Directions for Ordering

Write plainly and give explicit directions as to address and mode of shipment. Shipments will be forwarded exactly as directed, but when without instructions, we will use our best judgment and forward by shortest and safest route. We recommend all herbaceous plants to be shipped by express.

All orders are accepted subject to previous sale and the following terms and conditions:

PRICES.—Prices in this catalog cancel all previous lists, catalogs and quotations. Prices are subject to change without notice. **The prices in this catalog include packing, except on special bulky pieces,** for which cost of packing will be extra. Our prices are f. o. b. our shipping station, or for local delivery f. o. b. customer's place if within 20 miles of our Nurseries. Arrangements can be made for distance deliveries by motor trucks of full truck loads if desired.

STOCK SPECIALLY SELECTED by customers at the Nurseries will be charged according to the value of the trees chosen, irrespective of catalog list price.

QUANTITY.—Lots of 5 and 50 will be furnished at the 10 and 100 rates respectively. Where no price per single plant is quoted lots of less than five plants of any one sort are sold at the 10 rate, plus 50%.

TERMS, CASH WITH ORDER, except to persons who satisfy us as to their responsibility, when **accounts will be due in 30 days.**

Forwarding and Shipping

SHIPPING SEASON opens about March 1st in the Spring and August 1st in the Fall.

INSPECTION.—Our stock is regularly inspected and certificate will be sent with each shipment.

GUARANTEE AND CLAIMS.—All goods are guaranteed true to name, full count, up to grade, and in good condition when shipped. Any plant proving untrue to name will be replaced. Our stock is of the highest grade, thrifty and well grown, insuring its success if properly cared for after transplanting. As we have no control over its usage after it leaves our hands in good condition, **we can give no guarantee on the life of stock;** however, any just complaint will receive our utmost consideration. **Claims** must be made within five days after receipt of goods. Stock delivered as per order and in good condition is not returnable.

GOODS IN TRANSIT.—All goods are at purchaser's risk after they are delivered to the forwarding companies and we receive their receipt for the shipment in good condition. **Claims for damage while in transit must be made to the delivery company.** Have delivery agent note the damaged condition on the freight bill, promptly present your claim to the transportation company.

ADDRESS all correspondence and orders to

ANDORRA NURSERIES, Inc.

CHESTNUT HILL,

PHILADELPHIA, PA.

The Rose Garden, enclosed by Hedges of Arbor Vitæ, with mass planting in the background

An Invitation to Andorra

Those interested in trees and plants out-of-doors are always cordially welcome at Andorra. Excellent highways through this beautiful rolling section of Pennsylvania, with its charm of colonial manor house and country-place, offer inviting roads from every direction to visitors in motor cars. Train connections over the Chestnut Hill branches of both the Pennsylvania and Reading Railroads make Andorra a two-hour run out of New York and a half hour from the heart of Philadelphia to Chestnut Hill Stations; from Chestnut Hill Stations a ten-minute ride on the City Line trolley cars brings one to the Nurseries.

Planting New Places

Offers a problem both interesting and difficult to those not entirely familiar with Trees and Plants in their relation to each other and their future effect as specimens or in masses.

The Andorra House Booklet, just published, shows the development of the grounds—its illustrations carry one through the construction period to the finished place, showing in a marked way how much can be done with a small property, when carefully planned and planted. A copy will be sent on request.

Evergreen Trees

All Evergreens are lifted with ball and burlapped.

ABIES concolor.

Per 10 Per 100

WHITE FIR. Tall, rapid growing; hardy rich silvery needles. For specimen or groups.

CUT-LEAVED WEeping JAPANESE MAPLE. Very dwarf; broad; graceful; light green foliage. Mass with evergreens.

2 to 2½ ft. x 3 to 4 ft.\$15 00 to 20 00

2½ to 3 ft. x 4 ft.\$25 00 to 35 00

3 to 4 ft. x 4 to 6 ft.\$50 00 to 75 00

A. palmatum, var. flicifolium.

YELLOW-LEAVED JAPANESE MAPLE. Large foliage of soft green.

