TO OUR PATRONS

WE ARE sending this, our 1924 catalogue, to all lovers of our favorite flower, THE DAHLIA. We trust in it you will find something of interest.

If in the past season you have received tubers, not true to name, kindly advise us, and we will rectify the mistake.

When we cannot supply a tuber ordered, we shall cancel the order rather than purchase and send out something we are not sure is true. If you care to have us substitute to the best of our ability, kindly advise when ordering.

To avoid disappointment, order early. All orders filled in rotation as received. We begin shipping about April 15th, and finish some time in May, 1924. We will not guarantee any tubers shipped before April 1st to have eyes, but will select, to the best of our ability, strong tubers, that should develop good eyes.

Remittance must accompany order. All retail orders for \$2.00 or over sent prepaid to fourth zone; on orders for less, add 10c for postage and packing.

A NEW GUARANTEE FOR 1924

All Dahlia Roots are guaranteed true to name and free from disease to the extent of replacement with true stock.

Only the best and strongest root divisions are used in filling orders, and the utmost care exercised. But should an error occur, we will gladly rectify it if notified as soon as detected. Most failures in starting roots are due to improper planting or because of attacking insects. No guarantee is given that roots will grow and bloom or will not rot in the ground as that depends largely on soil, climatic conditions and attention. But should a root properly planted fail to start a shoot in three weeks after planting, return it to us by mail and another will be sent at once. No complaints for replacement will be allowed after July 1st.

Remember that the size of the tuber makes no difference, as a small tuber will give as fine flowers as a large, one and in most cases better.

THE FLOWER GROWER, as its name implies, is filled with facts and information on growing flowers. Departments are devoted to the Rose, the Peony, the Iris, the Gladiolus, the Dahlia, and other flowers. It has a Bird department, a Wayside Ramblings department, the Glad Philosopher's Musings, Mrs. Austin's Talks, Sturtevant's Odds and Ends, and EDITORIALS on interesting subjects not always strictly floral.

The chief purpose of **THE FLOWER GROWER** is to present facts and ideas helpful to better and more beautiful living conditions and a better outlook on life. Chiefly floral in its scope and treatment, editorials and articles are printed on current subjects of vital interest to those who are desirous of bettering their relationship with their surroundings; and students of the Great Out-of-Doors will find **THE FLOWER GROWER** filling a heretofore unfilled niche in their reading.

THE FLOWER GROWER is easily the foremost floral publication in the world.

Your reading of twelve issues of **THE FLOWER GROWER** will convince you that you cannot afford to be without it, and I will surely have you as a permanent reader.
