Fleur-de-lis

German Iris

The German Irises are among the most satisfactory of spring flowering plants, they are perfectly hardy, will stand in any position and can be used for almost any conceivable purpose in the garden.

These Irises succeed best in full exposure to the sun in a soil that is not too rich, they grow rapidly and can be lifted and the clumps divided every third year. In planting allow one foot each way between the plants.

Iris can be transplanted to advantage any time during the fall until shortly before the ground becomes frozen.

Our list is unique in that it offers our careful selection from among the newer varieties as well as the best of the standard kinds which have given satisfaction for years.

In the following descriptions, S, denotes the erect petals or standards; F, denotes the lower petals or falls.

Albert Victor. S. soft blue, F. lavender; very large flower.

Arnols. S. rosy bronze, F. velvety purple.

Aurea. S. & F. chrome yellow.

Bridesmaid. S. lavender, F. white reticulated lavender.

Brionense. S. & F. pale violet.

Ciengalti. S. lavender blue, F. violet blue.

Donna Maria. S. white, F. white, shaded lilac.

Dr. Bernice. S. coppery bronze, F. velvety crimson.

Fairy Queen. S. & F. white, striped blue.

Florentina. S. & F. white, faintly flushed lavender.

Fcsters Yellow. S. & F. creamy yellow.

Fro. S. deep gold, F. brilliant chestnut brown. 40c each; \$3.50 per 10.

Fleur-de-lis--Continued

Gajus. S. light clear yellow, F. crimson, reticulated white and yellow with clear yellow edge. 40c each; \$3.50 per 10.

Her Majesty. S. rose-pink, F. bright crimson. 40c each; \$3.50 per 10.

Prices of above (except where noted) 20c each; \$1.50 per 10 of any one variety.

FLEUR-DE-LIS

Iris pumila

Iris pumila and its varieties are the earliest of the Irises to flower, being only about 9 inches in height. They are well adapted for the front of borders and for rock gardens.

Pumila Violet blue.

" **Excelsa.** Yellow.

" **Purple King.** Deep purple.

" **The Bride.** White.

20c each; \$1.75 per 10 of any one variety.

Japanese Iris--Iris Kaempferi

These are the last of the Irises to flower and are the most gorgeous of all. From the middle of June until the middle of July their enormous flowers, sometimes 1 foot in diameter, of almost every color and combination of colors, form the most conspicuous feature of the garden. Japanese Irises prefer a moist situation but excellent results can be obtained in ordinary soil if copiously watered during the season of growth.

DOUBLE VARIETIES.

Albion	Pure white.
Ariel	Purple, mottled white.
Calypso	White, veined blue.
Cornelia	Pansy violet.
Endymion	Blue, veined white.
Hector	White ground, veined crimson-purple.
Leda	White, veined blue.
Meteor	White, veined violet purple.
Thalia	White, veined blue.

SINGLE VARIETIES.

Astarte	Pale blue, veined deep blue.
Ceres	Reddish purple.
Euphrasia	Purple, veined white.
Flora	Gray, veined purple.
Hebe	Clear blue.
Jupiter	Deep bluish purple.
Nesta	White, marbled purple.

Prices of above 35c each; \$3.00 per 10 of any one variety.