Specimens. 6 to 9 ft..Each \$25.00 to \$50 00

Deciduous Trees for Screens and Windbreaks

By properly planting trees of quick-growing varieties in combination with slower growing, more permanent sorts, it is easily possible in a few years' time effectively to blot out objectionable views which mar the outlook from house or lawn, at the same time by planting flowering trees, evergreens or shrubs on the lawn side, producing an added attractive landscape feature.

The trees, found in this category, comprise varieties which are valuable for the purpose, on account of their quick-growing qualities, as the Birches and Poplars, or for the charm of gorgeous fall coloring, as the Pin Oak. The admixture of long-lived trees and flowering sorts with this group is advisable. In any mass planting of trees the quickest and most satisfactory results are obtained when the spaces between the trees are planted with an undergrowth of spreading shrubs.

ÆSCULUS carnea (rubicunda).

RED-FLOWERED HORSE CHESTNUT. Medium; semi-regular; attractive bloom. Best as lawn specimen.

Per 10

6 to 7 ft.	Each \$5 00

Berried Shrubs for Fall and Winter

The shrub border is poorly planned if it does not include some of the handsome berried varieties which, from late Summer until well into the Winter, add their charm of bright colors ranging from white to blue, black and scarlet. Their brilliant berries make most attractive house decorations and fill the shrubberies with song birds.

A background of Evergreen trees adds to the beauty of the bright berried shrubs, making appropriate contrasts to their brilliant coloring and harboring the birds. Many of the Evergreens also have berries like the Junipers, Yews and Hollies and the Evergreen Thorn with its flaming scarlet berries in great clusters and the black-berried Japanese Hollies.

KÆLREUTERIA paniculata.

VARNISH TREE. Characteristically Chinese, bearing golden-yellow July flowers. Striking Fall foliage.

8 to 10 ft.	3 50	28 00	175 00

MAGNOLIAS—CHINESE SPECIES

Small trees flowering early, the blossoms magically appearing over night. Excellent for the garden or intimate planting near the house and seen to best advantage against a dark background of evergreens. Very fragrant. Any planting devoid of Magnolia bloom in early Spring loses much of the charm of our first bloom in the shrubbery or as specimens. Special attractiveness is added to garden entrances and pathways when these beautiful trees flank the entrance. Either grown in bush form with their branches down to the ground or trained to simple stems when their dense branching and heavy foliage form a rich canopy and over-arch the pathway.

MAGNOLIA Alexandriana. (Hybrid.)

ALEXANDER'S MAGNOLIA. Hardy and vigorous. Large, glossy foliage; deep cup-shaped pink tinted flowers in April.

Per 10

PLANERA japonica.

JAPANESE WATER ELM. A rare tree.

16 to 18 ft.	Each \$10.00 to 15 00	
-------------------	-----------------------	--

Large Trees

We are equipped to supply trees thirty to forty feet in height, that are in keeping in size and dignity with our spacious modern houses, these trees producing an immediate effect on estates which would otherwise be shadeless and uninteresting for many years. Prominent among the varieties of large trees which we have, and which can be successfully moved by truck or freight, are Maples, Elms, Oaks, Lindens, Planes and the spreading Beech; among the Evergreens are Pines, Spruces, the Japanese Cypress and great Boxwoods.

Oriental Plane Tree

ORIENTAL PLANE.

The proprietor of the Nurseries saw this tree in Europe many years ago and, realizing its great value as a street tree admirably adapted for city planting, introduced it extensively in this country. We have made a specialty of growing the Oriental Plane, spaced wide apart in the nursery rows, insuring a fine symmetrically-developed top, while frequent transplanting creates a thick fibrous root-system. Our trees are immeasurably superior to those grown without the care which we exercise, and will produce the quickest results.

This rapid-growing, symmetrical, wide-spreading tree, together with the Norway Maple, are most suitable for city street planting. Attractive trunk and foliage. Rapid grower; fine, symmetrical head. Not bothered by insect pests or smoky, dusty locations.

PLATANUS orientalis (acerifolia).

8 to 9 ft.	5 00	

The Oak

On account of its long life and freedom from injury by storms the Oak is generally looked upon as an extremely slow growing tree. To the contrary some varieties grow quite as fast as our other hard wood trees, notably the Pin and Red Oaks. Both these varieties are admirably adapted to street, avenue and lawn planting, where a handsome permanent tree is required.

