IRIS BULBS

and Some New or Noteworthy Plants

FOREWORD: Owing to the large demand for my Iris catalog, of which I had enough printed, as I thought, to last me through the season of 1922, I am entirely out of these at this date, and owing to the lateness of the season I can not afford to have another edition printed.

I regret exceedingly being unable to send you one of my catalogs at this time instead of this little list. I have included the color classification from my catalog which will be of great help in selecting certain colors. I have also added wherever possible, the latest rating of each variety as given recently by the American Iris Society; this rating may be depended upon for it is the average opinion of twenty-five of the leading Iris growers of America. Of course, soil and climatic conditions have a good deal to do with such a rating and I do not agree with all of them.

Some of the newest and still very scarce varieties of which I have sold a few rhizomes at much lower prices than other growers, in order to place some of these fine varieties in the hands of those Iris lovers who were

very anxious to procure them, I am forced to withdraw from sale until the summer of 1923, or until such a time that I can grow a larger stock, and such varieties are listed but not priced in this list.

I trust that business will warrant the issuing in the Spring of next year of a still better and more comprehensive catalog than my last one, illustrated with a number of original photographs of the newer varieties that bloomed in my gardens this year, but I will be compelled to ask 25 cents for such a catalog, which, however, will be deducted from any order amounting to one dollar or more.

Thanking you for your inquiry and trusting that your interest will develop into real, earnest and lasting enthusiasm, I am,

Very sincerely, yours,

O. M. PUDOR,

Puyallup, Wash., U. S. A.

June, 1922.

POST-PAID PRICES quoted herewith cancel all previous quotations, either by letter or in printed lists, and are subject to change without notice. A dozen plants will be furnished at ten times the price for one; six plants will be furnished at dozen rates; price for hundred lots or for larger quantities quoted on application.

TERMS: Cash with order. Remittance may be made by post-office order, express order or bank draft. No personal checks, please.

ORDERS should be sent as early as possible, as stock of rarest varieties is very limited. Orders will be accepted subject to being unsold when they are received. If stock is exhausted, we will substitute another variety of equal value and of close resemblance or we will return the remittance, as customer may direct. No order for less than one dollar will be accepted.

C. O. D. ORDERS will not be accepted unless accompanied by at least one-half of the amount in cash.

SHIPMENTS will be made by Parcel Post (insured) **PREPAID**, and in comparing our prices with those of other growers it is well that you

bear this in mind. If instructed to be sent by Express, purchaser will pay the charges. I prefer to ship Iris in July, August and September, and I will not disturb fine varieties except in those months.

COMPLAINTS, if made immediately on receipt of goods, will be investigated at once, and, if due to my negligence or carelessness, will be promptly rectified.

The Color Classification of the Iris in this list is as follows:

CLASS I.

White, standards and falls white.

April Flowering

Alba (The Bride.)

Snow Cup.

Statellae.

May Flowering

Florentina.

Ingeborg.

Ivorie.

June Flowering

Anna Farr.

Innocenza.

Kashmir White.

Mrs. Darwin.

White Knight.

CLASS II.

White, feathered with purple.

(a) color confined to margin of standard.

(b) Color suffused through the standards.

April Flowering

May Flowering

None of the early or Intermediate Iris conform to this description.

June Flowering

(a) Camelot.

Dimity.

Fairy.

Jeanne D'Arc.

Mad. Chereau.

Ma Mie.

Pocohantas.

CLASS III.

White or slightly tinted standards and purple falls.

April Flowering

None of the Early or Intermediate Iris conform to this description.

June Flowering

Dalila.

Daphne.

Rhein-Nixe

Tristram.

CLASS IV.

Purple bi-colors.

In this class are included those varieties having standards lighter in color than the falls. These might again be sub-divided into lavenders, dark purple-blue and dark red-purple, but the difficulty of deciding exactly where to draw the line determines me to place the whole under one class number.

April Flowering

Cyanea.

May Flowering

Dolphine.
Fritjof.
Kharput.
Walhalla.

June Flowering

Amas.
Angelo.
Archeveque.
Asia.
Azure.
B. Y. Morrison.
Black Prince.
 (American)
Black Prince.
 (English)
Crusader.
Delicatissima.
Dominion.
Hermoine.
Junonia.
Lady Foster.
Lord of June.
Magnifica.
Monsignor.
Neptune.
Nine Wells.
Oriflamme.
Perfection.
Riccardii.
Shalimar.
Seminole.
Sv. de Mme. Gaudichau.
Stamboul.
Tamberlane.
Tartarin.
Trojana.
Vincentio.

CLASS V.

Purple Selfs.

- (a) Lavender or Pale Blue-Purple.
- (b) Blue-Purple.
- (c) Red Purples.

(a) **April Flowering**
Azurea.

(a) **May Flowering**
Dorothea.

(a) June Flowering

Albert Victor.
Ann Page.
Ballerine.
Caterina.
Clematis.
Goldcrest.
Juniata.
Mesopotamia.
Mlle. Schwartz.
Morwell.
Mrs. Tinley.
Pallida Dalmatica.
Queen Caterina.
Ringdove.
Sweet Lavender.
Zua.

