IRISES,

GLADIOLI

AND

PEONIES

BROOKWOOD GARDENS, Inc.

W. E. SHERBROOKE, Pres.

KIRKLAND, WASH.

Announcement

To Our Friends and Flower Lovers in General—

Greetings—You will be interested to know that the well and favorably known flower nursery business established by W. E. Sherbrooke of Kirkland, Wash., some twelve years ago, has now been absorbed by a corporation to be known as “Brookwood Gardens, Inc.” The company will operate under the direction of Mr. Sherbrooke who will continue to be of service to his many friends in floriculture as heretofore.

We will specialize in propagating and growing only the choicest and rarest of the worth while novelties in Roses, Irises, Gladioli and Peonies as well as the best of the older standard varieties. We hope to be considered as headquarters in the West for these particular flowers, producing and distributing only such stock as will give full satisfaction and be to our credit. Our customers must be pleased will be our policy.

Brookwood Gardens, our show grounds are just east of the Juanita school house on the Bothell-Kirkland highway.

Here the picturesque in nature has been combined with the idealism of man, surpassing in scenic wonder the unaided handiwork of nature alone. Tall virgin firs rescued from the lumberman's axe, tower there as they have for hundreds of years; through the grounds runs a musical little brook which widens where artificial dams have created shady pools dotted with lillies and bordered by Japanese Irises, or half-hidden by screening foliage. There are very beautiful little glens and dells; rustic bridges that cross the stream at various stages of its career—in all a spot of delightful surprises for the lover of the splendor of out-doors.

The scenic attractions of the place will enable us to show the finest novelties in flowers in the most ideal setting imaginable.

We take this opportunity of extending to you a hearty invitation to visit Brookwood Gardens.

Cordially yours,

BROOKWOOD GARDENS, INC.,

W. E. Sherbrooke, Pres.

The World's Finest Roses

Classification

T—Tea Rose. The original Tea rose came from China. They are delicately beautiful, profuse bloomers and fairly hardy.

H. T.—Hybrid Tea rose. Obtained by crossing tea roses with the old hardy Hybrid Perpetual, retaining the vigor and hardiness of the H. P. with the free blooming qualities of the Tea rose. By far the most popular class.

H. P.—Hybrid Perpetual rose. Not perpetual so far as blooming is concerned though quite hardy and vigorous.

Nois.—Noisette. Climbing and pillar roses.

Pernet.—Pernetiana rose, a new family obtained by crossing the Austrian Briar with other classes. Introduced by Mons. Pernet-Ducher of Lyons, France.

Alphabetical List

	1st size	2nd size
AMERICAN PILLAR: A very showy climbing rose with splendid glossy foliage. Only semi-double, blooming in clusters	60c	
ANGELUS, H. T: A new white rose with creamy flesh center. Upright habit with good stems.	\$2.00	
ASPIRANT MARCEL ROUYER, H. T: Apricot yellow with reddish center, shaded salmon. Vigorous, fragrant, long buds and a lovely color.	\$2.50	
AUGUSTUS HARTMAN, H. T.; Rather an odd shade of red or Orange pink	75c	
AUSTRIAN COPPER: A single rose with bright reddish copper on face of petals, old gold on reverse. Very attractive	75c	
AVOCA, H. T: A very vigorous grower, splendid bloomer with long pointed buds, fine stems, color scarlet crimson.....	75c	
ARTHUR GOODWIN, H. T: Coppery pink shaded salmon, a lovely color combination difficult to describe	75c	60c
BABY DOLL or TIP TOP, Poly. This little beauty has two names and two colors, like a miniature Juliet, same combination of colors	75c	60c
CIRCE, H. T: Flesh shaded salmon with yellow base. Long pointed buds of perfect form.	\$1.00	
CONSTANCE, Pernet: Sulphur yellow shaded coppery scarlet, the yellow predominating. A vigorous grower bearing a profusion of well formed flowers all season	\$1.25	
COUNTESS CLANWILLIAM, H. T: Long pointed buds of honey yellow, flushed pink, splendid form and a good grower	\$1.00	75c
COLUMBIA, H. T: Rose pink, large, fragrant and of good substance. It is not a good outdoor rose however. Rose Marie is much superior and of nearly the same color.....	75c	