QUERCUS alba.

WHITE OAK. Broad, open head; in the Fall purplish-brown leaves, on spreading branches, held through Winter.

T. tomentosa (argentea).

SILVER-LEAVED LINDEN. Leaves green above, silver beneath. Broad, shapely, pyramidal habit. Beautiful lawn specimen.

12 to 14 ft.; 2 to 2½ in.	Each \$3 50	28 00
14 to 16 ft.; 2½ to 3 in.	5 00	40 00
16 to 18 ft.; 3 to 3½ in.	12 50	100 00
Specimens. 18 to 22 ft. Prices on application.		

T. tomentosa, var. pendula.

WEeping SILVER LINDEN. Drooping branchlets; very graceful tree.

Specimens. 20 to 30 ft.; 5 to 6 in. Cal.

Each \$75 00

T. vulgaris (europea).

EUROPEAN LINDEN. Vigorous, handsome, symmetrical; rapid growing. Excellent for formal avenues.

12 to 14 ft.; 2 to 2½ in.	Each \$5 00	
14 to 16 ft.; 3 to 4 in.	\$7.50 to 12 50	
16 to 18 ft.; 4 to 5 in.	\$12.50 to 25 00	
Specimens. 18 to 25 ft. Prices on application.		

The Elm

Holding a distinctive place as a street tree or stately specimen the American Elm has become more widely known than some of the other varieties; these should share with the American species its popularity as they are adapted to a wide range of soils and possess the merit of being fairly rapid growers.

ULMUS americana.

AMERICAN ELM. Vase-shaped head. Peculiarly appropriate for street or lawn planting, giving vaulted cathedral effect.

		Per 10	Per 100

Vines, Climbing and Trailing Plants

Vines are an essential to every place—there are walls, fences, arbors, unsightly banks and odd corners to be covered. A selection for every purpose can be made from the following varieties.

ACTINEDIA polygama.

		Per 10	Per 100
5-in. pots	Each \$0 75	\$5 00	

AKEBIA quinata.

FIVE FINGERED VINE. Shiny foliage; clusters of small chocolate colored, fragrant flowers.

5-in. pots	Each \$0 75	5 00	
------------	------------------	------	--

AMPELOPSIS quinquefolia.

VIRGINIA CREEPER. Rapid growing for fences, rocky slopes and banks; Fall foliage rich crimson.

5-in. pots	Each \$0 75	5 00	\$35 00
------------	------------------	------	---------

A. quinquefolia, var. Engelmanni.

ENGELMANN'S CREEPER. Similar to previous sort, but will cling to walls.

5-in. pots	Each \$0 75	5 00	35 00
------------	------------------	------	-------

A. tricuspidata (Veitchii).

BOSTON IVY. Strong, clinging vine of rapid growth; good Fall color. Best for walls.

4 and 5-in. pots; heavy	Each \$0 75	5 00	35 00
-------------------------	------------------	------	-------

BIGNONIA grandiflora.

TECOMA. Large, brilliant orange red flowers.

3 to 4 ft.; field-grown	Each \$0 75	5 00	
-------------------------	------------------	------	--

B. radicans.

TRUMPET VINE. Strong climber with orange flowers in mid-Summer.

2 to 3 ft.; field-grown	Each \$0 75	4 00	
-------------------------	------------------	------	--

CELASTRUS scandens.

BITTER-SWEET. Rapid growing; orange-yellow fruit. Its rank growth makes it useful on rough banks in billowy masses.

3 to 4 ft.; heavy; field-grown....	Each \$0 75	5 00	25 00
------------------------------------	-------------	------	-------

CLEMATIS coccinea.

RED CLEMATIS. Rapid growing, covered in Summer with coral-red flowers.			
5 in. pots	Each \$1 00	Per 10 \$7 50	Per 100

C.—Large Flowering.

