Swedish Victory Oats

This is an excellent fine oat, grown from imported seed. It is a big plump extra heavy oat, and undoubtedly the best and most profitable for this section. The grain is white, large, very plump and of superior quality. The straw is medium high and very stiff. Oats will do well on good and medium good land. Our stock is limited. We suggest that you order early. Harvest of 1922 yielded from 60 to 80 bushels per acre in New York State.

Per bushel of 32 lbs., with bag
