TEXAS

ELBERTA PEACH

EVERYBODY knows this big, yellow and red Peach with its firm, juicy flesh because it's the leading market Peach of the country. Grown in the home orchard and picked just before eating or canning, it reaches the family clear of disease germs and free from the wasteful and unsightly bruises fruit gets in shipping.

The Biggest Seed and Nursery Company in the Southwest, Headed by Mike H. Thomas

THE story of the Empire Seed & Nursery Company is simple. It's a regular seed and nursery institution, but yet it is entirely different when considered from the standpoint of service of sales it renders, which is brought right into the home of the purchaser by his friends and acquaintances. This service will extend into every town or hamlet of the Southwest through its representatives.

The company's headquarters are in Dallas. Nearly all shipments are made from Dallas. Its seeds and nursery connections extend into several places and states. Mike H. Thomas, the President, and M. E. McCaskey and O. W. Stewart as active Managers of the company, will give a service national in scope.

The new seed company will specialize in selling small seeds direct to the farmers, making shipments from warehouses in Dallas. For this reason the agents will be farmers, instead of merchants, for garden seeds, plants, shrubs and flower seeds. The heavy seeds, such as potatoes, will be sold by the merchants.

The farmer is absolutely dependent on the honesty of the seed and nursery man for the quality of seed and nursery stock he buys. If he fails to receive good quality of stock his future income is gone. Every seed man ought to realize that the farmer's prosperity, his whole future, and his family depends on the quality of goods he puts in the ground, therefore we the Empire Seed & Nursery Company are very careful to get the best seed and nursery stock available for you.

We furnish the best Roses, Peach Trees, Plum, Apricot, Pecans, every kind of berries, and everything in Shrubbery. All kinds of seeds and plants.

M. E. McCaskey and O. W. Stewart, Vice-President, formerly connected with the McCaskey Company of Dallas, are actively in charge. Other officers are Fergus D. Thomas, Secretary-Treasurer, and D. S. Thomas, Director.

We guarantee our seeds insofar as we can, but it is not possible to always be sure of varieties and we can only sell seeds on the same guarantee as we buy them. We are not responsible for the crop.

Business Notices

READ BEFORE MAKING ORDER

1. **Shipping Season** extends from about November 15 to April 15.

2. **Guarantee.** We guarantee safe arrival, in good condition, of our stock, and beg to be notified if it is otherwise. Complaints, to receive attention, must be made on receipt of goods.

3. **True to Name.** Every tree and plant sent out we guarantee to be healthy and true to name. If any should prove not to be, we will return amount paid us for them, or furnish other trees. But it is agreed we shall not be liable to purchaser for any further claim or damages.

4. **Certificate of Inspection** with every shipment.

5. **We Pay Express in Texas on Orders for \$5.00 or over, and in the United States for \$10.00 or Over.** Customers thus will know exactly what their trees will cost, delivered. **Delivery to Your Express Office or Door** is our motto.

6. **Parcel Post.** Particular attention given to parcel post orders, for convenience of customers who can not receive express easily. Fairly large orders can be sent this way, and often cheaper than by express.

On orders under \$5.00, to be mailed, please add 5 cents postage for each dollar's worth.

7. **Our Shipping Facilities** are unexcelled. We have a large frost-proof packing house, 120x180 feet. Leading railroad and express companies.

8. **Explicit Directions** for marking and shipping orders should always be given. Give express and postoffice also.

9. **Terms cash**, unless otherwise agreed beforehand. We accept checks in payment.

10. **We Replace Trees That Die First Year at Half Price**, if customer has taken reasonable care of them.

11. **Selection of Varieties.** Unless particular varieties are wanted, it is a good idea to leave selection to us, as we know the needs of all different sections, but state whether fruit is wanted for home or market, what months of ripening, class of soil, etc. If we are out of a particular variety ordered, we will substitute another as good or better, unless requested not to do so.

12. **Ripening Dates** are given for the locality of Dallas. The same varieties will vary in time of ripening from a few days to two weeks or more, according to section of country and the season.

Elberta Peaches

Southern Peaches

THE peach is probably the most widely grown of all fruits, being produced over a wide variety of soils. No home should be without a few trees of this valuable fruit. In the Southwest peach trees grow and bear with but little cultivation almost anywhere they are set out. Nearly all classes and all varieties are adapted to some parts of the Southwest. Peach trees should be pruned yearly by removing dead branches to let in light and air. Keep the trees in good shape and you will have splendid returns. A little well rotted barnyard manure is good.

Prices on Peaches

	Each	Dozen	100
5 to 6 Feet.....	\$1.00	\$10.00	\$ 90.00
4 to 5 Feet.....	.75	7.50	65.00
3 to 4 Feet.....	.50	5.00	42.00
2 to 3 Feet.....	.35	3.50	30.00

Early Wheeler

The finest early peach, specially for North and Northwest Texas; large, with clear meat, overspread with red. May-June.

Greensboro

Large, good quality, bright red; flesh white and juicy; semi-cling. June 1st.

Mayflower

A very early season, white-fleshed peach, nearly covered with red. Tree is a strong grower and bears very young, often second or third season after planting. Thousands of Mayflower tree in Southwest prove

its popularity and adaptability. It is the earliest peach to ripen; freestone.

Mamie Ross

Large, white, shaded carmine; flesh white, juicy, of good quality; cling. June 1.

Carman

Apparently this variety is able to adapt itself to more types of soil and weather conditions than any other sort and is a general favorite in all the peach growing sections of the United States. Large, white, red cheek. Tree hardy and very prolific. Ripening date about July 10th. Cross of Elberta and Mamie Ross. Freestone.

May Flower Peaches

Minnie Stanford

A new variety in Texas; claimed to be the best Texas peach; clingstone. July.

Stinson

White, red cheeks; regular, one of best all-around late peaches; clingstone. October.

Governor Hogg

Large, white with blush; flesh white, tender, juicy, highly flavored; red at pit; semi-cling. June.

Indian Cling

Fruit large, dark brown with deep red veins, downy; flesh dark red, juicy and of rich flavor; an old standard sort; cling. August.

Chinese Cling

Well known, adapted to all the Central South. Very large, oblong; white tinted red; tender, juicy, good quality. July. Clingstone.

Elberta

The great peach of the Southwest and is believed by many growers to be the best all-around peach. Color lemon-yellow with blush on sunny side; flesh pale yellow, tender and juicy; freestone; tree vigorous; a good shipping peach. June and July.

Arp Beauty. "June Elberta"

This is probably the best early season yellow peach grown. Trees are healthy, vigorous and hardier in bud than the average peach, making it particularly desirable for planting. Fruit ripens from a month to six weeks earlier than Elberta, which it resembles. Try a few.

