TRADE LIST OF GIANT PANSY SEED CHARLES FROST

1922

KENILWORTH, NEW JERSEY
PANSY SEED SPECIALISTS

KENILWORTH GIANT PRIZE

12. KENILWORTH GIANT PRIZE. I have improved this strain by selecting and saving seed from the best shaped flowers of the most gorgeous color for many years. It is of the blocked masterpiece type. The plants distinguish themselves by their robust growth and healthy-looking foliage; they are deep rooted and stand the hot, dry weather better than most other varieties. The large flowers on long, thick stems, are carried well above the foliage in the most graceful manner, are of enormous size and of good substance. The petals are exceedingly broad and cover each other in such a manner as to make the flowers appear almost double. The border of each petal is very conspicuously undulated and curled, the gorgeous and varied colored blossoms of velvety texture, perfect form and giant size, frequently measuring $3\frac{1}{2}$ inches in diameter; the ground color such as yellow, white, deep orange, mahogany brown, bronze blue, and endless variations. Most petals are beautifully marked with a large blotch. They are specially fine for planting under glass or outside for cut flowers at all seasons. Trade pkt. 60c; $\frac{1}{8}$ oz., \$1.35; $\frac{1}{4}$ oz., \$2.60; $\frac{1}{2}$ oz., \$5.00; 1 oz., \$10.00.

WHAT A FEW YEARS HAVE ACCOMPLISHED

Thirteen years ago no one had heard of the **Kenilworth Giant Pansy Seed**. Today it is sent to all parts of the United States and Canada where Pansies are grown. **There is a reason.**

We receive annually hundreds of unsolicited testimonials written by disinterested customers. They mean something. We can print only a few. They all tell the same story. We will be pleased to show the original letters, extending back ten years, and can in all probability furnish you with names of satisfied customers in your vicinity.

If you have any doubt about the quality of the seed that I offer, please read the following extracts that have been taken from letters that have come to me voluntarily in the regular course of my business. Some of them have bought my seeds for twelve years and know what they are talking about. Why don't you profit by their experience and try the Kenilworth Giant Pansy Seed? Try it with your favorite brand. I am sure YOU will be a regular customer afterward.

THE KENILWORTH GIANT PANSY SEED. I take great care to improve the stock constantly. I give my entire time to the pansy seed business. Every year I try all the novelties of known merit and those that prove extra good are added to my list. It is a well known fact that American carefully grown Pansy Seed will produce larger flowers than European seed.

In sending you my list of Pansy Seed, I take the opportunity to thank you for your patronage and constantly increasing trade. I shall strive to merit its continuance by furnishing, as in the past, only the very best seeds. All my seeds are tested by myself before putting up. I solicit a trial order and am confident that it will be to your advantage as well as mine. I know that my seeds will give much satisfaction, and will result in my receiving your regular orders in the future.

NON-GUARANTY—Most of the failures with seeds are due to causes entirely beyond our control, such as unfavorable weather and soil conditions, too deep or too shallow planting, etc., which renders it impossible for us to guarantee success, and although we take all possible care to supply only such seeds as will, under proper conditions, produce satisfactory results, we still give no warranty as to description, quality of any of the seeds sent out, and will not be in any way responsible for the crop, and every order will be executed on these conditions only. It must, however, be plain to everyone who gives the matter the slightest thought that it is to our best interest to send out only such seeds as will not only grow, but prove true to name and description.

I do a strictly Cash Business, regardless of the responsibility of the customer.

Remittances must accompany all orders, and may be made by P. O. Orders, Express Orders or Draft. If you must send stamps, send 1c stamps.

Sign your name, postoffice, county and State plainly.

**NEW EARLY FLOWERING OR WINTER
BLOOMING GIANT PANSIES**

NEW EARLY-FLOWERING OR WINTER-BLOOMING—An entirely new and distinct strain of pansies. The main advantage of these new pansies is the extreme earliness of flowering. Sown at the same time as other pansies, they begin flowering the early part of March, or as soon as the snow is off the ground, many times having four or five large flowers to a plant, when all other pansies are only showing buds. The flowers are large, well formed, and fragrant.

