WOLCOTT NURSERIES

JACKSON, MICHIGAN

Supplemental Catalogue 1922

We are issuing our catalog for 1922 about September 1st, instead of this Spring, but will be pleased to send any one desiring it our 1921 catalog.

We are giving below a list of additional plants which we have ready now and trust they may meet with the approval of our customers.

We shall take much pleasure in mailing you our new catalog when ready, September 1st, 1922.

	Each	Doz.
AETHIONEMA SCHISTOSUM —Forms a compact little plant with beautiful large pink blossoms.....	\$0.50	\$5.00
ANDROSACE LANUGINOSUM —One of the most beautiful rock plants, loving a light, sandy soil in a warm, sunny position. Of trailing growth and soft, silvery foliage. The blossoms are soft lilac-rose, in verberna-like heads, lasting nearly all the summer. From the Himalayas, and perfectly hardy	.75	7.50
ASTER ALPINUS ALBUS —A white form of the Alpine aster	.30	2.50
ASTER BALDENSIS —A form of the Alpine aster, having branching stems carrying several blossoms of a more rosy hue than the type, Very choice....	.50	5.00

	Each	Doz.
BOYKINIA ROTUNDIFLORA —Very useful for cool, damp and shady places. Fine for waterside. The foliage is handsome and the flower stems about two feet high, carrying heads of creamy white flowers. Very handsome.....	.50	5.00
BELLIUM BELLOIDES —A dainty little miniature of the <i>Bellis perennis</i> , except that it throws out numerous runners and so forms a wide mat, covered in summer with small white daisies. Fine for rockery	.35	3.50
CAMPANULA LONGISTYLA —A most beautiful <i>Campanula</i> , with large, violet bells having a protruding style, and carried on spikes of a foot or eighteen inches	.50	5.00
CAMPANULA MIRABILIS —A very beautiful variety of <i>Campanula</i> for the rock garden, forming a flat rosette of glossy, saw-toothed leaves and bearing a fountain of light blue bells about half the size of those of <i>Canterbury Bells</i>	.50	5.00
CAMPANULA PALASSI —Fine new variety with blue flowers on stems about two and one-half feet high. Blooms in July and August. Fine for hardy garden	.50	5.00
CAMPANULA PYRAVERSI —A hybrid of <i>C. pyramidalis</i> . Beautiful, showy border plant about three feet high, with large blue blossoms in late summer	.50	5.00
CHRYSANTHEMUM —(SHASTA DAISY) " MAY-FIELD GIANT "—Grand new variety, with very large flowers, on strong stems. Continuous bloomer. Excellent for cut flowers.....	.35	3.50
CARLINA ACAULIS —Handsome, thistle-like plant for poor, sandy soil in full sun. Flowers white, on stems of about one foot.....	.50	5.00
DRACOCEPHALUM THYMIFOLIUM —A beautiful rock plant about ten inches in height, having heads of violet blue blossoms.....	.50	5.00

	Each	Doz.
DIANTHUS ALPESTRIS —Beautiful Alpine pink with glaucous, blue foliage. Blossoms of deep rose, intensely sweet and very much fringed. Very choice for sunny rockery.....	.50	5.00
DIANTHUS FREYNII —Exquisite rockery pink, forming tight rosettes of bluish foliage, covered with stemless blossoms of rose.....	.75	7.50
DIANTHUS SUAVIS —Beautiful rock garden pink resembling caesius, but having blossoms more fringy.....	.50	5.00
ERODIUM ROMANUM —Silvery foliage with leaves simply cut. The flower stems are about six inches high, with heads of about six bright pink blossoms.....	.50	5.00
ERODIUM MACRADENUM —Smooth, green foliage, so finely cut it has a lacy appearance. Small pink blossoms, streaked with black.....	.50	5.00
ERODIUM CHRYSANTHUM —Very beautiful and distinct species. Foliage very finely feathered and silvery. Stems branching, with heads of large blossoms of delicate sulphur yellow. Exceedingly choice for rock gardens.....	.75	7.50
ERODIUM CHEILANTHIFOLIUM —Foliage clothed in velvety grey down. Blossoms blush with dark blotch, on stems six inches high.....	.50	5.00
ERYNGIUM GIGANTEUM —Robust species for the hardy border, with large heads of thistle-like blooms on stems 3 feet high.....	.30	2.50
EUPHORBIA MYRSINITES —A choice variety for hot, dry places in the rock garden or border. The growth is trailing, with stems of about six inches in length clothed with glaucous blue foliage and bearing heads of clear yellow blossoms. Very rare.....	.75	7.50
EPILOBIUM HIRSUTUM —A very showy plant for the waterside or wild garden. Grows about four feet high with pale pink blossoms.....	.35	3.50
GYPSOPHILA ACUTIFOLIA —Similar in habit to <i>G. paniculata</i> but with pale pink flowers. Very useful and decorative.....	.35	3.50