(b) May Flowering

Blue Boy.

(b) June Flowering

Blue Bird.
E. H. Jenkins.
Miranda.
Tom-Tit.

Violecca Grandiflora.

(c) April Flowering

Cyanea.

(c) May Flowering

Kochii.
Purple King.

(c) June Flowering

Caprice.
Crimson King.
Edouard Michel.

CLASS VI.

Yellow Selfs.

April Flowering.

Excelsa.
Orange Queen.

May Flowering

Helge.

June Flowering

Aurea.
Dawn.
Mrs. Neubronner.
Shekinah.
Sherwin Wright.
Virginia Moore.

CLASS VII.

Standards yellow, falls purple.

(a) Signifies that the Standards are pale yellow.

(b) Signifies that they are deep yellow.

April Flowering

May Flowering

None of the early Bearded Iris conform to this description.

June Flowering

(b) Darius.

(b) Honorable.

(b) Knysna.

(a) Loreley.

(a) Marsh Marigold.

(b) Mithras.

CLASS VIII.

Shot Shades.

(a) Includes those varieties in which yellow is the predominating, or at least most obvious, color note.

(b) Lavender or pale blue varieties in which the yellow is absent or negligible.

(c) Those varieties giving generally a purple bronze effect.

(a, b, c) April and May Flowering

Flowering

There are none in either of these groups that conform to this description.

(a) June Flowering

Eldorado.

Iris King.

Mary Garden.

Minnehaha.

Montezuma.

Peacock's Eye.

Quaker Lady.

(b) June Flowering
Asia.

Prospero.

(c) June Flowering
Afterglow.

Alcazar.

Ambassadeur.

Dueil de Valery Mayet.

Dora Longden.

Dr. Bernice.

Jacquesiana.

Lent A. Williamson.

Mrs. Cowley.

Prosper Laugier.

CLASS IX.

• Lilac and Rose
Shades.

April Flowering

None of the Early Bearded Iris conform to this description.

May Flowering

None of the Intermediate Iris conform to this description.

June Flowering

Dream.

Her Majesty.

Isoline.

Lohengrin.

Mount Penn.

Mrs. Alan Gray.

Phyllis Bliss.

Queen of May.

Roseway.

Trautlieb.

Troost.

Windham.

Wyomissing.

PUDOR'S COLUMBINES.

Long Spurred Hybrids.

Owing to the fact that every visitor to my Iris Gardens exclaimed in joy and wonder over my private collection of long spurred English Hybrid Columbines in pink, lavender, purple and white shades, I have decided to offer a limited amount of seed from these plants at 25c a package for sale after August 1st (sow immediately for next year's blooming seedlings) and will also sell in the spring of 1923 a limited number of seedling plants at 75 cents a dozen—six for 50 cents—post-paid! these should bloom with good care the following summer.

LUPINE "PINK BEAUTY"

This is another flower that has been greatly admired by all who have seen it grow in my Gardens. A 3-year-old plant will produce from 20 to 40 of the most wonderful pink spikes, 36 to 40 inches tall, lasting for several weeks. It

makes a grand border plant, or a wonderfully beautiful individual specimen. Seeds for early fall sowing, 25c a package; young plants in the spring, 75c a doz.; 50c for one-half doz., prepaid.

DELPHINIUMS (HARDY LARKSPUR)

Pudor's "Glory of Puget Sound" Strain.

Originated by me five years ago from a wonderfully beautiful seedling, named "Glory of Puget Sound." It is a very large double flower; one row of petals a beautiful sky blue; overlaid with another row of silvery mauve petals. Since then I have greatly improved on this seedling, the individual flowers getting still larger, finer in texture, and still more double. I have one new seedling, the flowers of which are very large, very double and all of one uniform very deep blue color with a very small center or bee; another new one is very similar in color to my original "Glory of Puget Sound," only much larger, with a small black bee consisting of three small stamens, and the whole flower quite ruffled, setting very closely on a graceful stem. All are truly marvelous.

Orders now taken for plants for early fall delivery. 50 cents each. Only one plant to a customer. A limited amount of seeds from this strain from which you should raise some wonderful Delphiniums, that will be a great joy and pleasure to you. Sow early this fall. Seedlings will bloom the second year and after that increase in size and beauty from year to year. New seeds, per package, 25c.

ROSA SPINOSSISSIMA.

A Lovely, Pure White, Single Wreath Rose.

This is another gem in my gardens, and everyone wants one. A very large, single, pure white rose with golden stamens with an exquisite perfume. Plant is of strong, healthy growth, and develops into a bush about 4 or 5 feet tall, with long pendular branches covered in the early part of June with these exquisite large single white roses. It blooms for several weeks. A hedge of these roses would be a never-to-be-forgotten sight. Entirely hardy, and increases very fast from root shoots. Price, 50 cts. each, post-paid.

