WELLER'S HERBACEOUS PERENNIALS

For Fall and Spring Delivery

Why You Will Find Weller's Perennials the Best and Most Satisfactory

Because we make a specialty of growing them to perfection, and make it our point to give you SERVICE, QUALITY AND VALUE. Our plants make REAL ROOTS, and what is more important to a Perennial than a GOOD ROOT SYSTEM?

All plants offered in this list are strong field-grown, the only Perennials that give satisfaction. They are far better than pot grown plants, as they are more vigorous and healthy, and sure to flower in abundance the first season. We want your business and keep it, for we are growing more every year. You will not appreciate our stock and good service until you have convinced yourself by a trial order.

General List

Those marked * are especially suited for cutting.
In description the flowering period is indicated by the name of the months,
as May-June, etc.

ACHILLEA (Millifoll or Yarrow)	p. doz.	p. 100
*MILFFOLIUM ROSEUM. Heads of soft rose flowers. 1½-2ft. June-Aug.	\$1.00	\$7.00

***LANCEOLATA GRANDIFLORA.** The flowers are a rich golden yellow of slender graceful form, making them an excellent cutflower. 2 ft. All summer.....

1.00 7.00

CORNFLOWER (See Stokesia and Centaurea).**DELPHINIUMS (Larkspur)**

It is almost impossible to convey anything like an adequate description of the improved Delphiniums. Their greatest charm lies in the wonderful stateliness of growth, and the rich colors and tints of their striking flowers. Surely there is nothing in blue, to compare with the Delphiniums, and for their value in hardy borders, they are unsurpassed. The florists who have realized their worthiness as cutflowers grow them in large quantities outdoors and also force them with marked success. By continuously keeping the blooms cut they may be kept flowering for an extended period, and when other flowers are scarce, they are sold at good prices. We are growing a special grade for forcing and if you have not already given them a trial, do not fail to do so this winter.

p. doz. p. 100 p. 1000

***BELLADONNA.** The most popular variety. The sky-blue flowers are freely borne on numerous branching stems until frost. 4 ft. Fine field grown plants..... \$1.20 \$8.00 \$70.00

p. doz. p. 100

***ENGLISH HYBRIDS.** Very free flowering, ranging from light blue to dark purple..... 1.75 12.00

***CHINESE.** A beautiful gentian blue variety, very free flowering, 1½ ft., everblooming. 1 year old, fine field grown plants..... 1.00 7.00
2 year old fine field grown plants..... 1.50 10.00

***CHINESE ALBUM.** A white variety of the above..... 1.20 8.00

DIANTHUS BARBATUS (Sweet William).

While it is impossible to determine the value of this group of the most popular old fashioned garden plants, we know that their striking colors, pleasing fragrance and freedom of blooming, make them a favorite with all lovers of hardy flowers. Where an abundance of cutflowers is desirable, these cannot be surpassed. Florists throughout the country highly praise them for summer cutting.

ARTEMISIA LACTIFLORA Strong Fieldgrown Plants. \$10.00 per 100

DIANTHUS BARBATUS (Continued)

*MIXED. An array of the most beautiful colored flowers which are lasting and excellent for cutting. 1-1½ ft. May-June.....	p. doz.	p. 100

PHLOX (Suffruticosa)		p. doz.	p. 100
This variety flowers two weeks earlier than the Decussata varieties.			
*MISS LINGARD, Pure white, with lilac eye.....		1.75	12.00
PHLOX VARIOUS SPECIOUS (Dwarf Phlox)			
DIVARICATA CANADENSIS, A native species, commencing to bloom in April and continuing through May. Blue lavender fragrant flowers. 1 ft.....			
		1.75	10.00
PHLOX SUBULATA (Moss Pink)			
Dwarf trailing plants, with moss-like evergreen foliage. Excel'ent for edging or rock garden.			
ALBA, Pure white.....		1.75	12.00
ROSEA, Bright rose.....		1.75	12.00
*PHYSALIS FRANCHETTI (Chinese Lantern Plant)			
Throws up numerous stems of two feet high, on which are borne a large fruit enclosed in a brilliant scarlet colored bladder-like calyx, which makes an excellent subject for any kind of decorating, especially Christmas.....			
		1.20	8.00
PHYSOSTEGIA (False Dragonhead)			
*VIRGINICA, White and lavender.....		1.00	7.00
PLATYCODONS (Baloon flower)			
*JAPONICUM GRANDIFORUM, Blue bell shaped flowers on graceful slender stems. Desirable for cutting. 2ft. June Oct.....		1.20	8.00
*JAPONICUM GRANDIFLORUM, ALBUM.....		1.20	8.00
*JAPONICUM GRANDIFLORUM, FLORA PLENA, The double variety....		1.20	8.00
PYRETHRUM HYBRIDUM (Hardy Daisy)			
A group of graceful free flowering plants. Their usefulness for cutting is unequalled. They range in color from pure white to the most brilliant scarlet. Although they bloom practically all the summer, they are at their best during June. 2-3ft.			
*GRANDIFLORA SINGLE MIXED.....		1.20	8.00