4. **JOVE.** Lower petals purple-violet, upper ones azure blue.

5. **MARS CORNFLOWER.** Blue.

6. **NORTH POLE.** Pure snow white.

7. **WORDEN.** Quite black.

8. **HELIOS.** Pure yellow.

14. **WINTER SUN.** Golden yellow, with dark eye.

15. **ICE KING.** Silvery white, with dark eye.

16. **CELESTIAL QUEEN.** Light or sky blue.

17. **CHARM OF MARCH.** Dark velvety purple.

18. **A MIXTURE** of the 9 preceding colors and other shades.

Trade Package, 35c.; $\frac{1}{8}$ oz., 75c.; $\frac{1}{4}$ oz., \$1.35; $\frac{1}{2}$ oz., \$2.60; 1 oz., \$5.00.

19. **Trimardeau Giant Pansy**, improved; it is far superior to the ordinary run of Trimardeau that is sold. It is a very showy class of vigorous, compact growth. Flowers of enormous size in all the self colors, blocked, striped, margined, etc. It is very doubtful if any other pansy will give as good satisfaction as the improved Trimardeau for all general purposes. Trade Package, 35c.; $\frac{1}{8}$ oz., 75c.; $\frac{1}{4}$ oz., \$1.35; $\frac{1}{2}$ oz., \$2.60; 1 oz., \$5.00.

Martinsville, Ind., July 7, 1921.

We trust and expect this seed to be as satisfactory as it has been in the many years we have been purchasing it from you. Wishing you the greatest measure of success, I am, yours very truly,
NIXON H. GANO.

Eureka, Ill., July 15, 1921.

Here is a little order for pansy seed. For the last two years I have been sadly disappointed with poor seed, so I come back to *Frost* and expect the very best in the world. I expect to raise plants just as good as the best on earth from the seed you send me. I have tried them before and that is why I think this way. Please get them out at once. I will order more in August.

F. L. WHITTINGHAM.

Catskill, N. Y., July 18, 1921.

I take great pleasure to inform you that your strain of pansies is the best of any that I have ever grown and cannot help but give entire satisfaction to any grower of the flower. Very truly yours,
HENRY HANSEN.

Shipley Street, Woodhaven, N. Y., June 23, 1921.

I had some of your seed two years ago and sowed them in the open. In July they produced the best pansies ever seen in this locality for size and color blooming. Late in the summer of the year they were planted and all summer the following year the variety was wonderful.

Yours very truly,
ALBERT E. BALL.

Robinson, Ill., August 26, 1921.

DEAR SIR: I want some more pansy seed like I got from you last year. They were mixed and the largest I ever saw.

ERNEST F. OLDHAM.

Harriman, Tennessee, August 31, 1921.

Mr. Charles Frost:

DEAR SIR: We want to add our commendation to those already sent you by those who have grown your pansy seed. We have raised pansies in Tennessee for the last thirty-three years and were so successful that we named our little place Pansy Hill. But not till three years ago had we reached what seemed to us the climax, for at that time we discovered your seed. Since then Pansy Hill has been the showplace, the Mecca of all pansy lovers. Surely such colors, such combinations of colors and markings combined with such sturdy, thriftily growth cannot be excelled. Long may Charles Frost and his pansy seed flourish to beautify and make glad the early spring gardens.

Yours,
E. J. BRIDGE, Pansy Hill Farm.

Carmel, Maine, June 22, 1921.

For the third time we are ordering our pansy seed from you. They give us good germination and your stock is certainly producing fine plants.

Yours truly,
E. B. HARVEY AND SONS.

Olney, Ill., June 14, 1921.

Your pansy seed sure was O. K. You can always depend on us for an order. Kenilworth always.