TAMARISK (Tamarix).

Shrubs of strong, but slender, upright growth clothed with foliage as light and feathery as that of the asparagus. Their delicate fringed flowers are usually some light shade of pink or red. Perfectly hardy with us; very ornamental at the back of shrubbery borders and for seashore planting.

African Tamarisk (T. Africana).—Strong, slender-growing, irregular shrubs with feathery foliage and small, delicate flowers, borne profusely on gracefully bending branches in very early spring. These pink flowers are very attractive. \$1.00.

TROLLIUS (Globe Flower).

This is another choice and rare flower growing in my gardens. Desirable free-flowering plants, producing their giant bright yellow, buttercup-like blossoms on stems 2 to 3 feet high from May until June, succeed admirably in the border in a half-shady position in well-drained, preferably light soil. 35 cts. each; \$3.50 per doz.

BLUE SCILLAS.

Few bulbous plants give so much satisfaction as the Wood Hyacinths; they last long in flower, force readily and thrive apace in any position and soil and bloom profusely early in the spring. Doz. 50c; \$3.50 per 100, postpaid; \$30.00 per M, by express, collect.

LILY OF THE VALLEY.

Fine home-grown roots or "pips" for garden-planting. Once planted it will grow and spread out and bloom beautifully with no care at all.

Plant a small bed of them by all means. They will be good for a lifetime. Will grow well even under trees or among shrubbery. This lovely old-fashioned flower is too well-known to need description here and every flower garden, if not already supplied, should have it by all means. Fine roots, 75c per doz.; \$5.00 per 100. Extra strong clumps, 50c each; \$5.0 per dozen.

MIXED NARCISSUS AND DAFFODIL BULBS.

Home-grown, choice, healthy blooming sized bulbs. Comprising the following choice varieties:

Emperor (huge yellow trumpet) **Empress and Victoria** (Bi-color), **Barii Conspicuous** (a lovely single medium trumpet), mixed only, 75c per doz.; \$5.00 per 100, postpaid.

SEPARATE NAMED VARIETIES.

Henry Irving—A very early, pure yellow trumpet variety, 85 cts per doz.; \$6.00 per 100, postpaid.

Mme. De Graff—pure white perianth, trumpet primrose; a very beautiful color combination. 10 cts. each; \$1.00 per doz.; \$7.00 per 100.

Barii Conspicuous—A beautiful single medium trumpet Narcissus, also called Chalice Cup or Star Narcissus. Perianth broad, soft yellow, orange scarlet cup. A wonderful free bloomer; splendid for borders. 75 cts. per doz.; \$5.00 per 100, post-paid; \$40.00 per M, by express, collect.

Glory of Lisse—A lovely single large, pure white Narcissus; very sweet; one of the finest; long stems; fine for cutting. 75 cts. per doz.; \$5.00 per 100, post-paid; \$40.00 per M.

Poeticus Grandiflora—The best in that class; much finer than the common Poeticus (Pheasant's Eye). Broad, wide-spreading perianth of snowy white; very small flat cup

deeply rimmed dark red; a flower of fine shape; a tall and vigorous grower; excellent for pot culture. 60 cts. per doz.; \$4.50 per 100.

Leedsii Mrs. Langtry—Pure White perianth, with primrose cup; very free flowering; used extensively for mass planting; a lovely, dainty flower. 60 cts. per doz.; \$4.50 per 100, post-paid.

Elvira—The best of the cluster-flowered Poet's Narcissus. Perianth pure white with a yellow eye; three or four flowers; two or three flower stems to a bulb; strong, tall grower and free flowering. Splendid for pots, pans or gardens; very sweet. 10 cts. each; 90 cts. per doz.

These bulbs will be ready in August, and should be planted in the early fall—spring planting will not do. None for sale after October, as that month is our latest planting month.

IMPORTANT NOTICE! Prices quoted on bulbs include the postage charge, but for Western States only. To North and South Dakota, Nebraska, Kansas, Oklahoma and Texas, and all states east of there add 10 cents to the dozen prices and 50 cents to all 100 prices.

A SENSATION IN THE PANSY WORLD.

For the past two years I have grown in my gardens two wonderfully beautiful varieties of Pansies that have been a joy to everybody who has seen them. They are of the famous Steele's Mastodon Pansy strain, undoubtedly the finest strain of Pansies in the world, and I consider these two varieties absolutely the finest, most wonderful colors in pansydom.

Mlle. Irene—A shade never before known to pan-

sies. A henna red; in every respect a grand flower, with a long, strong stem.

Steele's Mlle. Isabelle—A wonderfully ruffled bronze; a few are yellow; huge in size and a sensation in the pansy world.

Both are equally wonderful. New seeds ready now which you must sow in August to obtain large plants for next year. You must sow in a rich, moist soil and keep your seed bed moist through the summer; letting them dry out once means failure. Package of 150 seeds, 25 cts. in either variety; two for 40 cts. PLANTS in the early spring at 75 cts. per doz.; \$5.00 per 100, post-paid.
