TRADE MARK

Camden, N. J.

GREETINGS

WITH pleasure we hand you our annual catalog, in which we have endeavored to compile a variety of quality goods, interesting to you whether Farmer, Trucker, Poultryman or Stock Raiser.

Our seeds offered in the first section are the best that can be obtained anywhere, because we are as careful in our selection as it is possible to be and our increasing trade from year to year leads us to feel that our selections have been wise with a satisfactory yield to all patrons.

We are the home of the well known O. D. O. Buttermilk Baby Chick Food, Keystone and Dandy Poultry, Dairy, Horse and Mule Feeds. Their quality was made sure of in the beginning and has never changed, our motto "ONCE FED OFT REPEATED" is worthy your acceptance. We are one of the largest distributors in New Jersey and carry a complete stock of Dairy, Horse and Poultry Grains and Feeds in our spacious elevator and warehouses, located at Cooper's Point, Camden, exterior and interior views of which you will find in this book.

As distributors of the popular Buckeye Incubators and Brooders, we offer you devices that will produce more chicks—stronger chicks. You also have the opportunity of a well chosen line of quality Founts, Feeders and Poultry Remedies selected from the standpoint of real service to the user.

You will find our several sizes of Gold Medal Plows to be most practical and efficient, also a full line of Farm, Garden and Lawn Tools to be the best, as they were selected for the results they will produce.

Don't miss the large assortment of good values under "Farm Requisites" found in the back of our catalog, things you will need which are priced right.

We are starting on our fifty-eighth year of service in the distribution of Quality Goods, our watchword has always been efficiency and we invite your co-operation in our efforts. We ask your continued Goodwill and patronage which we shall endeavor to merit by such meritorious service as to make each transaction a source of complete satisfaction.

Cordially yours,

TAYLOR BROS.

FARM AND GARDEN SEEDS

THE ever increasing population of our city and towns offer the trucker and gardener a larger and broader market each year, hence the production of foods should be continued with all the energy and economy possible in order to reduce the present high cost of living.

In the following pages we offer you an assortment of seeds selected from growers of known reputation for producing the best quality of seeds it is possible to grow. The steady enormous growth of our seed business year after year is conclusive proof that our seeds and service have given our patrons both profit and satisfaction. We also wish to refer you to our attractive prices on Wheel Hoes, Hand Plows and Cultivators, also our large and varied line of farmers and gardeners tools and implements, also generous assortment of rubber hose and lawn supplies.

Our sprayer and insecticide department will be found well stocked with products of manufacturers whose goods are known to give universal satisfaction.

A beautiful lawn is much desired by every home owner—Keystone Lawn Grass is a mixture of the best and most desirable grasses and will form a deep green velvety lawn. Our lawn grass page gives you prices, also refers to our other lawn mixtures.

We are large distributors of Clover, Timothy, Sudan Grass, Cow Peas and Soja Beans, Field Peas, Vetches, and other grasses on which there are usually so many changes during the season that our catalog does not quote prices but we solicit your inquiries for prices and samples.

TAYLOR BROTHERS' LAWN GRASS SEED

THE attractiveness of a suburban home is greatly increased by a well kept, closely-cut lawn. In order to obtain this, an important feature is securing the right kind of mixture; something that will remain fresh and green in hot weather. Taylor Brothers' Lawn Grass will form a deep green velvety lawn in a few weeks' time. A mixture of the finest and most desirable grasses which gives satisfactory results.

WHEN TO PLANT SEEDS

The seeds of farm crops may be divided into two classes, according to the temperatures at which they will germinate or sprout readily and can be safely planted, and the blossoming time of fruit can be taken as a more certain guide than any arbitrary calendar date.

1st Class.—Those seeds that will germinate or sprout at an average temperature of forty-five degrees in the shade, or at about the time the peach and plum trees blossom.

Barley	Red Clover	Carrot	Parsnip	Onion
Oats	Crimson Clover	Cabbage	Kale	Pea
Rye	Grasses	Cauliflower	Lettuce	Radish
Wheat	Beet	Endive	Parsley	Spinach
				Turnip

These can be planted with safety in the spring as soon as the ground can be prepared, and some of them if planted in the fall, live through the winter.

2d Class.—Those seeds that will germinate or sprout at an average temperature of sixty degrees in the shade, or when the apple trees blossom:

Alfalfa	Cotton	Pole Bean	Okra	Pumpkin
Cow Pea	Egg Plant	String Bean	Squash	Tomato
Corn	Soy Bean	Melon	Cucumber	Pepper

For other Fertilizers, see pages 31 and 42.

CLOVER, FIELD AND GRASS SEED

Awnless-Brome Grass. (*Bromus Inermis*.) A valuable grass for light, dry soils. Will stand long droughts and produce heavy growths where other grasses frequently fail. 30 pounds to the acre. Bushel, 14 pounds.

