Luscious Berries Readily Raised from Our Two Year Transplants

You need not wait two years or more for fruit—get it next summer by planting our two year field grown plants with fruiting canes.

Set the plants in the fall any time after October first until the ground freezes, or very early in the spring.

The varieties offered are the best kinds for table use and preserves.

The plants will come to you carefully packed and delivered to your post or express office, charges paid at the price.

THE NEW BLACK GRAPE

HUBBARD

INTRODUCED BY

THE NEW BLACK GRAPE

HUBBARD

DESCRIPTION

QUANTITY sweet and delicious having that fine and pleasant flavor approaching the European or Vinifera Grapes. Seeds few and small which separate freely from the tender pulp. Skin thin and firm. Berries and bunch large and uniform. Ripens about ten days earlier than Concord.

We have investigated many new grapes in the past ten years and found no other grape with so many excellent points.

The **Hubbard Grape** being of better quality, a better shipper, better size, healthy foliage, a strong grower and earlier ripening makes it a more desirable grape to plant than either Concord or Niagara.

PRICES

Delivered by Parcel Post

Two-year, first-class	\$1.50 each
“ “	12.00 per 10
One-year, “	1.00 each
“ “	8.00 per 10

Our supply of vines of this new Grape is limited and orders will be filled in rotation.

T. S. HUBBARD CO.

FREDONIA, N. Y.

In Praise of The Hubbard Grape.

Extracts from letters on file.

"This grape leaves a lingering and delicious taste long after you have eaten it."

"The berries are large and filled with a sweet, juicy pulp approaching the richness of Vinifera."

"They are fine flavor, large size and few seeds."

"The flavor and quality is fine. Juicy and sweet. The more I eat the better I like them. A delicious table grape."

"They are by far, superior to any I have seen."

"It is a grand grape; fine bunch, fine berry, finest flavor. I have no reason to change my former opinion of this magnificent grape."

"I consider it one of my best. Strong clean grower, free from mildew. It went through last winter 13 degrees below zero without damage. The fruit is of superior quality with a distinct flavor that is refreshing."

GRAPE VINES

Four year old field grown with fruiting canes four to six feet long.

These vines will give quick results and may be planted around the porch, trellis, arbor or along the fence.

We can furnish them in black, white and red grapes. State the color you want.

The vines will come packed and securely wrapped to protect the root and canes. Price, \$3.00 each.

**The Hubbard Grape was awarded the Wilder
Silver Medal by the American Pomological
Society at its meeting in Berkeley, Cal.,
1915**

RED RASPBERRIES

Cuthbert. An old standard variety. Berries large, firm, quality high. Bushes strong, vigorous hardy and productive.

Marlboro. Ripens early. Berries large, firm and good. Fine for canning and table use.

St. Regis. A new raspberry of great value and very popular. Everbearing; berries large, firm and good quality.

PURPLE RASPBERRY

Columbian. Dark purple. Berries large and well formed. Flesh, firm and tender, flavor sweet. A favorite for both table and canning.

BLACKCAP RASPBERRIES

Kansas. Berries large and firm, flavor good, quality excellent. Ripens early.

Plum Farmer. The best new addition to the blackcaps. Extra large, flesh firm and tender, flavor sweet and good. Strong grower and productive.
