INSTRUCTIONS—INFORMATION

To those who are unacquainted with the different classes and varieties of Dahlias I would suggest that such leave the selection to me. Send me the amount of money you wish to invest, and in return I will send you those that will surely delight. Also my liberal filling of the order will more than be satisfactory.

ORDER EARLY. As orders are filled in rotation, ordering early will insure the reservation of varieties that later may be sold out.

SUBSTITUTION. Orders are filled with varieties called for, and unless substitution is asked, I never substitute.

TIME OF SHIPMENT. Unless otherwise ordered, tubers will be shipped after April 15, by express or insured mail.

Small orders of Dahlia tubers will be sent by mail, larger orders by express.

TERMS. Cash with order, or in advance of shipment. Postage prepaid on all retail orders when payment in full is made, at time of ordering.

I warrant all roots and plants, to be healthy, and true to label, but having no control over them, after delivery, I do not *guarantee* them to live and thrive, nor will I replace them except any plant should prove untrue to name; but in no case will I be liable for any sum greater than the original purchase price.

Referring to the description in this list, there ought to be made a certain allowance for variation, caused by different soils and climatic conditions.

REMITTANCES should be made by bank draft, postoffice money order or registered letter.

ERRORS. While my system for handling orders is as near perfect as possible, yet in the rush of business errors are possible to occur, and I wish to be promptly notified of such and will at once make satisfactory. Keep copy of your order for comparison.

NAME AND ADDRESS. Remember to write your NAME, POSTOFFICE, COUNTY and STATE; also give STREET NUMBER or P. O. BOX as plainly as possible.

DAHLIAS BY THE DOZEN, multiply the price by 10.

In this Catalog I have used the originator's description in most cases.

Write for rates of 6 or more of a kind.

Dahlia Cultivation

LOCATION. The Dahlia requires first a sunny, airy location, and yet sheltered from the heavy summer winds. If dahlias are planted in the shade the result will be that they will grow to a great height and produce but a very few flowers of a weak nature.

SOIL. Dahlias will grow in any or all kinds of soil, if properly fertilized, with very good results. Most failures are due to neglect in having the soil thoroughly worked before planting by spading deep and making as light as possible.

FERTILIZING. Give your garden a good coat of stable or cow dressing and spade well into the soil in the fall where you intend to plant them in the spring. Then when planting time comes you can use any good commercial fertilizer, about a handful to the hill, well covered over before setting the bulb.

TIME TO PLANT. Dahlias may be planted with good results from May 1 to July 1. In our New England climate May 15 to first of June is perhaps as well as any time.

DEPTH TO PLANT. Place the tubers diagonally about four inches below the soil. If the ground is cold and very moist it is far better to start them in shallow boxes covering them with moss or earth; keep moderately wet and place them in a warm place or hotbed and they will start quickly. After they are up, say two inches, transplant them to your field three feet apart and the rows should not be nearer than three feet.

FEEDING. After the plants are 8 to 13 inches high give them a good mulching of rotten cow dressing; some ground bone worked around the hill will be all right to use. As soon as the bulbs appear, water them with liquid made from sheep dressing or cow dressing. This ought to produce some fine blooms with good stems.

HOEING AND CULTIVATING. From the time the plants are out of the ground until they begin to bud and bloom the ground should be well hoed and kept free from weeds and at all times ground should be raked over especially around plants to conserve moisture.

WATERING. This is the most important and yet difficult question to solve. There is no rule as to how and when to water, only one's judgment. Watering too much is as bad as not enough. But bear in mind if artificial watering is done it must be kept up from rain to rain, and when watering be sure to water enough to reach the roots. The best time to water is at sunset.

INSECTS AND WORMS. One of our first pests is the cut worm, which comes in time to cut the tender shoots. There is a remedy on the market in powder form called Vaporite, which is claimed will destroy them. Next comes the borer, which is noticed by the wilting of the plants. The best way to kill him is to apply a weak solution of arsenate of lead injected into the stock at the top, where the stem is hollow. We have white and green aphids which can be kept in check by any of the nicotine solutions, sprayed over the plants. The cinch bug, our worst enemy, can be kept in check by the use of Pyrol sprayed once or twice a week.

