DRAFT FOR LETTER TO ERIC THORNTON, Bukavu, Belgian Congo

Mr. Mark Evans, local radio and TV commentator, spoke most enthusiastically of your services to a party of which he was a member during a three weeks tour of the Belgian Congo. Therefore we write you for advice and estimates regarding an expedition of somewhat longer duration in which the Smithsonian Institution is interested.

The party of five people from the States, consisting of the sponsor of the expedition and his wife, two invertebrate zoologists representing the Smithsonian, and a physician-photographer, expects to assemble in Leopoldville on or about the middle of April, to remain in the Congo for a month, or at most forty-five days. A hunter-guide like yourself would be needed for the National Parks part of the trip as it is hoped some effective motion pictures of the characteristic larger, African animals can be taken there. No member of the party is interested in game hunting or shooting birds. The studies to be made in the field are to be of shrimps and crabs and the smaller animal life of the area, much of which can be secured with native help especially at their local fisheries; also to be collected are mites and ticks living on small vertebrates, to catch the latter live traps will be brought along; bats and some birds also will have to be taken or shot to see what they carry in the way of external parasites. It is anticipated that the Smithsonian can secure the necessary permits for taking the specimens desired, including plants which are hosts to mites, too. There would need to be an intelligent assistant, native or otherwise, to help the

photographer with some of his gear; and another who knows how to properly skin small animals, and who as time permits can help with collecting. With hunter-guide for all or at least the eastern part of the trip (Stanleyville, Costermansville, Juba triangle) three people would be added to the trip, a total of eight people not counting the chauffers whom I understand come with the hired autos. Counting total party, collecting gear and photo equipment, it is believed that perhaps two 7 passenger station wagons would be required.

A summary of the tentative itinerary prepared by this Association is enclosed. On it have been indicated some alternatives, omissions, and additional places to be visited. It is realized that it will be a somewhat strenuous trip, but traps would be set out at overnight stops, collected in early A.M., bats taken at dusk; and plants and infesting mites, and other small animal life at luncheon stops, and shrimps and crabs largely at places where native fisheries are being carried on. The photographer will keep a film record of operations as practicable and besides pictures in the parks, hopes to photograph characteristic native scenes, tribal dances, and the canoe exploits of the natives at Biondo [?] south of Ponthierville, of which we have been told and in which the party has expressed keen interest.

Dr. James A. Chapin is also being approached for recommendations as to assistants, as well as the Belgian medical research laboratory at Bukavu. From among the several recommendations a selection will be made.

1. Can you give us an estimate as to cost of following:
 - a. The tour outlined in left hand column of enclosed trip summary, using two autos with chauffers and including Elizabethville trip.---
 - b. Without Elizabethville trip---
 - c. We are hoping that the additional stops listed to the right (see summary), together with some extra days filming native dances and animals in the National Parks, etc., can be substituted for the Elizabethville visit without increasing totals of time or cost. Can this be done?---
 - d. If above (note c.) will increase cost (see a. above), how much will it be?---
2. Cost of services over and above foregoing:
 - a. Your services for whole trip---
 - b. Your services for Stanleyville, Costermansville, Juba trip---
 - c. For hunter-guide if deemed necessary for pre-Stanleyville part of trip, in addition to English speaking chauffers. (No member of party of five can converse in French.)
3. Cost of services of:
 - a. Photographer's assistant---
 - b. Competent skinner of small animals and collector's assistant (collecting gear, and materials for making up skins to be furnished by us.)---
4. a. Provided it is considered practicable, would cost be same if number of days and mileage did not exceed tentative AAA itinerary or summary, if route followed was determined as trip progressed?

4. b. Do lodgings and hotel accomodations have to be engaged much in advance?
- c. Could they be changed or postponed by wire?
5. a. Do you think the tentative (enclosed) itinerary reasonably practicable in view of what the party has to do and that it best be followed so far as possible?

Only changes now foreseen are using days saved for Elizabethville trip to spend day or two at Biondo [?] if necessary, two or three days additional at Medical Laboratory at Bukavu, and day or two at Gangala na Bodio [?], and whatever time is otherwise freed in photography at National Parks or of native dances or fisheries.

