Sunbeam, Crimson scarlet -----	.25
Fascination, Pink -----	.25
Darkest of all, Maroon -----	.25

Planting Instructions—Plant from May 20th to June 10th. When plants are about six inches high, pick out the center. This will cause them to branch and not grow so tall. Cultivate them about once every two weeks and water them several times a week. Allow one bud to every twelve inches of growth on branches.

The following abbreviations mean: Cac., Cactus; Dec., Decorative; Peo., Peony; H. C., Hybrid Cactus and S., Show.
