GILL'S DAHLIA GARDEN
WE AIM TRUE TO NAME

CLEAN HANDS

Some may wish for happiness,
Some may wish for wealth,
Some may wish for greatness,
Some may wish for health.
Some may wish to travel
Afar in foreign lands,
But all I ask of providence
Is the blessing of clean hands.

Hands that never wronged a brother,
Never dealt a crooked game
Nor harmed one of God's little ones
Or turned a page in the book of shame.
Hands that never faltered, when the
helpless needed aid.
Hands as white as those of marble
(By a sculptor) newly made.

When the twilight shadows linger
Across the sunset wall;
When I feel life's cable slipping,
And I hear the bugle call.
When my bark of life is drifting
Out across the silvery sands,
All I ask to bear me escort,
Is the memory of clean hands.

—Harriet M. Gill.

Dear Friends and Patrons:

We take this means to thank our many customers who favored us with their orders last season, and trust the bulbs, etc., we sent out gave perfect satisfaction.—

We do not aim to have the largest collection of varieties, but intend to discard each year all varieties that do not come up to standard, keeping only the best. We have, this year, some of the finest dahlia tubers we have ever grown, but in some varieties our stock is limited.

Order Early. All orders are filled in rotation with field grown roots, only. By ordering early you will insure getting all the varieties you desire. All orders received before April 1st we will allow you to select 10% of your order in extra bulbs.

Varities marked with * are ones we have our largest stock of, and we suggest that you order them whenever the varieties and classes suit.

Time of Shipment. Unless requested, we will not send out dahlias before April 1st. We will not guarantee dahlias to grow that we send out before then, as they are liable to dry out before planted.

Substitutions. If we should be sold out of the variety you order we will send as near as possible to the same unless you say not to.

We Aim True to Name, but the best of shots sometimes miss. Any of our bulbs that fail to grow or do not come true to name we will cheerfully replace the following year, or if not too late, the same year.

Remittances should accompany all orders. Money orders, checks, or under \$1.00 we will accept stamps.

Be Sure to write your name and address plainly.

Visitors are always welcome at our gardens and we are always pleased to show you through our show gardens in blooming season.

Postage. We prepay all bulbs, plants, etc., at the prices quoted.

Address all orders, and make all money orders payable to

PANSY PLANTS

MASTODON—Mammoth blooms of all shades and colors. We saved the seed from only the largest and best colored flowers and do not think that you can beat our Pansies anywhere. Small plants 35c a dozen. Blooming plants, per dozen 60c.

TUFTED—These are hardy pansies, with small flowers, useful for borders. Per dozen 25c.

DAHLIA CULTURE

Dahlias are easily grown and will thrive in any good garden soil. Don't get the ground too rich or they will make too rank a growth and not bloom as they should. If the soil is clay, mix in a quantity of sand or ashes.

Drive a stake in each hole to support the plant. Lay tubers nearly flat with the eyes upward next to the stake so that the eye will be about three inches deep when hole is filled.

Cultivate well till buds appear then stop all cultivation except to break the crust after each rain, or sprinkling, with a rake. Unless weather is very dry, do not water till buds appear then soak the ground thoroughly about once a week.

The use of potash in small quantities will make the flowers deeper and brighter in color.

When frosted down in the fall cut off at the ground and dig them. Pack them upside down in boxes and if you can get it, fill the box with dry sand. Put them where they won't freeze but not where there is heat to dry them.

Cannas should be treated the same as dahlias except to make the ground very rich and start them in a hot bed or box inside.

Gladioli will grow anywhere, but should not be shaded too much. Plant them to a depth of three times the diameter of the bulb.

Don't forget to lend a helping hand to the sick or crippled. A little time now and then we will not miss and the thought that they are not forgotten will lighten their load and cheer them on their way.

Don't think because your neighbor is grouchy or unfriendly that he doesn't think you are his friend, but he probably has his debts, sickness and other things to worry him the same as you.

LOVIN'

This world needs a lot of lovin'
To make things seem worth while,
To stop our hearts from grievin'
And to bring a cheerful smile.
To faces, old and weary
From the labor and the strain
Of keeping up the struggle,
Thru sickness, grief and pain.

A little love and sunshine,
Would make some poor heart glad.
Would lighten up the shadow
On some little face now sad.
Or some old mother waitin'
Till God takes her home to rest;
Would feel less keen the longin'
For the son who'd journeyed west.

Somewhere in the world today
Somebody's wanting our love.
Can't we brace up and give full measure,
Of that blessing straight from above?
In every clime and country,
In every home and wayside cot;
May love's altar fires be burning
To brighten someone's dreary lot.