- b. Can these shifts of arrival days at hotels and guest houses be made after party gets to, let us say, Stanleyville, or
- c. Can they be made from time to time as necessary?
- d. Cannot native dances be arranged for or scheduled by reasonable advance notification or request so that no time would be lost waiting for them to be organized?
6. a. If Nile boat is to be taken at Juba would one need to know late May and early June sailings (as we are told they only run every two weeks)? We shall also try to get them from local tour agencies.
- b. On which days in the same week of May can air travel from Juba (or nearest place?) to Khartoum, connecting with river boats and trains to Cairo, be obtained?

7. a. Referring back to "4a", what would be cost of one month's hire of cars and chauffers if average daily mileage did not exceed that of the forty-five day trip?
 b. Cost per additional week?
8. If it is believed that we are trying to see too many places, too briefly, would it not be possible to skip about every other place after Leopoldville so that a full day could be devoted to those places where the night is spent? In that way more collecting could be done and the party would not get too tired of auto travel. Also, the total mileage and nights in hotels would not be increased. Is this practicable?...
9. If party were to take plane instead of auto to Stanleyville, what would be the cost of the Stanleyville, Costermansville, Usumbura, Juba trip? The days gained by faster travel could be spent in longer sojourns at the several stopping places.
10. Considering distances in the Congo, the party would be very much on the move and would not be able to do much more than sample the fauna. Mr. Bredin has also spoken of spending some time in a seldom visited place. If he should so decide, what would be the cost of keeping the autos on call at such a place, or places (day to day hire, auto and chauffeur)?---

Itinerary of the Smithsonian-Bredin Expedition:

Days are consecutively numbered and encircled. Over night stops are marked with an asterisk. Indicated notes are on an accompanying sheet. Distances are in kilometers followed by miles in parenthesis. No claim for accuracy is made. Most are approximate and in some instances may be off.

The itinerary gives both a 45 and 30 day trip in the Congo from time of debarkation to the day we leave Juba. The boat trip as originally planned by the AAA follows the conclusion of either of the Congo itineraries. It is hoped that 45 days may be spent in the Congo. If this is not possible the 30 day itinerary will have to be adhered to.

CIRCULATION IN THE NATIONAL PARKS

A. — Albert National Park and Park of the Kagera (Abstract from regulations).

Circulation in Albert National Park and in Kagera Park are subject, except for a certain number of roads, to an authorization from the Warden of the Park or from the Rwindi Camp. Such authorization involves the payment of a fee which varies from Fr. 125 to 400 (reduction of 50 % to groups of 10 persons), according to the sections visited. In the case of excursions organized at a fixed rate, all such fees are included in the tariff.

Persons who have the required authorizations must be accompanied by a native guide recommended by the Depts. of the National Park, or by a guide duly approved by the Institution.

Authorization to introduce, retain and use photographic cameras in the National Parks of the Belgian Congo may be obtained free of charge.

An authorization to introduce, retain and use amateur cinematographic equipment is subject to a fee of Fr. 200 per camera.

The snapshot-cameras and 8 mm. motion picture cameras are exempted from the payment of a tax.

In all National Parks it is strictly forbidden to hunt, fish, pick flowers or plants, disturb the animals and leave the paths where circulation is permitted. (For detailed information, see special leaflet).

B. — Circulation in the National Parks of Garamba and of Upemba requires a special authorization.

HUNTING AND FISHING

N. B. — For fuller information, please consult the booklet « Big-Game Hunting in the Belgian Congo » published by the Tourist Bureau for the Belgian Congo and Ruanda-Urundi, and « Game Fishing in the Congo Estuary » by Major Marée.

These booklets are on sale at the Tourist Bureau for the Belgian Congo and Ruanda-Urundi — 28, Putterie, Brussels, at the price of 10 B.frs. and 25 B.frs. respectively.

FORMALITIES : See « customs formalities » for bringing arms into the Colony. The fire-arms belonging to tourists who only stay in the Congo for a maximum period of 6 months, and which have been declared for transit, are not subject to the stamping formalities. The possession of those fire-arms must be covered by a licence as soon as they are brought into the territory (100 fr. for every fire-arm); this licence is quite independent from the shooting-licence.