Arp Beauty

See page 4 for shipping instructions, how to order and terms.

Burbank Plums

Plums

THE plum does best on a rich, well drained soil. The trees should be planted 16 feet apart, and it is well to plant several varieties together, for they seem to produce larger crops in this way than where a single variety is planted alone.

Prices on Plums

	Each	Dozen	100
5 to 6 Feet.....	\$1.25	\$12.50	\$100.00
4 to 5 Feet.....	1.00	10.00	80.00
3 to 4 Feet.....	.75	7.50	60.00
2 to 3 Feet.....	.50	5.00	40.00

Six Weeks

One of the best productive plums grown; ripens early, of fine flavor, red in color; good to eat, fresh and fine for cooking or preserving; best all around plum for the South.

Golden Beauty

Of medium size, yellow, acid; hardy, very productive. Late.

Wickson

Probably the largest of the Japanese plum, if not the largest of any plum in cultivation. Tree very upright in growth. Quality good. One of the best known of Burbank's many plums.

Abundance Plums

Damson Plums

Red June

Red; flesh yellow, juicy, sweet; early; productive. Good for Texas wind.

Gonzales

Said to be a cross between a native plum and a Japan plum. Large, bright red, of delicious flavor; vigorous, hardy, productive.

America

Large, round, burnished coral and gold, of best quality; ripe in June; tree vigorous, hardy, productive. One of the best plums in cultivation.

Abundance

Medium to large, round pointed; subacid. Slight apricot flavor. Rich and good.

Excelsior

Remarkably strong grower, fruit medium to large size; reddish purple; flesh firm, yellowish. A most valuable Southern plum. A cross between the large Japanese varieties and native Southern plum, giving it large size and assurance of adaptability. Ripens in May.

Burbank

The best of all the Japan sorts of plums. Nearly globular, clear cherry red, and with a thin lilac bloom. The flesh is deep yellow color, very sweet with a peculiar and very agreeable flavor, free, vigorous with strong, upright shoots; large, broad leaves; commences to bear usually at two years. It blooms late and consequently more liable to escape the late spring frosts.

Damson

A medium sized, dark purple variety which is very productive; esteemed for preserving and good for eating out of hand. Ripens late August to early September.

On nursery orders less than \$5 by parcel post add 5c per dollar for postage

Grapes

THE grape is probably one of the first fruits used and brought into cultivation, yet we are continually adding finer varieties yearly. In its flavor the grape is hardly surpassed by any other fruit in delicacy and richness. Any person having a plot of ground can find room for six or a dozen vines. Work the ground deep and plant a little deeper than they were in the nursery. Make rows 8 feet apart 6 to 8 feet in rows. Care should be taken to prune thoroughly each year; no more bearing cane should be left than the roots can sustain in a vigorous growth of new shoots. Commercially no fruit shows greater returns on the investment. Be sure to order at least 2 grape vines for your yard.

Prices Any Variety Grapes

	Each	Dozen	100
No. 1 Extra Quality.....	\$0.50	\$ 5.00	\$ 40.00
No. 2 Quality.....	.35	3.50	28.00

Elvira

White; bunch medium, shouldered and very compact; berry medium, pale green with yellow shade, sweet, tender and free from foxiness.

Brighton

A cross between the Concord and the Diana Hamburg. Bunches large, berries of medium size; flesh sweet, tender and of the highest quality; ripens early. Red.

Niagara

A magnificent white grape and very valuable for both garden and vineyard; a rank grower and very productive of beautiful bunches of the largest sizes; berries large, tough skin; quality good; ripens with Concord.

Concord

Bunches large, berries large, round, skin thick and covered with bloom; flesh juicy, sweet. Very hardy, vigorous and productive; at present the most popular of all our native sorts.

Moore's Early

A large, black grape of the Concord type, the entire crop ripening before the Concord; bunch medium; berries large with blue bloom; flesh pulpy, of medium quality. Vine hardy, moderately productive, better as it attains age. Planted extensively as a market sort.

Campbell's Early

The king of grapes. The best all-around grape on the market. A very strong, hardy vine, with perfect, self-fertilizing blossoms, always setting its fruit well and bearing abundantly. Clusters very large, berries

round and of great size, very sweet and rich. The seeds separate easily from the pulp. Ripens first of August, but can be kept until December in cold storage; color black, with a light purple bloom.

Niagara

Branch of Winesaps

Apples

IN many sections of the Southwest the apple is proving very valuable and where it will succeed no other fruit will yield any heavier returns. Many varieties are well adapted to grow in most sections of East, North and Central Texas.

Prices on Apples

Prices, except on Delicious, which is \$1.00.

	Each	Dozen	100
5 to 6 Feet.....	\$1.00	\$10.00	\$ 90.00
4 to 5 Feet.....	.75	7.50	65.00
3 to 4 Feet.....	.50	5.00	42.00
2 to 3 Feet.....	.35	3.50	30.00

Delicious

This variety is one of the most popular, if not the most popular dessert or eating apple on the market. It is fully as good as its name implies—it is truly "Delicious." It is medium to large, oblong and the sheepnose

Delicious

type. Color light green, shaded, splashed and mottled with light and dark crimson. It is fine grained, juicy, mild. Is fully as hardy as Winesap and should be given a place in every home orchard in the South.

Winesap

Medium, red, round; flesh yellow, rich, firm, crisp, highly flavored, hardy, prolific; valuable.

Ben Davis

Extra large, oblong, pink and red striped; flesh white, juicy, subacid; tree strong, vigorous, prolific. A leading commercial apple.

Jonathan

Of medium size; bright red, round; flesh tender, juicy, rich; a slender spreading grower, with ash colored bark; very prolific; valuable.

Transcendent Crab

Tree strong grower, making a large and beautiful tree. An early and abundant bearer. Perhaps the most valuable of this class. Fruit large, round, yellow, shaded with red. Valuable for preserving and cooking and said to be one of the best for cider. September.

Kieffer

Pears

SINCE the new Hardy and Prolific varieties have been introduced, pears are growing in popularity. The pear has habits and requirements similar to the apple. Trees require rich soil underlaid with deep, moist clay. Fruit should be gathered before it is fully ripe and stored in a cool, dark place to ripen properly.

Prices on Pears			
	Each	Dozen	100
5 to 6 Feet.....	\$1.25	\$12.50	\$100.00
4 to 5 Feet.....	1.00	10.00	80.00
3 to 4 Feet.....	.75	7.50	60.00
2 to 3 Feet.....	.50	5.00	40.00

Duchess

Very large, yellow; flesh white, of rich flavor, juicy, excellent; hardy, vigorous, prolific; very valuable.

