TO GLAD LOVERS

No attempt to issue a full grown catalogue is made this year. This is a price-list including 60 of the very best XXXX Glads which we have tested for at least three years in our trial grounds and which are recognized by Glad growers everywhere as standard XXXX varieties or **The Very Best**. In addition there are 125 varieties, some of which are being tested; many of which are XXX varieties and other well known older varieties of merit.

Our stock on many of the best varieties is limited and we suggest early ordering if "you want what you want when you want it." All of our stock is offered subject to prior sale and is guaranteed true to name. No other guarantee is given, but we will quickly and cheerfully adjust anything if you are dissatisfied and we are in any way at fault. Shipments will be made in April unless ordered earlier. **Prepaid to your home.**

Remit by Money Order, draft or personal check.

COLOR DESCRIPTION

The description gives only the main colors. Ridgway's Color Nomenclature has been used in all but a few varieties; with these varieties the originator's description is given. **A Star** in front of a name means a XXXX variety. We have tested in our own gardens nearly 1000 named varieties and so far have found less than 100 worthy of the highest mark—XXXX. If you are a lover of Glads you cannot go wrong on a XXXX variety.

CORRESPONDENCE SOLICITED

We have quite a large list of varieties of which we have small quantities only which are not listed here. We also are familiar with practically all of the varieties now on the market. We are glad to give information or answer questions of any kind regarding Glads.

JANUARY, 1924

Our Number	Name and Description	Price Each	Doz.	Hund.
★6	Adeline Kent Delicate rose pink	.50	5.00

43	Yellow Favorite Deep Colonial buff	1.00		

SPECIAL COLLECTION OF XXX NAMED VARIETIES

There are over 3000 named varieties of Glads on the market.

We have tested in our own trial grounds about 1000 of the best. From these tests we have found less than 100 which measure up in every way to the XXXX standard. All the others belong in the X—XX—XXX class. We have taken a large number of the XXX varieties and have added XXXX varieties that have been accidentally mixed, making we believe the very best collection of named varieties ever offered Glad lovers. When blooming you will be able to name many of these from catalogue descriptions.

In this collection are quite a number of varieties which are selling this year in single bulbs for that which you pay for a dozen. We will back to the limit this collection as being the best mixed variety ever offered.

Per dozen, \$1.50. Per hundred, \$12.00.

PRIMULINUS HYBRID MIXTURE

The Primulinus variety is decidedly different from the commonly know Glad. The spike is more slender, the bloom is more or less hooded and placed farther apart on the spike. The colors are mostly of pink, yellow and orange shades, blending into the most exquisite harmonies. For artistic decoration in the house, they are unexcelled.

This collection growing in our garden the past season got the unqualified approval of every visitor. There are many named varieties in this collection and we are confident there is nothing better on the market in a Primulinus mixture.

Dozen, 60 cents. Per hundred \$4.00. Per thousand, \$35.00

AMATURE MIXTURE

This mixture also consists of named varieties and Kunderds Ideal Mixture also Dieners Hybrids and of the whole there is about 40% Americas. If you want a good mixture for cut flowers we have it here at a price that is right.

Dozen, 50 cents. Hundred, \$3.00. Thousand, \$25.00.