Alfalfa. As a fertilizing, land-enriching crop, it is unequaled. The roots sink down into the earth searching for nourishment and bringing to the surface the chemicals and fertilizing materials that have been stored 10 to 15 feet deep. One seeding stands for years. All cattle are fond of it. If possible, sow with oats at the rate of 15 pounds per acre, or if the land is very poor, sow 3 pounds more. The first season the growth will be very light, but don't be worried if the plants are small and several inches apart, for that means the next season you will probably get from 3 to 5 tons per acre.

Blue Grass. (Kentucky.) Extra fancy cleaned. One of the most valuable sorts for lawn purposes, and as pasture grass is indispensable. This grade is best for sowing lawns. Sow 3 to 5 bushels per acre for lawn; for pasture, sow $2\frac{1}{2}$ bushels. Bushel, 140 pounds.

Clover, Red. Fine quality, high germinating seed, free from foreign matter. 60 pounds per bushel.

Clover, Alsike (Swedish). Harvested with great care; the finest product of the market. 60 pounds per bushel.

Clover, Scarlet (Crimson). Used principally as a soil restorative. Both Delaware and Imported seed. Best quality. 60 pounds per bushel.

Clover, White Dutch. For thickening the growth of the lawn, a better seed could not be used.

Clover, Mammoth Pea Vine or Sapling. Grows much taller than the Common Red Clover, with larger, leafier stalks.

Canadian Blue Grass. Adapted especially to high, dry situations. Fine for permanent pasture. Bushel, 14 pounds.

Creeping Bent Grass. (*Argostis Stolonifera*.) Excellent for lawns; succeeds well in all locations; makes a low, velvety growth. Bushel, 20 pounds.

Crested Dogtail. An excellent grass for hard, dry soils; valuable for pastures or lawns; 25 pounds to acre. Bushel, 21 pounds.

English Rye Grass. (Perennial Rye.) Fine for an immediate effect. Bushel, 24 pounds.

Herd or Red Top, Fancy Hulled. Extra recleaned seed, free from chaff. Bushel, 32 pounds.

Herd or Red Top Grass. Jersey and Western. Very popular for field use. Bushel, 10 pounds.

Hard Fescue. Thrives well in dry situations where many other grasses fail; 30 pounds to the acre. Bushel, 12 pounds.

Hungarian. Like German in growth, distinguished by brown color seed.

Italian Rye Grass. An annual; quick in maturing. Bushel, 22 pounds.

Meadow Fescue. English Blue Grass. An excellent grass for permanent pasture or hay. Bushel, 22 pounds.

Meadow Foxtail. An elegant pasture grass. Bushel, 7 pounds.

Millet, German or Golden. Best known of all varieties; has, in consequence, a large sale; is a medium early forage plant, prolific in stalk and grain.

Millet, Japanese. (Barnyard.) It yields an enormous crop of forage, which is greatly relished by stock. When cured, it makes an excellent hay.

Millet, Siberian. Grown largely in the Northwest, and is there considered better than any other. It yields a heavy crop of superior forage and seeds abundantly.

Orchard Grass. For pasture, sowing under orchards or shady places. Bushel, 14 pounds.

Rhode Island Bent Grass. (*Agrostis Canina*.) Resembles Herd Grass, forming a fine turf, even on thin soils. Doing especially well in salt atmospheres. Sow 40 pounds to the acre. Bushel, 15 pounds.

Timothy Seed. Best grades, strictly recleaned. 45 pounds per bushel.

Wood Meadow Grass. Particularly adapted for pleasure grounds and lawns; will grow under trees where few other grasses can exist. Bushel, 14 pounds.

VALUABLE PLANTS FOR SUMMER FORAGE AND ENSILAGE

(For prices see pages 3 to 8)

Crimson Clover. Solves the problem of cheap manuring; it is the great nitrogen gatherer and economizer in the use of fertilizers. Improves poor lands and restores to fertility those that have been worn down by excessive cropping. May be planted in spring, summer and fall. Splendid for reseeding Red Clover that has been winter killed. Sow 15 to 20 pounds per acre.

Soja or Soy Beans. One of the most remarkable drought resisting crops under cultivation. Will thrive under the most adverse conditions; tremendous yielder and valuable soil improver.

Cow Peas. When planted in rich soil make an enormous growth of vine of high feeding value and equal to clover for enriching the ground if plowed under Black Eye, Clay, Black and Whippoorwill Gray Crowder. New Era varieties are adapted to Northern growth. Sow 1 to 1½ bushels broadcast, or drill 20 to 30 pounds per acre.

