J. B. SAVAGE

Frost Proof CABBAGE PLANTS

Weirwood, Va., January....., 1922

Dear Sir:

This is the 20th year I have grown and sold Early Frost Proof Cabbage Plants. I have this season the best lot of open field grown plants I have ever had. The seed from which my plants were grown this season are the best I. N. Simon & Son of Philadelphia could furnish.

I can take care of your orders however large or small in January, February, March and April but **do not wait until the moment you want plants to order them. Send your order in and give shipping date and you will get them.**

Only Three Varieties:

Earley Jersey Wakefield

Charleston Wakefield

Copenhagen Market

F.O.B. by Express or
Freight at Weirwood, Va.

500 \$ 1.25

1000 2.00

5000 10.00

15,000 25.00

25,000 40 00

For smaller lots 50c per 100

Terms: Cash with Order.

If you want plants by parcel post add 50c per 1000; for lots of 500 and 100 add 25c for each package and on lots of 50,000 to 100,000 and over ask for prices.

Plants grown here in Virginia in open field are better, for your climate and will do better than plants grown farther south.

Yours very truly,

J. B. SAVAGE

U.S. Department of Agriculture.