Henryi, white; Jackmani, purple; Duchess of Edinburgh, white, double; Mme. Edouard Andre, red

Hardy Flowers in the Garden

Hardy Herbaceous Perennials

THERE is a strong appeal in the gardens of old farmhouse and cottage with the glowing yellow and orange Day-lilies, bright flowered Phlox and Peonies, and their show of hardy Chrysanthemums; a demonstration of the ease with which these plants are grown and the little care they require when one thinks how little time the busy country housewife can spend in gardening. The old-fashioned perennials have been enriched with many improved varieties and species, and every corner of the grounds can be kept bright throughout the whole growing season; the tall growing varieties can be effectively planted in the shrubberies, their flowers showing against the background of evergreen or shrub, and the lower sorts blending the edge of shrubbery and lawn in naturalesque borders, or the wood edge made gay with some of the Asters, Foxgloves, Ferns and many others.

Of flowering plants, two things are demanded—Varieties which will brighten our lawns and gardens, and which can be cut for house decoration—these hardy herbaceous plants reward us bounteously in both requirements. The height, color and flowering season of each variety are given in the following list. The tall growing varieties should be planted about eighteen inches apart and the lower-growing sorts about ten.

Quantities of 5 and 50 of a variety will be furnished at the 10 and 100 rates, respectively; quantities of less than five plants of one sort are sold at the ten-rate, plus 50%.

Hollyhocks—which we grow by the thousand. Our present stock shows a beautiful assortment of colors

N. B. Less than 5 plants of a variety will be sold at the 10 rate + 50%.

HARDY CHRYSANTHEMUMS—POMPON VARIETIES

When frost has browned the other flowers of the garden, these hardy plants burst forth in a profusion of bloom, in colors which seem to catch the most delicate tints and shades of bronzing leaf and gorgeous autumn sunset, while some foretell the purest white of coming snow, and pink of purpling shadows.

Planted in the hardy garden, border or lawn at edge of shrubbery, they will yield a wealth of bright flowers in late autumn, and fill the house with cut flowers.

A Very Satisfactory Way to Utilize an Old Pond Bed or Bog

JAPANESE IRIS (*Iris Kämpferi* or *laevigata*)

50c each; \$3.50 per 10; \$25.00 per 100

Of all the Iris family none equal the Japanese. The large blooms, carried well above the foliage, are gorgeous in their coloring, which ranges from purest white to deep purples, indigo blues and mahogany red, between which there is a wonderful array of tints and mottlings. To see our collection a visit to Andorra in June is worth while; or better buy a full set.

Blue Danube No. 7. Deep indigo-blue with violet shadings.

Dinah No. 13. Purple flaked with white.

Hanniball No. 21. Porcelain lined with rose purple and lavender.

Mahogany No. 26. Deep, velvety, mahogany red.

Mt. Hood No. 28. Violet-red shading deep blue toward center.

Neptune No. 30. Rosy-purple suffused with light blue.

Oriole No. 32. Purple amaranth.

Princess Clothilde No. 36. Ash gray blushed with purple.

Pyramid No. 38. Deep violet-purple veined with white.

Shadow No. 42. Deep blue shading to indigo.

Templeton No. 45. Violet-purple marbled with white.

Victor No. 49. Porcelain veined with blue.

Cordelia No. 252. Standard petals pale blue; fall petals rosy pink.

Edina No. 253. Clear satin blue, marked with dark blue.

Eytharia No. 254. Tall; a very light purple tinted variety, veined with purple; very delicate.

Gazelle No. 256. Standard petals white, heavily frilled with clear blue; fall petals white, edged blue.

Hortense No. 257. Tall; light yellow, tinted with brown veins. One of the lightest varieties.

Hugh Block No. 270. Standard petals yellow; fall petals bluish bronze and yellow.

Jordeans No. 258. Delicate red lilac.

La Tristesse No. 271. Standard petals dull yellow bronze; fall petals veined with maroon, dashed with purple.

Mexicana No. 274. Dwarf. Standard petals yellow; fall petals veined with purple. Very distinct.

Penelope No. 260. Light bluish white, veined with violet; a striking and distinct variety.

Queen of May No. 261. Standard petals rosy lilac, veined with yellow. Tall. Distinct.

Rolandiana No. 275. Standard petals blue; fall petals reddish-purple.

Walneriana No. 277. Standard petals deep lavender-blue; fall petals clear bright blue.