Sorghum. (Early Amber.) This plant is fast coming to the front for summer pasture or forage. It withstands drought and grows luxuriantly when the grasses and even Millets are burned out with the dry summer heats. It makes excellent hay. Sow broadcast 1 to 1½ bushels, or drill 10 to 20 pounds per acre. Early Amber is best for this latitude.

Kaffir Corn. Is a non-saccharine Sorghum grown for the seed, which is good for poultry and cattle. Cultivation same as for Sorghum.

Canada Field Peas. These are very valuable for fattening stock, and can also be grown for soiling purposes, but are of greater value for fodder when fed as ground feed, or the vines can be cured for hay, which is of great nutritive value. They can be sown alone or with oats; if sown alone, sow 2 bushels to the acre; if with oats, sow 1 bushel of peas and 1½ bushels of oats.

Spring Vetches or Tares. (*Vicia Sativa*.) These are a species of pea, and grown extensively for stock feeding. Are excellent food for hogs and also a most valuable fertilizer. 50 to 60 pounds are sown per acre and cultivated same as field peas.

Winter Hairy or Sand Vetch. (*Vicia Villosa*.) Can be sown from July to November broadcast, at rate of 20 to 30 pounds per acre, with one bushel of oats or wheat, or 40 to 50 pounds if sown alone. Will grow on most any soil and produce a good crop. Splendid as a soil improver or for feeding.

Dwarf Essex Rape. It can be sown in drills far enough apart to cultivate, or broadcast. If sown in drills, but 7 pounds per acre are necessary. The best way is to sow it broadcast on very clean soil, or to sow it with your spring grain at the rate of 15 pounds per acre.

Speltz. Makes excellent pasture and good hay if cut at the proper season. The straw is stiff and does not lodge easily, and the grain does not shell out. Dry weather does not seem to have any effect on it whatever. It is a wonderful stooler and a robust grower and can be fed same as oats with the hulls. Every farmer should grow it. Sow at the rate of 50 to 60 pounds per acre.

Teosinte. (Reana Luxurians.) Its value lies in the fact that it can be cut several times during the season, and when allowed to remain without being cut attains a height of 12 feet. We would advise sowing the seed in rows 3 feet apart and the hills far enough to work, putting in three seeds about every 12 inches in the drill.

Sweet Clover, Bokhara (*Melilotus Alba*), also **Yellow Blossom** (*Melilotus Officinalis*). While extensively used as a bee food, these clovers are valuable varieties for soiling (green manure); for sowing in the spring on lands which are later to be sown in alfalfa. They grow from 3 to 5 feet high, according to soil and location. Sow 15 lbs. per acre in early spring, alone, or 10 lbs. per acre with other crops.

Sudan Grass. For summer forage or grass crop will produce two or three cuttings each season, stools out thickly after the first cutting, makes a most nutritious and desirable forage crop. Sow in drills 10 lbs. to acre, broadcast 25 lbs. to acre.

BUTTERMILK BABY CHICK FOOD

MAKES THEM HEALTHY

THE O. D. O. BABY CHICK FOOD

FEEDING DIRECTIONS:—Don't feed food of any kind to young chicks until they are out of the SHELL 48 HOURS, nature provides sufficient sustenance to carry them over this period. After this time has elapsed feed O. D. O. in clean hopper or pan, just enough so they will clean it up in 20 minutes. **FEED FOUR OR FIVE TIMES A DAY.** Constantly keep before them water or milk with chill taken off in plate or shallow pan. Also **BABY SIZE** of **CRYSTAL GRIT, CHARCOAL**, etc.

WE HAVE NEVER PUT ON THE MARKET or OFFERED our PATRONS A FOOD that has caused so much comment or produced such pleasing results as our O. D. O. (BUTTERMILK BABY CHICK FOOD). It contains all the necessary ingredients to carry chicks over the 6 weeks critical period, O. D. O. includes Prepared Oats, Corn, Wheat, Middlings, Powdered Buttermilk, Cooked Wheat, Bone Meal, Meat, Millet, Rape, Epsom Salts, Red Pepper, Gentian, Ginger, Caraway.

CHICKS FED ON O. D. O. are full of life, **STRONG AND HEALTHY AND GROW LIKE WEEDS.** Every customer that has tested O. D. O. claims it to be the **BEST FOOD** for raising Young Chicks that they have ever used.

Pomerania, N. J., July 20, 1922.

We have been using your O. D. O. for two seasons and find it the best baby chick food we have ever used. Hope you will continue putting it on the market as we anticipate using far more of it next season having greatly enlarged our plant.

Yours truly,

Holzer & Son,
Oak Point Farms.

