Retail Price List 1923

Boxed or Baled, f. o. b. Pomona, N. C.

Terms: 5 per cent discount for cash with order, or 30 days net. Financial references required of persons opening accounts.

Prices noted herein are as low as well-grown plants can be produced. A good plant usually cannot be grown in one or two seasons, and the term one-year or two-year-old, and heights given, such as 18-24 inches, 2-3 feet, are usually very misleading. A Spirea van Houttei, one year old, may be 3-4 feet high, but it should not be compared in price or value to a well-grown plant of the same height carrying from 15 to 25 branches and frequently transplanted. Prices quoted are for extra heavy transplanted stock.

In passing some particularly attractive house, you have heard, "What a beautiful place! That is a real home!" Very likely you said it yourself!

There is no question as to the fact.

But why? What is the "difference"? You've just passed several hundred "houses". Ah, there's a difference—"It's Not a Home Till It's Planted."

Lindley's Landscape Department stands willing and glad to assist you in any way desired—whether you simply want prices on planting materials, and advising you just what plants will be most suitable for different locations and soils; or working out for you a planting suggestion for your entire lawn—showing locations, suggesting varieties to be used, submitting an estimate of the cost—and we strive always to render prompt, efficient, and courteous attention to each request.

South entrance, Irving Park, Greensboro, N. C. Sugar Maples planted along the drives.
For shade and foliage effect, they are the best and most popular trees.

CARE OF PLANTS.—The ultimate success in any planting depends largely upon the care and attention the plants receive after you get them. We cannot lay too much stress upon this point. We are always willing to advise concerning the proper methods of planting, fertilizing, pruning and spraying, and this advice costs you nothing. Ask for it—also ask for "Paul's Plant Points."

In selecting plants for your lawn or premises, you are not planting for a day or year, but possibly a lifetime. Not only your own comfort and pleasure should be considered, but the passerby, your neighbor, each and all, are interested and pleased at the sight of beautiful yard embellishments—topographic aspect, outlines general design, adaptability of plants to soil, and, in brief, a comprehensive plan that embodies the practical with the æsthetic, the finished picture.

We do not recommend Coniferous Evergreens for foundation planting in the South. Use for screens and specimens.

Are you satisfied with the exterior appearance of your house? Does it win the admiration of passersby and make them feel, instinctively, that here is a real home?

Haven't you see houses that just seemed to invite you right in? Certainly you have! They were ordinary-sized houses, too—not big, imposing, formal residences. And if you'll analyze it a bit further, you'll realize that the artistic planting of trees, flowers and shrubs helped in a large measure to give you your general impression of those homes and their occupants.

AN INVITATION TO POMONA

Above—Entrance to Office, Nursery Grounds and Greenhouses.
Below—Greenhouse Plant.

Our nurseries are located just west of Greensboro, on the Greensboro-Winston-Salem asphalt highway. A cordial invitation is extended to every home owner and planter to visit us and make personal selections from our large stock of high-grade plants. If you cannot visit us in person, we shall be pleased to answer by mail any inquiries about the trees and shrubs we offer. Our catalogue, containing complete descriptions and giving many helpful hints on landscape gardening and fruit growing, will be sent free on request.