FIRE-ARMS : Each person is allowed to take three fire-arms, i.e. three guns which are not rifled, or one rifled gun and two which are not rifled, or 2 rifled guns (one of which will be a pistol or a revolver) and one which is not rifled. The holder of a shooting-

licence for elephant-hunting is allowed to take five rifled guns with him when entering the Colony. The possession of fire-arms of the governmental type or using ammunition meant for governmental type guns, as well as the possession of self-propelled fire arms are prohibited.

LICENCE : The tourist can obtain : 1) **from the territorial authorities, either** a restricted licence for a non-resident, valid for one year all over the Colony, on payment of a tax amounting to 750 frs, with which that tourist will be allowed to kill any adult and male animal mentioned in tables I and II, riders to the decree concerning hunting, or a full licence for a non-resident, valid one year and all over the Colony, on payment of a tax amounting to 3.000 frs, with which the tourist will be allowed to kill the same animals and moreover, certain kinds of those mentioned in table II, but under the circumstances and within the strict limits provided by the decree, and on payment of fixed taxes. 2) **from the Governor General or the Governor of a Province or their delegate,** a shooting-licence for elephant hunting allowing the holder to kill two male adults (tusks weighing over 10lb), valid for one year and in restricted areas, on payment of 10.000 fr. tax.

HUNTING PRESERVES AND CLOSING DATES FOR HUNTING.

Besides the National Parks, many total or partial preserves have been set up; hunting for some kinds of animals is prohibited in some areas.

Close seasons vary according to the Provinces. They are roughly : in Kwango from 1/4 until the 30/11; in Katanga from 1/4 until the 30/4; in the Eastern Province from 1/8 until the 30/11; in Ruanda-Urundi from 1/5 until 31/8; in Kivu and in the areas of the Maniema savanna, from 1/3 until the 30/6; in the big forest of Maniema and Shabunda, from 1/8 until 30/9.

HUNTING AREAS. — The favourable areas are : the approaches to the National Parks and the total or partial preserves and especially : in Ruanda-Urundi, the approaches to the Kagera National Park in the Kibungu and Biumba territory and the area between Kigali and Muhinga; in Kivu, the Luama (Kabambare), Fizi, Ruts-huru, Beni and Lubutu hunting estates; in the Eastern Province, the hunting estates in the surroundings of the Garamba National Park in the Dungu and Faradje territories and in the Paulis territory, the game preserve in the Lake Albert plain, some savannas in the Uele; in Katanga, the approaches to the Upemba National Park and the game preserve of the Kundelungu; in Kwango, the hunting estates of Kasongo Lunda and Gungu.

To be allowed to hunt in the hunting estates, it is necessary to have a licence from the Governor of the Province or his delegate; duration of hunting is limited; further taxes are exacted in addition and the full licence for non-residents is absolutely necessary.

FURTHER PARTICULARS ON HUNTING IN KIVU.

The **best season** for hunting is the dry season. In the Kivu, this season lasts from June to September.

During this period, the grass is burnt over and the young shoots attract game; furthermore, the hunter is certain of enjoying good weather.

During the rains, the grass is very tall, especially in the Luama region, and this makes hunting impracticable.

The average altitude in the Luama game preserve is 2000 feet and the temperature varies between 75° and 95° F. It is not quite so hot on the Rutshuru plain which is over 3000 feet up.

Animals mentioned in table II, which can be shot by the holder of a full permit for a non-resident, after payment of the tax.

Species	Number	Tax for one animal
Bongo	3	3.000 frs
Sitotunga	3	800 frs
Roan Antelope	1	1.000 frs
Wood-antelope yellow-loined	3	1.000 frs
Hippopotamus	2	2.000 frs
Hylocherus	4	500 frs

The roads are passable during every season. Although the dry season is to be chosen for hunting, the rainy season, on the other hand, is more attractive where scenery is concerned.

An especially agreeable period is the short dry season from the 15th of December until the end of January. During that period it does not rain too hard and visibility is extremely good. The country is green whereas, during the long dry season from June until September, it is scorched and dried up and the atmosphere is misty.

However, the long dry season is to be mostly recommended for hunting.

Therefore, the best thing to do is to choose Bukavu as the place of arrival and the starting point where excellent hotels are to be found, and then to proceed towards the chosen areas for touring or for hunting.

