112 ARCH STREET

31 OTIS STREET

(First Door From Summer Street)

Boston, Massachusetts

Sole Agents for MONTROSE Nurseries, "Montrose," Wakefield, Mass.

SPECIAL NOTICE.

Parties who do not find it convenient to come to our salesrooms, may order by mail, telephone or telegraph. These orders will be filled promptly and satisfactorily, but all plants are at the purchaser's risk after shipment. We are not responsible for any damage, shortage, or delay after delivery to the express or railroad company.

COMMISSION.—Rates of commission: 20 per cent.; 15 per cent. for selling and 5 per cent. for advertising. Catalogues extra.

TERMS.—Cash on delivery or 30 days if satisfactory reference is given. Claims for reduction not allowed unless made immediately on receipt of goods. Parties consigning goods should ship by freight and notify us.

PACKING is done in boxes and bales, for which a charge is made, sufficient to cover the cost of materials only.

Add postage when sent by parcel post.

Send orders by mail at once—will ship early in May.

All 2-Year Strong Stock Which We Have to Offer

DESCRIPTION OF ROSES

American Beauty. Probably the widest known and most prized cut flower among all American Roses. Deep pink approaching crimson, of exquisite form and fragrance, and large size.

Aviateur Bleriot. Fragrant, medium sized flowers of saffron-yellow, deepening to copper toward the center and borne in clusters.

Baby Dorothy or Pink Baby Rambler—(Levasseur, 1907.) (P.) A prolific producer of pure pink flowers, with all of the good qualities of Crimson Baby Rambler.

Baby Rambler—(Levasseur, 1903.) (P.) The Crimson Rambler in dwarf form, with the same clear, brilliant, ruby-red color. Hardy and healthy everywhere, attaining a height of twenty inches, and blooming in profuse clusters until frost, and all winter if taken indoors.

Baby Tausendschoen—(Welter, 1909.) (P.) Small cupped blooms of veined rose with feathered edges of soft clear pink. A lovely little novelty, each bush forming a symmetrical bouquet.

Baron de Bonstettin. Velvety maroon, large and full.

Betty. A new Irish Rose, radiant with an unusual color, the "ruddy gold" tone of golden yellow overspreading coppery rose.

Black Beauty.—Wonderful shade of crimson; very free blooming; shaped like old Niphetos.

Baroness Rothschild—Light pink, deepening to rose.

Captain Hayward—(Bennett, 1893.) (H. P.) Bright scarlet, very vivid in summer and glowing in autumn. Large, full and bold, the outer petals finely reflexed, while the center petals stand up well, making a flower of striking beauty.

Climbing American Beauty—(Hoopes Bros. & Thomas, 1911.) (H. T. W. H.) A seedling from American Beauty with an admixture of Wichuraiana and Tea blood. Same as its namesake in size, color and fragrance, with the addition of the climbing habit. Better blooming qualities, good foliage, and has proven hardy and withstood heat and drought.

Columbia—(Hill, 1918.) (H. T.) Peach-blow pink, deepening as it opens to a glowing and enduring color, resembling a perfect Shawyer rather than the other parent, Ophelia. A large Rose with long, stiff stems, nearly thornless; absolutely free from mildew and an easy grower. Ophelia X Shawyer.

Crimson Rambler—(Turner, 1893.) (C. P.) The most popular out-of-door climber of today, a rapid producer of long heavy canes, reaching a height of ten to twenty feet in one season; rich clusters of bloom form a mass of vivid crimson beauty until late in the season. Perfectly hardy in the most trying climates, being a native of Japan.

Doctor W. Van Kleet—(Henderson, 1910.) (H. W.) A delicate shade of flesh-pink, deepening to rosy-flesh in the center, resembling Souvenir du President Carnot. High center, petals beautifully undulated and cupped; buds pointed, flowers full and double, open to an immense diameter, sweetly perfumed. Beautiful bronze-green foliage.

Dorothy Perkins—(Perkins, 1902.) (H. W.) Beautiful shell-pink color, which holds for a long time, fading finally to a lovely deep rose; very sweet-scented; fully equal to Crimson Rambler in foliage, hardiness, habit of growth and blooming qualities, while superior in foliage.

Double White Killarney—(Budlong, 1912.) (H. T.) Sport from the Waban strain of White Killarney, with double the petalage, larger size, greater purity of color throughout the year, larger and deeper foliage and more vigorous growth than the parent.

Duchess of Albany or Red La France—(W. Paul, 1888.) (H. T.) Two shades darker than its parent, the Pink La France, of which it is a duplicate in size, form and habit.

Erna Teschendorff—(Teschendorff, 1911.) (P.) Carmine-red sport from and fuller than Mme. Norbert Levasseur, of fiery color similar to Gruss an Teplitz; never blues. Blooms from May to end of October. Claimed the newest and best of the Baby Rambler class; a medal winner.

Exeter—Pinkish red.

