BETTER GLADS

PINK WONDER

The Gladiolus

"TO KNOW THE GLAD, IS TO LOVE IT"

The modern gladiolus is the unrivaled queen of the flower world. Its wonderful range of color and varied form, long season and sureness of bloom, good keeping qualities, moderate price, easy culture and freedom from disease and insect pests—all combine to make it the favorite garden flower. As a cut flower, it rules supreme from July to October.

If you already grow Glads, you are an enthusiast and want more, of newer and better varieties; if you have never grown any, let our bulbs bring joy and gladness to you. Their flowers will be a wonderful revelation of beauty in form and color.

We grow in quantity, and list, only varieties that have proven themselves favorites, and of recognized superior value; varieties which have made remarkable records in the show room and as cut flowers. All are strong, healthy growers and nearly all very rapid multipliers.

A great many now on the market should be discarded. It costs no more for labor and space to grow the best, than it does for the poorer ones, and the reward is infinitely greater.

In our trial plots we are continually testing out new introductions, and shall add to our list, from time to time, those that prove themselves worthy of a place in the best gardens.
