O. P. Conklin:

Dear Sir:—The seed bought of you last spring all came up fine and I had splendid results. The reason I ordered your seed was that I had joined a garden club and I thought I would buy where I could get the most for my money, so I ordered your seed. Here I am sending you a picture of myself and one of our 2-year-old colts. I am yours respectfully, Miss Blanche Dorothy.

Users of Sure Hatch Incubators

Are Successful Poultry Raisers

They are successful because they use a first class incubator, one that hatches the chicks, and will do the hatching in cold winter weather as well as the early spring. Double walls with dead air space make it easy to heat. Good, strong, hot-water heating system made from pure lake copper. Automatic heat regulation. Roomy nursery with chick tray supplied with every convenience for easy operation. Complete instruction book sent free with machine. Also a free copy of Uncle Sam Poultry Book goes with each incubator. This book contains a lot of valuable information about poultry raising.

Write for incubator book and prices and send all inquiries to me, O. P. CONKLIN, THE SEED MAN, Fremont, Nebraska.

Every Incubator User Should Have a

SURE HATCH COLONY BROODER

When you invest your money in an incubator and eggs and then add three weeks' time bringing off a brood of chicks, you should be well provided with means to raise them. No other device is so convenient, nor will raise as many strong and healthy chicks, as the Sure Hatch Colony Brooder.

This brooder has two principal parts—a stove and a hover. The stove is cast iron and burns nut coal, coke or briquettes. It is all open under the hover, which gives plenty of fresh air, and is free from any danger of chicks smothering by piling up on each other, or dying from fumes. The chicks get all the fresh air needed for their best growth.

Automatic regulation of heat. Brooder very simple and easy to operate. Complete directions sent. Made in two sizes only.

No. 5 cares for any number of chicks up to 500, \$19.50.

No. 10. Cares for any number of chicks up to 1,000, \$24.50.

PROGRESSIVE EVERBEARING STRAWBERRIES

You can have strawberries all summer now. The new everbearing variety are just as easy to grow as the common strawberry, yield the same way, in June, and keep on bearing all summer. They are the only strawberry that will give you fruit the first season. They need no special care. Progressive is the best variety of them. We have the true Everbearing variety, healthy plants, grown on our own grounds, guaranteed true to name and to succeed with ordinary care. Send your order now and we will send you the plants by parcel post at the proper time for planting.

Price on everbearing strawberries—50 for \$1.00; 100 for \$2.00, postpaid.

LADIES.

Beauty is your fortune. Send five 2-cent stamps for our complexion Beautifier Formula.

EVERBLOOMING BUTTERFLY BUSH.

This is one of the most valuable and beautiful new plants introduced for years. It was recently discovered in Western China, and thrives in all parts of the United States. It is a hardy perennial, blooming practically all summer. It blooms the first summer from small plants, continuing even after frost. Its hardiness, ease of growth, beautiful color and piquant fragrance make it popular everywhere. It is fine as a specimen plant, as a hedge, or as a background, but should not be planted in sod or extreme shade. It gets its name from the fact that it is very attractive to butterflies and they come from everywhere to feast on its nectar.

Price on Butterfly Bush, each post-paid, 60c.

PLEASE, MISTER, QUIT YOUR SWEARING.

Can't you get the stove pipe up? Swearing won't help it! A pinch of "Sooto Dust" placed on the fire would have cleaned the stove, pipe, chimney and all, without taking down the pipe. Make it yourself from simple ingredients, and never take it down again to clean it! Will send the formula for 50c, guarantee it to be perfectly harmless and effective. Money back if not as represented. You can make money with this formula.

GREAT WONDER VINE

Great Wonders Have Been Found

But I have found the Greatest Wonder in PORCH and WINDOW-SHADE VINE. A hardy Plant grows from Seed. I found this Vine in the heart of the OZARK MOUNTAINS, on a little farm which I own, It is the best shade I have found, with a heavy foliage, and grows to a great length. This Vine is like many other things from the Ozarks--it is one of the Great Wonders of the World. Late in the Fall it bears seed in a rough, round white ball, which makes the Vine a wonder to look at. And don't fail to send for some of this Seed; SUPPLY IS SHORT.

A LETTER FROM THE BOSS.

Fremont, Neb., Nov. 29, 1919.

To all my Friends and Customers:

Well, I had a hard job to write up this book, but I have tried to tell you the facts about the whole thing. and, if I had more space, I would have told you a lot more. At the same time, I suppose I have said enough, so I will ring off and give you a chance to talk, as I hope to hear from you soon. Whether you send me an order or not, write to me anyway. And I thank you all for your orders in the past and in the time to come. And oblige,

O. P. CONKLIN,

The Seed Man.