Garber

Large, of good quality; very vigorous, hardy and prolific; is growing very popular.

Kieffer

Large, yellow, red cheek, oval; flesh white and juicy; valuable for preserves, also for eating when ripening in boxes; tree large, productive and hardy. Most valuable of all pears for Southwest.

Quinces

Owing to the negligence of the cultivator this valuable fruit is seldom seen in perfection, being mostly allowed to grow without the least attention or cultivation. The quince requires good, deep soil, which should be clean and mellow. It does not need severe pruning like other varieties of fruit.

Champion

Noticeable for its early bearing and superb appearance. Very large, mostly oval; deep yellow, excellent quality. Tree very prolific and vigorous. A good keeper. Each, \$1.00; dozen, \$10.00.

On nursery orders less than \$5 by parcel post add 5c per dollar for postage

Black Tartarian Cherry

Prices on Cherries and Apricots

	Each	Dozen	100
4 to 5 Feet.....	\$1.00	\$10.00	\$ 80.00
3 to 4 Feet.....	.75	7.50	60.00
2 to 3 Feet.....	.50	5.00	40.00

Mulberries

A well known fruit among all growers of the Southwest. It is much valued for both its fruit and shade. Thrives in any location.

Mulberries (Hick's Everbearing)

	Each	Dozen	100
Very Large	\$1.00	\$10.00	\$80.00
Large	.75	7.50	60.00
Medium	.50	5.00	40.00

Hick's Everbearing

Fine grower and profuse bearer, ripening through June, July and August.

On nursery orders less than \$5 by parcel post add 5c per dollar for postage

Cherries

Cherries have proven profitable over certain sections of the Southwest. They seem to thrive best in dry yards or other uncultivated grounds.

Black Tartarian

Sweet, black, juicy, rich and of excellent flavor. Very profitable. May.

Early Richmond

Medium size, dark red, juicy, rich acid flavor, hardy and reliable. One of the best early sour cherries. May.

Compass Cherry

A cross between a plum and cherry. Try some.

Apricots

A beautiful and delicious fruit; a close relative to the plum and peach, combining the qualities of both. The fruit ripens after the early cherries and just before plums and peaches. Tree is as hardy as the peach and requires about the same cultivation.

Early May

Medium to small, light orange, yellow, flecked with red; flesh tender, juicy, sweet and good quality; hardy; productive. May.

Early May Apricot

Pecans

PECANS are the richest and most popular of all nuts. Native, hardy, vigorous and productive. The demand is increasing very rapidly and the process of propagation has been so difficult that the supply has not been equal. Grafted pecan trees give most reliably good results. It makes a most satisfactory shade and nut tree, and lives over 100 years.

Prices on Grafted Pecans (Extra Quality)

	Each	Dozen	100
5 to 6 Feet.....	\$3.75	\$35.00	\$280.00
4 to 5 Feet.....	3.50	30.00	240.00
3 to 4 Feet.....	2.00	20.00	160.00
2 to 3 Feet.....	1.50	15.00	120.00

Delmas

Strong healthy grower, prolific and early bearer; large nut with shell of medium thickness.

Frotscher

Tree vigorous; nut large, well formed, uniform size, thin shell; kernel plump and easily separated from shell.

Money Maker

A hardy grower, prolific; nut medium to large, well formed; kernel of fine flavor and good quality.

Schley

Tree a good grower; nut medium to large, thin shell; plump full kernel. Considered by some the standard of perfection among named varieties.

Stuart

Upright grower, prolific; nut large, medium thin shell; kernel plump and of good quality. One of the best named varieties.

Success

Good grower; nut large, thin shell; kernel very full and plump, and of fine flavor.

Van Deman

Tree vigorous grower; nut large, thin shell, well filled with kernel of good quality.

Van Deman

Stuart

Blackberries and Dewberries

THE blackberry is native to the soil and will grow anywhere. It is one of the most reliable, wholesome and valuable of all fruits. Planting early and late varieties a continuous supply can be enjoyed for 6 or 8 weeks each season.

	PRICES		
	25	100	1000
Austin	\$2.00	\$ 4.50	\$ 30.00
McDonald	2.00	4.50	30.00
Dallas	2.00	4.50	30.00

Dallas

Large, round, of good quality; vigorous, hardy, prolific, extensive. Has proved to be one of the most satisfactory varieties to grow.

Austin Dewberry

Very large, subacid; hardy, vigorous, very productive. Plant is an erect, strong grower rather than a trailer.

McDonald

Large, tender, juicy, of best quality. Earliest, hardiest, most vigorous and most pro-

ductive of all berries here. This is a new berry, a cross between the blackberry and dewberry. It is incomparably more productive than any berry fruited here, one plant producing more fruit than a half dozen of any other of the older sorts. Twenty quarts of fruit have been gathered from a single plant. Among its admirable qualities is its earliness; the fruit is ripe one week earlier than the Austin or any other good blackberry. Planters here, who have thoroughly tried this berry, would not exchange it for any other.

Try the plants we offer.

Strawberries

STRAWBERRIES will thrive in nearly all soils and are of easy culture. It is easily placed in the front rank among small fruits and owing to the wide range in which it can be grown there is always a good market for several weeks of the year. No fruit has as many uses for the table or for canning purposes or preserving. Everbearing strawberries will thrive in the same soil as the June bearer but are much hardier in blossm. If blossoms are killed by frost the everbearers will produce another set in a short time.

Prices on Strawberries

Klondike Strawberries or Any Variety.				
25	100	200	500	1000
\$1.00	2.25	3.00	5.50	8.00

Klondike

Large, early, best berry for the South in coast country.

Excelsior

Hardy, vigorous, valuable. Staminate or perfect flowering.

Excelsior Strawberry

Japanese Persimmons

A native of the Southern states. Tree reaches height of 20 to 30 feet. Fruit not large and must be fully ripe to become edible. Will thrive in the poorest soil. Under the influence of frost the fruit becomes sweet, highly flavored, rich and racy. The tree as well as the fruit is very ornamental. Each, \$1.00; dozen, \$10.00.

Brown Turkey

Figs

The fig is half hardy and luxuriant in growth. Possibilities of this industry in the South and Southwestern portions of Texas cannot be overestimated. Grown commercially they are a profitable source of revenue. Delicious for preserves and home use.

Prices on Figs

	Each	Dozen	100
No. 1 Quality.....	\$0.75	\$7.50	\$60.00
No. 2 Quality.....	.50	5.00	40.00

Brown Turkey

Large, very hardy, reliable; color brownish purple; fruit very sweet. Begins ripening last of June. Best buy.

Brunswick

Large purplish black shading to red near stem. Flesh rich, firm and of good quality. Fruits early and continuous throughout the season. Very productive.