Rich in Form and Color the Peony is a Fine Cut Flower

PÆONIA—PEONIES

Rich in an infinite variety of color, from white through tints of pink and rose, to darkest crimson, these hardy plants grace garden, bed or border with gorgeous bloom in May or June, and their fragrant flowers are most decorative when cut for the house or porch. Whether against a background of evergreens or shrub border, or in the garden, they yield a rich return in blossoms. They are best transplanted in August or September, but may be moved in very early spring, and should be planted about two feet apart in good ordinary garden soil.

We are making some changes in our extensive plantations of peonies, and can offer strong plants from some of the best varieties, in assortment, for Fall planting, at exceptional values.

Our Assortment of Mixed Colors

PHLOX PANICULATA—HYBRID PERENNIAL PHLOX

A succession of flowers of greatest beauty from early July until frost, in softest tones of pink and rose, salmon, mauve and silvery white in great paniced blooms, will brighten the hardy border of mixed varieties of Phlox. Easy of culture, and perfectly hardy, the plants can be used at the edge of shrub border or in the garden, spaced about eighteen inches apart.

HARDY FERNS

50c each; \$3.50 per 10; \$25.00 per 100

- ADIANTUM pedatum** (Maidenhair Fern). 1 to 2 ft. Moist, shaded positions.
- ASPIDIUM acrostichoides** (Christmas Fern). 1 to 2 ft. Evergreen. Dry or moist soils in shady places.
- A. Felix-mas** (Male Fern). 2 ft. Semi-shaded positions, dry or moist soils.
- A. Goldianum.** 2 to 4 ft. Semi-shaded positions, dry or moist soils.
- A. marginale.** Evergreen. 1 to 2 ft. Shaded positions, dry or moist soils.
- ASPLENIUM Filix-fœmina** (Lady Fern). 2 to 3 ft. Open or shaded positions, in moist or dry soils.
- BOTRYCHIUM virginianum** (Moonwort). 6 to 12 in. Shaded positions, moist or dry soils.
- DICKSONIA punctilobula** (Boulder Fern). 2 to 3 ft. For open positions; forms large plantations.
- ONOCLEA sensibilis** (Sensitive Fern). 1 to 2 ft. For open planting and wet soils.
- O. Struthiopteris** (Ostrich Fern). 2 to 4 ft. For open positions, dry or moist soils.
- OSMUNDA gracilis** (Flowering Fern). 2 to 4 ft. Open or shaded positions, and moist soils.
- O. Claytoniana.** 2 to 5 ft. For open plantings, dry or moist soils.
- O. cinnamomea** (Cinnamon Fern). 2 to 5 ft. For open or shaded positions, in wet soils.
- WOODSIA obtusa.** 6 to 12 in. Shady places, in moist soil.
- WOODWARDIA angustifolia** (Chain Fern). 1 ft. Open or shaded positions, in moist soils.

The Home Fruit Garden

To meet a demand for fruit trees in larger sizes than those ordinarily offered by the fruit nurserymen, we have grown a limited quantity of trees of the best varieties in large sizes, which will obviate the long wait for trees to come into bearing. List and prices on application.

Abbreviations.—Summer (s), Fall (f), Winter (w).

APPLES. Two-year-old trees of the following varieties. Per 10
Each \$1 50 \$12 50

August, 1923.

INSECTICIDE DEPARTMENT

Our Insecticide Department participates in the latest information from authoritative sources on the treatment of injurious pests and plant diseases. We solicit our customers to write us about their insect troubles, and we will recommend the best tested remedies for their treatment. The manager of this department has had many years experience as an entomologist in state and government service.

Our list of spray materials is selected with reference to merit rather than to cheapness of production. No material is offered which has not passed the severe tests given by state and government agricultural experts and the rigid requirements of insecticide laws. The well known products of Sun Oil Company, Mechling, Corona, Niagara, Black Leaf and Hall's Tobacco are represented on this list. We have not discriminated against trade names less well known, when the product is superior.

Where economy to the customer can be effected by direct shipments from the manufacturing points, deduction on the quoted price will be made, not to exceed the cost of the freight from the manufacturing point to our shipping point.

Write for special quotation on large lots.

All prices are subject to change without notice.