We Pay the Postage

CONRAD FERDINAND MEYER, Hybrid Rugosa. A very vigorous grower. Large La France pink blossoms	75c	
CHATEAU DE CLOS VOUGEOT, H. T: Dark velvety red holding its color well. Dwarf spreading habit of growth..	\$1.00	
CLIMBING LADY ASHTOWN, H. T: Superbly formed large bright pink of splendid substance. Plant this on a pillar or pergola, it is inclined to mildew on a hot wall.....	80c	
CLIMBING CECIL BRUNNER, Polyantha: The perfect little buds are produced in sprays and are much in demand for corsage and bouquet work also table decorations. The color is blush salmon pink. Very vigorous in growth, splendid mildew proof foliage remaining on all winter....	75c	
CLIMBING HOOSIER BEAUTY, H. T: A climbing form of the well known and popular velvety crimson rose.....	\$1.25	
CLIMBING CAROLINE TESTOUT, H. T: Too well known to require description. Makes a real show.....	75c	
CLIMBING SUNBURST, H. T: This is a well developed climbing sport of that glorious, well formed yellow rose.....	\$1.00	
CLIMBING OPHELIA, H. T: Here is a real find, such a vigorous grower with larger blooms than the bush sort and of better color. Sure to please	\$1.00	
CRUSADER, H. T: Crimson red, brighter in center and when well grown, has deep velvety veinings similar to Hoosier Beauty.	\$1.50	
DEAN HOLE, H. T: Silvery carmine pink, long buds.....	60c	40c
DOROTHY PERKINS, Wichuriana: Pink, blooming in clusters. Suitable for pergola or trellis	50c	
DR. F. W. VAN FLEET, Hybrid Wichuriana: A splendid climber with grand glossy foliage. The color is a lovely shell pink, buds beautifully formed. One of the very best climbing roses in existence	75c	
DUCHESS OF WELLINGTON, H. T: Long buds of saffron coppery yellow, a profuse bloomer and vigorous grower	85c	
ENTENTE CORDIALE, H. T: This is on the order of Perle von Godesberg. Fine form, lovely color, creamy yellow	\$1.00	
FRANK W. DUNLAP,, H. T: Dark pink, large and vigorous. Originated in Toronto Canada and won several prizes there	75c	
FRAU KARL DRUSCHKI, H. P: Also known as Snow Queen. This is the largest most perfectly formed white rose grown. Blooms as freely as a Tea rose and is very vigorous in growth. Requires open space with free circulation of air or is apt to mildew	50c	
GARDENIA, Wichuriana: A fine climbing yellow, with long pointed buds on good stems for cutting. It blooms profusely and is altogether desirable	75c	
GENERAL McARTHUR, H. T: The most popular bright red rose for this locality, winning first place in the recent voting contest of the Seattle Rose Society. A good grower free from mildew and—Oh, so fragrant.....	60c	40c
GEORGE AHREND, H. T: A lovely shade of bright glowing pink. Buds are well formed on long stems. Free flowering and quite vigorous	75c	

Prices Include Free Delivery

GEORGE DICKSON, H. T: A well grown specimen is glorious rich velvety red. When poorly grown the neck is weak....	75c	
GEORGE C. WAUD, H. T: The color of this beautiful rose is difficult to describe, bright orange vermillion hardly conveys the picture. Very fine form, double and altogether lovely	85c	
GOLDEN EMBLEM, Pernet: A well grown bloom cannot be excelled by any known yellow rose. It has size, form, color rich golden yellow, substance and vigor. What more could be desired	\$1.50	
GOLDEN OPHELIA, H. T: More double than Ophelia and of a lovely shade	\$1.00	75c
GLADYS HOLLAND, H. T: Buff, shaded orange yellow. On the order of Joseph Hill. New	\$1.00	75c
GORGEOUS, H. T: The name describes the color, deep orange flushed reddish copper	\$1.00	75c
GRUSS & TEPLITZ, H. T: Bright scarlet crimson, blooming in clusters. A splendid garden rose, very showy and vigorous	50c	
HADLEY, H. T: One of the finest roses originated in America. Bright rich red, good form, fragrant and free from mildew	75c	
HAWLMARK CRIMSON, H. T: Brilliant velvety crimson. A magnificent semi-double, free blooming variety holding its color well.	\$3.00	
HEINRICH MUNCH, H. T: Blooms very large and very double. Color a lovely light pink. A prize winner.....	\$1.00	
HOOSIER BEAUTY, H. T: Richly veined velvety crimson. In the half open stage when well grown no other red rose is so gloriously beautiful. Delightfully fragrant.....	\$1.00	75c
HUGH DICKSON, H. T: A very vigorous, rich red rose. Large free flowering and fragrant	60c	
HERZOGIN MARIE ANTONETTE, H. T: Lovely golden yellow of fine form. The stock of this rose has been "run down" and of only moderate growth. It is our intention to bring it back, improve the vigor. It is well worth the effort	85c	
INDEPENDENCE DAY, Pernet: Sunflower gold, flamed and stained coppery old gold and orange. Well formed, fragrant and free blooming, an outstanding variety.....	\$3.00	
IRISH ELEGANCE, H. T: A single rose with long pointed buds of orange apricot	75c	
IRISH FIREFLAME, H. T: Similar to Irish Elegance but of more brilliant color and slightly less vigor of growth.....	\$1.00	
J. B. CLARK, H. P: Very much like Hugh Dickson. Dark red	50c	
JULIET, Pernet: Lovely rosy pink on the inside of petals, reverse old gold. Deliciously fragrant. This rose is probably the most admired in the garden. It is not easy to get along with being subject to black spot on the foliage which often defoliates the plant.....	\$1.00	
JOSEPH HILL, H. T: One of the best roses we have imported from France. Salmon pink shaded coppery yellow. Large, fine form and lovely foliage	\$1.00	