Evergreens

HOME builders of the Southwest have not realized the importance of properly planting evergreens. Every landscape should contain a few evergreen trees and shrubs and give the effect of life in the dead of winter. On some types of houses an entire foundation of evergreens is most attractive; locate them properly, and give them the right kind of treatment, and you will be delighted with the results.

Write for prices where not mentioned.

Arbor Vitae, Chinese

Tall growing, forming a pyramidal shape. Foliage dark green, compact; excellent for group plantings with other evergreens. 1 foot, 75c; 2 feet, \$1.50; 3 feet, \$2.50; 4 feet, \$3.25.

Arbor Vitae, Globe

A dwarf evergreen of naturally round shape, with dense light green foliage. Small, \$2.00; large, \$2.50.

Arbor Vitae, Rosedale

Bluish grey, feathery foliage, giving a soft effect. Fine to use in connection with either shrub or evergreen planting.

Arbor Vitae, Chinese Golden

Of upright and compact habit, and of a rich golden color. While of free growth, it rarely attains great height.

Arbor Vitae, Chinese

Rather tall growing, spreading habit. Of free growth. Foliage pale green. Good for hedges or may be sheared into specimen plants.

Arbor Vitae, Berckman's Golden

An attractive variety of dwarf habit with exceedingly compact, well rounded heads tipped with golden color.

Arbor Vitae, American

The favorite evergreen everywhere in United States.

Chinese Arbor Vitae

the South; resembles the blue spruce of foliage; pyramidal in growth, attains height of 50 to 100 feet.

Cedar, Red

Foliage dark green, seeds in silvery blue pods. Gives best effect when allowed to branch from ground. Well known Southern cedar.

2 to 3 Feet, \$1.50; 3 to 4 Feet, \$2.00; 4 to 5 Feet, \$3.00

Cypress, Bald

Very picturesque, tall slender tree tapering from base to tip; feathery foliage, good in mixed background for sky line. The cypress of Southern swamps.

Cypress, Italian

An excellent tall growing evergreen used attractively at entrances, corners, along porch columns and as a high point in evergreen groups. Tall, erect branches. Dark green color.

Cypress, Horizontal

This variety similar to the Italian cypress with the branches growing horizontal forming a cone shaped tree of extreme beauty; an excellent tree for individual specimens.

Black Hills Spruce

Irish Juniper

Juniper, Canadensis

An ever green of unusual form having no main stem, branches in all directions with long, heavily foliated branches of graceful curves; grows to about two feet in height and spreads to six feet in maturity.

Juniper, Irish

Slender, tall growing; foliage a bluish green; good evergreen for planting in cemeteries or other places where a formal effect is desired.

Pine, Australian

Grows very rapidly attaining height of 25 to 30 feet; unexcelled for lawn planting and in groups for screens and borders.

Spruce, Black Hills

A beautiful tree with growing branches and fine yew-like foliage; perfectly hardy.

Privet Hedge

Used almost exclusively as hedge plant and is hardy and quite satisfactory; foliage dark green, almost evergreen.

Euonymus

Hardy ornamental plant with rich, handsome foliage; luxurious growth, naturally beautiful shape can be made any desired form by trimming; has glistening small round leaves and red berries.

Cedar Himalayan

The finest of coniferous evergreens for

Blackberry Thunbergii

Ornamental Shrubs

SHRUBBERY is invaluable for a great variety of ornamental plantings, most homes, whether in country, town or suburb can be much improved in appearance, and enhanced in value by a judicious planting of shrubbery. Shrubs are valuable for massing against foundation walls, along driveways, in the bends of walks, for screening unsightly buildings or other objects, in the corners of lawns and along boundary lines.

Althea, or Rose of Sharon

One of the hardiest shrubs grown; there is no plant that will give better results as single specimens or grouping; plants bloom from early summer to autumn; red, pink, white and purple. 50c, 75c and \$1.00 each.

Crape Myrtle

Favorite flowering shrub of the south; free flowering, producing bloom in great abundance throughout the entire summer; flowers are beautifully fringed and borne in large clumps; pink, white, crimson or purple. 50c, 75c and \$1.00 each.

Tamarix

Tall, graceful, with juniper-like foliage and a great profusion of delicate rose-purple flowers covering the entire surface. A handsome shrub at all seasons. 75c and \$1.00 each.

Weigelia

Elegant, with fine rose colored flowers, hardy, and blooms when quite small. One of the most popular and satisfactory shrubs. 50c and 75c each.

Barberry Thunbergii

A beautiful low spreading shrub with yellow flowers and thorns to the stems. Often used for hedges, as no animal will go through it and few over. 50c and 75c each.

Buddleia Variabilis

A shrub not so well known but which stands the heat and drought of summer remarkably well. A strong grower, often attaining a height of 6 to 8 feet. Foliage dark green and very heavy. Throughout the entire summer flowers of violet-purple with orange throat; very fragrant, are born in long plumes. 75c and \$1.00 each.

Jasmine

An evergreen climber with dark green pointed leaves; rapid growing; bearing great profusion of great yellow blossoms; in early spring very fragrant, will perfume the atmosphere for a great distance; very hardy and thrifty grower.

Lilac

One of the oldest yet most popular of shrubs; in fragrance and beauty this bush is unsurpassed and is very hardy; white, purple and other shades; blooms April and May.

Chaste Tree

A valuable small tree with sage-like foliage; especially attractive because of its pale lilac flowers which are produced in long spikes and which last a long time. Will grow where ordinary shrubs fail. 75c and \$1.00 each.

Deutzia

An upright, thrifty shrub, with a profusion of delicate beautiful white and pink flowers in spring. 50c and 75c each.

Spirea, Van Houttei

The well known bridal wreath, widely grown favorite with dense foliage. Flowers cover entire plant, making long, gracefully curving branches of snow-white blossoms. Blooms in early spring, prolonged season. Leaves persistent in fall, a desirable feature. The finest of Spirea and the standby for planting of flowering shrubs. Good among evergreen for contrast. Fill low places admirably and make excellent borders or informal hedges. Beautiful for garden specimens in large clumps.

Spirea, Anthony Waterer

Beautiful low growing bushy profuse blooming plant, color beautiful rose shade. 75c and \$1.00 each.

Spirea Bullardii

One of the best pink flowering shrubs, fast grower, profuse bloomer; fine for beds; grows 4 to 5 feet. 75c and \$1.00 each.

Clematis

One of the finest hardy climbing plants in cultivation; grows and thrives anywhere

Deutzia

and is a very rapid grower and profuse bloomer; its extreme hardiness, bright green foliage and delightfully fragrant flowers makes it very popular; flowers are pure white.