	p. doz.	p. 100
PYRETHRUM (Continued)		
*ULIGINOSUM (Giant Daisy). Covered completely with large white daisy-like flowers. 3-4ft. July-Sept.....	1.50	10.00
RUDBECKIA (Coneflower)		
Well adapted for the border or naturalizing. Exceptionally fine for cutting.		
*LACINIATA FL. PL. (Golden Glow). Clear yellow flowers 5-6ft. July-Sept.	1.00	7.00
*NEWMANI. Deep yellow flowers with conspicuous brown center. 2-3 ft. July-Oct.....	1.00	7.00
*PURPUREA. (Purple Coneflower.) Flowers extra large of a reddish purple with a large brown cone-shaped center. 3ft. July-Oct.....	1.50	10.00
SALVIA (Sage)		
AZUREA GRANDIFLORA. Tall spikes of sky-blue flowers in great abundance. 3-4ft. Aug-Sept.....		
*FARINACEA. Mealy foliage and dark blue flowers, a very fine salvia for cutflowers. 2-3ft. July-Aug.....	1.50	10.00
SAPONARIA (Soapwort)		
OCYMOIDES. A low-trailing perennial; small leaves and bright pink flowers. For border and rockeries. May-July.....	1.75	12.00
SCABIOSA		
*CAUCASICA (Blue Bonnet). A soft and charming shade of lavender. Blooms from June until Sept. Very useful for cutting. 2ft.....	1.50	10.00
*JAPONICA. Similar to Caucasica, flowers being somewhat larger.....	1.50	10.00
SEDUM (Stonecrop)		
Suitable for rockery, bedding and covering graves. Often used for florist's work. Sieboldi works up very fine in baskets.		
ACRE (Golden Moss). Foliage green, flowers bright yellow.....	1.50	10.00
SEXANGULARE. Yellow flowers, dwarf, dark green foliage; grows freely and is very pretty in rockery and border.....	1.50	10.00
SIEBOLDI. Round glaucous foliage, bright pink flowers. Aug-Sept.....	1.50	10.00
SIEBOLDI ALBA, white	1.50	10.00
SPECTABILIS. A beautiful erect growing species with broad, thick, light green foliage and immense heads of showy soft rose flowers....	1.50	10.00
SPECTABILIS BRILLIANT. Rich dull red; identical to Spectabilis in all except color.....	1.75	12.00
SHASTA DAISY (See Chrysanthemum Maximum)		
STATICE (Great Sea Lavender)		
*LATIFOLIA. Invaluable for cutting and floral work. Minute purplish flower during June and Aug. 2ft.....	2.00	15.00
STOKESIA (Cornflower Aster)		
A handsome native plant bearing from early in June until Sept. It has cornflower-like blossoms.		
*CYANEA. Bright lavender blue. 2ft.....	1.50	10.00
*CYANEA ALBA. A pure white variety of the above.....	1.50	10.00
SUNFLOWER (See Helianthus)		
SWEET WILLIAM (See Dianthus Barbatus)		
TRITOMA (Flame Flower)		
A beautiful late flowering plant having handsome reed-like foliage. Flowers are a rich orange scarlet. 2-3ft. Sept-Nov.		
*PFITZERI. Spikes of red flowers. 3-4ft. Aug-Oct.....	2.00	15.00
VERONICA (Speedwell)		
Valuable for their free growing qualities. Vary from dwarf to vigorous growing plants.		
*INCANA. Deep blue flower with silvery gray foliage. 1ft. July.....	1.20	8.00
*LONGIFOLIA SUBSESSILIS. Stout erect stems with intense deep blue flowers. 2-3ft. July-Aug.....	1.75	12.00
*SPICATA. Blue flowers. 2ft. July-Aug.....	1.00	7.00
VIOLA		
PERFECTION. Deep purplish blue.....	1.00	7.00
LUTEA SPLENDENS. Rich golden yellow.....	1.00	7.00
WHITE PERFECTION, a fine white.....	1.00	7.00
CORNUTA GRANDIFLORA, (Tufted Pansy), largest strain mixed colors	0.80	6.00
YUCCA (Adams Needle)		
FILAMENTOSA. A distinctive evergreen plant forming large sword like leaves and producing large spikes of white flowers. 4-6ft. June-July.....	2.00	15.00

Some PERENNIALS and BIENNIALS

If Planted in the Fall

Need Protection During the Winter Months

Such as:

ANEMONES,

BUDDLEYA, (Butterfly Bush or Summerlilac)

These are apt to freeze unless covered with straw or leaves.

CAMPANULA (a biennial),

DIGITALIS (a biennial),

GEUM.

To protect these, throw branches on the rows and on top of these straw. If the covering on Campanula and Digitalis becomes packed in the spring, they will rot, therefore be sure there are plenty of branches under the straw to insure plenty of ventilation.

HOLLYHOCKS,

STOKESIA.

They must have "dry feet", so plant them on a spot where there is plenty of drainage.

CHRYSANTHEMUM. If received in the fall, they should be "heeled in" in sand and covered up with straw and planted out in the spring.