LIFTING AND STORING. After frost has taken and blackened the plants, cut them down. Select a pleasant day for digging, between the hours of 9 and 4. Dry and shake off what dirt comes easily, and pack them in a dry, cool cellar, which can be kept at 40 to 45 degrees.

New Cactus Dahlias

ALABASTER. (Stredwick). A flower of purest white, and a variety that has come to stay. The blooms are of large size, and just sufficiently incurved in form to show to advantage when exhibited. The plants are sturdy and dwarf, and carry the flowers boldly on stout erect stems. We predict that this will supersede all other white Cactus, it being one of the most genuine varieties we have ever raised. Height 4-ft.
Price \$1.00

BRITISH LION. (Stredwick). Rarely have we had such truly monster flowers as those of "British Lion." The blooms being composed of a great number of long twisted and curling petals, not particularly narrow, the flowers presenting a massive appearance. The color is peculiar, yellowish for the most part, but burnished with red, almost, it might be termed, tawny in color. Plants strong and produce huge flowers without any unduly rich culture. Unique and wonderful. Height 5-ft.
Price 75 cents

CAPT. BAIRNSFATHER. (Stredwick). It is quite usual for people to refer to certain Cactus Dahlias as "Those shaggy ones" and this variety is one of the most pronounced of this class, the florets being narrow, incurved and interlaced. Color red overlaying orange and yellow with yellow more decided at center. Plants almost too free, and stems of average length and wiry. Height 5-ft. Price 75 cents

GOLDEN RAIN. (Stredwick). Clear yellow, deeper at center, to primrose at tips. From very incurved, center good, and flowers have a clean neat appearance, reminding one of the variety "Miss Stredwick," and although dwarfier the foliage and habit of plants favor that variety. This is a typical exhibition Cactus, especially for showing in bunches. Height 3-ft., 6-in. Price \$1.00

GUARDIAN. (Stredwick). A giant flower, carried on an upright stem as stiff as cane. The color too is as imposing as could well be in conjunction with the bold type of flower. A glowing crimson scarlet throughout. Quite the most striking novelty we have introduced for some years, judged from a decorative standpoint. All should grow this. One of the best. Height 5-ft. Price \$1.00

RUTH LINSLEY. Light yellow flowers right on the top of stems like
Insulinde but a much better stem and flower with extra some good
habits and foliage. Price\$8.00

LIEUT. ROBINSON, V. C. (Stredwick). One of the indispensable to the up-to-date exhibitor. The flowers are of largest size, and composed of a mass of narrow florets, incurving, twisting and interlacing so as to finally almost cover the center which never shows pollen right to the last petal. The plants are of wiry growth, and fairly good habit but the flower stems are not upright. Color clear ruby, with amaranth at tips, and on older florets. Height 4-ft., 6-in. Price..... 60 cents

MRS. MARGARET STREDWICK. Far and away the finest Dahlia we have ever raised, and one combining so many good points, that we are in no danger of exaggerating its merits. The coloring is a combination of tints of pink, softening and deepening at tips and base. The form as perfect as possible, and what is the more remarkable the plants have a grand habit, with strong, stout, upright flower stems. In fact as grown with us, this is the Cactus Dahlia we have been working for as raisers for many years. Height 4-ft., 6-in. Price \$1.00

MRS. HERBERT BLACKMAN. (Stredwick). No longer can it be said that Cactus Dahlias are weak stemmed. This is another variety with a splendid stem, long, stiff and upright, carrying flowers of good size and evenly incurved shape. Color, pretty rosy pink on older florets, then lighter to blush and finally white at center. A Cactus useful for any purpose, and in many respects a decided advance. Height 5-ft. Price 75 cents

MRS. JOHN FOWLER. (West.) A beautiful maroon crimson. The florets are long, narrow, and incurving, forming a bloom of good quality and form. Quite distinct, very constant. Height 3-ft. Price 60 cents