Pampas Grass

The finest of all ornamental grasses, beautiful light green foliage gracefully recurved; grows in large clumps 8 feet or more; in summer it sends up tall, silvery blooms which are very distinctive and beautiful in both form and color.

Spirea Van Houttel

Ornamental Shade Trees

THE many ways in which Deciduous Trees are used make them among the most important productions of the modern nursery. There is growing constantly a deeper appreciation of trees, and more people know them and love them than ever before in the history of the country. Greater attention than ever is being paid to the trees along the city's streets, and it is well recognized that shade and shelter trees around the farm home not only add to its beauty and comfort, but greatly increase the value of the property.

The trees we offer in the following list are all thrifty, vigorous specimens which have, by cultivation, been encouraged to grow great quantities of fibrous roots, so essential to successful transplanting.

Lombardy Poplar

This is a very conspicuous tree because of its tall, erect, spire-like form; it is used extensively in landscape work for screening undesirable views and for breaking monotonous outlines.

Sycamore

One of the best and most popular of all native trees; succeeds admirably over a very wide area; foliage exceedingly heavy and very desirable as a shade tree. Grows to a great height.

Box Elder

Popular, small deciduous native tree with profuse attractive blossoms; an excellent native tree of the maple family; a rapid grower.

Magnolia, Grandiflora

The broad shiny-leaved evergreen giant in the forest; immense white blossoms; well

known throughout the South; beautiful from small tree to maturity.

Chinese Tallow Tree

A beautiful shade tree and very desirable for streets; cleanest of deciduous trees; compact, immense head of small bright green leaves, attains height of 40 feet; remains beautifully fresh and green to late fall.

Cottonwood, Texas

Well known tree in the South, a rapid grower and has bright, glossy foliage.

Weeping Willow, Thurlow

This willow is not grafted nor budded; its nature is weeping; tree is vigorous, a fast grower, very hardy and very graceful; its branches are slender, leaves long, bright green with lighter shade of green on lower side.

American Beauty

Roses

R OSES are the most beautiful of flowers and are among the easiest to raise. We select our roses with great care and the following list will be found worthy and well suited to our climate. Our roses are strong, dormant plants grown outdoors, well rooted and in every way first class. They have, in most cases, already bloomed before being set out and we believe will give satisfaction and permanent success. They thrive best in a good, well drained clay soil where they can have plenty of sunlight. Make the ground rich with well rooted manure, and in spring severely prune all varieties except climbers.

Price List on Roses

	Each	½ Doz.	Doz.
Extra Srtong	\$1.00	\$ 5.50	\$ 10.00
No. 1 Strong	.60	3.50	7.00
No. 1	.50	2.75	5.00
Pot Roses	.25	2.00	4.00

Frau Karl Druschki

One of the purest white roses known, sometimes known as Snow Queen. Very large blooms with immense petals of splendid substance. Splendid foliage and blooms on good, strong, stiff stems. Upright, strong.

Jonkheer J L Mock

Blooms are of the largest size, highly perfumed. Color clear imperial pink. A gold medal winner.

Kaiserin Augusta Victoria

Pure white. Freest bloomer and best all-around rose. A general favorite. Small, upright.

Dean Hole

Intense salmon-pink. Long, pointed buds opening into mammoth blooms of splendid lasting qualities, low spreading growth.

Helen Gould

Beautiful rosy crimson roses of splendid form and texture. Long, pointed buds lasting well after cut. Beautiful foliage. Vigorous spreading growth.

Pink La France

The flowers are very large, double, delightfully fragrant, light silvery pink; blooms continuously throughout the season and stands first among the roses for our climate.

Helen Gould

Columbia

Large size, very fragrant. Color, clear imperial pink, deepening as it opens to glowing pink.

Climbing Roses

Same prices as other roses.

Bridesmaid

Much the same as the bush Bridesmaid. A good, vigorous climber.

Caroline Testout

Vigorous climber, producing abundance of large, cup-shaped blooms of most beautiful delicate pink color. No collection is complete without this variety.

Crimson Rambler

The original of the group; dwarf, bushy, profusely blooming; its compact clusters of bright crimson, flowers continuously.

Marcehal Niel

The grand old southern favorite with a fragrance equaled by none. Full, double, golden yellow blooms produced abundantly all seasons of the year. Positively every home should have one or more of these grand climbers shedding their perfume at their door. More calls for these than for all other climbers combined.

Maman Cochet, Yellow

Same characteristics as pink except in color.

Maman Cochet, Pink

The growth is free and vigorous, very free blooming; flowers of splendid substance, are a delightful shade of deep pink. The buds, long and pointed, full and firm, lasting a long time when cut.

Maman Cochet, White

Of same sturdy habits, size of bloom and delicate fragrance as the Pink Cochet and of such a pearly white and such exquisite shading of most delicate pink that it is easily ranked as one of the few best roses.

Meteor

An old favorite; velvety crimson; large, well formed bud and flower; vigorous grower.

Crimson Rambler

Shasta Daisy

Flower Seeds

Carnations, Marguerite

This beautiful new race flowers four months after sowing the seed. Its profusion of bloom, variety of colors and delicious perfume will insure its popularity in all gardens where cut flowers are in demand. Pkt., 20c.

Carnation, Finest German

Mixed colors; saved from extra fine, double named flowers. Pkt., 20c.

Balsam

Brilliant colored flowers produced in gorgeous masses; easy to grow and an old garden favorite, lady's slipper; rose flowering. Pkt., 15c.

Burning Bush

Called summer cypress; we consider this one of the most ornamental border or hedge plants that has ever been brought out. Pkt., 20c.

Castor Oil Bean

Blood red stalks and clusters of red fruits. Pkt., 10c.

Chrysanthemums

Mixed annuals; varieties our summer flowering sorts of brilliant colors. Pkt., 15c.

Cannas

Cannas are famous for their luxuriant growth and immense gladioli-like flowers of most brilliant colors. Pkt., 15c.

Daisy, Shasta

This is a great improvement upon the old fashioned daisy, being about 2 or 3 inches in diameter. Pkt., 20c.

Four O'Clocks

Marvel of Peru; handsome free flowering half hardy perennial; blooms the first season from seed. Pkt., 10c.

Sweet Peas

We carry a select line of the more popular sweet pea seeds; plant from November 1st to February 28th. Pkt., 15c.

Hollyhocks

Few hardy plants combine as many good qualities or lend themselves as readily to varied uses as hollyhocks. Pkt., 10c.

Kochia

Mexican Fire Bush; pretty ornamental plant with fine feathery foliage; light green, turning to blood red in autumn. Pkt., 20c.