O. D. O. gives the same general satisfaction whether the chicks are hatched by Incubator or the Mother Hen.

I find your O. D. O. Buttermilk chick food to be a great help to Poultry Raisers, not only to beginners but to the experienced ones also. Having had life long experience among poultry, I never had any use for so called Patent Feed & Poultry Tonics and not even ready mixed foods, but by it being so highly recommended by people in this neighborhood, I decided to give O. D. O. a trial, and found it to be just the tip top feed for starting young chicks. You may expect big orders from this vicinity next season.

Yours truly,
John Anhalt.

Gentlemen:

O. D. O. Raises Turkeys. My wife is raising a flock of Turkeys of about 35 to 40 and they are doing fine on the Buttermilk Food, as a matter of fact they don't want anything else, out of the flock she has only lost three since they were hatched, and she attributes it to the Buttermilk feed. Turkeys, you know are an awful hard thing to raise, but Mrs. Smalley is attracting the attention of her neighbors in regard to the raising of turkeys for "health" and appearance, sizes, etc. We give the Buttermilk Feed the praise of it all.

Very truly yours,
Walter F. Smalley.

KEYSTONE

SCRATCH

FOOD

When we began the preparation of KEYSTONE SCRATCH FOOD, we were particularly guided more by quality than any other thought, although price was given our next consideration. As a matter of fact we feel that we made no error in maintaining our former methods of *quality first*. That is why our entire line of KEYSTONE FOODS including our KEYSTONE SCRATCH are regarded as the best brand of Poultry and Pigeon foods on the market. It is not always good policy or economy to mix poultry rations at home, as it requires considerable time, besides it is quite necessary to use the proper ingredients and in such proportions to give best results. KEYSTONE SCRATCH contains the necessary elements and ingredients to produce more eggs, which is the profit payer or foundation of poultry success.

Taylor Bros., Camden, N. J. Dear Sirs:

Pennsgrove, N. J., 11-24-22.

Regarding the merits of your Keystone and Dandy Poultry Feeds, I can say that these feeds are bought by my customers in preference to poultry feeds of presumable higher quality and price with just as good results. H. D. Turner.

Blackwood, N. J.

Taylor Brothers, Dear Sirs:

In regard to Keystone and Dandy Poultry Feeds, I have sold them several years, they are good sellers and the ingredients are good as the poultry eat everything it contains.

As for Dandy Laying Mash, I have been feeding it the past year and it produces a good percentage of eggs the year round. I know of others using it to a good satisfaction. Yours respectfully, A. E. Batten, Blackwood, N. J.

THE DANDY SCRATCH food is similar in appearance to the KEYSTONE SCRATCH, although not quite as high in protein, which is due to a few less ingredients. In preparing our DANDY SCRATCH it was our aim to put on the market a clean uniform balanced ration, that would be equal to any of the Popular Brands, and which could be sold at a price within the views of every Poultry raiser.

It is quite gratifying to mention so far every customer is pleased with THE DANDY. It is the feed that MADE POULTRY RAISING PROFITABLE. A TRIAL means a NEW CUSTOMER.

As we are nearing the end of the year, I thought I would write you a few lines about your Dandy Scratch Feed, I want to say that my customers think Dandy Scratch Feed has no equal for chickens and the way my feed business has increased they must be telling their friends about it, and they must be of the same opinion, I remain,

Dear Sirs:

I am raising poultry for many years and tried all kinds of feed but to tell the actual truth there is no mash or scratch feed that gives better results than the Keystone Laying and Dandy Laying Mash and the same way with the Keystone Scratch Feed and Dandy Scratch Feed. The reason is they are properly balanced for high egg production and is always made up of only sweet and wholesome grains free from mold you can always assure by close inspection that it only contains what chickens need for high egg production. I am feeding nothing else to my 500 birds than Keystone and Dandy goods and never have any trouble with getting anything else, but the highest results, I am using same for years.

Yours respectfully,

KEYSTONE CHICK FOOD

It is obvious that an organism made up of well-defined elements must require those elements to maintain health and promote growth. We have combined the elements necessary for a chick's growth in our Keystone Chick Food, which is a scientifically balanced ration, consisting of sound grains and carefully selected seeds, and which never varies in proportion or quality.

For best results, feed, in connection with KEYSTONE GROWING MASH, the Keystone Chick Food of small quantity in a litter of some kind. Preferably morning and evening, larger quantity in evening. Feed grains of some kind for the noon time meal or the Keystone Substitute for Grains.

KEYSTONE PIGEON FOOD

If you are not making money from your pigeons and your stock is of known reliability, you had better investigate your feed. Almost all of the failures in the squab business are attributed to careless, improper feeding. There is no economy in cheap, mildewed or partly spoiled grain; only trouble, sickness and mortality. Feed only the best; which is to say—feed Keystone brands. They are carefully balanced to meet the requirements of the birds, and never vary from an established prime quality. Pigeons fed upon our foods are sure to be prolific, and the squabs will develop quickly and become unusually large.