We Pay the Postage

KITCHENER OF KHARTOUM, H. T: A semi-double red rose for garden decoration. The color is very rich, velvety, scarlet crimson. Has created quite a sensation at the rose shows in Seattle and Portland.....	\$1.25	
KILLARNEY, H. T: Bright pink with long pointed buds, semi-double. Must be given free circulation of air and good cultivation or it will mildew horribly. Do it well or leave it alone	85c	
KAISERINE AUGUSTA VICTORIA, H. T: White shaded lemon in the centre. Large, very double and free blooming.....	60c	
LADY ASHTOWN, H. T: Fine shade of pink. Large, very fine form, vigorous and free	75c	50c
LADY ROBERTS, T; Fawn, creamy yellow. Large, very fine form. One of the best Tea Roses	\$1.25	
LYONS, Pernet: Coral pink shaded coppery bronze, resembling the glow of a coke furnace. A wonderously beautiful rose. Unfortunately it has a poor constitution and plants must be renewed every few years, dying back for no apparent reason. Must not be closely pruned and cannot be grown satisfactorily on its own roots	\$1.00	
LADY BATTERSEA, H. T: The most exquisitely formed buds you ever saw. Rosy red, not very double.....	75c	60c
LADY HILLINGDON, T: Deep apricot to golden orange, varying with soil and atmospheric conditions. Vigorous, free blooming, with nice long buds. A general favorite.....	85c	60c
LADY PIRRIE, H. T: Coppery salmon pink of fine form and good free blooming habit. Won the Sweepstakes prize at the Seattle Rose Society's 1923 show. Popular.....	\$1.00	
LA FRANCE, H. T: Said to be the first Hybrid Tea rose in existence. If introduced now it would create a distinct sensation. Should not be given good soil or fertilizer nor pruned too much. Being so very double it opens poorly if well grown. This is the secret of growing La France. "Treat her rough" .Silvery pink, deliciously fragrant.....	75c	60c
L. F. CROZIER, H. T: Clear creamy yellow, large and well formed. Robust habit	\$1.50	
LAURENT CARLE, H. T: Rich velvety carmine. One of the most fragrant roses grown	75c	60c
LOUISE CATHERINE BRESLAU, Pernet: Shrimp pink, shaded coral and yellow, an unusual shade. Vigorous.....	\$1.00	
LILLIAN MOORE, H. T: A lovely shade of yellow, deeper in the center. Form very fine, best in half open stage. The sweepstakes rose at the Panama Pacific exposition	\$1.00	
LOS ANGELES, H. T: Flame pink, shaded coral and gold. Color is very similar to Lyons rose. Constitution of the plant is better than Lyons though the neck is sometimes weak when poorly grown	\$1.25	
MARY, COUNTESS OF ILCHESTER, H. T: Crimson carmine, large and full to the center	85c	
MARIE VAN HOUTTE, T: Light yellow, flushed rose pink....	50c	
MADAM LEON PAIN, H. T: Silvery pink, fawn center. A lovely color, especially rich in the autumn. Splendid form and constitution. A really very fine rose	75c	