Nasturtiums

Few flowers impart such rich bits of beauty through the garden as the different types of nasturtiums. We can supply all popular varieties. Pkt., 15c, postpaid.

Nasturtiums

Larkspur

Larkspur

Dwarf German Rocket—Finest double mixed. Pkt., 15c.

Double Stock Flowering—Tall branching variety with beautiful long spikes of flowers. Pkt., 15c.

Marigold

Large Africa, tall double; orange, brown and yellow mixed. Pkt., 15c.

Geraniums

All leading varieties can be supplied; plants grow from 12 to 24 inches high and give a mass of flowers the year round if protected from freezing. Pkt., 25c.

Pansies

Pansy seed should be planted from October 5th to February 1st. We offer as fine a quality as can be had. Pkt., 20c.

King Rufus—Fine bright red.

President Wilson—Large size, beautiful blue shade gradually deepening to a purple; finest of its color.

Snow Queen—Handsome pure white flowers.

Faust—Rich, deep black.

King of Yellows—Clear yellow flowers.

Finest Mixed — Different shades and colors.

Verbena

Most popular flower of the yard, low growing, spreading form; plants are hardy and will stand winters in Texas. Pkt., 15c.

Petunias

Giants of California, this is the largest strain ever sent out; large, beautiful, fluffy blossoms are handsomely crimped, fringed and ruffled and come in white rows, velvety crimson-black, etc. Pkt., 15c.

Phlox

For a splendid mass of colors and a constant display, this is not excelled by any other annual; mixed. Pkt., 15c.

Poppies

Cannation-flowered; double annual sorts, splendid double fringed flowers; mixed colors. Pkt., 15c.

Zinnias

Plants are of extremely robust habit, attaining height of about 3 feet, mostly very double flowers of large size; under favorable conditions remain in bloom until late autumn. Pkt., 15c.

Morning Glory

Tender annuals of rapid growth, beautiful and varied flowers. Pkt., 10c.

Balsam Apple

Vigorous climbing vine with ornamental foliage; fruit golden yellow, when ripe opens showing the seeds. Pkt., 10c.

Cypress Vines

One of the most popular vines with very delicate fern-like foliage and masses of beautiful small star-shaped flowers. Pkt., 10c.

Any variety of flower seed not listed in the foregoing list can be supplied or we will refund your money. Send 15c per packet for each.

Morning Glory

VEGETABLE SEEDS

Beans—Bush Wax Podded

Improved Golden Wax

Rust proof, pods rather flat, nearly straight, fleshy and of good quality; very productive and early. Pkt., 10c; $\frac{1}{2}$ lb., 40c; 1 lb., 75c.

Dwarf German Black Wax

Well known standard sort, round yellow pods; early. Pkt., 10c; $\frac{1}{2}$ lb., 40c; 1 lb., 75c.

Wardwell's Kidney

Grown mostly for marketing, very prolific, long, straight, flat pods of golden yellow. Pkt., 10c; $\frac{1}{2}$ lb., 40c; 1 lb., 75c.

Beans—Bush Green Pods

Extra Early Red Valentine

Vines erect with large green leaves, pods 4 to 5 inches long and very fleshy, crisp and tender; disease resister and thrives on any kind of soil; good market variety. Pkt., 10c; $\frac{1}{2}$ lb., 40c; 1 lb., 75c.

Giant Stringless

Pods are long, round and green in color; very hardy; bears early and bountiful; slight frost will not damage. Pkt., 10c; $\frac{1}{2}$ lb., 40c; 1 lb., 75c.

Burpee's Stringless

Pods are green, rather flat and slightly curved; stringless and early maturing; fine for home gardens. Pkt., 10c; $\frac{1}{2}$ lb., 30c; 1 lb., 50c; 2 lbs., 90c.

Tennessee Green Pod

Very hardy and a good bearer; pods are large, flat and irregular in shape; dark green and of exceptionally fine flavor; seed

medium size, oval and flat. Pkt., 10c; $\frac{1}{2}$ lb., 40c; 1 lb., 75c.

Longfellow

Pods round, slightly curved; stringless when young; of good quality, vigorous in growth; 5 to 6 inches long. Pkt., 10c; $\frac{1}{2}$ lb., 40c; 1 lb., 75c.

Improved Longfellow

Kentucky Wonder Beans

Refuge, or Thousand to One

Later than other green podded varieties; good bearer, pods nearly round and pale green, quite fleshy and have light strings, 5 inches long, brittle. Pkt., 10c; $\frac{1}{2}$ lb., 40c; 1 lb., 75c.

Beans—Pole or Climbing

Kentucky Wonder

Most popular of all pole beans, almost a continuous bearer; pods are green and 6 to 9 inches long, very tender, nearly round, fleshy and have an excellent flavor; an early and most prolific variety. Pkt., 10c; $\frac{1}{2}$ lb., 40c; 1 lb., 75c.

Beets

Early Blood Red

Skin and flesh are deep red, very sweet and tender; of fine grain, one of the very early beets. Pkt., 10c; oz., 30c; $\frac{1}{4}$ lb., 55c.

Detroit Dark Red

Dark red in color throughout the beet, smooth and handsome; medium early, globe shaped beet of excellent quality. Pkt., 10c; oz., 30c; $\frac{1}{4}$ lb., 50c; 1 lb., \$1.50.

Carrots

Danver's Half Long

Roots are smooth, of medium length tapering to a blunt point; deep orange in color; flesh tender and of good quality; very productive and will grow in all kinds of soil. Pkt., 10c; oz., 20c; $\frac{1}{4}$ lb., 45c; 1 lb., \$1.20

Oxheart

Flesh is bright orange, fine grained and sweet; best for hard, stiff soils; roots 4 to 5 inches long and very thick. Pkt., 10c; oz., 20c; $\frac{1}{4}$ lb., 45c; 1 lb., \$1.00.

Cabbage

Early Jersey Wakefield

Medium in size, pyramidal in shape with pointed peak; considered the best earliest marketable cabbage; has fine heading qualities and winters in cold frames. Pkt., 10c; oz., 30c; $\frac{1}{4}$ lb., 90c; 1 lb., \$3.00.

Early Flat Dutch

Heads are flat and very solid; an early cabbage of good size, excellent for marketing. Pkt., 10c; oz., 30c; $\frac{1}{4}$ lb., 90c; 1 lb., \$3.00.

Early Flat Dutch Cabbage

Danish Ball Head

Head is round, of medium size and a good keeper; medium to late variety; mostly used as winter cabbage. Pkt., 10c; oz., 30c; ¼ lb., 90c; 1 lb., 3.00.

All-Seasons

Heads large, nearly round; a good second early cabbage, fine for dry seasons. Pkt., 10c; oz., 35c; ¼ lb., \$1.00; 1 lb., 3.50.