INFORMATION SOURCES : Tourists must always inquire, before going hunting, at the territorial administrators' or the honorary game wardens, about the preserves, the close seasons and the protected animals.

EXPORTATION OF THE TROPHIES : Tusks must be registered within 30 days at the chief-town of a territory; the trophies of animals mentioned in tables I, II and III, riders to the decree, must be accompanied by a legitimate exportation certificate delivered by the territorial administrator for the area where hunting has taken place.

Generally speaking, all the travel agencies organise safaris. Amongst others, we would mention : Sitoconil of Bukavu; Congo-Safari of Stanleyville; Congo-Tours of Bukavu, etc.

FISHING. — Rod-fishing is generally free and not subject to any formalities on the whole of the territory, except in the National Parks and in some preserves. All the lakes (Kivu excepted) and the big rivers abound with fish.

The atlantic coast (Moanda, Vista and Banana) where game fishing for large sea fish (tarpon) is organized is to be recommended to those who are fond of thrills.

At Moanda, Mr. Gaston Quinet (B.P. 23, Banana) hires out motor launches with native pilot and equipment at the price of 500 C.frs. per half-day. He sells or hires out equipment for game fishing and arms for crocodile-hunting.

TOURIST BUREAU FOR THE BELGIAN CONGO AND RUANDA-URUNDI

The Tourist Bureau for the Belgian Congo and Ruanda-Urundi does not act as a travel agency which sells tickets or organizes visits or excursions in the Belgian Congo at an established price.

The Bureau advises tourists, gives them, free of charge, information about transport and hotel accommodation and documentation

relating to natural and all other curiosities and also suggests specimen itineraries.

The Bureau, Touring organizations and the qualified agencies, acting in their own field and with the intention of collaborating together endeavour to facilitate travelling in the Belgian Congo and to make it as attractive as possible.

CONDITIONS FOR THE ADMISSION OF TOURISTS TO THE BELGIAN CONGO AND RUANDA-URUNDI (1)

(The necessary formalities can be easily and quickly fulfilled.)

A. — For tourists of Belgian nationality.

(a) Tourists travelling by one of the national Belgian means of transportation.

Require :

(1) An identity card or any equivalent document **accompanied by a certificate** (declaration) issued by the Ministry of Colonies, specifying that all the formalities required for entrance to the Congo have been complied with. Such certificate may be obtained from the Immigration Office of the Ministry of Colonies, Rue du Pépin, 10, Brussels. The Office is open every day from 9 to 11.30 a.m., except Saturdays. The certificate should be requested **at least 15** days prior to departure; the certificate is supplied against payment of 80 frs.; five photographs are required, three of which are to be given to the Immigration Authorities when entering the Colony.

Note. — Tourists travelling by Sobelair or Sabena air lines and stopping in Egypt must also carry a passport in order.

(2) Two certificates of good conduct for **government service**, less than three months old, and, in case of a previous stay in the Colony, an abstract of the Colonial Court records.

(3) A certificate of vaccination predated at least 14 days and not over 3 years old, stating the type of reaction.

(4) A certificate of protective inoculation against yellow fever predated at least 10 days and not over 6 years old.

Note. — A.B.C. antityphoid and antiparatyphoid inoculation is also strongly recommended.

Travellers wishing to stay longer than 6 months must also carry a certificate of good health dating back at least 3 months.

All certificates mentioned under (3), (4) are valid only if delivered by a physician recognized by the Ministry of Colonies.

These various certificates and vaccination or inoculations may be obtained at the Service de l'Hygiène du Ministère des Colonies, 20, Rue de Namur, Brussels, every day from 9 to 11 and from 14 to 17, except Saturdays, or at the Institut de Médecine Tropicale Prince Léopold, 155, rue Nationale, Antwerp.

(b) Tourists travelling by a foreign means of transportation.

Same documents as above and, in addition, they must be provided with a passport visaed for all countries by the consular authorities of each country to be crossed, insofar as this formality is still required.

B. — For tourists of foreign nationality.

Foreign tourists require :

(1) A passport with a visa issued by the Belgian authorities of the place of departure (a transit visa or a 6 months travel visa). Consular authorities are allowed to deliver visas immediately, without reference to the Governor General.