PLANET. (Stredwick). A fancy Cactus. White at base of florets, changing to rosy pink, the whole spotted and striped with scarlet. Flowers large and of typical neat, incurved exhibition form. Habits of plants, grand dwarf, sturdy, free, and with stiff flower stems. The best fancy for some years. Height 4-ft. Price 75 cents

SIR DOUGLAS HAIG. (Stredwick). Our best for 1920. The flowers are of perfect form, the slender tubular florets incurving and twisting irregularly, and making ideal exhibition flowers of good size. The plants have an upright style of growth with capital long flower stems. The color too is second to none, being a lovely combination of tints of pink, grading from almost white to deep, then to lighter again. Height 5-ft. Price 50 cents

- SAFFRON.** (Stredwick). An exhibition Cactus, the flower being of good size and beautifully refined form, the slender florets being very incurved and more or less interlaced as the blooms develop. The plants are strong growers and free but the flower stems, though long, are not erect. Color a uniform medium clear yellow. Height 5-ft. Price 60 cents
- TREASURE.** (Stredwick). The most striking feature of this flower is its color, white at base, quickly changing to deep clear rose, the extreme tips being yellow. Growth of plants strong, sturdy and stiff stemmed. Form slightly incurved the blooms favoring the bold type rather than the refined. Height 4-ft., 6-in. Price 60 cents

New Cactus Dahlia

CACTUS DAHLIA

- ATTRACTION.** Large elegant flowers of a clear lilac rose color, long strong stem. Will be an attraction in every Dahlia show. It is an exhibition flower and garden Dahlia of rare merit. Height 5-ft. Price \$1.00
- BIANCA.** An exceptionally well formed broad-petalled hybrid cactus of a pleasing soft rosy lilac; very free flowering. Price 75 cents
- BULL MOOSE.** Hybrid Cactus. Color of outer petals a beautiful shade of pinkish yellow. Petals slim and quite plentiful. Center petals changing to canary yellow. A good flower with long stems. Large size and a fine specimen. Free bloomer. Price \$1.00
- COUNTESS OF LONSDALE** (Cactus). No better cactus dahlia grown; free and good stem, color salmon pink. Good all around dahlia. Price 25 cents
- CONQUEROR.** A great bloomer. The flower stems are stiff as cane. Color, crimson. Price \$1.00
- ELSIE BONNELL.** One of the best cut flowers that we know. Deep, rich velvety crimson, excellent stem and very large flower, early and free. Price 75 cents
- F. W. FELLOWES.** (New introduction). Undoubtedly the best variety of recent introduction in the cactus type, having fine form and habits. Flowers are extra large on very long stems, and remarkably constant. Color, orange scarlet, with long straight florets. Height 5-ft. Price 75 cents

- MARGUERITE BOUCHON. A beautiful shade of light pink with lighter center. The largest pink Cactus Dahlia known. The petals are long and slim, and are produced in unlimited numbers. A most wonderful production in Cactus Dahlias. Price 75 cents
- MRS. HUBERT ALLEN. Lovely large Lavender H. C. long stems, free
Price 35 cents
- PIERROT. An unique and striking novelty. The color being deep amber, shaded darker and tipped with pure white. The flowers are very large and habit good. Price 75 cents
- RHEINISCHER FROHSINN. Carmine with shadings of white and pink at base. A beautiful flower. Price 50 cents
- WM. SALTSAM. 1915 seedling, good long stems, well above foliage bloom. Height, 5 to 8 in. Free blooming. Fine shade of red. One of the best. Price \$1.00

Hybrid Cactus Dahlia

- ATTRACTION. (Hybrid). Large, full flower, of a clear, lilac-rose; long strong stems, holding the bloom stiff and upright. 75 cents
- GEO. WALTERS. One of the largest Dahlias ever introduced; very free flowering, a pleasing shade of salmon-pink shading to yellow at the base Height 6-in. Price 75 cents
- INSULINDE. (Hybrid Cactus). A giant bronzy orange with a salmon tint. Beautiful autumn shade. Flowers always on upright, long stiff stems One of the very best. \$2.50
- JOHN RIDING. Bright scarlet. Large flower with long, slim petals. Price 75 cents
- KALIF. A monster cactus of perfect form. Color is a rich, pure scarlet. The large flowers are borne on long, stiff stems and are held erect. A most satisfactory variety. Height 5-ft. Each 75 cents