Succession

Heads are very even and round; has excellent keeping qualities. Pkt., 10c; ½ oz., 20c; oz., 35c; ¼ lb., \$1.00.

Copenhagen Market

Heads are round, large and solid; largest early round headed variety and a favorite for growers to market early. Pkt., 10c; ½ oz., 25c; oz., 45c; ¼ lb., \$1.35.

Denmark Early Jersey Wakefield

A remarkable sure header of good quality and very early, one of the most profitable sort. Pkt., 10c; ½ oz., 20c; oz., 30c; ¼ lb., 90c; 1 lb., \$3.00.

Any variety not listed takes price of Denmark Early Jersey Wakefield.

Collards**Georgia Southern**

This is the well known Southern variety and needs no description. Freezing rather improves their quality. Pkt., 10c; oz., 20c; 1 lb., \$1.00.

Early Select Snowball Cauliflower

Cucumbers**Improved White Spine**

Vines vigorous, fruiting early and abundantly; fruit uniformly straight and handsome, dark green with white spines; flesh tender and of excellent flavor; for table or pickling. Pkt., 10c; oz., 20c; ¼ lb., 45c; 1 lb., \$1.50.

Improved Long Green

This is a popular and reliable variety for pickles; long and crisp. Pkt., 10c; oz., 20c; ¼ lb., 45c; 1 lb., \$1.35.

New Everbearing

The most prolific variety known; very early and enormous producer; fruit is medium size and rich dark green in color; excellent for pickling or slicing. Pkt., 10c; oz., 25c; ¼ lb., 40c; 1 lb., \$1.00.

Gherkin or Burr

Oval shaped, prickly; for pickling only. Pkt., 10c; oz., 25c; ¼ lb., 40c; 1 lb., \$1.00.

Cauliflower**Select Early Snowball**

An extremely early dwarf variety producing magnificent white heads of fine quality; well adapted to hotbed or open ground culture. Pkt., 20c; ¼ lb., \$3.00.

Country Gentleman

Sweet Corn

Early Adams

Stalks vigorous and grow about 6 feet high, ears about 8 inches long with 12 to 14 rows; planted by gardeners for early market. Pkt., 10c; extra large pkt., 20c.

Golden Bantan

Very early and hardy, vigorous growth; each stalk grows to about 4 feet high and bears two or three good ears 5 to 6 inches long of handsome golden yellow corn. Pkt., 10c; extra large pkt., 20c.

Country Gentleman

Kernels are placed irregularly on cob, medium sized ear; quality fine, excellent for home use and popular in many markets. Pkt., 10c; extra large pkt., 20c.

Iceberg

Pop Corn

White Rice

Short ears, kernels long and pointed, white in color; splendid popping variety and finds ready sale on any market. Pkt., 10c; extra large pkt., 20c.

Kohl-Rabi

Early White Vienna

Best variety for table but should be used when young; glossy white, small, early, firm. Pkt., 10c.

Lettuce

Big Boston

Leaves are very tender, making it the most popular variety; color light green; excellent results either under grass or in the open. Pkt., 10c; oz., 20c; $\frac{1}{4}$ lb., 45c; 1 lb., \$1.50.

May King

This variety is not easily affected by cold or wet weather, grows very quickly and produces splendid heads very early in the spring even in poor soil. Pkt., 10c; oz., 20c; $\frac{1}{4}$ lb., 45c.

Black Seeded

A strain of large, smooth leaved head lettuce forming solid cabbage like heads of thick, brittle leaves, inner ones very white, tender and fine flavored. Pkt., 10c; oz., 20c; $\frac{1}{4}$ lb., 45c.

Iceberg

Large, curly leaves of bright light green, heads unusually solid, thoroughly blanches, quality is very good. Pkt., 10c; oz., 20c; $\frac{1}{4}$ lb., 45c.

Grand Rapids

Rapid upright growth, large, compact bunch of leaves light green in color, fringed edge; a good lettuce to sow outside for home use. Pkt., 10c; oz., 20c; $\frac{1}{4}$ lb., 45c.

Parsnips

Sugar or Hollow Crown

A very large yielder of the finest quality; a standard sort. Pkt., 10c.

Parsley

Dark Moss Curled

Very popular English variety, curled, much lighter than single. Pkt., 10c; oz., 25c.

Plain Parsley

Dark green leaves, excellent for seasoning. Pkt., 5c; oz., 20c; 1 lb., \$1.15.

Okra

Dwarf Green Pod

Smooth pods, early and very productive. Pkt., 10c; ½ lb., 25c; 1 lb., 65c.

Perkins' Long Pod

Long, slender pods, light color; very tender and edible for some time. Pkt., 10c; ½ lb., 80c; 1 lb., \$1.00.

Alaska Pea

Black Beauty Eggplant

Kale or Borecole

Dwarf Green Curled

Splendid curled leaves with excellent flavor, very hardy, small; a popular variety. Pkt., 10c.

Egg Plant

Black Beauty

Early bearer and heavy yielder; popular variety for the market; rich purple black. Pkt., 20c; ½ oz., 40c; oz., 60c.

New York Improved Spineless

Fruit is large, entirely free from thorns or spines; of a very good purple color. Pkt., 20c; ½ oz., 40c.

Peas

Alaska

The early blue pea, uniform in growth; pods of perfect shape, well-filled with smooth peas or unrivaled quality. Pkt., 10c; ½ lb., 30c; 1 lb., 40c.

American Wonder

Grows from 9 to 12 inches high and produces fine flavored pods well filled; an early wrinkled pea. Pkt., 10c; ½ lb., 30c; 1 lb., 50c.

Gradus

Quality and flavor are delicious, remain tender and sweet long time after picked; grows vigorous and healthy; extremely early and very productive. Pkt., 10c; ½ lb., 30c; 1 lb., 50c.

Laxtonian

Large-podded dwarf variety, earlier than Gradus; pods and vines dark green, straight and pointed. Pkt., 10c; ½ lb., 30c; 1 lb., 50c.

A Field of Kentucky Pumpkins.

Mustard

Southern Giant Curled

Most popular mustard of the South; best for greens. Pkt., 10c; oz., 20c; 1 lb., \$1.50.

Large Smooth Leaved

Mild flavor, remains fit for table use long time; has large, fleshy leaf; very popular in the South. Pkt., 10c; oz., 20c; 1 lb., \$1.50.

Onions

Large Red Wethersfield

Moderately fine grained and strongly flavored; large in size, deep purplish-red, flesh purplish-white. Pkt., 10c.