Excelsa or Red Dorothy Perkins—(Walsh, 1909.) (H. W.) Intense crimson-scarlet; double flowers in brilliant clusters set in glossy, shining foliage which never mildews nor spots. An intensified Crimson Rambler, which it promises to displace. Extremely vigorous and the handsomest of all red climbers. Gold Medal, A. R. S., 1914.

Fisher Holmes. Magnificent scarlet, shaded with deep velvety maroon; brilliant and large.

Frau Karl Druschki, The White American Beauty or Snow Queen—(P. Lambert, 1901.) (H. P.) An everywhere hardy, vigorous grower, with bright green leaves, delicately veined; splendid long buds and magnificent snow-white blooms with large saucer-shaped petals. Rightly named and deservedly a prize winner. Merveille de Lyon X Mme. C. Testout.

Gardenia—(Souper & Notting, 1900.) (H. W.) Bright yellow, opening cream; early flowering, fragrant and free. Called "The Hardy Marechal Neil." Wichuraiana X Perle des Jardins.

General Jacqueminot—(Roussel, 1852.) (H. P.) A celebrated and much sought after variety, both for planting out and pot forcing; shapely buds and handsome blooms of bright, shining crimson, rich, brilliant, velvety and fragrant. Everybody knows and wants the "Jack" for its all round good qualities.

Gold Finch. Buds rich lemon yellow, open flowers a trifle lighter.

Gruss an Teplitz, Greeting to Teplitz, or Virginia R. Cox—(Geschwindt, 1897.) (H. C.) Hardy in all sections; grows freely to a height of four to five feet; vivid, dazzling, fiery crimson; sweetly fragrant; produces a mass of gorgeous blooms on long stems.

Hadley—(Montgomery, 1914.) (H. T.) Deep, rich, velvety crimson, retaining its brilliancy throughout the year. Well-formed buds and large, double flowers on rapid-growing, long and stiff ends, prolific during all seasons with a fragrance excelled only by American Beauty. Possesses the merits, with none of the defects, of its progenitors, Liberty, General McArthur and Richmond.

Hiawatha—(Walsh, 1904.) (H. W.) Glowing ruby-crimson, with a clear white eye; single flowers in clusters; light glossy green foliage. Crimson Rambler X Carmine Pillar.

Hoosier Beauty—(Dorner, 1915.) (H. T.) Glowing crimson-scarlet with darker shadings; buds of good length and splendid shape; ample petalage with a texture like velvet, opening into a magnificent bloom of dazzling brilliance, fragrant as "Richmond." A strong and clean flower, free from spot or mildew, producing long, stiff stems with a bud on every shoot, needing no pinching. Ships well in close-cut state and is a good summer Rose.

Hugh Dickson—(H. Dickson, 1904.) (H. P.) Brilliant crimson, shaded scarlet; very large and beautiful in form, with large, smooth petals, slightly reflexed on the edges. A vigorous grower, with handsome foliage; very fragrant.

John Hopper. A beautiful dark pink.

Juliet. Old gold and red.

Kaiserin Augusta Victoria—(P. Lambert, 1890.) (H. T.) Pure white, does not pink when planted out; splendid, large buds and superb, full, double blooms, making the choicest cut flowers. A most sturdy grower, blooming steadily from early spring until late frost.

Killarney or The Irish Beauty—(A. Dickson, 1898.) (H. T.) Brilliant sparkling pink with large, pointed buds, broad, waxlike petals with silvery edges and enormous semi-full flowers of exceeding beauty. One of the very finest forcers, and has become the type for a numerous family.

Killarney Brilliant—(A. Dickson, 1914.) (H. T.) Newest member of its family and expected to push Killarney the type off the field. Color varying from crimson-pink in winter to a bright, true pink in hot weather, brilliant throughout the year. As free a producer and a trifle stronger grower than the parent, with nearly double the petalage. First year's sales enormous.

Lady Alice Stanley—(McGredy, 1910.) (H. T.) Outside of shell-shaped petals deep coral-rose, inside delicate flesh, often suffused with bright flesh. A vigorous grower of free branching habit, with beautiful foliage and a large, full, well-formed, fragrant flower on every shoot throughout the season. Gold Medal N. R. S.

La France—(Guillot, 1867.) (H. T.) Silvery-rose, with pink shades and satin-like petals of unsurpassable beauty; large, symmetrical and deliciously fragrant blooms from June until frost; hardy with protection.

Madame Caroline Testout or The Giant La France—(Pernet-Ducher, 1890.) (H. T.) Brilliant satiny-rose, deepening at center and bordered with silvery-rose; immense broad petals and extremely large flowers.

Mme. Edouard Herriot (Daily Mail Rose), coral-red, shaded with yellow and bright rosy-scarlet passing to shrimp red.

Mme. Gabriel Luizet.—Light silver pink.

Magna Charta—(W. Paul, 1876.) (H. P.) Extra large, full flowers of unusual depth; sweet and of fine form; bright rosy-pink in color; one of the hardest and best bloomers.