SUNOCO SPRAYING OIL

A heavy oil of high viscosity has been universally used in making the home-made emulsions as successfully used in fruit regions infested with scale, leaf roller, European red mite and other pests. By an improved method of treatment, such an oil is now to be had which is self-emulsifying and which mixes at once in either hot or cold, hard or soft water. Sunoco Spraying Oil is 95 percent petroleum products which form a colloidal mixture with water. Safeguarding trees and plants from injury is one of the ends reached in this new method of emulsification. In rational dilutions it may safely be applied to tender foliage and is unexcelled as a dormant spray and as a spreader and sticker for Bordeaux, Nicotine Sulphate, Lead Arsenate and other summer spray mixtures. It is usually used 1 to 18 in the dormant period, 1 to 40 for summer spray and 1 to 100 of water as a spreader. The best control for scale, leaf roller, red spider, aphids, psylla, lace bugs and many other insects. With Bordeaux or used alone it alleviates the many fungous troubles affecting fruit and shade trees. For dormant orchard spray it is the best to be had, leaving the bark in a smooth, clean, healthy condition.

PRICES: In 1 gallon cans.....	\$1.30
5 gallon cans.....	5.00
15 gallon drums..... @	.70 per gallon
30 gallon drums..... @	.60 per gallon
50 gallon drums..... @	.50 per gallon

ARSENATE OF LEAD. In powder form. The brand we sell is characterized by the fineness and uniformity of its particles. Used at rate of two pounds to fifty gallons of water, and is always more effective when combined with Sunoco Spraying Oil (1 to 100) or Kayso, as a spreader. Use for chewing insects, codlin moth, caterpillars on foliage, such as bag worm, walnut worm, willow beetle, potato bug and etc.

PRICES: 4 lbs..... @	\$0.40 per lb.
25 to 50 lbs..... @	.32 per lb.

BORDEAUX MIXTURE. We offer this in finely powdered form ready to dissolve in water (3 to 5 lbs. to 50 gal. of water). It has a high copper content (18% guaranteed) and is also good when applied as a dust. For potato blight, leaf spot, apple scab, bitter rot, blotch and other diseases of grape, raspberries, strawberries, roses, etc., consult spray schedules and state and government bulletins. When it is combined with Arsenate of Lead both insect and fungus pests are controlled.

PRICES: 5 lbs.....	@ \$0.30 per lb.
25 lbs.....	@ .23 per lb.
50 to 100 lbs.....	@ .21 per lb.

COPPER SULPHATE (Blue Stone).

PRICES: 5 lbs.....	@ \$0.16 per lb.
10 lbs.....	@ .14 per lb.
25 lbs.....	@ .12 per lb.
50 lbs.....	@ .11 per lb.
100 lbs.....	@ .10 per lb.
450 lb. bbl.....	@ .09 per lb.

DEHYDRATED COPPER SULPHATE. This is to be used in making the copper-lime dusts which have given such good results in apple scab control. Equally effective for late blight on potatoes. The proportions used are 12 pounds of this material, 10 pounds of calcium (or lead arsenate) and 78 pounds of hydrated lime.

PRICES: 100 lb. drums.....	@ \$0.21 per lb.
-----------------------------------	------------------

COPPER-LIME DUST. Already mixed and ready to use in the dusting machine.

"Special 68". For apples and potatoes

PRICES: 100 lb. drums.....	@ \$9.70
-----------------------------------	----------

"Vitidust". Known as Grape dust. For grapes

PRICES: 100 lb. drums.....	@ \$11.00
-----------------------------------	-----------

HYDRATED LIME. PRICES: 50 lb. paper bags @ \$0.65 per bag.

HYDROXIDE. A Bordeaux, calcium, zinc arsenite powder, to be dissolved in water 3 to 5 pounds to fifty gallons. It stands high as a potato spray and is also effective for pests of apples, cherries, grapes, etc., according to directions on package.

PRICES: 5 lbs.....	@ \$0.40 per lb.
10 lbs.....	@ .36 per lb.
25 lbs.....	@ .33 per lb.
50 lbs.....	@ .32 per lb.
100 lbs.....	@ .30 per lb.

BORDEAUX LEAD. Powder. In selecting spray material and the choice lays between a paste or a powder form of the same material, we advise to buy the powder. It will keep indefinitely and it goes twice as far as the paste form. This is simply a mixture of dry Bordeaux and Lead Arsenate, both high standard products, and used as a summer and foliage spray for protection from leaf eating pests and plant diseases. Use 3 to 4 lbs. to 50 gallons of water.

