Number of Trees and Plants to an Acre.....	32
Fruit Trees and Small Fruits.....	32

Prices. The prices given in this list, we believe, represent a fair value for such high grade stock as we always endeavor to supply.

CONDITIONS OF SALE

Terms. Cash with order or a satisfactory reference from strangers.

Postage stamps will be found a convenient method of remitting for small amounts and can be used by us to advantage.

When goods are to be shipped via Parcels Post, please add cost for postage.

A discount of 5 per cent is allowed when cash accompanies order.

Note. At the prices given in this list we will guarantee to furnish strictly first-class stock of the sizes and ages named, but as our prices are low, and as it is impossible for us to guarantee the life of a plant after it leaves our hands, we cannot replace free any stock which may fail to grow. If a guarantee for one year is desired, add 20 per cent to the list price.

We give no warranty expressed or implied as to description, quality, productiveness or any other matter of any Nursery Stock, Bulbs or Plants we sell. No complaints will be considered that are not made within five days after receipt of stock.

THE NEW ENGLAND NURSERIES CO. Bedford, Mass.

Time for Planting. All hardy trees and plants of any description can be safely transplanted in the Spring as soon as frost leaves the ground, and usually as late as about June 1st. Also during the period beginning September 15th and continuing until the ground becomes frozen. Evergreen trees and shrubs can further be safely handled during August.

While we give our best efforts to produce and furnish high grade trees and plants, and do not attempt to pose as landscape architects, we are always happy to give such assistance as we can to customers in making the proper selection of what to plant, and advice as to the care of plants, and we respectfully invite correspondence pertaining to problems of interest to planters.

NEW ENGLAND NURSERIES CO.

BEDFORD, MASSACHUSETTS

Pruning. Roses should at once after planting be cut to within 4 to 5 inches of the ground. From deciduous trees and shrubs, one-third to one-half of the growth of the previous summer should be removed.

The sizes of trees and shrubs named in the following pages are such as are usually preferred by planters. If desired we can generally supply larger or smaller sizes and will always quote prices on application.

All stock selected and marked by customer at the Nursery will be charged for in accordance with its value. Prices in this list will not govern such stock.

It is our desire that all stock purchased of us shall give the best of satisfaction and our interest does not cease when goods are shipped or payments collected. We ask that all will feel free in calling or writing us pertaining to any assistance we can give, —not only before an order is given, but afterwards as well.

Facilities are maintained for supplying plans and estimates for all kinds of landscape work.

Location of our Nurseries. Located 15 miles from Boston, 12 miles from Lowell, 3 miles from Concord, and 5 miles from Lexington, our Nurseries can be reached via Boston & Maine trains from the North Station, Boston, or via electric cars from Arlington Heights. The cars connecting Arlington Heights and Concord pass directly through our property.

Visitors are always cordially welcome, but we ask the indulgence of parties calling during our busy Spring and Fall months, when it is quite impossible for us to devote as much time as we should wish in showing our Nurseries. The most courteous treatment possible, however, will always be given to those who favor us by calling.

The stock offered in this list is, we believe, absolutely free from all injurious insects or diseases, and all shipments are accompanied by **CERTIFICATE OF INSPECTION**, both State and Federal.

Reliably Hardy Roses

Cultural Directions

Planting. Dormant plants may be set out during April and May, or in October and November. The plants should be inserted into the ground so deeply that the collar is at least four inches below the surface, and after carefully spreading the roots, the soil should be firmly compacted.

Watering and Mulching. At once after planting apply a thorough watering, and during a dry season, a mulch with strawy manure will prove beneficial.

Pruning. All roses, even the Climbing varieties, should be severely pruned back at once after being planted, and regardless of the size of the plants, each shoot should be cut back to within from three to five buds or eyes from the ground. Failures of Roses to succeed after transplanting are generally due to disregard of rules pertaining to deep planting and close pruning.

HYBRID PERPETUAL ROSES Strong Field-Grown Plants

Price: Each, \$1.00. Dozen, \$10.00, except where otherwise noted.

The following named Hybrid Perpetual Roses can be relied upon for hardiness. If planted in good soil, set in the ground to the proper depth, and pruned back as directed, they will produce quantities of bloom the first season. Deep planting and close pruning is very essential.

Alfred Colomb. Carmine Red; very large and full.

American Beauty. Deep Pink, shaded with Carmine.

Anne de Diesbach. Clear bright rose; large and fragrant.

Coquette des Alpes. Large, full and well-formed with very large petals. Lovely pure white in color; fragrant; profuse bloomer; hardy.

Fisher Holmes. Brilliant Carmine-crimson.

Frau Karl Druschki. White. One of the best.

General Jacqueminot. Bright Scarlet crimson.

Gloire de Lyonalsse. Pink tinted Yellow.

John Hopper. Bright Rose, Carmine center.

Mme. Gabriel Luizet. Light Silvery Pink.

Mme. Plantier. Pure White, early Summer bloomer.

Magna Charta. Pink and Crimson. Very large, full and double.

Margaret Dickson. White, pale flesh-color.

Mrs. John Laing. Soft Pink; fragrant; blooms late in Autumn.

M. P. Wilder. Cherry Carmine.

Paul Neyron. Deep rose, very large.

Perle des Blanches. Pure White.

SPECIAL OFFER No. 4

15 best unnamed varieties of hardy Phlox. Price, \$2.00. (By mail, \$2.25.)

1 Plant each of 15 choice sorts, and of sizes to bloom the first season.

Fruit Trees and Small Fruits

The varieties of fruit trees we offer below are such as can be particularly recommended and are best adapted to the climate of New England. Any variety desired and not listed, we can generally supply from our Geneva, N. Y., Nurseries.

Pruning—Apples, Pears, Cherries, and Plums should at once after planting be pruned back to some extent, and it is generally well to remove from one-half to two-thirds of each branch. This treatment will insure a strong and healthy growth, and materially assist trees in taking hold. Leading Orchardists now recommend the spacing of fruit trees in orchards as follows:

Standard Apples	25 ft. apart
Dwarf Apples.....	8 ft. "
Standard Pears	15 to 20 ft. "
Sweet Cherries	20 ft. "
Sour Cherries	15 ft. "
Plums	15 ft. "
Quinces	10 ft. "
Peaches	15 ft. "

NEW ENGLAND NURSERIES CO.

BEDFORD, MASSACHUSETTS

FRUIT TREES AND SMALL FRUITS (continued)

Number of Trees Required to an Acre

8 feet apart each way.....	680
10 feet apart each way.....	430
15 feet apart each way.....	200
20 feet apart each way.....	110
25 feet apart each way.....	70
30 feet apart each way.....	50
40 feet apart each way.....	27

Note: Our fruit trees are, we believe, as hardy and as well grown as it is possible to supply, and thousands of orchards throughout the country bear witness as to "New England Quality" trees.

We try to have our stock true to name, but as we are human, we may in spite of our best efforts make mistakes, and will always stand ready to replace free, any stock that proves not to be as represented.

It, however, is mutually agreed between all purchasers and ourselves, that we shall not be held liable for any value greater than that paid for the trees.

New England Nurseries Co.

Apples

Standard Apples. 2 years. 5 to 7 feet high.

Price, Except where otherwise noted. Each \$1.50. Dozen, \$15.00. Per 100, \$90.00.

Summer Apples (Standard)

Astrachan. Free growth; large, roundish; deeply crimson; juicy, rather acid; good; very hardy; highly esteemed on account of its fine appearance, earliness and hardiness. Ripening August.

Sweet Bough. Moderate growth; large; pale yellow; tender, juicy, sweet. Very good. August.

AUTUMN APPLES (Standard)

Fameuse, or Snow. Vigorous growth; medium; deep crimson; tender, subacid, melting, delicious; very good; hardy. One of the best dessert apples. Ripening November to January.

Gravenstein. Vigorous growth; very large; striped; juicy, tender, crisp, rich, subacid; very good. Ripening September and October.

Duchess of Oldenburg. Vigorous growth. Yellow, streaked with red, juicy and good. September.

Porter. Moderate growth; medium to large; yellow; fine grained; sprightly subacid; very good. Ripening September.

WINTER APPLES (Standard)

Balwin. Vigorous growth; large; bright red; crisp, juicy, subacid; good; the most popular and profitable market sort in the East. Ripening in December to March.

Ben Davis. Vigorous growth; large; striped; moderately juicy; subacid; good; highly esteemed in the West. Ripening December to March.

NEW ENGLAND NURSERIES CO.

BEDFORD, MASSACHUSETTS

FRUIT TREES AND SMALL FRUITS (continued)

- ✓ **Delicious.** Dark red. Fruit large. An excellent variety and good keeper, and therefore one of the most desirable for general culture.
- ✓ **Hubbardston.** Free growth; large; striped red and yellow; tender, juicy, rich, slightly subacid; very good. Ripening November and January.
- ✓ **Jonathan.** Medium growth; red and yellow; tender, juicy and rich; very productive. One of the best for table or market.
- ✓ **McIntosh Red.** Vigorous growth; handsome; very good; hardy. Ripening November to February. 2 years. Well branched, and well rooted. Each, \$1.50. Dozen \$15.00. Per 100, \$125.00.
- ✓ **Northern Spy.** Vigorous growth; large; striped red; tender, juicy, mild, subacid; very good; a fine dessert fruit. Ripening December to June.
- ✓ **Opalescent.** The handsomest Apple on the market. An annual bearer of beautiful, high-quality fruit. Size large; color light, shading to a very dark crimson, and susceptible to a very high polish, hence its name. Ripening December to March.
- ✓ **Rhode Island Greening.** Vigorous growth; large; green; fine grained; rich, subacid; very good. Ripening December to April.
- ✓ **Roxbury Russet.** Free growth; medium; greenish; rich; subacid; good; late keeper. Ripening December to June.
- ✓ **Tolman's Sweet.** Free growth; medium; yellow; firm, sweet. Ripening November to April.
- ✓ **Tompkins King, or King of Tompkins County**
Vigorous growth; large; red, striped; tender, juicy, vinous; very good. Ripening November to January.
- ✓ **Wagner.** Dark red and of excellent flavor. An early bearer. This variety, like the Delicious, has all the good qualities of McIntosh Red, but will keep until late in the Spring.
- ✓ **Wealthy.** Free growth medium dark red; juicy subacid; good; very hardy. Ripening December to February.

 except where noted.

SUMMER PEARS (Standard)

Bartlett. Vigorous growth; large; yellow and red; juicy, buttery, with a rich musky flavor; very good. Ripening September.

Clapp's Favorite. Vigorous growth; very large and handsome; yellow and crimson; melting. buttery, vinous; very good. Ripening August.

AUTUMN PEARS (Standard)

Anjou. Vigorous growth; very large; greenish yellow; melting, buttery, juicy, sprightly, vinous; keeps into mid-winter; the most valuable of all Winter Pears. November and December.

Bosc. Moderate growth; large; russet; buttery, rich, high flavored; best. Ripening September and October. (True Variety.)

4 to 5 ft. high..... 1.50 15.00

Louise Bonne. Vigorous growth; large; yellow and red; melting, buttery, rich; very good. Ripening September and October.

Seckel. Moderate growth; medium; brown; juicy, melting and buttery; of the highest flavor. Ripening September and October.

Sheldon. Vigorous growth; large; russet and red; melting, rich, delicious; very good. October.

Lawrence. Moderate growth; medium to large; golden yellow, melting, pleasant, aromatic; very good; a valuable Winter Pear. Ripening November to December.

DWARF PEARS

The following varieties we can supply on Dwarf or Quince stock:
 Price: Each, \$1.50. Dozen, \$15.00.

Bartlett. 3 to 4 feet high.

Clapp's Favorite. 3 to 4 feet high.

Lawrence. 3 to 4 feet high.

Seckel. 3 to 4 feet high.

NEW ENGLAND NURSERIES CO.

BEDFORD, MASSACHUSETTS

CHERRIES

2 years old, 5 to 7 feet high. Each, \$1.75. Dozen, \$17.50.

BIGARREAU OR SWEET CHERRIES

Black Tartarian. Vigorous growth; very large; purplish black; one of the best. Ripening end of June.

Governor Wood. Vigorous growth; medium; clear, light red; tender delicious. Ripening end of June.

Napoleon. Vigorous growth; very large; pale yellow with red cheek. Firm, juicy and sweet; very good. Ripening first of July.

Windsor. Vigorous growth; large; liver colored; very firm, very good. A valuable variety; hardy. Ripening end of July.

Yellow Spanish. Vigorous growth; large; pale yellow with red cheek; firm, juicy and delicious; very good. Ripening end of June.

MORELLO OR SOUR CHERRIES

Early Richmond. Medium size; dark red; juicy, rich acid flavor. The stone adheres to the stem. One of the most valuable of Sour Cherries.

Montmorency (Large Montmorency). A Cherry of the Richmond class, but larger and more solid. A more upright growth, equally hardy, and a heavy cropper. Ripens from seven to ten days later than the Richmond, entirely escaping danger from Spring frost.

PRUNING OF CHERRY TREES

While all Fruit Trees should at once after transplanting be cut back to some extent, severe cutting back is particularly necessary in the case of Cherry trees, and especially with varieties of Sweet Cherries. Cherry trees are slow in becoming established, and all branches should be cut off to within four or five inches of the stem.

PLUMS

(2 years old, 5 to 7 feet high). Each \$1.50. Dozen, \$15.00.)

Bradshaw. A very large, oval, dark violet red; juicy, sweet and good; a valuable market variety.

Abundance (Bhotan). Beautiful lemon-yellow with bright cherry. Has been thoroughly tested, and is highly recommended. August.

Burbank. Large and beautiful, a clear cherry red, with a thin lilac bloom; flesh a deep yellow, very sweet, with a peculiar and very agreeable flavor. Ripens later than Abundance. End of August.

October Purple. Large, round fruit; dark, reddish purple yellow; flesh of most superb quality. Ripens middle of September.

Wickson. Originated by Burbank. A sturdy, upright grower; fruit remarkably handsome, deep maroon red, covered with white bloom; excellent keeper and shipper.

NEW ENGLAND NURSERIES CO.

BEDFORD, MASSACHUSETTS

PEACHES

The Peach tree requires a well-drained, moderately rich soil. Warm, sandy loam is probably the best. When the trees are first planted, all side branches should be cut back to within one-fourth to one-half inch of the main trunk, and the latter reduced one-third. Trees more than one year old are of but little value to the planter. The following listed varieties which are particularly recommended for the New England climate we offer in No. 1 trees.

Price: Each 75 cents. Dozen, \$7.50.

Belle of Georgia. Very large skin white with red cheek; flesh white, firm, and of excellent flavor; fruit uniformly large and showy; free. Very hardy and one of the latest to ripen.

Carman. A new, hardy, rot-proof Peach. Large, round; pale yellow skin and red blush on sunny side; white flesh, sweet flavor.

Champion. New. Handsome creamy white, with red cheek. It is of large size and of very superior flavor. Ripens about August 1, and has shown that it bears improvement over other white sorts.

Crawford's Early. Very large; yellow; juicy, melting; freestone. Ripening early September.

Crawford's Late. Very large; yellow; juicy; good; freestone. Ripening end of September.

Elberta. An exceedingly large, light-colored yellow Peach, a cross between Crawford's and Chinese Cling; juicy, well flavored; said to be probably the finest yellow freestone in existence; planted in enormous quantities in the Peach growing regions of the South. Ripens early in August.

Fitzgerald. A chance seedling, found in Ontario, outside of the Peach belt, where it has produced regular crops. The fruit is of very large size, pit very small. This promising new peach is of the Crawford type, but excels that famous variety in size, hardiness and productiveness. Season same as Early Crawford.

Greensboro. The largest and most beautiful colored of all the early Peaches. Of good quality; juicy, free-tone, but adheres slightly; ripens perfectly to the seed, and with the Alexander.

QUINCES

First-class. 3 to 4 feet. Each, \$1.25. Dozen, \$12.50.

Champion. The fruit is very large, young trees, two years from the bud are often loaded with fruit. Its season is about two weeks later than the Orange.

Orange. Large, roundish, bright golden yellow; cooks quite tender, and is of very excellent flavor. October.

Our Fruit trees being grown under the most severe climatic conditions, can be particularly recommended for hardiness.

Each Dozen 100

English Filbert or Hazel.

Strong bushes, 3 to 4 feet.50 5.00

NEW ENGLAND NURSERIES CO.

BEDFORD, MASSACHUSETTS

Hardy Native Grapes

Each 50 cents. Dozen \$5.00. Per 100, \$40.00.

Black

✓ **Concord.** Bunch and berry large, round, black, thickly covered with a beautiful bloom; flesh moderately juicy, sweet pulp, quite tender when fully ripe.

✓ **Moore's Early.** Bunch and berry large, with a blue bloom; quality better than Concord; its size and earliness render it desirable.

✓ **Worden.** Bunches large, handsome; berries sweet. Ten days earlier than Concord and superior to it in flavor; ripens well and in cold localities.

Red and Reddish Purple

✓ **Brighton.** Large, handsome and of the best quality, and ripens early.

✓ **Catawba.** Well-known; highly flavored, but late.

✓ **Delaware.** Medium or small, but delicious; highly esteemed everywhere.

White

✓ **Green Mountain.** One of the very best; ripens early; good bearer; free from mildew; vigorous grower.

✓ **Niagara.** Bunch medium to large; berry large; skin thin but tough; slightly pulpy, tender, sweet, vine vigorous, healthy, and very productive; ripens with Concord. All things considered, probably the most valuable white Grape in cultivation.

Small Fruits

BLACKBERRIES

Strong plants: Dozen, \$1.50. 100, \$6.00.

✓ **Erie.** Fruit very large, excellent quality. There is no berry that rivals it in combining hardiness, large size, earliness and productiveness.

✓ **Snyder.** A marvel for productiveness; fruit medium size, sweet and melting to the core; extremely hardy.

RASPBERRIES

Price, except where noted, dozen, \$1.50. 100, \$6.00.

✓ **Cuthbert.** (Queen of the Market). Large, dark crimson berries of firm texture, sprightly acid and of excellent quality; a certain cropper, always to be recommended.

✓ **St. Regis Everbearing.** (New) Red; berries of large size and of a bright crimson color; flavor very sweet and rich; excellent quality. Highly productive and very hardy. Producing abundantly throughout the entire Summer.

Probably the best of all varieties for garden culture.

CURRENTS

Note: Government embargo prevents shipment of Currant or Gooseberries to points outside of Massachusetts or to the following designated localities in Massachusetts, Athol, Barre, Dana, Duxbury, Halifax, Hanover, Hanson, Ipswich, Lee, Lenox, Marshfield, Newburyport, North Andover, Orange,

NEW ENGLAND NURSERIES CO.

BEDFORD, MASSACHUSETTS

SMALL FRUITS (continued)

Pembroke, Peterssham, Phillipston, Stockbridge, Topsfield and Warwick. It is requested that Black Currants shall not be planted anywhere in Massachusetts.

We offer the following Currants in healthy stock.

Cherry. Fruit of the largest size; deep red, rather acid; short bunches; growth strong, stout, erect; short jointed shoots. Each, 25 cents. Dozen, \$2.50.

Fay's Prolific. Fruit very large, bright red and of excellent flavor; less acid than the Cherry. It has a long stem which admits of rapid picking and is enormously productive. Each, 25 cents. Dozen, \$2.50.

Perfection. The color is a beautiful bright red, size as large or larger than Fay's; the clusters averaging longer. The quality is rich, mild, subacid, plenty of pulp, with a few seeds. Each, 35 cents. Dozen, \$3.50.

GOOSEBERRIES (See note under Currants)

Price: 50 cents each.

Downing. Whitish green, vigorous and prolific; juicy and good. A fine, reliable berry for general culture.

Houghton. Vigorous and slender grower. Its medium pale red berries are plentiful and good, and it can be depended upon.

Pearl. The most prolific Gooseberry known.

ASPARAGUS

Giant Rust-Proof. (Best of all.)

Per 100, \$2.00; per 1000, \$10.00.

RHUBARB

Champagne. A choice new English variety.

Two years old, each, 50 cents; dozen, \$5.00.

Linnaeus (Myatt's). Large early and of good quality.

Two years old, each, 25 cents; dozen, \$2.50.

MEMORANDUM

TO OUR CUSTOMERS

WHILE during the past three years the great scarcity of help has prevented us from propagating as much young stock as we would in normal times, we fortunately have managed to give all necessary attention to transplanting, pruning and spraying of our growing stock, and now that labor conditions as well as shipping facilities are approaching normal, we solicit your patronage in the firm conviction that our stock is of the usual high quality and that we can handle your business to your entire satisfaction.

It is our desire to give service.

If in any manner we can assist, as for example in making the best selection of what to plant, advice as to the care of plants, or how best to arrange stock in order to obtain the best effect, please feel free to call on us.

We respectfully invite correspondence pertaining to any problem of interest to planters.
