POT-GROWN STRAWBERRY PLANTS

All our Strawberries are pot-grown plants

These plants are ready for immediate shipment. The ease with which our pot plants can be grown should be an incentive for everyone with a little garden space to grow Strawberries.

Strawberry blossoms are either "perfect" or "imperfect." It is necessary to plant "perfect" varieties near "imperfect" varieties, in the proportion of one to four; that is, one row of perfect flowering varieties to four rows of imperfect flowering varieties.

Plants should be set 10 inches apart in the rows, and the rows 18 to 24 inches apart.

General List of Strawberry Plants

Those marked "Per." are perfect flowering; those marked "Imp." are imperfect flowering

BIG JOE. Per. Light crimson in color, unusually large and of fine quality. Very prolific, second early.

CAMPBELL'S EARLY. Per. Very productive of medium to large berries. Early.

CHESAPEAKE. Per. A fine-flavored, dark red Strawberry.

DR. BURRILL. Per. Early. Fruit deep glossy red, while flesh is solid and rich.

EARLY JERSEY GIANT. Per. Vigorous grower, extra large berries. Early.

EARLY OZARK. Per. Very early, short seasoned, large, firm berries.

GANDY. Per. Late. One of the best.

GLEN MARY. Per. Late, large size.

GOLD MINE. Per. Very fine variety, berries fine shape and color.

HAVERLAND. Imp. Second early. A good producer.

KLONDYKE. Per. Midseason. Berries uniform and shapely. Heavy cropper.

LUPTON'S LATE. Per. Late. Good, healthy grower. One of the firmest berries grown.

MARSHALL. Per. Early. Fine, large bright red berries, standard variety.

McALPIN. Per. Vigorous grower, medium to large berries, brilliant scarlet.

MAGIC GEM. Per. Midseason to late. Very large, beautifully formed berries, delicious flavor.

PARSONS' BEAUTY. Per. Midseason. Berries medium to large, firm and dark red in color.

PAUL JONES. Imp. Splendid flavor, fine fruiting, fine red berries.

PREMIER. Per. Extra early. Berries good size and excellent quality.

SAMPLE. Imp. Midseason. Fine color, very productive.

SEN. DUNLAP. Per. Midseason. A splendid keeper.

Ready for immediate shipment, out of 2½-inch pots.
75c. for 10, \$6.00 per 100.

Everbearing Strawberries

PROGRESSIVE. For a small garden where every foot of space must yield, plant Everbearing berries. This variety has medium-sized fruit produced in clusters. Has sweet marked flavor.

SUPERB. The fruit of this variety is medium to large, and very attractive. The berries are a glossy, dark red, aromatic and of excellent quality.

\$1.00 for 10, \$7.50 per 100.