	Each	Doz.
GYPSOPHILA ALPIGENA —A dwarf variety from the Alps, only attaining a height of about four inches, with delicate blossoms of rose and white	.50	5.00
GLOBULARIA NUDICAULIS —Dwarf plants for well drained but not too hot places on the rockery. Heads of steel blue, fluffy blossoms on stems of six inches	.50	5.00
GLOBULARIA CORDIFOLIA —A smaller variety forming flat, dark green rosettes, covered in June with heads of blue fluff	.50	5.00
HYPERICUM FRAGILE —A trailing variety with stems about five inches in length, ending in flowers of pure gold	.50	5.00
HYPERICUM LINARIFOLIUM —A rare variety of lax habit, throwing stems about eight inches high, bearing heads of especially handsome blossoms	.75	7.50
LYCHNIS VISCARIA —Very showy variety growing two to three feet high with heads of brilliant red blossoms	.25	2.50
LINARIA DALMATICA —Fine for borders or perennial garden. Glaucous blue foliage and spikes of golden yellow blossoms on stems of three feet	.35	3.50
LINARIA ORIGANIFOLIA —Dwarf habit, with purple blossoms and paler throat. Six inches	.50	5.00
LINARIA TRIONITOPHORA —Meaning "three birds," referring to the shape of the blossoms of rich purple. About five inches high, Very choice	.50	5.00
LINARIA TRIONITOPHORA ROSEA —A pale pink variety of the above	.50	5.00
LITHOSPERMUM PETRAEUM —A woody plant, in appearance much like <i>lavendula vera</i> . Heads of beautiful pale blue and purple flowers. Should have a choice place in the rock garden in full sun and rich soil	.75	7.50
LINUM AUSTRIACUM —A much improved variety of <i>L. perenne</i> , having more upright habit with blossoms of rich gentian blue	.50	5.00

	Each	Doz.
LINUM HIRSUTUM —Downy foliage and erect growth. Flowers large purplish blue with white eye, on stems about one foot high. Fine for border or rockery. Rare	.50	5.00
OENOTHERA ACAULIS —Fine for rockery or edging in full sun and well drained position. Yellow blossoms on six-inch stems.....	.35	3.50
OENOTHERA "AFTERGLOW" —Fine new variety, suitable either for border or rock garden. Clear yellow blossoms with red calyx and remaining fully open in brightest sunshine. Two feet.....	.35	3.50
OENOTHERA FRASERI —Handsome yellow blossoms, freely borne for a long season. Equally useful for border or rockery. One foot.....	.35	3.50
OENOTHERA FRUTICOSA —Large, golden yellow blossoms. Two feet	.25	2.50
OENOTHERA LAMARCKIANA —Large yellow blossoms on long spikes. Fine for border. Four feet	.35	3.50
OENOTHERA PUMILA —Forms neat rosettes flat on the ground, covered all summer with bright yellow blossoms. Wants both sun and sand. Four inches	.35	3.50
OENOTHERA SERRULATA —Another dwarf variety with large yellow blossoms on stems six inches high	.35	3.50
POTENTILLA CRINITA —Very handsome, silky white foliage. Large yellow blossoms on stems about fifteen inches high.....	.50	5.00
POTENTILLA PYGMAE —Very beautiful variety for a choice place in the rock garden. Forms a rosette of handsome foliage from which bursts a perfect fountain of white blossoms on slender stems, all through the late summer.....	.50	5.00
POTENTILLA PYRENAICA —A choice variety from the Pyrenees with lovely golden blossoms, one or two to the stem, and suitable for the rockery or perennial garden	.35	3.50

	Each	Doz.
POTENTILLA RUPESTRIS —A very beautiful variety with stems about one foot high bearing beautiful, clear white blossoms. Very choice.....	.50	5.00
POTENTILLA THURBERI —A luxuriant species with prostrate leaves and blood red blossoms. Very showy in a sunny, well drained spot, either in rockery or perennial garden.....	.35	3.50
SAXIFRAGA AEIZOON —A treasure for the Alpine garden, forming rosettes of silver beaded leaves and bearing plumes of creamy white blossoms, eight to ten inches high, in early summer.....	1.00	10.00
SATUREIA MONTANA —Very choice, bushy little plants for sunny places in the rock garden. Delicate foliage with thyme-like blossoms of mauve in late summer. Eight inches.....	.50	5.00
SILENE MONARCHORUM —Very dwarf variety for cool rocks. White blossoms on two-inch stems all through the summer. Rare.....	.50	5.00
THYMUS CITRIODORUS —Lemon scented foliage. Grows about eight inches high.....	.25	2.50
VIOLA APRICOT —A gem, having the growth of the bedding viola and producing profusely, all summer through, large blossoms of true, apricot yellow	.50	5.00

CLEMATIS PANICULATA—We wish particularly to call attention to our fine stock of these plants. They are all large, three year old, **field grown** plants with magnificent roots. Spring is the only time to plant Clematis successfully as they then become thoroughly established and do not winter-kill, which nearly always happens when they are planted in the Fall. We are making a special offer on these plants of.....