Dear Sir:

Your O. D. O. Baby Chick Feed we find is all you claim it to be. We sold to several big Poultry Raisers and they think it is better than anything they ever used before, and ourselves personally used it for our own chickens and they did splendidly on it and the chicks seem to eat it the same as we would eat Ice Cream.

Red Star Alfalfa Meal

Among green foods, alfalfa stands at the top. Our Keystone Pea Green Alfalfa Meal is the result of a special process of milling, triple cut. When used with the mash, Keystone Alfalfa Meal, is mixed dry with other foods and scalded or boiled with them. When fed in connection with dry grains, it should be scalded in a trough or other vessel and left for the fowls to eat at will.

Hog money is big money if your hogs are fed Digester Tankage. It will increase your hog profits one-third and reduce your feed bills accordingly. Corn and others farm grains are rich in carbo-hydrates and fats, but low in protein, which is absolutely essential to secure economical feeding results. There are several sources of protein, and Digester Tankage is by far the cheapest. For proof of this compare the analysis of Tankage with that of any other food.

THE KEYSTONE (brand) of finely ground oats or oat meal as it is otherwise known is far superior to ordinary ground oats. It is guaranteed strictly pure, free from adulteration and ground in powder form especially desirable to the poultry raisers for using in their growing mash for Baby Chicks. It is also considered a most important factor for the production of eggs and we know of no other single ingredient that is more essential for successful poultry raising than PURE GROUND OATS (Keystone Brand).

KEYSTONE GROUND OATS

Is comparatively new to many, but those who have used "Keystone," particularly the larger poultry raisers, claim their success in raising chicks is largely due to the fine even texture of this product—try Keystone Brand Pure Finely Ground Oats, and watch your chicks grow.

Dealers in Feed, Hay and Farm Supplies
McKee City, New Jersey

Messrs. Taylor Bros., Camden, N. J.

11-29-22.

Gentlemen:

Will say that the Keystone and Dandy Poultry Foods are our best sellers. We have handled different Brands of Scratch Grains and Mash Foods, but in selling Keystone and Dandy Foods it requires no argument, persuasion or coercion; it's all in the bag.

We shall continue to make the bulk of our orders up with these foods.

Very truly yours,

McKee City Farmers Exchange, Inc.

Taylor Bros., Camden, N. J.

Gentlemen:

Our section is large Poultry raising and our trade demands the best quality at all times. Your Keystone and Dandy Foods are praised very highly among our customers and particularly your Keystone Brand of Finely Ground Oats, we find this far superior to anything we have ever used in the nature of ground oats. Its pureness and fineness make it most desirable for Mash and chick foods.

Yours very truly,

John Ernst.

DRIED MILK POWDER

(ALBUMEN)

A Clean, Scientific, Perfect Food

KEYSTONE DRIED MILK (Albumen) is the dried product of milk sugar factories and contains 38% protein this high percentage containing a large amount of clear Albumen is one of the richest poultry feeds known.

Milk Albumen is of a creamy color and furnished in powdered form, can be fed in a dry or wet mash as desired, it will keep wholesome any length of time in any climate, it will not lump or mold in mixtures.

Milk Albumen promotes growth making healthy contented and vigorous stock.

The low percentage of uncombined water in Milk Albumen increases the high percentage of food values.

Your laying and growing ration should always contain milk powder. It makes larger and better eggs and more of them. Eight pounds of dry product makes 100 pounds natural product.

KEYSTONE ROUP CURE

Roup is the terror of the poultrymen, and yearly thousands of fowls are lost because of failure to treat the disease properly. Your flock may be saved by buying now a package of Keystone Roup Cure. Roup usually follows neglected colds. It is catarrhal in its nature, and first symptoms are frothiness and bubbles in the corners of the fowls' eyes, generally accompanied by sneezing and snuffles. The discharge always has a foul odor, which thickens and clogs the nostrils. The bird's head usually swells, the eyes bulge, and thick, slimy masses form in the mouth. We put it up in two sizes, the small size making 25 gallons of medicine, the large size 75 gallons.

Prices \$0.25 and \$0.50 per box; by parcel post, 5 cents extra.

NORWICH AUTOMATIC EXERCISER AND FEEDER

THIS machine is as near perfection as human intelligence can make it. It consists of a hopper, to contain the feed, in the bottom of which is fitted an adjusting valve, which is set to allow such quantities of feed to escape as may be desired. Directly under the valve is located the deflector, upon which the feed falls and by it is scattered in a wide, even circle. As the fowl strikes the feed bar it sends a regulated shower of feed on the deflector and it is thus scattered.