The Governor General may authorize a transit traveler to stay over for a maximum period of 8 days and may also extend a travel visa for 3 months.

(2) Same documents as under (2), (3) and (4) above.

C. — Regulations for tourists from neighbouring colonies.

a) People who have their residence in Uganda, or in Kenya or in the Tanganyika Territory are allowed to enter the Belgian Congo without passport, provided that they carry their identity card and a written statement from the British authorities stating that they have been living in these territories for at least six months and that nothing prevents them from returning there. They will receive a visitor's permit valid for **one month** when they enter the territory.

b) Those who have their residence in F.E.A., on the shores of the Stanley Pool, are allowed to go over to the Belgian Congo for 24 h., provided that they carry with them a valid residence card, which they must hand over when they enter and which is given back when they return.

The non-residents who only travel there and back must carry a passport in order or a certificate from the Ministry of Colonies, which has also to be handed over on entering the territory.

D. — Bond.

A bond is required, but **it is possible** for foreign tourists holding a transit or a travel visa and for Belgians who are not staying in the Congo over 6 months to be exempted from giving the necessary deposit or guarantee.

For Belgians, such dispensation is given by the authorities who issue the certificate accompanying the identity card (passport), and for foreigners by the authorities who grant the visa.

Should the length of stay be extended, the bond or the guarantee may be claimed.

The bond required is 50.000 francs for the head of the family and each child aged or over 18 years, and 25.000 francs for the wife, and each child between 14 and 18 years.

(1) For more detailed information, refer to the « Traveler's Guide » obtainable at 35 / — or \$ 5 per copy from the Tourist Bureau for the Belgian Congo and Ruanda-Urundi.

The guarantee can be given by a public establishment, a bank or a Belgian civilian or commercial Company, or also by a travel agency approved by the Ministry of Colonies or by the Governor General if the said travel agency is established in the Congo.

E. — Currency.

1) **Import** : Travellers may import into the Belgian Congo and Ruanda-Urundi money, banknotes and means of payment (cheques, letters of credit) of Belgian, Congolese or foreign origin, with no restrictions.

Exchange : Money, banknotes and means of payment imported into the Colony may also be freely negotiated.

Re-export : Insofar as they were imported and declared upon

CUSTOMS FORMALITIES — REGISTRATION OF TRAVELERS REGULATIONS FOR THE ENTRY OF MOTOR-CARS

A. — Customs.

Luggage belonging to travelers entering the Belgian Congo is not subject to any licence provided that it corresponds to the actual needs of travelers, to their social standing, and to the length of the visit they intend to make in the Colony.

By travelers' luggage is meant : clothes, underclothing and toilet articles, even if they are new, and the following articles **insofar as they show some marks of previous use** : cameras with a maximum of 12 frames or 6 roll films for each camera, motion picture cameras of a reduced type, sport articles and instruments, portable musical instruments, magnifying glasses, portable type-writing machines, small camping accessories, portable phonographs with a maximum of 20 records which have already been used, prams, and, for travelers who are more than 16 years old, a quantity of tobacco, cigars and cigarettes that does not exceed a total of 1 kg.

Are temporarily duty-free at entrance (i.e. with refund of the money deposited), **for a maximum delay of 6 months** : samples for commercial travelers, unexposed films for motion-picture cameras, unused records for recording, goods and articles brought by artists for the need of their profession, new clothing and other articles imported by people who come to stay temporarily in the Colony.

The period of validity mentioned above may be extended on authorization given by the Customs Director or his deputy, after a written application has been made and in fully justified cases.

Arms and Ammunition.

Arms which tourists do not want to use should be carefully packed. The parcels are to be sealed by the Customs and a special notice that this formality has been done is mentioned on the transit document. As for arms brought by tourists for hunting, they must be duly declared for transit; the money deposited as a guarantee represents 5/4th of the duties value plus a statistical tax of 0,50 fr. per thousand. Customs duties on arms and ammunition come to 30 % ad valorem.

For licences, see § about Hunting.

N. B. — Luggage and articles brought by the tourist coming into the Belgian Congo with his own car and holding a « triptyque » or « carnet de passage en douane », are admitted at entrance without any formality or duty, as long as they are mentioned on the back of the slips of those documents reserved respectively for entrance and exit; the tourist can mention them himself and it is not necessary to ask the club that issued the document to do so; customs duties will eventually be levied at exit on missing articles.