Prices Include Free Delivery

MME. CECIL BRUNNER, Polyantha or baby rose: Light salmon pink, blooming in sprays of delightfully perfect buds	60c	
MRS. AARON WARD, H. T: Indian yellow toning to white. Fine foliage, free blooming and altogether a desirable yellow rose	85c	60c
MADAM BUTTERFLY, H. T: An improved Ophelia of richer color. One of the very best honey yellow roses in existence. Sometimes flushed pink. Popular	\$1.00	75c
MME. ABEL CHATENAY, H. T: Salmon pink. Large full and fragrant, with splendid stems for cutting. Especially adapted to our Puget Sound climate.....	75c	60c
MME. CAROLINE TESTOUT, H. T: Too well known to require description. Everybody's pink rose, succeeding under all conditions and most decorative for hedges.....	50c	40c
MAMAN COCHET, T: Long pointed buds on pendant stems. Color is carmine pink. An old favorite.....	60c	40c
MME. MELANIE SOUPERT, H. T: Honey yellow, very large and most satisfactory. Has probably won more prizes than any other rose grown. Vigorous in growth with splendid luxurious foliage	\$1.00	
MME. SEGOND WEBER, H. T: Very large rosy salmon pink. Form good and a good grower	75c	50c
MME. EDMOND ROSTAND, H. T: An improved Prince de Bulgarie. Buds longer and richer in color. Fine for exhibition and cutting	\$1.00	
MME. EDUARD HERRIOTT, Pernet: (Also known as "The Daily Mail") Color a superb coral brick red, shaded chrome yellow. Very attractive and popular in the garden. Unless grown well the neck is inclined to be somewhat weak, causing the bloom to droop.....	\$1.00	75c
MRS. A. R. WADDELL, H. T: Coppery yellow, suffused reddish salmon. Nice long buds. Vigorous plant.....	75c	
MRS. J. H. Welch, H. T: Just pink, sometimes punk. When well grown it is probably the largest pink rose of refinement. Very long petals	\$1.00	
MRS. JOHN LAING, H. P: One of the oldest H. P's. and still grown extensively. Soft pink, fragrant and hardy.....	50c	
MME. MARCEL DELANEY, H. T: Soft Hyderangea pink shaded rose	85	
MISS WILMOTT, H. T: Soft sulphur cream, lovely form. A new Irish rose	\$1.25	\$1.00
MME. P. L. BAUDET, H. T: Carmine rose, flecked salmon yellow	\$1.00	75c
MME. COLETTE MARTINET, H. T: Beautiful golden yellow, fine buds. Resembles Sunburst in some respects.....	85c	
MME. ANTON MARI, T: A very vigorous free blooming pink rose with good form, clean good foliage. The shade of pink is difficult to describe. Not new but seldom met with at the shows. The first plants were imported by Mr. Sherbrooke twelve years ago. Sure to please, highly recommended	\$1.00	85c

All Orders of \$1.00 or Over Prepaid

MRS. HAROLD BROCKELBANK, H. T: Like Mme. Anton Mari, this variety was lost for several years but is so good that we purpose featuring it and increasing the stock. One of the finest exhibition roses as well as a good garden sort. The buds are perfection and the color very pleasing	\$1.00	
MRS. DAVID McKEE, H. T: A good companion to Perle von Godesberg which it resembles except in size. Very large. These two do not do well in all soils and localities but where one is poor the other is good. Color creamy yellow, very fine	\$1.00	
MRS. HERBERT STEVENS, T: A very long pointed white rose with delightful buds, not very double which insures its opening well. Very similar to White Killarney and must not be crowded or poorly grown or it will mildew....	\$1.00	
MME. CHARLES LUTAUD, H. T: Lovely long pointed buds of a rich coppery yellow. A good doer and should be extensively grown	\$1.00	
MRS. CHARLES LAMPLOUGH, H T: Soft yellow cream of great size and substance. Fragrant.	\$3.00	
MRS. WYMSS QUINN, Pernet: Worth growing for its foliage alone but it is a free blooming clear yellow rose of fine form and habit. Immensely popular	\$1.25	
MME. ALFRED CARRIER, Hybrid Noisette: Probably the most extensively grown and most satisfactory white climbing rose in cultivation	60c	50c
MARECHAL NIEL, Cl. T: Very large, deep yellow, well formed blooms. A splendid climber for moderate climate but not satisfactory in cold sections. Good plants are not easily found. We have some very fine stock on own-roots so if it should freeze down to the ground it will sprout again. Not satisfactory as a budded or grafted plant	\$1.00	80c
NELLIE PARKER, H. T: Creamy white flushed honey yellow. On the order of Ophelia but larger. Quite distinct.....	\$1.00	
OLD GOLD, H. T: Long pointed, classy buds on good stems. Color a lovely coppery pink shaded yellow. Only semi-double. Very beautiful.	\$1.00	
OPHELIA, H. T: One of the finest garden roses ever sent out. A lovely honey yellow shaded pink, fine form, free bloomer, good grower and fragrant	85c	60c
PAUL'S SCARLET CLIMBER, Hybrid China: Vivid scarlet blooms in profusion. A very brilliant decorative rose suitable for pillars and arches	\$1.00	75c
PERLE D'OR, Polyantha: Sometimes called the Yellow Cecil Brunner, which is really a very good description of this dainty little charmer	60c	50c
PERLE VON GODESBERG, H. T: A buttery yellow sport from the well known Kaiserine Augusta Victoria and a great favorite with us	75c	
PRINCE CAMILLE DE ROHAN, H. P: Sometimes called Black Prince as it is so very dark velvety red. It is vigorous in growth, fine in form and a good bloomer. The fragrance is great. Try this, it's good.....	75c	60c