POULTRY AND ANIMAL REGULATORS AND REMEDIES BABY CHICK FOOD WITH BUTTERMILK

Healthy birds and lots of eggs, the two big things in poultry raising, usually follow the use of

Pratts Poultry Regulator

Packages 25c., 50c. and \$1.10; 12 lb. pails, \$1.65; 25 lb. pails, \$3.00.

It builds up vitality, promotes sound digestion, sharpens appetite, thus helping to put birds into condition for heavy egg laying or winning blue ribbons.

Given to breeding stock it increases the fertility of eggs, strong in vitality, that will hatch chicks that will grow. Use it if you want big hatches of healthy chicks that will develop into

husky pullets and cockerels.

It will help prevent many of the common poultry ailments.

When baby chicks come, keep them healthy and growing, and bring even the weak ones along by feeding

Pratts Buttermilk Baby Chick Food

14 lbs. for \$1.00. (Bags) Packages 25c. and 50c.

A largely predigested baby food for baby chicks. Guaranteed to raise every livable chick. Costs about a cent a chick for three weeks. Helps prevent leg weakness, white diarrhoea and "pasting up."

More work out of your horses, more milk from your cows, fatter hogs—these are a few of the benefits which come from using

Pratts Animal Regulator

This is the original and pioneer stock regulator of America. Tested thoroughly for nearly half a century, its worth is known and recognized by stock owners the world over. Always sold on a guarantee that it will satisfy you or your money back.

Packages 25c. and 50c. 12 lb. Bkts. \$2.15; 25 lb. \$3.40.

Don't let ROUP cut your profits. The sure and easy "ounce of prevention" against this dangerously contagious disease is

Pratts Roup Preparation

Tablets or Powder, 25c., 50c.

Quickly absorbed by the blood, helps purify the system, reduce fever, allay inflammation. The safe help for roup, colds, catarrh and many bad weather diseases.

Get rid of lice on your poultry, in nests, dustbaths, incubators and elsewhere by using

Pratts Powdered Lice Killer

25c. and 50c.

Effective, non-irritating. It quickly kills lice on little chicks, big chicks, setting hens and incubator chicks. It rids horses, cattle, hogs, dogs and cats of lice, and destroys ticks on sheep. It destroys many insects and bugs on vines, plants and flowers.

THE CONTRAST SPEAKS FOR ITSELF

Mulford Cultures contain pure, tested strains of active, vigorous nitrogen-fixing bacteria, for inoculating seeds of legumes or soil.

Mulford® Cultures are scientifically prepared and tested with the utmost care and skill. Enormous numbers of these very valuable and desirable bacteria are thus available to you in every package of Mulford Culture and may readily be applied to your seed. The sealed bottle insures purity.

Legumes offer the best-known means of maintaining soil fertility and rejuvenating over-cropped and worn-out fields. They add both humus and nitrogen to your soil and thus increase your yield of wheat, cotton, corn and other non-legume crops.

The U. S. Department of Agriculture and many State Agricultural Experiment Stations recommended inoculation of legumes with nitrogen-fixing bacteria to induce a prompt "catch" and increase your yield.

Buckeye Standard Brooders

The Standard Brooder has actually revolutionized the whole poultry industry by helping the breeders to raise a much larger percentage of their young stock with just about one-fourth of the labor.

For the big breeder it has been a veritable God-send, and in a large number of cases has turned money losing propositions into highly profitable plants, while for the smaller breeder it has been just as valuable through its ability to bring the young stock to quicker maturity and saving many valuable fowl that, under ordinary conditions, never would have survived.

New Buckeye Blue Flame Brooders

Wickless

A High Power Oil Burning Brooder operates on same principal as the Standard Coal Burning Brooders, Self Feeding and Self Regulating.

Showing a "Colony" Type of Oil-Burning Brooder (Small Size)
Taking Care of 75 Chicks.

Following the introduction of the "Colony" type of coal-burning brooders, the same general plan has since been adapted to kerosene burners of the blue-flame type. Such burners have been brought to a high state of efficiency so that they are free from dangerous gases and by using such burners in combination with the open canopy they have proven quite as satisfactory as the coal-burning type, when operated in rooms that are supplied with auxiliary heat or in buildings that are small enough to be heated by kerosene burners.

KEYSTONE EGG MAKER

Keystone Egg Maker is a compound of the most healthful ingredients, imported roots, herbs and barks, blended in the most exacting scientific manner, and guaranteed to make a perfect digestive tonic and stimulant. It regulates and purifies the fowls' blood and digestive organs, and in so doing sharpens and stimulates their appetites so that they crave large quantities of food; consequently, they are induced to lay. Just as the human desire for food becomes jaded and requires a tonic, so it is with chickens, only more so; and by feeding a mash containing Keystone Egg Maker a flock of hens will be kept in the pink of condition.