The same facility applies to the owner of a vehicle admitted at entrance under cover of a declaration for transit, an entry card or a laissez-passer, provided that they are mentioned on the document.

Clearance. — It takes place :

a) **by sea route** :

1) if the traveller takes ship from Antwerp, at the Colonial Customs Office, Antwerp (Dock n° 212). Hand and cabin luggage

entry into the Belgian Congo or Ruanda-Urundi, travellers usually residing in Belgium, in the Grand Duchy of Luxembourg or abroad may re-export the banknotes and coins in their possession.

They may, furthermore, unrestrictedly re-export the means of payment (cheques, letters of credit) held by them.

2) Travellers usually residing in Belgium or in the Grand Duchy of Luxembourg may carry up to 25,000 Bfrs. in Belgian, Congolese or foreign coins and banknotes, together with means of payment (cheques or letters of credit) for amounts within the limits authorised by the Central Bank of the Belgian Congo and Ruanda-Urundi or by the Belgo-Luxemburg Exchange Office (at the present time 50,000 Bfrs. in a general way; higher sums are subject to prior authorisation by the above-mentioned organisations).

will be inspected again at the Customs Office in the Congo port of entry.

2) if the traveller takes ship from another port, at the Customs Office in the Congo port of entry.

b) for those using air lines, in the first airfield they land on in the Belgian Congo.

c) As for travelers using other means of transportation, they must clear their luggage through the customs at the customs station where they enter the Colony.

B. — Registration.

Within six days of arrival on the territory of the Belgian Congo or of the Ruanda-Urundi, travelers are required to register. Registration takes place at the border. The registration card issued upon entry must be returned to the registration office of the border when leaving the Colony.

Three passport size and full face photographs are required.

C. — Motor-cars.

Automobiles, motor-coaches, motor-cycles and aircraft not being used for commercial purposes are not subject to customs duty if temporarily brought in with a triptyque or a « carnet de passage en douane » issued by a duly approved Tourist Association in the country of origin. There are no personal taxes on vehicles circulating in the Congo for tourists from abroad.

The vehicles not covered by a triptyque or a carnet de passage en douane may enter the Belgian Congo on condition that they are declared for transit (document valid for 6 months), with deposit of a bond claimable in case of definite importation, increased with a lump sum for possible fines, calculator at 25 % of the duties.

The **inhabitants of the colonies on the border** of the Belgian Congo who wish to visit the Congolese localities can obtain from the chief of the local customs office either entrance cards (which cost 10 C.fr.) valid for a fortnight's journey, or a permit (which costs 50 C.fr. and which must be applied for in writing to the Receiver at the Customs office in the port of entry. These entry cards are valid for a year only and for any number of journeys lasting not longer than 15 days each.

The people concerned who have those documents are exempt from the deposit of a bond and from all the formalities about transit.

Driving permit. — In accordance with the International Convention of Paris of April 24, 1926, an international permit issued in Belgium or in any other country, is valid in the Belgian Congo and no local permit is needed.

Except for foreigners holding a transit visa, tourists are required to have their registration plate and the distinctive sign of their country of origin registered by the Territorial administrator.

Price of petrol : from 5 to 9 francs a liter, according to the area. As a rule, the sale of petrol is unrestricted in the Colony and it may be found in all settlements of any importance.

rate particulars, apply to the Bureau or to travel agencies.

The rates listed are those valid on the 1st January 1954.

(3) In addition to direct lines to the Congo, we have reported the services which connect with a harbour or an airport situated in a neighbouring colony and provide for a regular connection with the Congo. The connection has been indicated.

TRAVEL BY ROAD.

One may proceed to the Belgian Congo by road.

A. — The road chiefly taken is the one through **the Sahara**, which enables travelers to start their journey from Europe by road.

Such a trip may however be undertaken only from December to March because of seasonal floods caused by the Tchad.