Margaret Dickson, white with flesh colored center.

Mistress Aaron Ward—(Pernet-Ducher, 1907.) (H. T.) A most striking color—Indian-yellow shading to lemon-cream at edges of petals. Very large and full, of refined form, cupped and very deep, effectively showing the golden heart. Conceded to be a splendid new garden Rose, while latest tests have proven it a valuable addition to the forcing class.

Mistress John Laing—(Bennett, 1887.) (H. P.) A beauty in clear, bright, shining pink; each bud in its long, serrated calyx with adjacent green foliage, forms a dainty and lovely boutonniere; immense, full blooms on long, stiff stems; sweetly scented.

My Maryland—(J. Cook, 1909.) (H. T.) Salmon-pink of a soft and pleasing shade, with long stems and long pointed buds, very full in bloom and exquisitely fragrant. A splendid new forcing Rose, easy to manage and free to grow. Many good judges pronounce it the successor to Bridesmaid or Killarney.

Philadelphia Crimson Rambler—(Conard, 1902.) (C. P.) Deep, rich crimson, brighter and more intense than the old Crimson Rambler, with larger, fuller and more lasting flowers in panicles; extremely vigorous and productive, one of the hardiest, and entirely free from mildew.

Ophelia—(H. T.) Brilliant salmon-flesh shaded with rose on outer edges of petals, with a heart of glowing peach-pink and orange-yellow blendings, all passing finally to lighter shades; fragrant as Richmond, faultless form in bud and flower; erect habit, stiff, long stems; free and continuous in growth and bloom; handsome, bright foliage; immune to mildew and black spot; possesses every requisite of a perfect forcing Rose.

Orleans—(Levavasseur, 1909.) (P.) Brilliant geranium-red, suffused rose and deep cerise. Bushy habit, grows and blooms freely; florets not crowded, but of beautiful arrangement and most lasting quality with their stiff, paper-like texture. The showiest and prettiest of the pink "Baby" class. Awarded Gold Medal.

Paul Neyron—(Levet, 1869.) (H. P.) The largest of all Rose blooms; bright, shining pink, clear and beautiful; very double and full; finely scented; blooms first season and all summer. Grows to a great height in a single season and stems are almost thornless.

Radiance—(Cook, 1909.) (H. T.) Brilliant rosy-carmine, shaded with rich opaline-pink tints in the open flower, which is large, full, of fine form, with cupped petals. A constant and fragrant forcer, producing strong, upright canes and an excellent keeper in summer. Cardinal X Enchanter.

Red Radiance—(Gude, 1916.) (H. T.) A bright, cheerful and even shade of pure red; size, foliage, growth and habit same as in the parent "Radiance"; a splendid forcer as well as an admirable nursery Rose. Ours is the true Washington sport.

Richmond—(Hill, 1905.) (H. T.) Scarlet-crimson of a most brilliant hue; long pointed buds and beautifully striking flowers on tall, erect stems; handsome dark foliage; a rapid grower and constant producer. One of the most successful new forcing Roses of recent years, a seedling from Lady Battersea.

Soleil d'Or—A cross between Persian Yellow and Antoine Ducher. It is a fine, hardy outdoor Rose, showing much the same character as the Hybrid Perpetuals. Especially valuable because of its rare color; gold and orange yellow, varying to ruddy gold suffused with Nasturtium red.

Tausendschoen or Thousand Beauties—(Schmidt, 1907.) (C. P.) Varying shades from a delicately flushed white to a deep pink or rosy-carmine, in bright clusters of blossoms almost covering the handsome pale-green foliage. A vigorous, hardy climber with few thorns, of German origin.

Ulrich Brunner, or Hardy American Beauty—(Levet, 1881.) (H. P.) Brilliant cherry-red flowers of immense size and bold globular form. Seedling of Paul Neyron, strong and disease resisting.

Wellesley—(A. Montgomery, 1905.) (H. T.) Bright, clear salmon-rose, reverse of petals silvery-rose; retains the form of Liberty and the fullness of Bridesmaid, its parents; tall, stiff canes; vigorous, healthy and free.

White Dorothy Perkins—(Cant, 1908.) (H. W.) A pure white sport from Dorothy Perkins, with which it is identical in foliage and habit. A valuable addition to the hardy climber class.

White Killarney—(Waban, 1909.) (H. T.) A pure white sport from the pink parent, the newest thing in a forcing Rose, admittedly a strong competitor of The Bride. Our stock is of the true Waban strain.

Lot No. 1

ASSORTED ROSES (2 years old)

Distinct Varieties, to be tied in bundles of 5, each variety separate. 45 cents each

200 Frau Karl Druschki	20 Paul Neyron
100 Ulrich Brunner	40 Soleil d'Or
50 Mrs. John Laing	100 American Beauty
50 Mme. Gabriel Luizet	50 Excelsa