Mammoth Silver King

Flesh white, skin silvery white, mild, sweet flavor; matures early; large size, flat but thick; large white Italian variety. Pkt., 10c.

Prizetaker

They bottom well and are free from stiff necks, very productive; outside skin is rich yellow color, flesh white, sweet and tender; very large, hardy and a fairly good keeper. Pkt., 10c.

Southport White Globe

An enormous yielder, very attractive; flesh is remarkably firm and solid, pure white in color and of very mild flavor; an excellent keeper. Pkt., 10c.

Write for prices on larger quantities.

Onion Sets

Onion sets, per 1,000, \$2.50.

Salsify

Mammoth Sandwich Island

Pure white, tender and good quality; large and smooth. Pkt., 10c.

Pumpkins

Kentucky Field

Flesh yellow, tender and good quality; very productive and excellent for stock feeding; large, round, slightly ribbed soft shell, salmon colored. Pkt., 10c; oz., 20c; 1/4 lb., 50c.

Striped Cushaw

Crook neck, excellent table variety, good size and productive. Pkt., 10c; oz., 20c; 1/4 lb., 50c.

Tennessee Sweet Potato

Medium size, flesh thick, skin creamy white, fine grained, sweet and delicious. Pkt., 10c; oz., 20c; 1/4 lb., 50c.

Peppers

Ruby King

Flesh thick, sweet and mild; plants grow 2 feet high and bear fine crop of large, handsome fruit of deep scarlet; ripens earlier than any other variety. Pkt., 10c; oz., 50c.

New Chinese Giant

Very productive, extra large, extremely attractive and a mild flavor; sweet as an apple; excellent for gardeners. Pkt., 10c; oz., 50c.

Cayenne

Very hot, long and slim; good for seasoning. Pkt., 10c; oz., 50c.

Mixed Peppers

A mixture which you will find very desirable for pickling, relishes, etc. Pkt., 10c; oz., 50c.

Hot Peppers

Tabasco Peppers

Tabasco Peppers—Pkt., 10c; oz., 50c.

Long Red Cayenne

Long Red Cayenne—Pkt., 10c; oz., 50c.

Ponderosa

Radishes

Early Scarlet Turnip

Turnip shape, bright scarlet with white tip; quick growing, flesh firm and crisp, small tops; early planting sort. Pkt., 10c; oz., 20c; 1 lb., \$1.00.

White Icicle

Extremely early, produces beautiful, long, white roots; pure white skin flesh. Pkt., 10c; oz., 20c; 1 lb., \$1.00.

French Breakfast

Bright red with white tips; olive shape, crisp and tender; quick grower and very popular variety. Pkt., 10c; oz., 20c; 1 lb., \$1.00.

Squash

Early White Bush

Tender and of good flavor; fine quality and early producer; uniform in growth and very prolific. Pkt., 10c; oz., 25c; 1 lb., \$1.25.

Yellow Summer Crook Neck

Bright orange color, small, rich and buttery; favored in home gardens. Pkt., 10c; oz., 20c; 1 lb., \$1.30.

Hubbard

Uniform good quality, fine grained flesh with nutty flavor, good winter variety and keeping qualities. Pkt., 10c; oz., 20c; 1 lb., \$1.60.

Spinach

Bloomsdale

Produces very large crop and is very hardy, tender shoots of good quality. Pkt., 10c; oz., 15c; ¼ lb., 35c; 1 lb., 90c.

Tomatoes

Dwarf Stone

Bright scarlet, very smooth, firm and solid, meaty center with no core; quality is of the finest; largest fruiting dwarf tomato. Pkt., 10c; ½ oz., 30c; ¼ lb., \$1.25; 1 lb., \$4.00.

Sparks' Earliana

Earliest smooth red tomato, its solidity and fine quality are equal to later sorts; uniform shape, attractive red color and good producer. Pkt., 10c; ½ oz., 30c; oz., 60c; 1 lb., \$5.80.

Ponderosa

Somewhat irregular in shape, but good for scisin or cooking; fruit is purplish-pink color, very solid and ripens early. Pkt., 10c; ½ oz., 25c; ¼ lb., \$1.25; 1 lb., \$4.00.

June Pink Tomato

Early, similar to Earliana but pink in color; tough skin, heavy yielder and a good shipper. Pkt., 10c; ½ oz., 25c; ¼ lb., \$1.25; 1 lb., \$4.00.

Purple Top, White Globe

Turnips

Early White Flat Dutch

Flat with very small root, flesh and skin pure white, fine grained and sweet; medium size and a quick grower. Pkt., 10c; oz., 15c; 1 lb., 75c.

Red or Purple Top

Round and flat, white bottom and red-dish-purple top; quick grower, fine table variety. Pkt., 10c; oz., 15c; 1 lb., 75c.

Purple Top White Globe

Early bearer and a good keeper; fine for table; bulb is white globe and sweet. Pkt., 10c; oz., 15c; 1 lb., 75c.

Tobacco

Connecticut Seed Leaf

Used for wrappers and home use. Pkt., 10c; larger quantity, 20c.

Havanna

Finest strain of imported seed. Pkt., 10c; larger quantity, 20c.

ROWDEN COTTON

To Whom It May Concern:

I have been ginning Rowden Cotton ever since it was originated by W. O. Rowden, and can say that I never ginned any cotton that comes as near giving satisfaction to the grower, the picker, the seller and the buyer as the Rowden Cotton does. Will say, further, that I know Rowden Bros. to be very careful in raising and ginning their cotton, having ginned their cotton for the last ten years.

O. L. JOHNSON.

Reduce Your Acreage and Plant Rowden Cotton

WE are proud to say, after a test of the Rowden Cotton of twenty-one years, that it stands today without a successful competitor. There are other kinds of good cotton, but to take in all points the Rowden stands without a peer. Its yield per acre, its per cent of lint, its large, stormproof boll and its easy-picking qualities, make it a favorite with both producer and picker. For the past twelve years the Rowden Cotton has been undergoing a culling and breeding up according to the government plans by Dr. Knapp—that is, by going into the seed patch and selecting the best five-lock bolls from the best developed short-jointed stalks. This is done each year, and this makes the foundation of the crop for the next year.

Some Reasons Why You Should Plant Rowden Cotton:

- Because of its rapid growth and boll weevil resistance;
- Because of its strong tap root therefore a good drought resistant; it proves best for the west and high altitude.
- Because of its fast growth, early fruiting and wonderful root system it is best for East Texas and all upper lands where it produces a wonderful silky staple 1 to 1½ inches long.
- Plant it on black land because it was the cotton that "Daddy" came back to after several trials of other varieties and one you will come to sooner or later. Why not now?

Get the the Genuine Rowden Seed with a Rowden tag and endorsement in each sack from—
