SURPRISE OFFER After Season Sales

As a result of our propagations that must tax the capacity of our plant, made far in advance of our selling season, we generally have surplus of all kinds of plants, and rather than carry this stock over, we hold a clearance sale beginning June 15, and make up surplus collections of miscellaneous plants at 98c per collection; six collections for \$4.88. In these 98c collections, we give several dollars' worth of plants. All must be strictly our selection. Orders accepted any time during the spring for delivery beginning June 1.

Add Postage, Boxing and Packing Charges for All Mail and Parcel Post Shipments. See Table Below.

Notice If goods are ordered by mail or parcel post, postage and packing charges must be added for every dollar or fraction of a dollar's worth of goods ordered—per table below, to cover boxing, packing and postage. This applies to all orders including seeds in pints and quarts. Seed in packets posted free. This enables us to give our customers the lowest possible selling prices with delivery charges fair to all. Simply add postage and packing charges for every dollar or fraction of a dollar's worth of goods ordered according to the state in which you live. If you live in Alabama, add 6 cents for every dollar; if in Kentucky, add 4 cents; if in Nebraska, add 7 cents for every dollar's worth ordered. Purchaser pays charges on all express shipments.

Postage Table RATE PER DOLLAR

Remember that our premium offer more than offsets postage and packing charges, and that you may select 20 cents' worth of goods extra for every dollar's worth purchased, excepting on special offers and collections.

Climbing American Beauty

"A hardy Climbing Rose which in size of flower, color, form and fragrance is equal to its parent, the grand cut-flower Rose, American Beauty."

SOFT GLOWING RED

(Hardy June blooming.) Climbing American Beauty, the new porch Rose, gives us a new Rose of wonderful beauty and merit. It is a cross between the world famous cut-flower Rose, American Beauty, and an unnamed seedling. It is an American production, the product of American Rose growers. It is perfectly hardy, strong growing, making canes from ten to fifteen feet in a season; a perfect mass of bloom in June and produces flowers occasionally all through the growing season. The foliage is large, bright, glossy green, and never shows signs of any of the diseases that affect Roses. The color is a soft, glowing red; identical with the American Beauty, and with the same exquisite fragrance. The flowers are of a size three to four inches in diameter, finely formed on long stems, and are produced in great profusion. This new Rose will bloom in almost any situation where a climbing or pillar or porch Rose is desired. Success beyond expectations has been found in producing a climbing Rose of the same color, size of flower and fragrance of its pollen parent, blooming qualities; one plant producing twenty Rose. Nice plants, 32c each; 3 for 90c; 12 for \$3.07. Strong 2-year plants, 70c each; 3 for \$2.00; \$6.72 per dozen. Extra large 3-year selected field-grown plants, \$1.00, \$1.50 and \$2.00 each.

32c

Rose, Marechal Niel. "Its fame is world wide."

Yellow Marechal Niel - 25c

"Its fame is world wide"
(Summer blooming, hardy with protection.) The fame of this superb yellow Rose, with its large, deep, golden-yellow, fragrant flowers, is world wide. Almost universally held to be the finest Rose for indoors or outdoors, where the climate admits of its cultivation. In the North, should have careful protection in open ground during winter. Southern California growers tell of single plants showing one to two thousand blooms at a time. Strong one-year plants, own roots, 25c; 3 for 72c; 12 for \$2.70. Two-year, 50c; 3 for \$1.43; 6 for \$2.85. Extra large, 75c and \$1.00 each.

HARDY CLIMBING ROSE

"Flowers over four inches across." **Dr. W. Van Fleet 24c**

FLESH PINK (Hardy June blooming.) Its parents are the lovely sea-shell pink Rose Pres. Carnot and the fast growing Wichuriana. Open flowers are over four inches in diameter. The color is a delicate shade of flesh pink on the outer surface, deepening to rosy flesh in the center. Flowers are delicately perfumed; stems 12 to 18 inches long. Nice plants, 24c each; 3 for 68c; \$2.30 per dozen. Strong two-year plants, 50c each; 3 for \$1.43; \$4.80 per dozen. Heavy three-year plants, 75c and \$1.25 each.

COMBINATION OFFER 1 each of the three Roses on this page, 1-year size for 75c; 2-year size \$1.75; 3-year size, \$2.50. The 3-year plants should be sent by express.

The plant makes a comparatively dwarf compact growth, the fronds, while dense, firm and rigid, are still graceful as the illustration shows. The foliage is also of a darker green than the original Boston Fern. All in all, it forms an ideal plumed Fern, possessing all the merits of former introductions while having a distinctive character that makes it of special value. Plume Fern

Whitmanii

Whitmanii is one of the few feathery foliage Ferns which everyone can succeed in growing. It is a healthy, vigorous grower, constantly unfolding fresh fronds, which often attain a width of twelve inches. Each frond is delicately and finely cut, possessing such elegance of form and willowy grace as to be compared to a beautiful ostrich plume. Its feathery, drooping form and compact, luxuriant growth will make the most sordid surroundings assume cheerfulness and verdant beauty. In decorative effect it far outdistances many of the other varieties of the family. It has taken gold medals wherever shown. Price, 24c each; 3 for 68c. Stronger plants, 35c. Larger plants, 60c. Heavy plants, \$1.00 each; 3 for \$2.85.

The Ideal Fern Roosevelt

A Notable and Valuable Novelty.
Wins Prizes Everywhere.

The Grand Roosevelt Fern has had the most phenomenal sale of any decorative plant grown. Fronds broad and heavy, often measuring 6 inches or more across, and five or six feet long. Owing to the weight of the foliage, the plant assumes an exceedingly massive, yet graceful appearance, and owing to the fullness of the fronds even small plants make much more symmetrical and beautiful plants than the popular Boston Fern. The divided pinnae or miniature fronds which are so gracefully arranged, keep growing constantly, overlapping each other and showing two shades of green, while the center and main part of the frond is rich dark green, the contrast producing a beautiful effect. Price, nice young plants, 24c ea.; 3 for 68c. Stronger plants, 50c each. Larger plants, 85c each; 3 for \$2.42. Extra large plants, \$1.25 each.

POPULAR HARDY HEDGE PLANTS

The above is an illustration of Ibota Privet hedge resulting from plantings six to twelve inches apart. When not trimmed, the appearance of growth is spreading, somewhat like the Japan Barberry, (described below) California Privet is very similar.

California Privet

"Cheaper than Fences, far more beautiful."

Of all hedge plants this is the most popular, and more of it is planted than all others combined. It is of free growth and succeeds under the most adverse conditions, such as under dense shade of trees, where other plants would not exist. Its foliage is a rich, dark green nearly evergreen, remaining on the plant until mid-winter. Nice plants, 75c per dozen; \$5.00 per 100. Stronger plants, \$1.00 per dozen; \$7.50 per 100. Two-year plants, \$1.20 per dozen; \$9.00 per 100. Large two-year plants, \$1.50 per dozen; \$12.00 per 100.

Ibota Privet

"The Most Valuable of the Privet Family."

This variety of Privet is more spreading than the California, and it is probably the variety of all the varieties. It is of dense growth, good green foliage, grows well in all soils. It can be trimmed as desired and will give the straight line hedge or the spreading type as would be represented by its natural growth. It is becoming more popular every year. Highly recommended. Nice plants, \$1.00 per dozen; \$7.50 per 100. Stronger plants, \$1.25 per dozen; \$10.00 per 100. Two-year plants, \$1.75 per dozen; \$14.00 per 100. Large two-year plants, \$2.50 per dozen; \$20.00 per 100.

Japan Barberry

"Grows anywhere, branching gracefully; striking color."

(Berberis Thunbergii.) Where a dwarf deciduous hedge is wanted, nothing equals this beautiful Barberry. Requires but little pruning to keep in shape.