All Orders of \$1.00 or Over Prepaid

PHARISAER, H. T: Not a new variety but one that is immensely popular. Has long pointed buds, quite double and of a good pink, shading to white.....	85c	
PRINCE DE BULGARIE, H. T: First blooms are salmon flesh shading to light yellow in centre. Later in summer the color deepens to a coppery orange center. Very fine for cutting and a splendid bloomer.....	75c	
QUEEN ALEXANDRA, Pernet: Face of petals deep vermilion with deep orange base. Reverse deeply shaded old gold. Free blooming, fragrant and of a very unique combination of colors. The stem is weak and we will try by selection to improve this.	\$3.00	
ROSE MARIE, H. T: Large pink, splendid form and one of the most satisfactory bloomers, every bud clean and of great substance. Better than Columbia for garden purposes	85c	
RED LETTER DAY, H. T: Some growers think this better than K of K. A velvety scarlet crimson almost single. Fine for garden decoration.....	60c	50c
REV. D'OR, Nois: The most satisfactory yellow climbing rose with large blooms. An old favorite	75c	60c
SHOWER OF GOLD, Wich: Has the grandest glossy foliage of any climber and produces its dainty little buds in clusters similar to Mme. Cecil Brunner which it resembles except in color. You will be more than delighted with this. Suitable for porch, trellis, arch or wall	\$1.00	
SILVER MOON, Wich: Opens creamy yellow but is in reality a white climber of tremendous vigor. The blooms are more or less borne singly or small trusses, large glossy foliage	75c	
SUNBURST, H. T: A superb golden yellow toning to white. First blooms are creamy white, later in the summer deepening in deep yellow. Beautifully formed buds and altogether one of our most satisfactory yellow roses when grown on its own roots	\$1.00	75c
SOUVENIR DE STELLA GRAY, T: A highly colored sport from Lady Roberts. The color combinations are marvelous, fawn yellow, crimson coppery orange, varying with atmospheric and soil conditions. Try this for a thrill....	\$1.25	\$1.00
SNOW QUEEN, H. P: See Fran Karl Druscaki (syn.)		
TAUSENDESCHEON, China: A climbing or pillar rose of varying shades of pink, semi-double and very showy.....	60c	
TIP TOP (See Baby Doll.)		
ULRICH BRUNNER, H. P: One of the oldest and most satisfactory red roses. Often sold as American Beauty but it is far superior for outdoor growing in this climate. Vigorous and fragrant	50c	
UNA WALLACE, H. T: Soft cherry rose of fine form and substance. Long stems. Gold Medal N. R. S.....	\$3 00	
WHITE COCHET, T: Long pointed buds, white sometimes flushed with bright pink in the heat of summer. The habit of growth is spreading and the blooms rather pendant	75c	60c

Prices Include Free Delivery

WINNIE DAVIS, H. T: A lovely shade of clean pink, long pointed buds and a good grower. Very popular now and will retain its popularity for some time to come.....	60c
WM. ALLEN RICHARDSON, Nois: Popular climbing rose of unusual shade of yellow, yolk of egg. The form is not good usually but the display is quite decorative.....	60c
WM. F. DREER, H. T: Soft shell pink with golden yellow base. At times the whole flower is suffused yellow. A lovely color.	\$2.00
WM. R. SMITH, T: Soft rose pink with flesh tints. Very vigorous and free flowering. So good that it is sold under several names. "Jeanette Heller" "Charles Dingee" and "Maidensblush"	75c
W. C. GAUT, H. T: Vermillion red, shaded scarlet. A new rose that is coming to the front.....	\$1.00
YVONNE VACHEROT, H. T: Porcelain white, flushed delicate shell pink. Of exhibition form and good size.....	\$1.00

We have several of the newer varieties on trial and it is our intention to propagate only those showing special merit and individuality. We do not aim to offer "New" roses simply because they are new. Experience has shown the folly of loading up with "Novelties?" that later prove unsuitable for this section and become an encumbrance.

We print below a list of Garden Roses named in order of preference compiled from questionnaires sent out by the Seattle Rose Society last February.

This is a step in the right direction and highly commendable.

1. General McArthur.	16. Irish Elegance.
2. Mme. Eduard Herriot,
(Daily Mail)	17. Mrs. Aaron Ward.
3. Duchess of Wellington.	18. Kitchener of Khartoum.
4. Lady Hillingdon.	19. Hugh Dickson.
5. Ophelia.	20. Winnie Davis.
6. Golden Emblem.	21. Columbia.
7. Hoosier Beauty.	22. LaFrance.
8. Mme. Melanie Soupert.	23. Mrs. A. R. Waddell.
9. Mme. C. Testout.	24. Juliet.
10. Frau Karl Druschki.	25. Constance.
11. Los Angeles.	26. Ulrich Brunner.
12. Lady Pirrie.	27. Geo. Dickson.
13. Sunburst.	28. Mrs. Wemyss Quinn.
14. Joseph Hill.	29. Old Gold.
15. Mme. Abel Chatenay.	30. Dr. F. W. Van Fleet
	31. Prince de Bulgarie.