PRICES: 5 lb. package.....	@ \$0.35 per lb.
-----------------------------------	------------------

DUSTING SULPHUR. Not to be confused with the ordinary flowers of sulphur. This is a reground sulphur, which will pass through a 200 mesh sieve, and combined with a special sticker and spreader. Very effective for mildew and red spider. It is used as the base of the sulphur-lead dusts which have displaced sprays to some extent in certain fruit areas, especially where labor is a principal factor.

PRICES: 100 lb. bags.....	@ \$4.25
----------------------------------	----------

SULPHUR-LEAD DUSTS. To be used with hand or power duster and time of application governed by the regular spray schedule in your locality. Consult your County Agent for this. Outbreaks of pests on truck and green-house crops, as well as apples, pears and peaches may be checked by the timely application of these dusts. Their proportions

PRICES:	5 lbs.....	@	\$0.35	per lb.
	10 lbs.....	@	.31	per lb.
	25 lbs.....	@	.28	per lb.
	100 lbs.....	@	.25	per lb.
	200 lbs.....	@	.24	per lb.

ATOMIC SULPHUR. Is superfine sulphur which has been treated with other substance so that it will make a uniform mixture with water. Its activity depends on the free sulphur present (usually 45 to 50 per cent), and the other ingredients cause it to stay in suspension in the spray and to adhere well. This is used as a summer spray for brown rot, leaf spot, etc.

PRICES: 25 lb. kegs.....@ \$0.14 per lb.
50 lb. kegs.....@ .12½ per lb.
100 lb. kegs.....@ .11½ per lb.

LIME SULPHUR SOLUTION. A dormant spray material useful for peaches where leaf curl is to be expected. Also good for scale. As a summer spray it is often used in very dilute solution (1 to 75 or 1 to 100) for red spider.

PRICES: 50 gallon bbls. @ \$0.20 per gallon—Barrels \$2.00 extra.

DRY LIME SULPHUR. This is an economical substitute for Lime Sulphur Solution as it comes as a dry powder which takes up much less bulk. A 100 pound drum is equivalent to a 600 pound barrel of the liquid. It is for dormant spraying and used for the same pests as the liquid.

PRICES: 25 lb. drums.....@ \$0.13 per lb.
50 lb. drums.....@ .11 per lb.
100 lb. drums.....@ .08 per lb.

TOBACCO DUSTS. Are prepared in various grades of fineness from tobacco leaves and stems. The nicotine content varies, but they are of considerable merit for controlling many soil pests and others which may be found in the soil in immature stages, such as the aphids, rose midge, strawberry beetle, etc. The finer reground dusts may give good results in dusting on foliage for aphids. Besides their value in this respect, tobacco dusts are high in potash and other necessary plant foods.

PRICES: Coarse dust with guaranteed value as fertilizer and insecticide. High potash content 2000 lbs., \$30.00 F. O. B. Lancaster, Pa.

PULVERIZED DUST. Nicotine not less than 1 per cent. For dusting. Price, 100 lbs., @ \$4.50.

Note. We can also supply several other grades for fertilizing lawns, greens, etc. Better than manure because they do not scatter weed seeds.

SPRAYING AND DUSTING ACCESSORIES

The requirements of the fruit grower, vegetable grower and florist, call for the strongest, simplest and most efficient spraying and dusting apparatus.

The **Lowell Compressed Air Sprayer** is, in the judgment of experts, the best of its type for spraying small trees, shrubbery, vegetables and greenhouse crops. In heavy sheet brass or galvanized steel.

PRICES: 3 gallon size {brass.....\$10.50
 {galv.....7.50
1 gallon size {brass.....7.50
 {galv.....5.25

The **Vermorel Duster** is the latest advancement in the bellows type of duster. Imported from France. Capacity six quarts (9 lbs. dusting sulphur). The machine is placed on the back and carried as a knapsack. The strap with which it is equipped holds it firmly in position. An easy stroke of the lever insures an even flow of material with sufficient force for thorough penetration. With adjustable slide to regulate volume of flow.

Single action (Puffer type) flow intermittent.....Price, \$20.00
Double action flow continuous.....Price, 25.00
