Sunnybrook

Iris

Garden

SUNNYBROOK SEEDLINGS.

- CARMENCITA**—S. soft rosy lilac, shaded to old gold at edges, F. velvety crimson, edged lighter. Very warm, rich coloring, large flower, tall and vigorous grower. **\$1.50**
- MAY ROSE**—S. and F. soft bright rose pink, flower of good size and substance. **3.00**
- TAFFETA**—S. when first opened are a very unusual tone of brown shaded with blue and gold, later they are soft fawn color. F. fawn shot with blue giving the whole flower an appearance of changeable blue and gold which is very charming and unusual. Flowers are large, borne on tall stems and the plant is vigorous and carries many flowering stalks. **2.00**
- TOREADOR**—S. brilliant orange, shot with bronze. F. rich, glowing red. The strong Spanish coloring of this iris and its very large sturdy flowers, combined with the vigorous growth of the plant, make it a most valuable border iris. **1.50**
- SIBIRICA, BUTTERFLY, (Mmc. Butterfly)**—This is the true Siberian type, very tall and graceful, the flowers lightly carried on long branching stalks, about two and a half inches across and of a lovely clear porcelain blue, without a trace of purple, nearly five feet tall. **1.50**
- SIBIRICA, SKYLARK**—The flowers, airily poised on tall graceful stems, are unusually large for a Siberian iris. They are of an exquisite color, sky blue, the falls edged with a fine thread of white. **2.50**
- SIBIRICA, SUNNYBROOK**—This is a cross between the two Sibirica Orientalis irises, Blue King and Snow Queen, with the taller growth, larger flowers and spreading falls of the latter, but the flowers are of the exquisite shade of greyish blue known as Alice blue, a most rare color in the garden. The plant is very vigorous and increases rapidly and carries many flower stalks. **1.50**
- AFTERGLOW, (Sturtevant, 1917)**—A light blended self of greyish lavender, shading to yellow at the centre. **2.00**

BEARDED IRIS.

- ALBERT VICTOR**—S. and F. soft blue, overlaid with lavender, very tall with large flowers, fragrant and free blooming. **.25**
- ALCAZAR, (Vilmorin, 1910)**—S. Light violet. F. deep purple with bronze veinings at throat, a magnificent variety of giant size and great substance. **1.25**

Price per dozen, 10 times price of one.

ANNA FARR, (Farr, 1913) —S. white, lightly bordered pale blue. F. pure white with blue markings at base. Immense flower with delicious scent.	2.00

BEARDLESS IRISES OF VARIOUS SPECIES.

EVANSIA GROUP (CRESTED IRIS)

CRISTATA —Also of the Evensia or crested family, is a native of our country and is a small creeping species growing only about 3 inches in height, increases rapidly in a well drained soil, and is a rich amethyst blue in color.	.35
GRACILIPES —Another iris of the crested family, a small and delicately beautiful thing. It likes a somewhat cool situation where the tiny rhizomes will not be parched with drought. When established will produce numerous pinkish lilac flowers on a branching stem from 9 inches to a foot in height, the grassy foliage about the same height. The flowers are flat in shape like a single Japanese iris and have a tiny crest of white.	.50
TECTORUM —The flower is more the shape of the Germanica types, but the S. have a jagged crest white with brown marking, the flower itself is blue purple and has splashes of a darker shade. A very lovely iris.	.35
TECTORUM, ALBA —A most exquisite iris, like the type except that it is pure white and the crest is marked with gold. With the slight protection given by a hedge or strong growing plants, this iris is perfectly hardy and a rarely lovely flower. Both Tectorum and Alba seed freely and come perfectly true to type.	3.00

SIBIRICA GROUP.

SIBIRICA, ACUTA —dwarf form, flowers blue, reticulated white.	.35
SIBIRICA, ALBA GRANDIFLORA —Flowers white with brown reticulations at throat.	.25
Price per dozen, 10 times price of one.	