OWN ROOT OR BUDDED STOCK—WHICH? AND WHY?

When asked which is the better, no satisfactory reply can be made unless each variety is discussed individually.

Some varieties will not do well on their own roots. Lyons for instance and many others would be lost to our gardens if not budded on a stronger growing root stock.

On the other hand, several good varieties will not succeed long when budded on a foster stock. Sunburst at first was a failure on Manetti and was about to be discarded until it was learned that it should be grown on its own roots. Marechal Niel is a short lived plant when budded, canker-ing at the bud junction with the stock, so should be grown on its own roots.

We aim to grow such varieties as succeed well on their own roots, in nature's own way, ON THEIR OWN ROOTS, budding such varieties as flourish best on a suitable stock.

There are several stocks, Manetti. Multiflora. Rosa Canina, Ragged Robin, etc. Each is best—best for the variety that succeeds best on it.

We Pay the Postage

OPHELIA

MADAM ANTON MARI

The Different Sizes

All plants do not grow uniformly, some are vigorous, others short and stalky, so that price does not govern size in all cases, for instance a two year old plant of Caroline Testout, at 50 cents may be twice the size of some varieties listed at \$1.50.

FIRST SIZE. Plants will be strong two year old field-grown pruned back for convenience in shipping.

SECOND SIZE. Also strong thrifty field-grown plants, larger and much superior to pot-grown stock of highest grade. In digging we aim to preserve all the roots so that our second size plants usually have better roots than heavier stock carelessly dug. We highly recommend them, they are excellent value and sure to please.

TERMS. Cash with order please. No C. O. D. orders will be sent out unless at least 25 per cent cash has been received before shipping.

Cultural Directions

LOCATION. Roses should be given the best location possible. They must have sunshine half the day in a well ventilated and well drained location away from trees and other shrubs. In his book on Rose culture, Dean Hole says "No boughs may darken, no drip may saturate, no roots may rob the Rose."

SOIL. Give them the best you have, work it deeply and incorporate animal manure or commercial fertilizer in liberal quantities.

PLANTING. Make a hole to fit the roots and see that they are not twisted, bent or cramped or they will not be comfortable. If not comfortable they will not be happy. Allow the roots to go straight down in the most natural manner and sift pulverized soil between any that may cross each other. The plant should be set just a little deeper than when in the nursery row. Budded plants should be set with the union two inches or so below the surface. Firm the soil well about the roots in order to get immediate contact. Do not puddle them unless the soil is very dry.

MILDEW AND APHIDES are the most common pests. A solution of soluble sulphur diluted as directed on the can, adding a lump of Lifebuoy soap the size of a walnut, to two gallons of water, will combat both mildew and aphids once. Spray two or three days in succession, early in the morning before the sun is too hot and spray the ground about the base

All Orders of \$1.00 or Over Prepaid

of plants also. The finger and thumb method of squashing aphids if resorted to in time is very effective.

CULTIVATION. Roses appreciate much attention and will not flourish if neglected. They must have moisture but not wet feet. Frequent cultivation is much better than continual splashing with the garden hose. "More hoes and less hose" is a good slogan.

PRUNING. March is the best time to prune. Long canes that thrash about in the winds should be shortened in the fall or securely tied. Remove all but newest canes, shorten these to an eye pointing outwards. The idea is to keep the center of bush open for free circulation of air, thus diminishing mildew troubles. Removing side buds will increase size and quality of bloom.

Iris Germanica

(TALL BEARDED IRIS)

There are almost as many Iris "Fans" or fanciers as there are Rose enthusiasts. The Iris is fast coming into its own and increasing in populari-

We Pay the Postage

ty as each season brings into bloom the wonderfully beautiful new creations of modern hybridizers.

Some folks call them "Flags", they were once, now they are Irises for an Iris is a flag with a college education.

They do not have to be taken up and replanted every fall but remain for five or more years where planted, increasing in size and profusion of bloom each year until they have exhausted the soil and become overcrowded then they should be divided and reset in fresh loam.

Contrary to the usual belief, the bearded Iris requires a well drained location and will surely rot if given a soggy wet location.

Planting should be done in August or any month thereafter until April first, while the soil is in condition. In planting early we are assured of bloom the following season, planted late the plants may flourish satisfactorily but little bloom can be expected the first season.

Plant in well prepared soil in which a handful of ground limestone has been mixed but with no fresh manure near the roots. The roots straight down with the rhizomes not more than two inches below the surface, they seem to require a sun baking after flowering.

While budding and blooming they require plenty of moisture and shallow cultivation, after which let them dry out.

