GROWERS AND IMPORTERS OF BULBS AND SEEDS.

Cannas

CANNAS are the most popular of all summer decorative plants. The demand for them for formal bedding for parks, cemeteries, and private gardens surpasses all others. Florists who do considerable work of this kind will find a very complete list here to select from, included among which are such notable varieties as President, Meteor, Wintzer's Colossal, Yellow King Humbert, King Humbert and Hungaria—all ideal varieties for large massed plantings. Cannas are one of our big specialties. We are headquarters for all varieties listed below:

Tuberose

FOR years we have been regularly supplying some of the largest florists in the country with Tuberose. Our stock of Dwarf Pearl is the true, large flowered double variety, clean and healthy, and carefully graded. We are ready to quote special prices in lots of 5,000 and 10,000 and up in any grade desired. We are the largest handlers of these.

Caladiums (Elephant's Ears)

THERE is always a popular demand for these highly decorative tropical plants and florists should arrange to have a good supply already started in pots for summer bedding. These bulbs also are quick sellers for store trade. Our stock is clean, healthy and carefully graded. It is well to order early as the larger sizes are usually exhausted early in the planting season.

Rynveld's

THE following list comprises all the leading market varieties as well as many rarer varieties and novelties that will in turn become Florists' varieties when quantities increase. Meanwhile progressive florists should try out some of these, all of which carry our highest recommendation.

Practically all are grown on our own farms in Long Island where soil and climate offer ideal conditions for growing and harvesting. All are carefully graded in sizes as offered and we take considerable pains in keeping our stocks healthy and true to name. We invite inspection at our nurseries or will be glad to send sample flowers of the newer and rarer varieties during the flowering season.

Dear Sirs:

Houston, Texas

We wish to acknowledge receipt of the three cases of bulbs, that arrived a couple of days after we wired you. They arrived in good condition and we are very much satisfied with same.

ASK FOR THESE FREE DISPLAY CARDS

For florists who cater to counter trade in spring bulbs we offer free with every order attractive lithographed display cards showing Tuberoses, Caladiums, Dahlias in 4 colors, Hardy Lilies in 3 vars. Gladiolus in 6 colors, Cannas in 4 colors, Peonies in 3 colors and Lily of the Valley.

Ask for these if you want them. They will be a great help selling bulbs over the counter.

Dahlias

WITH hundreds of new varieties being introduced each season it becomes more difficult for the florist to make a suitable selection.

We have made extensive experiments on our Trial Grounds with the idea of offering a list that comprises freeness of bloom with keeping qualities, and a suitable range of color, and we believe that the following kinds make a representative list of the best cut-flower varieties.

Lily of the Valley

Best Hamburg and Berlin Pips

THE fact that we are probably the largest importers of Lily of the Valley is conclusive evidence that our stock must give the best results. We have specialized in selecting the finest quality pips for our American Florist trade and have many testimonials from leading growers telling us of the fine crops produced. Good Lily of the Valley is invariably a profitable crop and every florist can produce the finest flowers by starting with our "Newport" brand pips. All of our Valley is packed on our own premises in Hamburg under the personal supervision of our Mr. F. Rynveld.

Valley for Counter Trade

THE ease with which Lily of the Valley can be flowered in every home makes it an attractive line for Florists to sell over the counter.

It will be found that a brisk trade can be done in these, in conjunction with the attractive Valley bowls and packages of bulb fibre shown on this page. For store trade we suggest using the *first quality* pips.

Freeseias

Ready July—August

OUR Freeseias are grown especially for us by one of the best California growers. Our stock of Purity is the true improved pure white strain.

We advise early ordering so as to secure partial delivery from the first lots arriving. Should there be a scarcity of the larger sizes we shall give proportionate quantities of the smaller sizes to complete deliveries.

Baby Gladiolus

THESE are valuable bulbs for florists to force for early spring bloom. The varieties offer a wide selection of color and are an exceptionally profitable "catch crop" for benching as the early and midseason 'Mums mature. Our bulbs will be ready for delivery about September.