Keystone Egg Maker is put up in 42-ounce cartons, which contains 150 feeds for 10 hens.

Prices: \$0.25 per package (Parcel Post, 7c extra); 12-pound bag, \$1.75; postpaid, \$1.92. 25-pound buckets, \$3.25; postpaid, \$3.55.

KEYSTONE LICE PAINT

This preparation positively kills red mites, which suck the blood of the fowl.

Keystone Lice Paint does effective work in ridding horses and cattle of lice, mites, etc. To kill lice on hogs, spray the bedding thoroughly with Keystone Lice Paint. Also coat the rubbing posts with the liquid.

Price of Cyphers Portable Hover, \$5.00.

APACO POULTRY FEEDER

There is probably nothing in poultry accessories that has attracted such universal interest or that has been so widely and so quickly adopted as the system of automatic feeding, though it is not at all surprising, for naturally any device applying to any business which effects a saving of 25% in the raw material (in this case, grain) and reduces labor more than one-half, would find a ready market in any line.

Price, each, \$2.00.

THE CYPHERS PARADISE BROODER

Complete brooder has four sections, each section holding two separate flocks of fifty chicks. Total capacity, 400 chicks. Means for feeding and caring for chicks are very convenient and chicks are always under control of the operator. One large oil heater provides warmth.

Prices: Base section, \$10.00. Additional sections (can be added as desired), each, \$5.00. Style "D" Indoor Brooder, \$5.00 each, without Hoover.

"STANDARD" DUST BATH

A Natural, Effective and Inexpensive Lice Exterminator

In using "Standard" Dust Bath, a box is made approximately three feet long, two feet wide and a foot deep, standing 6 in. or more off the floor. This is half filled with the Dust Bath and placed in the hen house or in a sheltered corner of the yard. As the curiosity of the hens is aroused, they take to it one or two at a time and the beneficial effects are sufficiently marked to get them into the habit of dusting in it regularly. Why not let the hens and chickens cleanse themselves, whenever they feel like it, in a natural way? Instinctively, they take the only kind of a bath they know of, the dust, to rid themselves of vermin and insects. But ordinary dust is not effective. "Standard" Dust Bath is something that practical poultry raisers have long been looking for.

50 lb. bags, \$2.20; 100 lb. bags, \$3.40; 1000 lb. lots, \$3.00; 2000 lb. lots, \$2.90.

See page 8 for Fancy Lawn Seeds.

LICE-PROOF PERCH SUPPORTS

A BIG help in ridding your flock of lice and mites, and in keeping them away. The cup filled with oil stops the pests from crawling on to your fowls. A cup above oil cup keeps out dust and insures continuous protection. Are strongly made and easily put up with screws. Made in two styles—upright and wall for fastening to side walls.

Prices: Upright, pair, \$1.20; six pair, \$6.00; Wall, pair, \$1.20; six pair, \$6.00.

KEEP CLEAN WALL FOUNTAIN

The construction of these fountains prevents the water from getting dirty and full of litter, yet allows fowls to drink water readily. They are very convenient to handle, and can be hung upon the wall above the floor, the back of the can being flat. They will not break by freezing.

Prices: One gallon size, each, \$0.75; two gallon size, each, \$1.00.

SEPARABLE WALL FOUNTAIN

A labor-saving wall fountain that can be separated, or opened, for cleaning and filling. Water keeps clean in this fountain. Made of heavy galvanized iron, in two sizes.

Prices: 5 quart size, each, \$1.00; 9 quart size, each, \$1.40.

FOOD OR WATER CUP

Japanned, strong and durable; holds one-half pint each, enough for all ordinary purposes. The wires can be bent to secure them to any style of coop.

Prices: \$0.25; postpaid, \$0.30. Per dozen (weight, 3 lbs.), \$2.75.

SANITARY CHICK SERVER

This Popular Chick Server is used extensively for supplying food and water to small chicks, both on range and confined in brooders, brooding houses, etc. Consists of two parts only, is easy to clean and keep clean. Made in one size only.

GRIT AND SHELL BOX

Made of best grade of galvanized iron. Has three compartments—for grit, oyster-shell and charcoal. Cover or lid on a slant prevents fowls roosting on the box and keeps contents clean. It is necessary in every well equipped poultry plant. Made in one size only.

Prices: Each, \$0.60; 3 or more, \$0.55 each.

DRY FOOD HOPPER

This hopper is similar to the grit and shell box, but is larger and has two compartments, holding three quarts in one and six quarts in the other. The ideal hopper for meal scrap and dry mashes.

Price: Each, \$0.80.