List of Varieties

The figures before each name, indicate their standard of perfection as rated by a voting contest conducted by the National Iris Society recently. Some of the ratings are not satisfactory for this Puget Sound climate as some of those with a low rating are much better here than in the East where the contest was conducted and would score considerably higher here.

We aim to discard several varieties each season as new and better sorts are obtained, in order to keep our list a "selection" rather than a "collection."

83	ARCHEVEQUE. Deep velvety purple, falls rich violet.....	60c
74	AUREA. A lovely clear yellow throughout. Deserves a much higher rating here.	30c
94	AMBASSADEUR. Standards are a smoky purplish bronze, the falls a rich velvety maroon with bronze throat and yellow orange beard. The substance and stems are specially good and satisfactory.....	\$7.50
89	ALCAZAR. Light bluish violet, falls deep purple with bronze veined throat. A very striking variety.....	50c
	ALBICANS. Purest milk white throughout, of large size and heavy substance. The loveliest pure white we know. We do not know its official rating but would rate it close to perfection.....	25c
78	AMAS. Also known as Macrantha. A rich blue of giant proportions shaded violet in the falls.....	30c
94	BALLERINE. Light violet blue, falls deeper. Large and very fragrant	\$5.00
75	CAPRICE. Rosy reddish shade, deeper in the falls. Deliciously fragrant	30c
89	CATERINA. Very large bluish lavender, quite tall and fragrant....	35c
87	CRUSADER. The noblest clear blue in the collection. Tall and striking, orange beard	\$5.00
80	DALILA. Flesh-white, falls reddish purple, yellow beard.....	\$3.00
	DOROTHEA. Mauve, deeper in center, falls soft blue. Opens flat like a Japanese Iris	20c

Prices Include Free Delivery

74	DR. BERNICE. Rich coppery bronze, falls velvety crimson. A handsome flower	25c
78	ELDORADO. Light golden bronze shaded heliotrope, falls bright violet-purple. A gorgeous combination. Bloom stalks sometimes fall with the weight of the flowers.....	50c
76	FLORENTINA ALBA. White faintly flushed bluish lavender. An old variety and very lovely	20c
	GAJUS. Straw yellow, falls wine red edged yellow. Fine for landscape work	20c
	GRACCHUS. Shades of yellow and crimson, falls reddish purple....	20c
73	HER MAJESTY. Rose pink shading darker, with considerable veining in the falls	30c

Japanese Irises

(IRIS KAEMPHERI)

Cultural directions similar to Iris Germanica EXCEPT that no lime should be used. They will also thrive in damp places but not where water

All Orders of \$1.00 or Over Prepaid

habitually stands. They should not be disturbed until late in September and may be planted until April, the earlier the better for immediate effect.

Most varieties have difficult unpronounceable names and for this reason we are offering a few of the best, under number.

No. 3 A glorious large glistening white with deep yellow throat. Two rows of petals. Irresistable	35c
No. 7 Similar to the above but single, only one row of petals.....	25c
No. 10 Very large rich reddish velvety purple. Double.....	35c
No. 18 Violet purple speckled and streaked blue. Large and double.....	35c
No. 19 Very light purplish blue, shaded tyrian blue, double.....	35c
No. 21 Grayish lavender blue, very lovely and attractive.....	35c
MIXED, ALL COLORS,	15c

We have several other varieties in limited supply and will increase our stock before offering. The above list represents the very finest of their respective colors and will be sure to please.

PSEUDO ACORIS. (Species) Water Iris. Grows luxuriously in water courses and in low wet places. The pure yellow flowers are not large but very attractive 25c

IRISES "SURPRISE COLLECTION."

We have several hundred roots from which the labels have been lost in handling. Also a number of very fine varieties which we are unable to identify and offer under name. All are beautiful, some worth many times the price we have placed on them, 15c each, \$1.40 per dozen.

The Modern Gladiolus

Although specializing in Roses, Irises and Peonies also, we consider the Modern Gladiolus the most wonderful flower of them all, succeeding and repaying more for the investment of money, care and devotion than any flower in existence. As many as one hundred perfect blossoms have been produced by one large bulb in a single season covering a blooming period of remarkable duration.

Hybridists have so assisted nature in the improvement of this glorious flower that it now embraces a remarkable range of gorgeous coloring and types little dreamed of in Grandmothers garden back home.

Cut when the first flower opens and brought in the house, a spike will keep fresh and lovely over a week if fresh water is given and a short piece of the stem is removed daily as well as the faded flowers.

Their lack of perfume is an advantage for the sick room overcoming the necessity of having to remove them at the caprice of the patient as is often necessary with flowers with a heavy perfume.

By the process of selection and elimination, we have worked up a splendid stock of fine high crowned bulbs or coims which we want you to share with us. Their virility and beauty will captivate you and the prices are so reasonable that liberal plantings may be indulged in at a small outlay.