Since Horticultural embargo went into effect they have been almost unprocurable, but we have been carefully working up a stock in California that is equal in every way to the grades formerly imported.

Gentlemen:

Dec. 18, 1922

We have been very pleased with the stock of Valley you have sent us, and for your prompt attention to our orders. We are working up a good retail counter trade with these and expect to see our sales double what they have been.

Spiraeas

BEFORE the embargo we were the largest importers of this popular Florists' item, and as soon as the country was closed, began experiments immediately to determine if suitable florists' forcing stock could be produced here. We found that the soil we now use on Long Island grows these roots to perfection and that florists could force them even better than the imported stock.

In addition to the list of popular kinds well known to the florists we are adding the newer European novelties as their value is demonstrated. Spiraeas have always been one of our specialties. We are now, as before the embargo, the largest growers in the world.

We are sold up on crop of 1922 but are now booking for next November shipment.

Rynveld's Peonias

FOR many years we have devoted much time and considerable acreage to the cultivation of Peonias, and our extensive trials being carefully recorded, we are enabled to recommend the following list of exceptionally fine varieties, selected for their large size, perfume, long stems, upright habit and succession of bloom.

Florists are yearly devoting more room to this valuable outdoor flower, which requires very little care, and a liberal planting in a few years becomes a valuable "cut and come again" source of supply, bringing unusually big returns, particularly around Memorial Day. Considering the quality of our stock and the high standard of the varieties our prices will be found extremely low, so low in fact that many of them cost no more than the old fashioned obsolete varieties usually offered to the trade.

Shipments—All varieties are offered in 3 to 5 eye divisions for September delivery.

Dear Sirs

Fall River, Mass.

On Saturday of last week, I received the Paper Whites you so kindly sent me.

This is the second time I have received stock from you and to say I am pleased is plac-
ing it mildly, as I say without flattery it is the best I have ever received from anyone. Will also
say that your prices are very moderate.

Yours very truly,

A. W.

Dutch Bulbs

FOR years we have been favorably known as one of the leading houses growing and shipping bulbs of a superior quality for the American market. Our farms of over one hundred acres are situated in those parts of Holland where the finest Hyacinths, Daffodils and Tulips are produced, in addition to which we are in direct touch with all the largest growers, who specialize in certain varieties alone. These conditions enable us to at all times supply the needs of the most particular buyers, and with no middleman intervening, our customers receive the advantage of the direct "grower to consumer" price. Please bear in mind that we grow bulbs primarily for the American florists' trade, which at all times receives the cream of our stock.

Our special price list will be published around April. Meanwhile we will solicit your orders on an open price basis with the understanding that our prices when finally named will not be higher than those of other reliable houses.

bulbs, last fall, it would appear that "Rynveld quality and prices" combined with earliest deliveries are creating more and more satisfied customers among the great market growers and dealers in this country.

In PAPER WHITES alone this year we handled more than a quarter of the entire French crop. Most of our French bulbs are produced on our own farms at Ollioules, and during the harvesting season and active buying period we have at least two representatives, closely watching the market, eager to take advantage of every favorable turn of events that will benefit our customers.

We shall be glad to book orders now at open prices for your requirements from the following list and will quote prices we propose to charge you just as soon as these are fixed.

NARCISSUS—PAPER WHITE GRANDIFLORA

Lilium Harrisii Ready in August

Since the old disease of these bulbs has been almost eliminated the variety is again assuming its old popularity. The bulbs we offer are grown from a strain selected by the Bermuda Department of Agriculture and grown under their careful supervision. Every florist should grow some of these most beautiful Easter Lilies.

Japanese Lilies Ready in Oct.--Nov.

Our direct connection with Japanese growers of known repute enables us to give our customers reliable information at all times on circumstances and conditions affecting the market. We shall be glad to book you now for your complete requirements, and quote prices as soon as these are established, and guarantee that these will be in line with quotations of other reliable houses for similar quality. Don't be misled. Lower prices usually mean lower quality. We are large importers of these bulbs, our stock being carefully graded and packed in standard cases.
