PART II. ENVIRONMENTAL REVIEW (Continued)

1. Description and analysis of reasonable alternatives (including the no action alternative) to the proposed action whenever alternatives are reasonably available and prudent to consider and a discussion of how the alternatives would be implemented:

Alternative 1: Not issue a game bird permit.

Alternative 2: Issue Permit

The applicant is currently raising pigeons. The addition of some more bird pens and some game birds will have no effect on the overall environment. There are very few upland game birds in this vicinity. The construction of new bird pens will start when the applicant receives the okay for the Game Bird Farm License.

2. Evaluation and listing of mitigation, stipulation, or other control measures enforceable by the agency or another government agency:

None are applicable for this EA and Game Bird Farm License application.

3. Based on the significance criteria evaluated in this EA, is an EIS required? NO If an EIS is not required, explain why the EA is the appropriate level of analysis for this proposed action:

No impacts occur.

4. Describe the level of public involvement for this project, if any, and , given the complexity and the seriousness of the environmental issues associated with the proposed action, is the level of public involvement appropriate under the circumstances?

A 15-day public comment period is appropriate for this proposed action.

5. Duration of comment period, if any: Fifteen days.

6. Name, title, address, and phone number of the person(s) responsible for preparing the EA:
