PRICE LIST FOR 1922

THE American Iris Society has recently published a symposium giving each variety a rating of value on a percentage basis. We have grown over 500 varieties, but have now discarded practically all varieties scoring under 70%. This gives us a list of 250 of the best varieties, including most of the newer productions. Where the price is not given it indicates that our stock of a variety is too limited to offer it for sale. Where the scoring is not given, the variety is only recently introduced and thus not rated in the symposium. The rating of a variety may be depended upon as its true relative value, for this rating is the average opinion of 25 of the leading Iris lovers of America.