CYPHERS INSULATED BROODER STOVE

For Use in Heating Home-Made Brooders

This long-bowl, improved safety stove combines a heater proper, a burner equipped with metallic chimney, an insulating plate that serves also as a stove slide, and an upright plate of galvanized iron that forms the door to the brooder through which the stove is operated. The flame can be adjusted and the oil-bowl filled without removing the stove from the brooder. Will burn 48 hours or more without refilling. This stove is convenient to use and absolutely safe from explosion. Prices: Each \$3.00. Six, \$2.75 each.

JERSEY BRAND POULTRY WIRE NETTING

FEW people realize what a vast difference there is in the quality of wire netting, and yet such is the case. And on a poultry farm where large quantities are used this factor becomes a very vital one. Cheap, inferior nettings soon rust out, and become a source of continual trouble and expense to the poultryman. Fence your plant with Jersey Netting and you have fenced it with the most durable. It is made of the best materials, heavily galvanized after it is woven, and guaranteed to be straight and free from any defects. We carry a large supply of this fencing in stock.

TABLE AND DAIRY SALT

Buy salt from us and you will get the best at the lowest prices. The Wigwam ranks very high and we would be very glad to quote prices in any quantity.

Wigwam Brand is a high grade, granulated vacuum process salt, especially refined for dairy, cooking, baking and table use, is strictly pure, sparkles like a diamond, the result of perfect crystallization, makes a brine as clear as crystal and will not harden in any climate.

Ground Salt (coarse grain) is the first product of evaporators and is a coarser grain than Perfection Brand. It is preferred by packers for pickling meats, etc.

Agricultural Salt is grades that have become discolored or dirty. It is used for fertilizing and for any purpose where quality is not essential. (We do not guarantee the quality of Agricultural Salt.)

Mineral Salt is white, bright, sparkling and clear (almost chemically pure). Used for packing meats, freezing ice cream, refrigeration, charging ice machines, pickling, salting hides and skins, and feeding horses, cattle and sheep.

THE "NORCROSS" HAND GARDEN CULTIVATOR

Its work equals that of the highest priced wheel plow on the market; sells to those who have a small home garden. Made of first-class material, shovels forged from the steel prongs, every part being detachable. It works between rows, or the center shovel can be removed and the row straddled. It pulls the weeds, pulverizes the soil, is light, durable and easy to operate.

KEYSTONE

RUBBER ROOFING

JUST as a chain is no stronger than its weakest link, the security of a building is no greater than the integrity of its roof. Keystone Rubber Roofing is the choice of careful buyers who insist upon attractiveness, fire-resisting qualities and absolute weather protection at the minimum cost per year of service. It is made from the best, heavy tough felt fabric, saturated and coated with a flexible waterproof gum, and retains its life and flexibility for many years. We sell enormous quantities of Keystone Rubber Roofing, and are therefore able to quote the lowest possible prices. Samples will be sent upon request. Satisfaction guaranteed.

Taylor Bros., Camden, N. J.
Gentlemen:

I have used many brands of Scratch Feed in the last few years, but I find none that will compare with the Keystone Brand of feed. I have always found it clean and free from dirt and grit and its mixture is just right and well balanced.

Isaac Leconey.

Riverside, N. J., Dec. 16, 1922.

Taylor Brothers, Camden, N. J.

Dear Sirs:

I can with pleasure well recommend your Keystone Chick Food and O. D. O. Buttermilk Baby Chick Food. I have been selling Keystone Chick Food for a number of years and we find our O. D. O. sales are increasing each year, due of course, to the superior quality of this product.

Shiloh, N. J., Jan. 25, 1923.

Yours truly,
S. V. Davis.

BERRY CRATES AND BASKETS

THE progressive farmer and fruit grower realizes the importance of shipping his products in strong, well made, attractive carriers, and that if he does not do so he cannot expect top prices. We carry a full line of berry crates, baskets and carriers of standard make, the best obtainable, and will be glad to quote prices on carload lots or less. Let us know your requirements.

BERRY BASKETS

Standard quarts; oval pints. Thirty-two-quart berry crates. Dividers for crates.

BASKETS
 Five-eighths bushel; six brace.
 Half bushel; six brace.
 Half bushel peach; best quality.
 Hampers; best quality.

THE FARMERS' FAVORITE COOKER

It pays to use a cooker. A warm meal once a day for the cows will show surprising results in the milk pail. Hogs will respond much quicker if fed cooked feed. Poultry must have warm food for best results.

Gentlemen:

I can gladly recommend the O. D. O. BUTTERMILK BABY CHICK FOOD. I have been handling same for sometime, and can truthfully say every sale has been repeated. I think I could say nothing better than this, for it has always proven more than satisfactory.

Yours very truly,
Albert Steiner.
