Apples, Pears, Peaches, Plums, Cherries,
Nut Trees. Quinces, Grapes, Currants,
Gooseberries, Strawberries, Raspberries,
Blackberries, Asparagus and Rhubarb.
Forest and Ornamental Trees, Shrubs,
Vines and Roses.

WHY NOT?

Consider a Fruit Farm, especially an
Apple Orchard. A safe investment, it
will give you a life income and no chance
of reserving a place at a town farm
when old. Fairly sure, plenty of work,
snags included, but interesting, amusing,
and profitable.

Many years of practical experience
in growing fruit for market has condensed
the list to the cream of varieties for
this section.