YOUELL'S FAVORITE. Rosy lavender pink, beautifully ruf- fled	15c	
BROOKWOOD'S GLORIOUS MIXTURE, 60c per dozen—\$3.50 per 100		

The special mixture of unlabeled varieties sent out in previous years, has made many enthusiasts and this season's mixture has been further "sweetened" by the addition of many other choice named sorts as well as some very beautiful seedlings of Kundred and Diener. We are testing many of Mr. Jensen's wonderful creations and some of these have become mixed in handling and digging so are included in the "Glorious Mixture".

Having tried many mixtures from several growers at various times, we are positive that no better high class mixture is being sent out by any other grower at any price.

Try a few of these. You'll get a thrill out of watching them open and if you are not already a "Glad Fan" this mixture is calculated to make you one.

All Prices Include Free Delivery

We pay the Parcel Post on all orders of \$1.00 or over.

Price of one dozen bulbs will be ten times the single rate. This applies only when 12 of the same variety are wanted. Six at dozen rates.

Price per 100 will be quoted on request.

Bulblets and planting stock can be furnished in most varieties listed. Prices on application.

GIFTS--Say it With Flowers.

Do you realize that Plants and Bulbs make ideal gifts? In complimenting flower growers nothing pleases them more than a modest collection of choice plants or bulbs, as they flourish, bloom and increase you will be pleasantly remembered. Let us solve that; "What shall I get them?" problem, and "Say it with flowers."

All Orders of \$1.00 or Over Prepaid

EVELYN KIRTLAND

Cultural Directions

Plant April 1st to June 1st for best results, in trenches four to six inches deep in well prepared soil, shallow if soil is of heavy nature and deeper in sandy loam.

Any good commercial fertilizer or animal manure well incorporated with the soil but not in direct contact with the bulb, will increase the size, coloring and beauty of the flowers.

Cover lightly at first and fill trench as growth progresses.

They should not lack moisture and will respond to frequent cultivation.

Late in October or when foliage shows signs of ripening, dig and cut tops off close to the bulb. Dry in the sun or wind and do not store away until dry or they will mould and spoil.

The old exhausted bulb with roots and bulblets may be removed when most convenient, planting the bulblets in drills like peas if desired to increase stock. Store in frost proof cellar where neither too dry or too damp.

Sizes

Most growers consider everything an inch or over in diameter, a bulb, or corm that will present a good satisfactory blooming spike 70 to 90 days after planting.

We are quoting two sizes: First size will be about 1 1-2 inches, Second size about one inch or better.

Some varieties do not make large bulbs and first size in some varieties are no larger than second or thirds in more vigorous growers. All will bloom first season with fair treatment.

All stock is guaranteed to be true to name and we will replace such as are not

All Orders of \$1.00 or Over Prepaid

true to label or refund the price paid for same but will not be responsible for results obtained beyond this.

Mixtures and errors very seldom occur but if they do we hope you will be charitable enough to consider them as such and give us the opportunity of adjusting.

PLANTING STOCK AND BULBETS of most of the varieties listed can be supplied if ordered early. We do not issue a wholesale list or quote prices on same in this catalogue, but will be pleased to make quotations on application. Please submit your list of requirements before the spring rush.

PEONIES

We have growing in our fields, one of the most select list of this popular flower to be found in the West. It is not our ambition to have the largest number of varieties, which constitutes a collection, but rather a select few of the World's finest. There are probably two thousand varieties in commerce which means many that are very similar.

We purpose keeping our list down to not more than 100 of those rated highest in the National Peony Society symposium, which rating represents the percentage of votes each variety received in a voting contest conducted by experts in Peony culture.

Probably next season we will list what varieties we have in surplus, in the meantime we are increasing our stock and have no plants to offer this season.

Our trial grounds are filled with interesting subjects, every day brings fresh surprises so that there is always something to interest flower enthusiasts at Brookwood during the growing season. Come and enjoy these with us. Come often.

Should you receive more than one copy of this catalogue, the other is intended for your neighbor or flower loving friend. We will appreciate your passing it along.

During the past season we won first prizes for:

Best display of Gladioli.

Best basket of Gladioli,

at Western Washington Fair at Puyallup, Wash.

Also Sweepstakes prize for best spike of Gladiolus in the Fall Flower show at Seattle.

BROOKWOOD GARDENS, INC.,
KIRKLAND, WASHINGTON

KIRKLAND PUBLISHING CO.

A garden is a lovesome thing, God wot!

Rose plot,

Fringed pool,

Ferned grot—

The veriest school

Of peace; and yet the fool

Contends that God is not—

Not God! in gardens; when the eve is cool?

Nay, but I have a sign;

'Tis very sure God walks in mine.

—*Thomas Edward Brown*
