RETAIL PRICE LIST

THE UNITED STATES NURSERY COMPANY

ROSEACRES, :-: MISSISSIPPI

THE plants which we list have been grown by us for a period of years so as to test them thoroughly before offering for sale, and we believe that any plant which will stand the test of our extremes of heat and cold, rain and drouth, here at Roseacres, will succeed anywhere from the Ohio to the Gulf.

LANDSCAPE DEPARTMENT

WE grow particularly for landscape planting and appreciate what this means. A plant for landscape must be good to look at, and if it is not good to look at it matters very little how large it is. Its value is in its appearance.

We invite correspondence and consultation concerning landscape plans, planting lists and work. We do everything from the original survey to the finished planting.

SPECIMEN PLANTS

WE have a great many specimen plants which are not listed, but which are indispensable for immediate effect in fine landscape work.

A visit to our nursery will convince prospective buyers that the special prices upon these plants are reasonable.

Cyperus Papyrus, Egyptian Paper Plant—Stalks triangular, attaining a height of 5 to 8 feet. At the top a tuft of long thread-like leaves form, which gives a very graceful, airy effect. They succeed best in shallow water and rich soil, but will do well in ground kept always moist. Especially good for pools and fountains.

Each ----- \$.50 to \$2.50

IN SELECTING PLANTS for your home you are not planting for today, but possibly for a lifetime.

The beauty of your home grounds is not only a source of pride and satisfaction to you, but it is the strongest declaration of your civic pride and interest in the general welfare. Cleanliness and beauty are the infallible standards of civilization.

HAVE A PLAN assuring harmony of composition for your home grounds. Order is heavens first law. God planted the first garden: He didn't leave it to Adam's artistic temperament---nor Eve's.

LARGE ORDERS

When conditions justify, we are glad to quote special prices on car lots.
