SEED CORN

This is a very late season and is bound to be a short growing season. It will therefore be necessary for farmers to use a Seed Corn that will give the utmost growth of both grain and stalk in a short season. We have tested out on our own trial grounds all the old varieties of Corn and we know that the Early Wonder will give the greatest growth of grain and stalk in the shortest time of any ensilage Corn on the market.

The wonderful satisfaction it has given has resulted in an increase of almost 50% in sales this year over last. The price is a trifle more; but it is well worth it. The difference per acre for seed is only a few cents.

IF YOU WANT A BIG YIELD OF GRAIN AND STALK AND WANT IT QUICK, USE EARLY WONDER.

We are attaching some slips describing the Early Wonder. Show them to the farmers and if you need more, let us know.

We have, of course, the other varieties of Corn as listed below.

We are also quoting below the different late sowing seeds such as Millets, Sudan Grass, etc.

We know the importance of quick service to dealers in a season like this and are prepared to give it.

EARLY WONDER, Eastern grown (in burlap sacks, weighed in free) . . 56 lbs. \$2.00
