one on the old wood in July and another on the new wood in the fall; unlike as with everbearing strawberries, St. Regis requires no extra manipulation to produce the berries. \$1.00 per 12; \$5.00 per 100.

COLUMBIAN PURPLE CAP

A plant of large growth, hardy and productive, bearing great crops of purple berries of large size and fine quality. The plant does not sucker like some of the red varieties, but increases from tip grown plants; for that reason plants are scarce and high in price. \$1.00 per 12.

CUMBERLAND BLACK CAP

The largest Black Raspberry known. The plants are strong and healthy, hardy and productive. the berries are firm, yet juicy and good. 50c per 12; \$3.00 per 100.

BLACKBERRIES

"Snyder" is a dependable kind and the only one I recommend. It is hardy and productive. 50c per 12; \$2.50 per 100.

CERTIFICATE OF NURSERY INSPECTION

No. 2342

This is to Certify, that I have examined the nursery stock of Val. Katenberger, of Fosters, R. D., Michigan, and find it apparently free from dangerous insects and dangerously contagious tree and plant diseases.

This certificate to be void after July 31, 1922.

L. R. TAFT, State Inspector of Nurseries and Orchards.
East Lansing, Mich., Sept. 19, 1921

GRAPES

I have in stock a goodly number of two-year, No. 1 grapevines.

CONCORD

The standard black grape for a large part of the country.

One 25c; 12 for \$2.75; per 100, \$20.00

WORDEN

A better grape for the family fruit garden, at the same price.

MOORE'S EARLY

Fully two weeks earlier than Concord, fine for early and near by markets.

CAMPBELL'S EARLY

A large grape, sweet and good with long-keeping qualities. **Each 40c; 6 for \$2.00.**

AGAWAM

A high quality red grape, large berries, spicy flavor. I have a large number of these. As long as they last I will sell them at **20c each.**

NIAGARA

The standard white grape. **Each 30c; \$3.00 per dozen vines.**

FRUIT TREES

If orders are sent in early, I will be able to supply my friends with such fruit trees as they may want, at the following prices:

PLUMS AND CHERRIES

at \$1.00 each

PEARS

Both dwarfs and standards, **each \$1.00**

APPLES AND CRABAPPLES, each 75c

**I ALSO HOPE TO HAVE IN STOCK A SUPPLY OF CUR-
RANTS AND GOOSEBERRIES.**

I wish to call your attention once more to my **BLACK WALNUT** trees. They are straight and smooth with plenty of roots to support them. The trees are from 6-10 feet tall with well balanced tops.

EVERGREEN NURSERY : : FOSTERS, MICH.