TRITOMA. Must be kept inside in sand.

REMEMBER.. THE ABOVE ITEMS, planted in the spring, DO NOT need protection during the following winter, as they have established their roots thoroly during the year.

The Advantage of planting Anemones, Buddleya, Campanula Digitalis, Geum, Hollyhocks and Stokesia, in the fall is, that they are practically a year ahead and of course the crop of blooms will be accordingly.

General view of our Nurseries, Gladioli in front

HAVE A CONSTANT SUPPLY OF CUT FLOWERS

Remember that these plants cost you nothing after they are once planted, and that they give you an abundance of cutflowers every year. Have you ever had anything in your Greenhouse that would yield a crop from year to year without having to resow, repropagate, rebuy and to repot several times in one year? Make the Perennials your Supply House and save money. Watch the recommendations for the planting of Perennials in the trade-papers.

Perennials for Rockeries

WELLER'S GLADIOLI

Disappointed with Your Indoor Gladioli?

What May Be the Reason?

Planted too shallow?
 Planted too close?
 Planted in raised bench with much underneath heat?
 Too high a temperature?
 Too much water? or not enough?
 Or **USED THE WRONG BULBS?**

DO YOU THINK HOLLAND BULBS COULD BE FORCED IF THE HOLLAND BULBGROWERS SHIPPED THEIR FLOWERS???

WOULD YOU BUY TULIP BULBS WITHOUT KNOWING WHERE THEY WERE GROWN AND WHETHER THEY WERE GROWN FOR THE PURPOSE OF FORCING? YOU WOULD NOT!

Gladioli can be forced to perfection, but as with all other stock it takes careful study of the particular requirements of the bulbs.

A crop of Gladioli is as profitable or more so than any other indoor crop; THEREFOR give them a separate bench or part of it and let them receive the same care and attention you give your other stock.

For successful forcing of Gladioli it is vital not to use "picked up" or "bargain" lots, the chance is too great that they come blind. For forcing, should be used a bulb containing absolute "FORCING QUALITY", thru its variety, strength and method under which it is grown. Most florists prefer Michigan-grown stock; sand-grown bulbs are better adapted for forcing. By "topping" our flowers we leave all the "pep" in the bulbs, giving them a "PLUS QUALITY", which makes our stock so suitable for forcing.

"Hints for Forcing"

Plant the bulbs 2 inches deep, 4 inches apart each way, if possible in ground benches; raised benches are alright, provided there is not too much underneath heat.

Be careful with manure; water and sunlight are more important than manure.

Grow them under carnation temperature.

Plant from January 15 to February 1st. Bulbs planted before Jan. 15th show more blind stalks than those planted later.

It's not the largest bulb that forces best; by all means forcing stock should be fat and plump, 1½ in., (no use forcing flat bulbs).

Gladioli, that We Recommend for Forcing

—Forcing Size—		per 1000	1½ in. and up.
AMERICA, Soft pink, tinted lavender, fine forcer.....			\$20.00
CHICAGO WHITE, Pure white, early, lavender markings in throat.....			32.00
HALLEY, Salmon pink, very early.....			27.00
LOVELINESS, Beautiful cream color, stately spike with immense flowers, 5 to 6 open at a time.....			65.00
MRS. FRANCIS KING, Light scarlet, splendid keeper.....			20.00
MRS. FRANK PENDELTON, Large pink with deep carmine blotch. Extra....			\$45.00
PANAMA, Large clear pink, extra fine.....			40.00
PRINCE OF WALES, Brilliant orange salmon, extra early.....			60.00
ROEM VAN KENNERLAND, Very large flower, deep pink with white throat.....			55.00
SCHWABEN, Canary yellow, a sturdy plant and fine forcer.....			40.00
WILLBRINCK, Color identical to that of America, but blooms about three weeks earlier and is certainly one of the most recommendable varieties.....			45.00
YELLOW HAMMER, Pure yellow, strong grower, fine forcer.....			45.00

PRIMULINUS HYBRIDS, Very profitable for retail florists, excellent forcers and earlier than other gladioli. The flowers are not big but gracefully set on the stem. Our stock has been worked up from the best strains only..... 22.00

Gladioli in Coldframe

To produce flowers about two weeks ahead of flowers from field-grown bulbs, planting should be made the middle of March or to suit climatic conditions. The frames should be ready then and the sash removed not before danger from frost is over. The bulbs should be planted from 4 to 5 inches apart and an extra supply of plantfood must be provided. Diluted liquid sheep manure twice a week after the plants have made some growth is advisable, also half a handful of nitrate of soda to a gallon of water is good.

As for forcing in greenhouse, the early varieties are also most advisable for this purpose.

Gladioli for Spring Planting

For Cut Flowers or Propagating

We Grow Large Quantities in the
Standard Commercial Varieties

and

**Varieties of Acknowledged
Supreme Qualities**

The benefit of our years of experience in growing and selling gladioli is entirely yours; therefore if there's anything you like to know about Glads, drop us a line, it's our pleasure to tell you all we know about this great flower.

"THE MOST IDEAL LOCATED PERENNIAL NURSERY"
