They grow up straight, smooth and much faster and quicker than when planted without cutting back. We cut back all seedlings to crown before transplanting.

THIS LIST CANCELS ALL PREVIOUS QUOTATIONS

We only have a limited stock of some items and would advise placing orders as soon as possible before the assortment is broken. We will be in the market for some kinds of hardwood cuttings and a few tree seeds, also will likely need a few evergreens, and will be glad to have trade lists and catalogues for our files.

We wish to thank each and every one of our customers and friends for the liberal amount of business given us the past season, and also to assure them it will be our pleasure to serve them in the future.