There are two itineraries from Algiers (or Oran):

over the Hoggar, via Laghouat, Ghardaia, El Golea, In Salah, Arak, Tamanrasset, Agades, Zinder, Kano, Fort-Lamy and Bangassou, total 6.020 km.

over the Tanzezrouft, via Colomb-Bechar, Beni-Abbes, Adrar, Reggan, Bidon V, Tassalit, Gao, Niamey, Kano, Fort-Lamy, Bangassou, total 6.784 km.

Note. — It is possible to pass from one route to another over the Adrar-El Golea, Beni-Abbes-El Golea or Adrar-In Salah cross-roads. Colomb-Bechar can be reached by leaving from Morocco. From Kano, there is only one itinerary: Kano, Fort-Lamy, Fort-Archambault, Fort-Crampe, Bangassou.

From Bangassou to Stanleyville via Bondo and Buta: 739 km. The Touring Club de France, in agreement with the General Government of Algeria, has organised a scheme of assistance for motorists using the Sahara routes. This scheme comprises:

1) for all motorists, a **breakdown contract**, to be signed with the T.C.F. office in Algiers or with the Heads of Territories or of Stations in the Sahara, or with the Mediterranean-Niger Railroad Network. This agreement ensures that, when travellers are 36 hours overdue, they shall be sought for and transported to the nearest station. This task is entrusted to the following organisa-

tions : on the Adrar-Gao route, to the Mediterranean-Niger Network; and on the Hoggar and transversal routes, to the Administration authorities.

Expenses in connection with drawing up this agreement amount to 5.000 French francs. They do not include those incurred for rescuing the car.

2) for members of the T.C.F. who have signed a breakdown contract, exemption from payment of the repatriation guarantee which is exacted when crossing French East Africa, French Equatorial Africa and the Cameroon.

For all further information, please apply to the T.C.F., 65, avenue de la Grande Armée, Paris or 1, rue Lacépède, Algiers. It is advisable to obtain a copy of the « Guide du Tourisme Automobile et Aérien au Sahara » edited by the Algerian Shell Company, 146, Bould. Camille Saint-Saens, in Algiers.

Information concerning the crossing of the Sahara may be obtained from « Les Amis du Sahara », Direction des Territoires du Sud, Gouvernement Général d'Algérie, Algiers.

B. — For those who do not use their personal car, two regular lines cross the Sahara and reach Fort-Lamy (Tchad) :

a) the first, by rail between Oran and Colomb-Bechar, and by motor-coach of the Société Africaine des Transports Tropicaux (S.A.T.T.) from Colomb-Bechar, to Gao and Niamey, with connection for Kano and Fort-Lamy.

b) the second via Hoggar with the motor coaches of the S.A.T.T. from Algiers to Fort-Lamy via El Golea and Kano.

Rates Algiers-Fort-Lamy, lodging and food not included : 2nd.cl. 48.960 metr.Fr.fr., 1st class Pullman, increase of 20 % — 30 kg. luggage free of charge.

c) at Fort-Lamy, the connection with Bangui is assured by the Messageries Dujardin of Fort-Lamy or the Société des Transports Oubanghi-Cameroun of Bangui.

At Bangui, the connection with Bangassou is organized by the Compagnie des Transports routiers of Bangui.

C. — The Congo can also be reached :

(1) via French territories, by leaving Dakar, Lagos or Douala via Bangassou (or Bangui); by leaving Pointe-Noire towards Brazzaville and Leopoldville.

(2) via Portuguese Angola by leaving Lobito towards Elisabethville.

(3) via South Africa by leaving Cape Town or Durban via Johannesburg, Livingstone and Elisabethville.

(4) via the Eastern coast of Africa by leaving Mombasa via Nairobi, Kampala and Bukavu (or Usumbura).

(5) via Egypt by leaving Alexandria (Port Saïd) via Cairo, Khartoum, Juba and Aba.

However, by taking this route, motor-cars are not allowed on the Shellal (Assouan) - Wadi Halfa section and it is therefore necessary to cover this stretch by boat.

D. — The travel agency « Generalcar », 1, rue des Colonies, Brussels, organises journeys by car starting from Brussels, to Bukavu (Kivu) and vice versa, via Spain, Morocco, the Sahara, Fort-Lamy, Bangassou and Stanleyville. The voyage lasts from 32 to 37 days. Approximate price : 50.000 Bfrs. Departure dates : From November to April. Full information should be obtained from the above mentioned travel agency.
