PRICE LIST

MEASURE SEED PRICES BY QUALITY

You cannot with justice compare Funk's prices with prices of seed offered by a neighbor or inferior seed from any source because the two products are not alike.

We have thousands of acres in our farms to carry on breeding and test work. We have the most modern equipment obtainable to reclean, test and put in condition for market.

Buying cheap seed is bad business. A few cents per bushel makes a whale of a difference in the quality of the seed. This is why Funk's seeds in reality are lower in price.

CASH DEPOSIT

Our special deposit terms have evidently been an accommodation to our customers as so many have taken advantage of them each year.

It protects their requirements in seed and obviates any trouble later when seeding season draws near with its usual seed shortage.

We will accept your order for future shipment if accompanied by a remittance of at least 25% of its entire value.

Balance to be paid when seed is ordered forward. All seed so ordered will be immediately reserved and will be held until not later than June 1.
