"SERVICE"

Imported and Grown By
NORTHWEST BULB CO., Inc.
BOX 117 - PORTLAND, OREGON
Nursery---Columbia Blvd. at Mississippi Ave.

INSTRUCTIONS

At prices herein quoted, we will send all bulbs PREPAID by express or parcel post, to any point in the United States or Canada.

Please furnish complete address.

We will be glad to give special quotations on large orders.

One to five bulbs will be supplied at one-tenth of dozen rate; six or more at dozen rate; fifty or more at hundred rate.

We will not substitute without your permission. It is often advisable, especially late in the season, to name one or two other varieties as substitutes in case we cannot fill your order complete as given.

In case of error or dissatisfaction of any kind please notify us immediately so that we can adjust the same.

Our Guarantee—We guarantee our bulbs to be true to name and will gladly replace any that might accidentally prove otherwise. We guarantee that the bulbs will reach you in a first class, growing condition but cannot guarantee that they will grow and thrive as you must readily appreciate the impracticability of so doing with so much dependent upon soil, fertilizer, weather, care and other conditions, **over which we have no control.**

Our stocks this year are mainly of Holland production, although we are supplying a limited quantity of Oregon-grown bulbs, all of which will be so designated. Our aim is to furnish nothing but our own bulbs in the near future, as soon as we can build up our stocks. Nearly all bulbs grow to perfection here in the mild winter and balmy summer climate of the Willamette Valley. As tulips and narcissi are usually harvested beginning June 10 to 15, they can be forwarded any time after mid July, from 6 to 8 weeks earlier than arrival from Holland. Planted earlier they will naturally bloom earlier.

We cannot guarantee to fill your order after November 1st as we aim to plant all our surplus stocks after that date.

HYACINTHS

These are among the most popular and satisfactory bulbs grown. Their wax-like, bell-formed flowers, borne in artistic trusses, are of matchless beauty and wondrous fragrance. Especially fine for pot culture in the house.