SIBIRICA, GEORGE WALLACE —Very fine blue.	.35
SIBIRICA, GRANDIS —Violet, freely veined white, very tall.	.25
SIBIRICA, PERRY'S BLUE —A large flower of clear blue with horizontal falls. Probably the finest Siberian iris. Very scarce.	3.50
ORIENTALIS, BLUE KING —A larger flowered variety found by Mr. Barr in Japan, deep purplish blue. \$10 per 100 for 50 or more.	.15
ORIENTALIS, TRUE BLUE , (Freyer, 1919)—A great improvement on the type. Flowers of good clear blue. Very lovely planted with Snow Queen.	.50
ORIENTALIS EMPEROR , (Species collected in Japan by E. H. Wilson)—Large flowers, (borne on stalks 4 ft. tall) of very fine form and of a deep violet color.	3.00
ORIENTALIS, SNOW QUEEN —Also found by Mr. Barr in Japan, similar to the former, but pure glistening white with yellow throat, taller, with larger flowers and more spreading falls than Blue King. \$10 per 100 for 50 or more.	.25

SPURIA GROUP.

SPURIA ALBA —S. and F. pure, glistening white, the flowers have very long narrow petals, very different in type from the Germanicas.	.35
SPURIA, MRS. TAIT —(syn. Longipetala Superba). Soft porcelain blue, with very long, pale blue falls, having a golden blotch at the base, free bloomer and very hardy.	.35
OCHROLEUCA —Ivory white flowers with a deep golden blotch on the falls, petals long narrow, very hardy, grows 4 feet.	.35
PSEUDACORUS —Tall, bright yellow. Though really a marsh-loving plant, this iris does well even in a dry, sandy soil—splendid for naturalizing.	.25

JAPANESE IRIS.

AMETHYST —3 very large wavy petals of most exquisite, soft lavender.	.65
AZURE —Double, immense, beautifully waved flowers of soft mauve blue, with dark halo surrounding the yellow blotch at throat.	.75
BETH HALLOCK —Double, white with a wide band of plum color at edge, a tall and striking flower.	.25
BOUNDLESS SEA , (Yomo-No-Umi)—Considered by many to be the best white, very double, with overlapping petals of firm texture. Long golden blotch running down well into the centre.	.35
Price per dozen, 10 times price of one.	

CLOUDY SKY, (Kumono-No-Sora) —3 immense white, crepy petals with sky blue halo surrounding the yellow blotch at throat. A somewhat smaller edition of Morning Mists.	.50
FIREFLY, (Uji-No-Hotaru) —The latest to bloom, a very deep purple with golden blotch at throat, a tall and imposing flower.	.50
KAMATA —Single, deepest sky-blue, veined white.	.65
LESTER LOVETT —Very large double flower of bright, clear blue with white halo, a very fine variety.	.75
MADONNA —Very fine pure white, double, tall growing, with large flowers.	.35
MAHOGANY —Double, very lark, red purple, veined maroon.	.35
MORNING MISTS —This is the most magnificent of the single Japanese irises, often measuring 12 inches across. The petals are of a lovely thick crepy texture, very wavy and pure frosty white with a sky blue halo lightly dusted across the centre of the flower.	1.00
MRS. LOVETT —6 enormous petals, lavender veined with rich purple and margined with pure white; canary yellow splash in centre. A magnificent flower of exquisite form and color.	1.00
NORMA —Double, exquisite, silky, lavender pink with clear blue halo surrounding yellow blotch at base of petals. Very large flower.	.75
PAINTED LADY —A very tall and handsome flower, 6 large petals of white, sometimes veined with plum, inner petals edged with plum.	.35
PINK PROGRESS —Single, beautiful mauve pink with sky-blue halo.	.65
RUFFLED MONSTER —Double, deep pinkish plum, heavily veined with white, beautifully ruffled, enormous flowers.	.75
SANO-WATASHI —One of the best pure, white, early, 6 great drooping petals of pure white, firmly held, with golden blotch at throat.	.35
SPOTTED BEAUTY —6 petals of soft flesh pink, minutely dotted with rose. A flower of beautiful orchid coloring, of splendid substance, lasting a long time in water.	.50
STEEL BLUE —Exquisite soft lavender blue, self colored with mauve halo, a delightfully cool and delicate color. 3 petals.	.65
TEMPLETON —Very double, light violet, mottled reddish pink and white.	.35
TURBAN —Double, grey ground, heavily overlaid and veined with blue.	.35
VICTOR —Double, white, veined with blue—very large and fine, with long period of bloom.	.35

Mixed Japanese Iris, fine kinds without names, 25 cents.