- LADY HELEN. A beautiful hybrid Cactus Dahlia as distinctly new in quality and excellence as in origin; standing erect on long stems with finely formed and curled petals spreading out, making a diameter varying from $7\frac{1}{2}$ to $8\frac{1}{2}$ inches. It is a striking and beautifully toned pink in the main body coloring, with slight veins of white, almost cream, running through the petals. Prominent cream tips make a decidedly new and altogether forcible addition to the whole flower. The Dahlia should be seen to be fully appreciated, for words of pen cannot do it justice. A profuse bloomer. Price \$3.00
- MADONNA. A free blooming variety with large white flowers, the petals being curled and pointed in such a manner as to make it very distinctive. 75 cents
- MT. SHASTA. Hybrid Cactus. Very light shell pink with slightly deeper shadings of pink through the petals. A faint tinge of yellow shows toward center. Petals long, slim and rolled at points. An extra fine, full, deep flower and enormous size. This flower when grown to perfection is simply a wonder in size, shape and color. Stands very erect on good, stout stems. Price \$2.00
- MRS. WARNAAR. A mammoth hybrid cactus, often 9 inches in diameter. Creamy white with just a tinge of pink. One of the finest of the new dahlias. Price Each \$1.00
- NIBELUNGENHORT. Similar to Wodan in form. Rose color with a golden suffusion. 50 cents
- OAK LEAF HYBRID. (Show). This has a wonderful foliage thus the name, stems 18 to 20 in., large flowers, upright plant, yellow tipped red. Price \$2.50
- RADIN KARTINI. Sa'mon shade with lilac and mauve. Large flower, strong stems. Very free bloomer. Valuable acquisition. \$1.00
- RUTH GLEADELL (Seal). Beautiful large blossoms of soft yellow shading to pink at the outer edge of the petals. Excellent as to form and stem, and is a wonderful cut flower. Is known as the "California Sunburst Dahlia." 75 cents

Decorative Dahlias

Decorative Dahlias are becoming increasingly popular, especially the larger flowered varieties. They have certainly much to recommend them, being of easy culture, imposing size, and last well when cut.

- AIDA. Dark maroon large perfect flowers on rigid upright stems, carried high above the foliage. (Bronze Medal.) Price 50 cents
- AQUITANA. The color of this gorgeous, new Cactus Dahlia is a beautiful salmon pink. The flowers are very large and are borne on long stems with scant foliage, making it most desirable for cutting. Price \$2.00
- ALASKA, No. 935. Pure glistening white with quite broad, slightly rolling floret and numerous small curly petals around disc. The flower is borne on long jointed stems and is a very good Dahlia for cut flower purposes. Price \$2.00

VIVIAN. A great favorite which received the admiration of every one who saw its wonderful flowers, the color being white effectively edged rose-violet. An extremely wonderful blending of color possessed only by the rare novelties. One of our champions of this season's introductions and a variety worthy of the highest words of praise. Price..... 25 cents

W. W. RAWSON. Show. This popular novelty has been the admiration of all wherever shown the past season. The massive, perfect flowers, often measuring 6 inches across, are born on stiff stems about 15 inches long. The entire flower is absolutely perfect in outline and formation. The color is pure white, overlaid with amethyst blue. Price 25 cents

Collarette

The grace and beauty of the Collarette Dahlia places it in the forefront of all garden flowers. The colors range from brilliant contrasts to the softest combinations of tints, and the quantity of bloom produced in a season is wonderful. We have selected the following with due regard to form as well as other characteristics and they will prove to be a most useful set.

JOHN BULL. A huge collarette on a giant stem. Color, clear velvety crimson with yellow disc and white collar. Price 85 cents

MAURICE RIVOIRE. The best of the entire collection. A massive flower of a dark crimson with a heavy pure white collar. 2½ ft. Price 15 cents
